#### It Pay\$ to Plug In

This semi-annual report documents the progress and implementation for installing electric vehicle supply equipment throughout the State of New Jersey. The first draw down from the Volkswagen Mitigation Trust allocates \$3.2 million to allow DEP to award grants through the It Pay\$ to Plug In – New Jersey’s Electric Vehicle Charging Grant Program. This will allow New Jersey to more than double the number of non-residential charging ports in the state. To date, New Jersey has been able to approve all \$3,209,000 in grant packages, that will allow for 843 ports at 183 locations.

### Summary of Activities

- 21 projects were either canceled, withdrawn, or reassigned to other funding sources. The DEP was able to replace those projects in kind, allowing for 1 more project, and 1 more charging port to be funded with VW monies.
- 4 projects have entered the reimbursement phase during this period.
- Some minor modifications were made to application materials, and the grant award packages. Updated documents are located at <https://www.state.nj.us/dep/vw/>.
- The web site has been updated to reflect funding requests, and the number of project proposals that have been received by NJDEP. Project proposal request forms have also been updated. All documents are located at <https://www.state.nj.us/dep/vw/>.
- The NJDEP used the same outreach materials for this project as we have been using for other It Pay\$ to Plug In funding rounds.
