Amendment Being Proposed

(Include location within the WQM Plan(s) of the changes):

This amendment is to expand the Coastal Sewer Service Area to include the lower Great Egg Harbor River Region, eliminate a major discharge to the Great Egg Harbor River and transport wastewater via a combination of force mains and gravity lines within the abandoned railroad right-of-way along West Jersey Avenue in Hamilton and Egg Harbor Townships. Treatment of wastewater will take place at the Atlantic County Utilities Authority City Island Treatment Plant with discharge via a two-mile ocean outfall line. (Plan changes made on Pg. I-21).
