

NEW JERSEY WELL DRILLER AND PUMP INSTALLER CONTINUING EDUCATION PROGRAM INSTRUCTIONS

Course List Instructions:

This List of Approved Courses for New Jersey Licensed Well Drillers and Pump Installers, otherwise known as the Course List, is broken down into four main sections: [in-person courses](#), [online courses](#), [OSHA courses/courses with multiple providers](#), and [industry seminars/conventions](#). Courses which do not appear on this list have either not been reviewed or have been denied by the New Jersey State Well Drillers and Pump Installers Examining and Advisory Board (Board). You must follow the instructions on the [Course Provider Application](#) and go through the approval process for courses which have not already been reviewed by the Board.

If you do not see a link to register for the course or dates when the course will be available, then the Course Provider has not provided the Department with that information. Questions regarding registration, scheduling, or pricing should be directed to the Course Provider.

Courses rows which are highlighted in gray do not have any upcoming dates which the Course Provider has provided to the Department.

Courses which indicate that **MAX POINTS** are given in the Continuing Education Point Category column means that the course meets or exceeds the maximum number of CEPs for that category. For example, you will only receive a maximum of 11 Safety CEPs for taking the 30-Hour OSHA Construction course. This 30-hour course will only grant you with 11 Safety CEPs because that is the maximum amount of safety CEPs that you can earn in a cycle.

Checking your CEP Status:

1. Visit the DEP DataMiner: <https://njems.nj.gov/DataMiner>
2. Click Search by Category
3. Select Water Supply and Geoscience from the Report Category drop down menu – Click Submit
4. Scroll down toward the bottom of the page until you see WS Well Permits – Click on the report called “Continuing Education Points 2026 Renewal (Well Drillers and Pump Installers)”
5. Enter your license number (6 or 7-digit number with no letters) – Click Submit

Submitting Course Completion Documentation to the Department:

To receive credit for any of the approved courses listed in this document, you should send your certificate to wdpilicensing@dep.nj.gov and we will review what you submitted within two weeks. An email will be sent back after the points have been entered. You must provide the following information when submitting course completion information to us:

1. Full Name
2. License Number
3. Course Number(s)
4. Attached Course Completion Certificate (a PDF copy or a photo are acceptable)

Be advised that courses must have been taken between 4/1/2023 and 3/31/2026 to receive credit. Courses taken during the previous cycle will not be granted credit.

Some course providers submit course completion information directly to the Department. See the next page for information regarding some of the specific providers.

Last Updated: 2/21/2025

Safety CEPs: Minimum 4 required (maximum 11 allowed)

Technical CEPs: Minimum 10 required (maximum 17 allowed)

Total CEPs Needed: 21 earned between 4/1/2023 and 3/31/2026 (at least 4 safety and at least 10 technical)

Courses can only be used once per licensing cycle. Points cannot be banked for the 2026 – 2029 licensing cycle.

NEW JERSEY WELL DRILLER AND PUMP INSTALLER CONTINUING EDUCATION PROGRAM INSTRUCTIONS

Specific Course Reporting Instructions by Provider:

National Ground Water Association (NGWA)

NGWA does not supply the Department with the names or license numbers for individuals who take their online courses. For online classes, you must email your Certificate of Completion, name, and license number to wdpilicensing@dep.nj.gov.

NGWA currently does not supply the Department with the names or license numbers for individuals who attend their in-person seminars/conventions, such as Groundwater Week. For these events, you must email your Universal Continuing Education Reporting Form to wdpilicensing@dep.nj.gov.

International School of Well Drilling (ISWD)

ISWD submits monthly reports to the Department for individuals who took their course for New Jersey. You must select "New Jersey" from the drop-down menu when you create an account with them in order to have your Certificate of Completion emailed directly to us by ISWD. Individuals who selected another state and/or hold licenses in multiple states will need to submit their information to the Department directly.

If your Certificate of Completion lists a state other than New Jersey in the bottom right-hand corner, you must email the Department to receive credit for the course. You must email your Certificate of Completion, name, and license number to wdpilicensing@dep.nj.gov.

All Star Training

All Star Training submits reports to us within a few days of the user successfully completing the course. You do not need to provide the Department with your completion certificate.

OSHA Courses

There are multiple providers, both in-person and online, for the approved OSHA courses. None of the providers send your information directly to the Department. You are responsible for emailing your completion certificate to wdpilicensing@dep.nj.gov.

