
Public Meeting Invitation

Wilson Avenue School Remediation Newark, Essex County, New Jersey

Public Meeting Dates: Wednesday, August 18, 2010 & Thursday August 26, 2010
7:00 p.m.
Wilson Avenue School Gymnasium
Newark, New Jersey

Purpose of the Public Meetings:

The Wilson Avenue School is prepared to open for the 2010/2011 school year. The New Jersey Department of Environmental Protection (NJDEP) and the Department of Health and Senior Services will conduct two meetings with the community to present the results of their investigation efforts conducted in and around the school. Attendance at both meetings is not necessary, as the same information will be presented at both meetings.

Important Information:

- Installation of a new sump pump system that includes vapor extraction is complete. Vapors from the ground water beneath the school are being extracted, treated, and safely discharged through a carbon filter unit from the roof of the school.
- Testing conducted throughout the school shows that all levels are below action levels. Another round of sampling will be conducted in the winter to confirm the levels remain below action levels.
- The source of the ground water contamination remains unknown. Additional work will be conducted on the outside of the school to treat the ground water. The existing contamination will be reduced over time with these actions.
- Anyone with questions about the public meetings or the cleanup activities conducted at the school should contact Mindy Mumford, NJDEP community relations coordinator, at (609) 777-1976 or via email at mindy.mumford@dep.state.nj.us.

Se você deseja receber informações sobre as reuniões em Agosto ligue para o deputado Alberto Coutinho, (973) 589-0713. Para maiores informações em Português, ligue para a Dra. Ana Baptista do IronboundCommunity Corporation (973) 589-3353 x213.
