Local and Nonprofit Assistance Program Review
Stakeholder Outreach

Since 1961, the Green Acres Program has been preserving land and creating parks throughout New Jersey. One of the reasons for its longevity and success is that Green Acres continues to evolve in the face of changing public needs and environmental priorities, all while staying true to its mission of providing recreation and conservation opportunities for all residents.

In advance of our next funding round, Green Acres has identified ways to better meet the DEP’s goals and improve the administration of funding for land acquisition, park development, and stewardship projects. We reviewed the Local and Nonprofit Assistance program’s applications, eligibility requirements, funding priorities, and project administration processes, and identified ways to better serve the public and our funding partners.

As part of this effort, we would like to hear from you, our partners. We invite you to attend one of our two virtual outreach meetings where we will present our planned changes and get your feedback. If you would like to provide us with thoughts or recommendations for program improvements in advance of the meeting, please email us at GreenAcres@dep.nj.gov. We welcome your ideas about how we can better meet our shared recreation and conservation goals.