Last Updated: 2/21/2025

Safety CEPs: Minimum 4 required (maximum 11 allowed)

Technical CEPs: Minimum 10 required (maximum 17 allowed)

Total CEPs Needed: 21 earned between 4/1/2023 and 3/31/2026 (at least 4 safety and at least 10 technical)

Courses can only be used once per licensing cycle. Points cannot be banked for the 2026 – 2029 licensing cycle.

LIST OF APPROVED OSHA COURSES**

OSHA Courses/Courses with Multiple Providers

Below is a list of approved OSHA courses. These courses do not have no set course provider, location, or date:

Course Name	Course Number	Technical CEPs	Safety CEPs
WP2026-OSHA8	OSHA HAZWOPER 8-Hour Refresher		8
WP2026-OSHA24	OSHA 24 Hour HAZWOPER		11 (MAX POINTS)
WP2026-OSHA40	OSHA 40 Hour HAZWOPER		11 (MAX POINTS)
WP2026-OSHA10	OSHA 10 Hour Construction		10
WP2026-OSHA30	OSHA 30 Hour Construction		11 (MAX POINTS)

The Occupational Safety and Health Administration (OSHA) "Hazardous Waste Operations and Emergency Response" standard (HAZWOPER), 40, 24- and 8-hour and OSHA 10 and 30-hour Construction training courses have all been approved for CEP credit. As there is not a sole agency or individual that provides these courses, licensees are required to submit attendance verification to the Department for credit to be awarded. Upon completion of one of the courses listed above, either in-person or online, a license holder must provide the following information to the Well Permitting Section:

1. PDF copy or a photo of the completion certificate
2. Name of the license holder
3. License number

The required information shall be emailed to: wdpilicensing@dep.nj.gov

These courses can only be accepted once per licensing cycle and can only be accepted if they were taken between April 1, 2023 and March 31, 2026.

Last Updated: 2/21/2025

Safety CEPs: Minimum 4 required (maximum 11 allowed)

Technical CEPs: Minimum 10 required (maximum 17 allowed)

Total CEPs Needed: 21 earned between 4/1/2023 and 3/31/2026 (at least 4 safety and at least 10 technical)

Courses can only be used once per licensing cycle. Points cannot be banked for the 2026 – 2029 licensing cycle.

**NEW JERSEY WELL DRILLER AND PUMP INSTALLER CONTINUING EDUCATION PROGRAM
LIST OF APPROVED INDUSTRY CONVENTIONS/SEMINARS**

Industry Conventions/Seminars

The following pages are for seminars or conventions which have multiple available courses that a licensee can take. One course number is assigned to each of these courses and the number of points that you can earn is based on the courses that you attend. Specific reporting instructions are located at the end of each list.

NDA 2023 Tri-State Chapter Training Day

Below is a list of courses approved for the NDA 2023 Tri-State Chapter Training Day (course number WP2026-013-6-0). Courses taken that are not on this list will not be granted credit.

Course Name	CEPs
Specialty Samplers	1 Technical
Basic Mud Drilling 101	1 Technical
Casing Advancers	1 Technical
140 lb. Auto-Hammer Maintenance Repair	1 Technical
Grout Machines	1 Technical
Sonic Drilling	1 Technical

Email the following to the Department, at wdpilicensing@dep.nj.gov, to receive credit for this course: full name, license number, and attach your Certification of Completion.

Last Updated: 2/21/2025

Safety CEPs: Minimum 4 required (maximum 11 allowed)

Technical CEPs: Minimum 10 required (maximum 17 allowed)

Total CEPs Needed: 21 earned between 4/1/2023 and 3/31/2026 (at least 4 safety and at least 10 technical)

Courses can only be used once per licensing cycle. Points cannot be banked for the 2026 – 2029 licensing cycle.

**NEW JERSEY WELL DRILLER AND PUMP INSTALLER CONTINUING EDUCATION PROGRAM
LIST OF APPROVED INDUSTRY CONVENTIONS/SEMINARS**

South Atlantic Jubilee 2023

Below is a list of courses approved for the South Atlantic Jubilee (course number WP2026-019-X-X). Courses taken that are not on this list will not be granted credit.

