

April 2, 2021

Dear Stakeholder:

The New Jersey Department of Environmental Protection (Department) remains committed to consider revisions to its Safe Drinking Water Act rules, N.J.A.C. 7:10, to establish New Jersey-specific requirements for the control of lead and copper.

You (or a designee) are invited to a Stakeholder Meeting to be held by the Department remotely via Microsoft Teams on Thursday, **April 15, 2021**, from **10:00 A.M. to 12:00 P.M.** The meeting will start promptly at 10:00 A.M. Instructions for online participation will be sent to confirmed attendees prior to the Stakeholder Meeting.

We appreciate your participation and look forward to providing you with an update on the Department's efforts. This rulemaking effort is focused on the following major topics: corrosion control treatment, source water treatment, water quality parameters, sequential monitoring and pipe scale analysis, lead service line replacement, tap monitoring, and public education. For more information regarding current requirements, please see the Department's website at <https://www.state.nj.us/dep/watersupply/dwc-lead.html>.

There is limited capacity. Please confirm your attendance by contacting Ashleigh Tindall via e-mail at Ashleigh.Tindall@dep.nj.gov as soon as conveniently possible.

Sincerely,

Patricia Ingelido, Director

Division of Water Supply and Geoscience
