OFFICE OF LAND AND WATER PLANNING

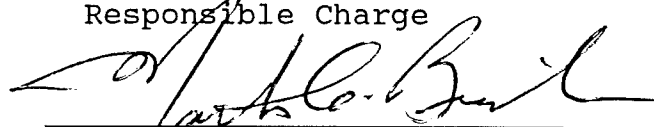

REVISION TO THE ATLANTIC COUNTY WATER QUALITY MANAGEMENT
PLAN

APR 08 1994

TAKE NOTICE that on _____, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning Rules, N.J.A.C. 7:15-3.5, a revision to the Atlantic County Water Quality Management Plan was adopted by the Department. This revision corrects the future sewer service area mapping and narrative in the Egg Harbor Township Wastewater Management Plan (WMP) to include a single family home located at Block 51E, Lot 140 to the sewer service area of the Atlantic County Utilities Authority - City Island Sewage Treatment Plant. A previous revision (adopted July 9, 1992) wherein existing homes in the Vella La Vella portion of Egg Harbor Township, experiencing failing septic systems, inadvertently excluded this one single family home from the future sewer service area and narrative of the adopted Egg Harbor Township WMP. This present revision, remaining consistent with the adopted July 9, 1992 revision, continues to represent existing homes only. Vacant lots at the time of the original adopted July 9, 1992 revision in the Vella La Vella section are not part of this revision and an amendment to the Atlantic County Water Quality Management Plan will be required to be included in the sewer service area if development occurs.