Course Name	CEPs
Drilling Basics - The Breakdowns you WANT to Know	1 Technical
Protecting Your Fleet - An In-Depth Presentation of the Importance of Compliance in the Commercial Vehicle Industry	2 Safety
Diversifying Your Business into Industrial Drilling Driven by Government Funds Geothermal/Cathodic	1 Technical
Optimize Irrigation Jobs: Tips and Expert Insights for Selecting the Best Pumping Solution for the Application	1 Technical
Geothermal Roundtable on Entering the Industry and Tax Incentives lasting until 2031	1 Technical
Pump Install Review	1 Technical
Damage Prevention and Pipeline Safety	1 Safety
Equipment Finance: An Essential Part of Your Next Investment and What You Need to Know About It	1 Technical
Get Ready for What's Next: Trends in Variable Frequency Drives (VFD) for Water Systems	1 Technical
Well Rehabilitation Made Easy with a TDS/TEMP/CAMERA	1 Technical
Cement: What we Don't Know About the New Type 1L	1 Technical
Troubleshooting Hammers	1 Technical
VFD's: Did You Know?	1 Technical
Well Fouling Indicators: Observations and Case Studies from the Lab	1 Technical
Solar Pumping Technology and Applications	1 Technical
Arsenic Treatment - Understanding Arsenic Treatment for Private Wells	1 Technical
Drinking Water Emerging Contaminants and What to Know	1 Technical
Evaluating Filter Pack Options and Impacts on Well Longevity	1 Technical
Contract Basics for the Water Well Industry	1 Technical

Email the following to the Department, at wdpilicensing@dep.nj.gov, to receive credit for this course: full name, license number, and attach your Certification of Completion.

Last Updated: 2/21/2025

Safety CEPs: Minimum 4 required (maximum 11 allowed)

Technical CEPs: Minimum 10 required (maximum 17 allowed)

Total CEPs Needed: 21 earned between 4/1/2023 and 3/31/2026 (at least 4 safety and at least 10 technical)

Courses can only be used once per licensing cycle. Points cannot be banked for the 2026 – 2029 licensing cycle.

**NEW JERSEY WELL DRILLER AND PUMP INSTALLER CONTINUING EDUCATION PROGRAM

2023 WorldWide DownHome DrillFest

Below is a list of courses approved for the 2023 DownHome DrillFest (course number WP2026-022-5-1). Courses taken that are not on this list will not be granted credit.

Course Name	CEPs
Water Well Development & Rehabilitation	1 Technical
Air Drilling	1 Technical
The Good, The Bad, The Ugly, and The Outcome of Communicating in the Workplace	1 Technical
What You do Before You Roll a Tire	1 Safety
Casing Advancement 101	1 Technical
Tips for Handling Hammer & Bit Warranties	1 Technical

Email the following to the Department, at wdpilicensing@dep.nj.gov, to receive credit for this course: full name, license number, and attach your Certification of Completion.

Last Updated: 2/21/2025

Safety CEPs: Minimum 4 required (maximum 11 allowed)

Technical CEPs: Minimum 10 required (maximum 17 allowed)

Total CEPs Needed: 21 earned between 4/1/2023 and 3/31/2026 (at least 4 safety and at least 10 technical)

Courses can only be used once per licensing cycle. Points cannot be banked for the 2026 – 2029 licensing cycle.

**NEW JERSEY WELL DRILLER AND PUMP INSTALLER CONTINUING EDUCATION PROGRAM
LIST OF APPROVED INDUSTRY CONVENTIONS/SEMINARS**

Groundwater Week 2023

Below is a list of courses approved for the National Ground Water Association's 2023 Groundwater Week (course number WP2026-023-X-X). Courses taken that are not on this list will not be granted credit.

Course Name	CEPs
Ultraviolet 101 - UV for Domestic Water Wells	1 Technical
Casing Advancement 101	1 Technical
Respirators and the Hazards of Silica	1 Safety
Motor Symposium Part 1	1 Technical
Navigating the Build America, Buy America Act	1 Technical
Drilling Basics - Break Down of Basics and All the Questions You Want Answered	1 Technical
The Institutional Market and the Value It Presents to the Geothermal & Drilling Industry	1 Technical
Motor Symposium Part 2	1 Technical
Groundwater Equipment Financing	1 Technical
Loss Circulation - Facts, Treatment and Proper Development	1 Technical
Case Studies in Designing and Installing Geothermal Systems: Treasure Island Commercial Electrification and NGWA HQ (COURSE CANCELLED)	1 Technical
Understanding Meters and Meggers When Testing Submersible Motors	1 Technical
Emerging Contaminants in Drinking Water and Effective Treatment Technology Tools	1 Technical
Sonic Drilling - The Future Is Now	1 Technical
Building Blocks of Training a New Driller	1 Technical
Renewable Energy Pumping	1 Technical
Uses of Chemicals for Restoring & Maintaining Performance of Water Wells	1 Technical
Mud Testing - How Important Is It?	1 Technical
Dual Rotary Drilling in Water Wells and Geothermal Boreholes	1 Technical
Optimize Irrigation Jobs: Tips & Expert Insights for Selecting the Best Pumping Solution for the Application	1 Technical
A Bits a Bit, but Is It?	1 Technical
Safety & New Hires - Injuries That Can Impact a Business Legacy	1 Safety
Pump Panel Electrical Installation and Maintenance, Soft Starting and Stopping	1 Technical
Electrical Basics and Tips For Water Systems	1 Technical
Water Well Disinfection and Rehabilitation	1 Technical
Ever Changing and Essential Saga of Well Development in the Field	1 Technical
Best Practices for a Submersible Pump Install	1 Technical
Keep It Simple Well Rehab	1 Technical
Health & Safety Around the Well Drilling Site	1 Safety
VFD's - Did You Know?	1 Technical
Aqua-Scopic Well Rehabilitation	1 Technical
Sieve Analysis, Slot Size, and Gravel Pack Selection	1 Technical

