REVISION TO THE ATLANTIC COUNTY WATER QUALITY MANAGEMENT  
PLAN

TAKE NOTICE that on **AUG 12 1997**, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules, N.J.A.C. 7:15-3.5, a revision to the Atlantic County Water Quality Management Plan (WQMP) was adopted by the Department. This revision corrects the Egg Harbor Township Wastewater Management Plan (WMP) sewer service area mapping with regard to the Otter Lane, Groveland Avenue, Lakeview Drive and Beaver Lane sewer service area in Egg Harbor Township, Atlantic County. The lots located along these streets were part of a Coastal Area Facility Review Act permit issued on May 6, 1991 allowing the properties to be connected into the Egg Harbor Township Municipal Utilities Authority wastewater collection system. Treatment Works Approval was also issued in 1991 and sewer lines were constructed. The Egg Harbor Township WMP mapping fails to identify this part of Egg Harbor Township as part of the sewer service area of the Atlantic County Utilities Authority (ACUA) City Island Sewage Treatment Plant (STP). This revision adds the existing connected lots along Otter Lane, Groveland Avenue, Lakeview Drive and Beaver Lane to the sewer service area mapping of the ACUA City Island STP.
