Re: Petition for Additional Public Outreach
Ridgewood Ash Landfill / Orchard Elementary School
230 Demarest Street
Ridgewood, NJ 07450
SRP PI# G000008572

Pursuant to N.J.A.C. 7:26C-1.7(o), *Administrative Requirements for the Remediation of Contaminated Sites*, this letter serves as our petition for additional public outreach based on needs expressed by the community for the above referenced remediation site (the "Site") at Orchard Elementary School in Ridgewood, New Jersey.

As required under N.J.A.C. 7:26C-1.7(o)1, there is a substantial public interest in the remediation activities at the Site, as evidenced by the signatures of more than 25 individuals who live or work within 200 feet of the extent of the property boundary, or adults representing children that are current occupants of Site. The required signatures are attached hereto.

As you know, the person responsible for conducting the remediation shall conduct additional public outreach based on the needs expressed by the community. N.J.A.C. 7:26C-1.7(o)1

Based on our review of the documentation provided for the Site, it is our opinion that the party responsible for the remediation (the Ridgewood Board of Education, or the "BOE") needs to conduct additional public outreach to address the following needs:

- (a) The BOE should properly notify occupants of the property (our children, and other, future students), their parents, neighbors of the school, and other individuals that utilize the Orchard Elementary School of the nature and extent of contamination at the Project, and to continue to keep such persons apprised of the conditions at the Property in the future.
- (b) The BOE should give the community the opportunity to review and comment on proposed remedial actions for the Project prior to their submittal, to ensure that consideration is given to the impact of the remedies on future uses of the Site.
- (c) The BOE should establish a publicly available document repository wherein future students and their parents can review information relating to the nature and extent of contamination at the Site.

Accordingly, we hereby request that the NJDEP direct the BOE to immediately initiate additional outreach activities in accordance herewith.

Please direct any questions related to this petition to the following individual:

Joshua Ford