Last Updated: 2/21/2025

Safety CEPs: Minimum 4 required (maximum 11 allowed)

Technical CEPs: Minimum 10 required (maximum 17 allowed)

Total CEPs Needed: 21 earned between 4/1/2023 and 3/31/2026 (at least 4 safety and at least 10 technical)

Courses can only be used once per licensing cycle. Points cannot be banked for the 2026 – 2029 licensing cycle.

**NEW JERSEY WELL DRILLER AND PUMP INSTALLER CONTINUING EDUCATION PROGRAM
LIST OF APPROVED INDUSTRY CONVENTIONS/SEMINARS**

Laboratory Evaluations of Well Fouling for Corrective Action	1 Technical
Preparing to Sell or Hand Over Your Business	1 Technical
Determination of Slot Size From Sieve Analysis Data	2 Technical
Grouting and Well Abandonment-Methods and Materials	1 Technical
Improving the Efficiency of Irrigation Pumping Systems through Pump System Optimization	1 Technical
Passing on Knowledge to the Next Generation Roundtable	1 Technical
Evaluating Aquifer Recharge for Generation Opportunities	1 Technical
PFAS in Groundwater: What's Now and What's Next	1 Technical
Introduction to Using Resistivity for Securing and Maintaining Sustainable Water Resources	1 Technical
What Geophysical Method and Why? The Right Tool for the Right Answer: Applied Geophysics for Groundwater Projects	1 Technical
Decentralized Systems and Managed Aquifer Recharge (MAR)	1 Technical

Email the following to the Department, at wdpilicensing@dep.nj.gov, to receive credit for this course: full name, license number, and attach your completion certificate.

Note: NGWA combined Select the Right Submersible Motor to Power Your Pumping System: How Different Designs Impact Operations and Unleashing Efficiency: Exploring the Potential of Permanent Magnet Motors in the Water Well Industry to form a new course called Motor Symposium Part 1. Motors - Understanding How and Why They Fail, Testing, and Solutions and Motor Protection were combined to form a new course called Motor Symposium Part 2. Each Motor Symposium is worth one technical CEP.

Last Updated: 2/21/2025

Safety CEPs: Minimum 4 required (maximum 11 allowed)

Technical CEPs: Minimum 10 required (maximum 17 allowed)

Total CEPs Needed: 21 earned between 4/1/2023 and 3/31/2026 (at least 4 safety and at least 10 technical)

Courses can only be used once per licensing cycle. Points cannot be banked for the 2026 – 2029 licensing cycle.

MDWWA 2024 Convention

Below is a list of courses approved for the MDWWA 2024 Convention (course number WP2026-026-X-X). Courses taken that are not on this list will not be granted credit.

Course Name	CEPs
PFA's – Concerns and Implications on Ground and Drinking Water Quality	1 Technical
Geothermal in Schools: Great for the Country, the Students and for the Drilling Industry	1 Technical
Safety & New Hires: Injuries That Can Impact a Company's Legacy	1 Safety
Dealing with Emerging and Uncommon Contaminants	1 Technical
Total Alkalinity in Water Treatment	1 Technical
Geophysical Tools and Applications for Coastal Plain and Piedmont Region Water Supply & Environmental Investigations	1 Technical
Drilling Rig Safety and Routine Maintenance	1 Safety
Mud Testing How Important Is It?	1 Technical
2024 DOT Update	1 Safety
Calculating Drilling Cost in 2024	1 Technical

Email the following to the Department, at wdpilicensing@dep.nj.gov, to receive credit for this course: full name, license number, and attach your completion certificate.

