REVISION TO THE MIDDLESEX COUNTY-LOWER RARITAN WATER
QUALITY MANAGEMENT PLAN

TAKE NOTICE that on **SEP 14 2004**, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A.58:11A-1 et seq, and the Statewide Water Quality Management Planning rules, N.J.A.C. 7:15-3.5, a revision to the Middlesex County-Lower Raritan Water Quality Management Plan was adopted by the Department. This revision corrects and modifies the Middlesex County-Lower Raritan Wastewater Management Plan (WMP) Map Set 3, "Future Wastewater Facilities and Service Areas" Map, Plainfield Quadrangle. This revision identifies the entire Block 189, Lot 3 in Highland Park Borough and Block 872, Lot 4 Piscataway Township, Middlesex County, the location of the existing Parker Nursing Home as sewer service area of the Middlesex County Utilities Authority (MCUA). Sanitary sewer service to the existing facility is currently provided by the MCUA. The inclusion of the entire identified Blocks and Lots will allow for the expansion of the Nursing Home to include the Parker III Assistant Living Facilities, a day care and office space facility. The current WMP mapping incorrectly and unintentionally split the existing site designation between the sewer service area of the MCUA and the service area of facilities with planning flows of less than 2,000 gallons per day (gpd) which discharge to groundwater. The projected wastewater flow for the proposed new development, calculated in accordance with N.J.A.C. 7:14A-23.3 is 7,779 gpd.

This revision also corrects the Middlesex County-Lower Raritan WMP Map Set 3, "Future Wastewater Facilities and Service Areas" Map, Monmouth Junction Quadrangle. This modification corrects errors made in mapping graphics and is not a substantive change.

Lawrence J. Bair, Director
Division of Watershed Management
