

RA-09-013  
January 23, 2009

Dr. Jill Lipoti, Ph.D.  
Division of Environmental Safety and Health Director  
P.O. Box 424  
401 East State Street, 3rd floor  
Trenton, NJ 08625-0424

Dear Dr. Lipoti:

In discussions held in the fourth quarter of 2008, Exelon Generation Company, LLC informed the state of New Jersey of its intent to perform inspections of 50 percent of the drywell sand bed bays during the Oyster Creek Nuclear Generating Station refueling outage scheduled for the fall of 2010. Any discrepancies found during that inspection will be evaluated for corrective actions, including the need for expanded inspections. This letter serves as the formal notification of this intent.

If you have any questions or comments regarding this information, please contact me.

Sincerely,

Pamela B. Cowan  
Director – Licensing & Regulatory Affairs  
Exelon Generation Company, LLC
