

Ground Water Remedial Action Permit Guidance Document

List of Significant changes from Version 2.0 (December 2022) to Version 2.1 (February 2023)

1. Section VII.2.g (Page 22)

Changed “Refer to the Department’s VIT Guidance document as it relates to the matter” to “Refer to the Department’s VIT Guidance document as it relates to the VI Long-Term Monitoring Plan. The Change in Use Evaluation Plan (i.e., Sub-Slab Soil Gas Contamination > Residential Soil Gas Screening Levels for Non-Residential Structure) should consist of annual building inspections to ensure the site use has not changed where a VI investigation would be necessary.”
