

## Off-site Source Ground Water Investigation Technical Guidance, September 2018

### List of changes from Version 1.0 (April 2016) to Version 1.1 (September 2018)

1. Cover Page: Changed date from April 2016 to September 2018.
2. Cover Page: Changed Version 1.0 to 1.1.
3. Table of Contents: Appendices: removed Appendix A. Alphabetized remaining Appendices accordingly.
4. Section 1.1: updated committee members statuses and titles accordingly.
5. Section 1.2: changed "Remedial Action Outcome" to "Response Action Outcome" in first paragraph.
6. Section 1.2: modified the paragraph that addresses the Commingled Plume Technical Guidance to update the definition of a commingled plume.
7. Section 2.3: added that the Confirmed Discharge Notification form can be completed through the Department's online portal.
8. Section 2.4.1: updated *Administrative Guidance for Licensed Site Remediation Professionals and Subsurface Evaluators when Encountering Contamination that is Suspected to be Unrelated to a Known Discharge Undergoing Remediation* to *Administrative Guidance for Addressing Unknown Off-Site Sources of Contamination*.
9. Section 3.1: removed the reference to Appendix A for the use of Data Miner. Replaced Appendix A with a hyperlink to Data Miner and reference to tutorials within Data Miner.
10. Section 4.1.4: updated link to *Ground Water SI RI RA Technical Guidance*
11. Section 4.4: updated to reflect that Commingled Plume Technical Guidance is available
12. Figure 1: updated to reflect that Commingled Plume Technical Guidance is available
13. Appendix A – Data Miner Tutorial: Removed due to outdated content and frequent changes to the website. See 10 above.

Several editorial changes (punctuation, tense, etc.) were made as needed.
