

GEOLOGICAL SURVEY OF NEW JERSEY

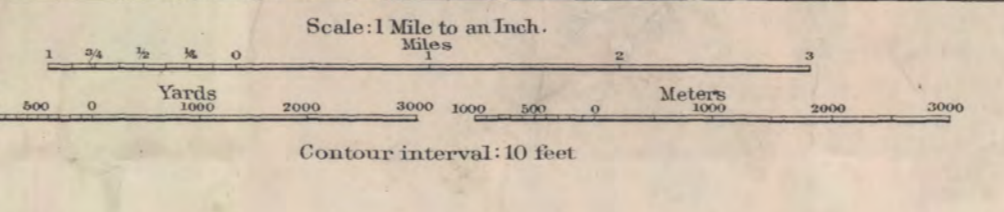

HENRY B. KÜMMELE, State Geologist C. C. VERMEULE, Topographer

ATLAS SHEET NO. 29

ORIGINAL SURVEY 1884
RESURVEYED AND REENGRAVED 1909 EDITION OF 1910

NOTE: The contour lines are level lines drawn on the earth's surface. All points through which they pass are at the same level and their height above mean sea level is shown by the figures on the line. The rise or fall from any one point to the next is shown by the figures on the line. Figures cut on any line show the actual elevation of the surface at a point indicated by a small cross. Figures on blue ground indicate the depth of water at mean low tide.

- RAILROAD STATIONS
- DRAW BRIDGE
- COUNTY BOUNDARIES
