Discharges of Petroleum and Other Hazardous Substances, N.J.A.C. 7:1E

Notice of Administrative Corrections and Change

Take notice that the Department of Environmental Protection (Department) is making administrative corrections and changes to its rules regarding Discharges of Petroleum and Other Hazardous Substances at N.J.A.C. 7:1E to update mailing addresses, correct cross-references, and to correct errors in the list of hazardous substances. When the rules were readopted in 2007, some paragraphs were deleted and others added, resulting in the recodification of some paragraphs; however, at that time not all cross-references to the recodified paragraphs were updated. These administrative corrections to the rules make those updates. Also, N.J.A.C. 7:1E-1.8(a)2 refers to “…water supply system, as defined at N.J.A.C. 7:10-1.3.” N.J.A.C. 7:10-1.3 defines “water system” not “water supply system”; accordingly, the Department is correcting N.J.A.C. 7:1E-1.8(a)2 to refer to “water system.” N.J.A.C. 7:1E-5.3(e)1 refers in part to “an Emergency Contingency Plan pursuant to N.J.A.C. 7:26-12.” The correct citation for an Emergency Contingency Plan is N.J.A.C. 7:26G-8.1, as reflected in the administrative changes below.

Finally, several entries in the list of hazardous substances in Appendix A contain errors that result in either misspellings or the incorrect Chemical Abstract Service (CAS) Number. These errors are being corrected.

Full text of the changed rule follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):
