BAREROOT SEEDLINGS

### Bareroot seedlings are field grown and lifted out of the ground without soil.

They measure between 5"-18" in height, single stem unless it is a shrub species.

- Bareroot is sold in bundles of 25 seedlings.
- Orders of bareroot seedlings require a minimal order of 50 seedlings.
- Orders must be picked up at the time date listed with location selected below

TUBE SEEDLINGS

### Tube seedlings are greenhouse grown in the Ray Leach tubes.

These seedlings are sold in tube with soil. They measure between 3"-8" in height, single stem unless it is a shrub species.

- Tube seedlings are sold in boxes of 30 seedlings.
- Orders are shipped or picked up at the nursery.
- Hemlock is in pots not tubes. **PICKUP ONLY AT THE NURSERY IN JACKSON.**
- These are available most of the year.
- We supply a tag for each tube to ID the species for reforestation give a way events.

I certify that the trees will be planted in New Jersey for forestation and/or conservation projects only. I understand and certify that I will not resell or remove any forestation stock, obtained pursuant to this agreement, from the property for ornamental use as living trees, or for use as Christmas trees. The terms forestation and conservation mean the planting of trees for legitimate conservation/education projects as described in N.J.A.C. 7:3-2.4(a), including lumber and cordwood production, school and youth conservation/education projects, protection of watersheds, soil erosion and screen for windbreaks and aesthetics. I understand that if I violate any condition of sale of this agreement, I am required to reimburse the Department for the value of the tree removed and any administrative costs incurred by the Department because of the breach.

I have read, understand, and agree to be bound by the conditions of sale enumerated in this agreement.
