

Dear Stakeholder,

The NJDEP's Bureau of Marine Water Monitoring is planning to hold a second stakeholder meeting on the proposed amendments to the Shellfish Growing Water Classification rules at N.J.A.C. 7:12 (www.nj.gov/dep/rules/) due to additional proposed amendments. The stakeholder meeting will cover proposed changes in shellfish growing water classifications based on water quality data and the proposed amendments to additional subchapters.

You are invited to the virtual stakeholder meeting to discuss and provide insight on potential changes to the Shellfish Growing Water Classification rule. Please feel free to forward this invitation to others we may have missed. When the rule is formally proposed in the N.J. Register, there will be a sixty-day public comment period.

Information regarding the meeting will be posted at www.nj.gov/dep/workgroups/.
