Dear Ms. Tamagno,

On January 21, 2020, Transcontinental Gas Pipe Line Company, LLC (Transco) submitted new permit applications to the New Jersey Department of Environmental Protection (NJDEP or Department), Division of Land Use Regulation (DLUR), including applications for a Freshwater Wetlands Individual Permit, a Flood Hazard Area Individual Permit, and a Waterfront Development and Wetlands Act of 1970 Individual Permit. On February 7, 2020, the NJDEP DLUR informed Transco that its applications were considered complete for review. This established May 6, 2020, as the Department's 90-day deadline for making a decision on these applications. Pursuant to N.J.A.C. 7:7A-19.7(c); N.J.A.C. 7:13-21.3(b); and N.J.A.C. 7:7-26.6(e), Transco hereby requests an extension of this May 6, 2020 deadline by up to 30 calendar days. If the Department consents to the extension, then the deadline by which the Department must make a permitting decision would be June 5, 2020.

Joslin C. Tamagno, Environmental Supervisor
