

# Raritan Township Future Wastewater Service Area Map

**NOTES:**

Pursuant to N.J.A.C. 7:15, Riparian zones are: 300 feet from top of bank (or centerline of a first order stream where no bank is apparent) for waters designated as Category One and all upstream tributaries within the same HUC; 14' - 150 feet for waters designated Trout Production and all upstream waters; 150 feet for water designated Trout Maintenance and all upstream waters within one linear mile as measured along the length of the regulated water; 150 feet for waters that run through acid-producing soils; and 50 feet for all waters not designated as C1, trout waters, critically water dependent Threatened and/or Endangered Species Habitat, or associated with acid soils.

Surface waters that are designated Category One are listed in the Surface Water Quality Standards at N.J.A.C. 7:9B. The Department's "Surface Water Quality Standards" GIS data layer was utilized to determine these waters. The applicable 300 foot buffer has been applied to these waterways and removed from the proposed sewer service areas on the map. Lesser width buffers have not been graphically removed from the sewer service area but are not proposed for sewer service. Jurisdictional determinations by the Department will be utilized to determine the extent of the sewer service area on individual lots.

Areas located within the watershed of a Freshwater One (FW1) stream as classified stream, as classified in the Surface Water Quality Standards, and/or that have Class 1-A ground water (Ground Water of Special Ecological Significance), as classified in the Ground Water Quality Standards, are identified as "Non-degradation water areas based on the Surface Water Quality Standards at N.J.A.C. 7:9B, and/or the Ground Water Quality Standards at N.J.A.C. 7:9-6."

Non-degradation water areas shall be maintained in their natural state (set aside for posterity) and are subject to restrictions including, but not limited to, the following: 1) DEP will not approve any pollutant discharge to ground water nor approve any human activity which results in a degradation of natural quality except for the upgrade or continued operation of existing facilities serving existing development.

For additional information please see the Surface Water Quality Standards at N.J.A.C. 7:9B, and/or the Ground Water Quality Standards at N.J.A.C. 7:9-6."

The Future Wastewater Service Area delineation for those municipalities that have been identified as Highlands Conforming Towns on this map are being developed through the Highlands Council's Plan Conference process cooperatively between the Highlands Council and the municipality. These Future Wastewater Service Areas will be submitted separately as amendments to the Hunterdon County Future Wastewater Service Area when completed and so are not addressed herein.

The WCAMP rule provides that any WMP previously approved by NJDEP may remain in force and effect until six (6) years from that approval date or until superseded by a subsequent WMP. In the County, the following previously approved WMPs are still considered current, until six (6) years from the approval date as noted:

- Wall Amwell Township (March 14, 2008)
- Lambertville MUA (City of Lambertville and Stockton Borough) (February 7, 2012)

Existing Parcels Served are not shown for Municipalities with Adopted WMPs and for Municipalities that have petitioned for Conformance in the Highlands Region.

Major Trunk Lines and Interceptors are not shown for the following Municipal Utility Authorities:  
Town of Clinton Wastewater Treatment Plant, Lambertville Sewerage Authority, Milford Borough Sewer Utility, Frenchtown Boro STP

Hunterdon County uses the following map projection and coordinate system when presenting GIS data:  
Horizontal: North American Datum 1983 (NAD83)  
Vertical: North American Vertical Datum 1987 (NAVD87)  
Coordinate System: New Jersey State Plane Feet

**Legend**

**Proposed Future Sewer Service Area FACILITY, NJPDES#**

- Cooper Hill Country Club, NJG0074128
- Copper Hill School, NJG0108332
- Raritan Township MUA STP, NJ0022047
- Verducci's Specialty Market, NJ0108294

- Existing DGW (Discharge to Ground Water)
- Existing DSW (Discharge to Surface Water)

- Major Trunk Lines / Interceptors
- Pump Stations
- Discharge to Groundwater less than 2000 GPD
- Parcel Boundaries
- Parcels Served Boundaries

- Municipal Boundaries
- Streams and Surface Water

**Major Roads**

- Interstate Routes
- U.S. Routes
- State Routes
- County Roads
