REVISION TO THE ATLANTIC COUNTY WATER QUALITY MANAGEMENT PLAN

TAKE NOTICE that on **JUL 09 1992**, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules, N.J.A.C. 7:15-3.5, a revision to the Atlantic County Water Quality Management Plan was adopted by the Department. This revision corrects the future sewer service area mapping in the Egg Harbor Township Wastewater Management Plan (WMP) to include those portions of the existing Zion Park Development (Block 131E, Lots 1-15) which were omitted in the WMP. Additionally, this revision adds the existing homes in the Villa La Villa Development (Block 77E, 36 various lots) to the sewer service area of the Atlantic County Utilities Authority - City Island sewage treatment plant. The existing homes in the Villa La Villa portion of Egg Harbor Township are experiencing failing septic systems and were also inadvertently excluded from the future sewer service area mapping. Vacant lots in the Villa La Villa section, however, are not part of this revision and an amendment to the Atlantic County Water Quality Management Plan will be required for these lots to receive sewer service.
