NOTES:

This (map/publication/report) was developed using New Jersey Department of Environmental Protection Geographic Information System digital data, but this secondary product has not been verified by NJDEP and is not state-authorized.

Development in areas mapped as wetlands, flood prone areas, development in areas mapped as suitable habitat for endangered and threatened species as identified on the department's landscape maps of habitat for endangered, threatened and other priority wildlife as rank 3.4. and 5, natural heritage priority sites, riparian zones, steep slopes, or designated river areas may be subject to special regulation under federal or state statutes or rules, and that interested persons should check with the department for the latest information. Depiction of environmental features shall be for general information purposes only, and shall not be construed to define the legal geographic jurisdiction of such statutes or rules.
