

2019 Proposed Category One Waters

Instructions For Using the Maps

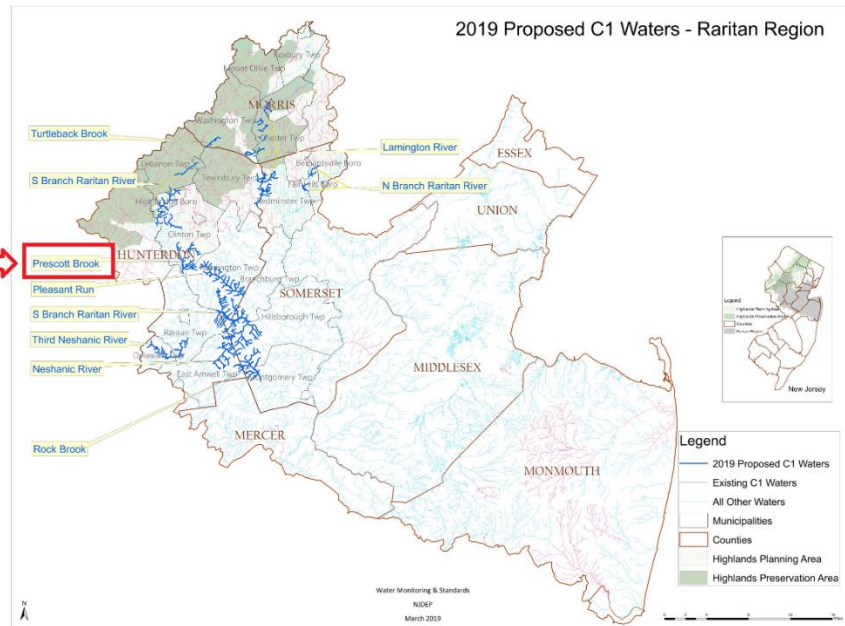

NOTE: The map showing the streams being proposed for Category One designation is layered and interactive. The following instructions can be used to get a closer look at any of the proposed Category One stream segments in the five water regions: Northeast, Upper Delaware, Raritan, Lower Delaware and Atlantic Coast.

Use an internet browser such as **Internet Explorer** and/or **Chrome** to view the maps of the proposed Category One stream segments at <https://www.nj.gov/dep/workgroups/swqs.html>.

1. Click on any water region displayed on the New Jersey state map to open any one of the five water regions: Northeast, Upper Delaware, Raritan, Lower Delaware and Atlantic Coast.

2. Click on any label (e.g. Prescott Brook) on the map of a water region to open a map which provides a closer view of the stream segments proposed for Category One.

3. A PDF map providing a closer look of the proposed stream segments of the Prescott Brook will open.

2019 Proposed Category One Waters - Prescott Brook, Pleasant Run, Raritan River, Rock Brook, and Neshanic Rivers
