New Jersey Water Bank Update 2020

New Jersey Infrastructure Bank
New Jersey Department of Environmental Protection

December 2019
To provide low-cost financing for the planning, design, construction, and implementation of projects that protect, maintain, and/or improve water quality.

Significant planning and investment is required to sustain and improve NJ’s aging infrastructure systems. That cost often exceeds the capabilities of local water utilities.

Repayments
Water Bank Stats

- Water Bank issued more than $7.13 billion in low-interest long term loans;

- New Jersey's ratepayers have saved an estimated $2.58 billion in interest costs and Principal Forgiveness loans; and

- Total loan spending has generated over 130,000 direct construction jobs throughout the State.
Water Bank Annual Funding

Annual (from 2014-2019) CW/DW Funded Projects

All Amounts are in $Millions

Loan Structure

- Up to 30 Year loans terms
- Rolling Applications
- No Deadlines
- Rolling Awards for Clean Water projects based upon readiness to proceed
- Drinking Water loan awards based upon Priority Ranking
- Construction “Bridge” Loans
- No out of pocket costs
Application, Review, & Approval Process

- Project Submission for Financing Consideration
- Priority Ranking
- Letter of Intent
- Environmental & Cultural Resources Planning Review
- Loan Application
- Design Review
- Permitting & Approvals
Application, Review, & Approval Process, Continued

- Construction Procurement & Award
- Project Certification
- Short-Term Loan Award
- Project Construction
- Short-Term Loan superseded by Long-Term Loan
H2LOans

- Online submittal of forms
- Status bar of project with milestones
- Documents uploaded for mobile access
- Contact information
The Intended Use Plan (IUP)

- EPA Requirement
- Condensed Information
- Interactive Links
- Clear Sections
- Pictures, charts, and graphics
Water Quality Restoration

• Capital improvement projects and equipment purchases that will eliminate, prevent or reduce documented occurrences of shellfish bed downgrades, beach closings and advisories due to the presence of harmful algal blooms (HABs).

• Projects would eliminate such potential sources as:
  ✓ Failing on-site wastewater systems
  ✓ Cross-connections between storm sewers and sanitary sewers

• Eligible projects also include:
  ✓ Expansion or replacement of stormwater management systems
  ✓ Purchase of skimmer boats, aquatic weed harvesters and equipment to maintain stormwater management facilities.
Water Quality Restoration Projects

- $10M in Principal Forgiveness (Grant Like Funding) set aside in SFY21

- $2 million PF cap per applicant

- First $4M of project costs funded at:
  - 50% principal forgiveness
  - 25% DEP interest free loan
  - 25% I-Bank market rate loan

- Remaining costs (up to $10M) at 75% DEP/25% I-Bank

- Costs over $10M at 50% DEP/50% I-Bank
### SFY21 Funding Packages (Long-Term Loans)

</tr>
</tbody>
</table>

* $2.5M in PF has been committed towards Cumberland County Improvement Authority.

** $2.5M in CSO-Abatement PF funds are set aside for CSO Green Infrastructure projects.
Clean Water-Eligible Projects

Water Quality Improvement

- Wastewater Infrastructure
- Stormwater Management
- Site Remediation
- Equipment Purchases
- Water Meters
- Planning

Passaic Valley Sewerage Commission Electrical Substation
North Wildwood Sewer, Storm and Street Restoration
Camden County MUA Phoenix Park
Califon Storm Water Improvements
Hoboken City Green Infrastructure
Wastewater Infrastructure

**Eligible projects**

- Secondary and advanced wastewater treatment
- Well Sealing
- Flood resiliency to protect environmental infrastructure
- Sludge handling facilities
- Infiltration and inflow (I/I) correction
- Interceptors, pumping stations and force mains
- Sewer system rehabilitation
- New collection systems
Stormwater Management

Eligible projects

- Stormwater runoff controls
  - Landfill cells and landfill closures
- Treatment systems
- Stormwater detention and conveyance
- Green Infrastructure
  - Porous pavement, raingarden, bioswales, etc.
Site Remediation

Eligible Projects

- Removal of contaminated soil
- Capping systems
- Liners
- Leachate collection systems
- Tank removal
- Well sealing activities
  - Ground water, drinking water