Last Updated: 2/21/2025

South Atlantic Jubilee 2024

Below is a list of courses approved for the South Atlantic Jubilee (course number WP2026-031-X-X). Courses taken that are not on this list will not be granted credit.

Course Name	CEPs
2024 State of the U.S. Water Well Industry Report	1 Technical
Fundamentals of Electric Motors	1 Technical
Understanding Stray Voltage	1 Technical
Pumping System Installation Safety	1 Safety
Chlorine, The Most Misunderstood Chemical in the Water Well Industry	1 Technical
Casing Advancement 101	1 Technical
Understand Pump Curves and Proper Sizing	1 Technical
Sizing and Selling a Variable Speed Drive	1 Technical
Aqua-Scopic Well Rehabilitation in Dirty Water & Flocking Agents	1 Technical
DTH Hammer/ Bit Troubleshooting and Maintenance	1 Technical
Air Compressors	1 Technical
Equipment Financing: Financial Statements 101	1 Technical
All Things DTH Hammers and Bits	1 Technical
Drilling Fluids: Your Key to Unlocking Well Development	1 Technical
Update on Legal Issues Impacting the Water Well Industry	1 Technical
VFD's: What am I Missing?	1 Technical
Variable Speed Drive Equipment	1 Technical
Field Experience or the Dos and Don'ts of Well Rehabilitation	1 Technical
Well Inner Liners: More Than Just Lipstick on a Pig	1 Technical

Last Updated: 2/21/2025

Safety CEPs: Minimum 4 required (maximum 11 allowed)

Technical CEPs: Minimum 10 required (maximum 17 allowed)

Total CEPs Needed: 21 earned between 4/1/2023 and 3/31/2026 (at least 4 safety and at least 10 technical)

Courses can only be used once per licensing cycle. Points cannot be banked for the 2026 – 2029 licensing cycle.

Groundwater Week 2024

Below is a list of courses approved for the National Ground Water Association’s 2024 Groundwater Week (course number WP2026-038-X-X). Courses taken that are not on this list will not be granted credit.

Course Name	CEPs
Alphabet Soup of Geothermal Heat Pumps	1 Technical
Don't Kill Your Golden Goose - Protect & Perpetuate Your Business	1 Technical
Replacements - Replacement of Avondale Replacement Well 25	1 Technical
Toilet Talk - Lessons from Looking in the Back of the Toilet	1 Technical
Advanced VFD Topics - PID, Ramps, EMI, Harmonics	1 Technical
Boreholes vs. Wells	1 Technical
Metering, Monitoring and Managing Groundwater and Wells Through Interactive Technology	1 Technical
What Warranty?	1 Technical
Managing Fatigue: Strategies for Workplace Safety and Health	1 Safety
Optimizing Geothermal Drilling: Operations, Equipment, and Scalability Insights	1 Technical
Productive Drilling, Solids Control, & Waste Disposal	1 Technical
Understanding Traditional Controls and Submersible Motors	1 Technical
History of HSLA Steel and Other Corrosion Resistant Steel Options for Water Well Applications	1 Technical
Power of Written Procedures	1 Safety
State of the Art for High-Rate Groundwater Sand Control: Design, Fabrication, Installation, and Field Performance	1 Technical
Wire to Water and Smart Installation: Replacement Practices for Improved Efficiency in the 21st Century	1 Technical
Drilling with Air	1 Technical
Electrical Protection and Safety Disconnect for Your Field Equipment	1 Safety
Geothermal Drilling - Lessons Learned	1 Technical
Simple Do and Don't All Specific to Well Rehabilitation - Avoiding Serious Pitfalls	1 Technical
Emerging Contaminants	1 Technical
Hydraulics - The Know-How	1 Technical
Transforming Perspectives on Ground Source Heat Pumps	1 Technical
VFD Control for Ground Water Application	1 Technical
How are You Selling You? Because With or Without Effort Your Name is Out There	1 Technical
Proper Bit Selection	1 Technical
Roundtable: Ask the Master Groundwater Contractor	1 Technical
Your Toolkit for Water Systems	1 Technical
Maximizing Sonic Rig Potential: Infield and Innovative Uses of Sonic Rigs	1 Technical
Remote Monitoring and Control of Water Systems	1 Technical
Roundtable: Passing on Knowledge to the Next Generation	1 Technical
Site & Project Safety	1 Safety
