Interactive Mapping

These interactive mapping applications allow users to utilize GIS functionality over the internet. Visitors can access, display, and interact with GIS data through their web browser.

(Internet Explorer 6.x or higher strongly recommended).

Available Applications (Click on Image below to go to that applications splash page.)	Release Date	Description
	February 2007	UPDATED!! 11 new layers have been added in the February 2007 release.
	April 2006	New layers have been added and many layers updated in the April 2006 release along with some new and enhanced features.
	August 2004	The Highlands Preservation and Planning Area layer has been added to i-MapNJ DEP.
	May 2004	i-MapNJ DEP provides the best and most current versions of NJDEP's Geographic Information System (GIS) environmental data. Updated Category One Waters and Landscape data layers are included in i-MapNJ DEP. For the first time the new 2002 imagery is also presented. This imagery provides the clearest view of ground features yet posted by the State of New Jersey. Take a tour with new tutorials to explore environmental concerns in New Jersey.

Contact Us

Welcome to **i-MapNJ DEP**, one of NJDEP's environmental mapping tools that can provide you with information about your neighborhood, county, or state (NJ). With this easy-to-use application, users can view and query the best of the NJDEP's Geographic Information System (GIS) data. Homeowners can find out what's in their backyard; environmental organizations, planners, realtors, and builders can identify open space, various regulatory boundaries, sensitive lands, watersheds, and much, much more. The i-MapNJ DEP application updates the GIS layers found in the other NJDEP i-MapNJ applications including, i-MapNJ NJEMS. (This application does not provide a link to the NJEMS enterprise NJDEP database. The enhancement of this function is planned for a later release of i-MapNJ.)

February 2007 release: GIS data is accessed in "data layers" in the i-MapNJ DEP application. In the February 2007 release of i-MapNJ DEP, there are over 50 GIS layers. New layers have been added including Land Use 2002, Land Use Change 1995-2002, NJEMS Sites, and Wetlands 2002.

Although the application is very user friendly, you might want to first review the [Tutorials](#) before diving in. Then take it for a test drive and see for yourself how much environmental information you can access. Remember, to use the **i-MapNJ DEP** application you need only open your browser, connect to the internet, go to the [DEP-BGIS webpage](#), click on Interactive Mapping and then click on i-MapNJ DEP to launch the application.

NJDEP offers training classes in i-MapNJ for the public. View our [Training Page](#) for upcoming session information.

i-MapNJ DEP Training (updated February 2007) Available for the Public!

The New Jersey Department of Environmental Protection's Bureau of Geographic Information Systems is offering a no-cost training opportunity for the general public. Each class will include instruction on the use of DEP's updated internet mapping application - **i-MapNJ DEP** and will touch on the department's informational reporting tool - **DEP Data Miner**.

i-MapNJ DEP is the DEP's newest internet mapping application, giving users the ability to explore the Department's most current GIS layers (including Land Use 2002, NJEMS Sites, and Wetlands 2002 - see [February 2007](#) release). Create your own maps with this quick, easy to use, informative application. A review of the [DEP Data Miner](#) will also be included to show how to link the results of your geographic analysis with real-time environmental data in a searchable format.

Upcoming classes (held from **9:00am - 12:00pm**):

May 17, 2007

The classes take place at:

NJDEP
401 East State Street
1st floor, East Wing
GIS Training Room
Trenton, NJ 08625

To explore the Department's array of interactive mapping applications visit the [Interactive Mapping Applications page](#).

If you wish to attend a class **contact Seth Hackman at (609) 633-1262 to register**. If you have further questions send a message to gisnet@dep.state.nj.us.
