

Public Nature Interpretive Programs

The Nature Interpretive Center remains closed to the public due to storm damage and while the building may not be accessible, the staff is offering public interpretive programs. This spring and summer we will be out and about in the park and we invite you to join us. We will be offering our guided bird walks and estuary explorations as well as some new programs to help you get better acquainted with all that Liberty State Park has to offer. A full list of our programs for the spring and summer is below. If you would like to register for any of our programs call (201) 915-3402, ext. 109 or email us at lspic@verizon.net and we will be more than happy to help you. We look forward to seeing you soon.
