

DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATERSHED MANAGEMENT

AMENDMENT TO THE **MERCER COUNTY** WATER QUALITY MANAGEMENT
PLAN

Public Notice

Take notice that on **APR 15 1999**, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment to the Mercer County Water Quality Management Plan was adopted by the Department of Environmental Protection (Department). This amendment was submitted by **West Windsor Township**. The amendment expands the Stony Brook Regional Sewerage Authority (SBRSA) sewer service area to include **Block 33, Lot 1**, a 126.25 acre parcel, located at the southeasterly corner of the Old Trenton Road/Village Road East intersection. The expansion of the sewer service area will serve a proposed 300 unit assisted living facility. As part of this amendment minor updates have been made to the existing West Windsor Township Wastewater Management Plan. No expansion of the SBRSA Sewage Treatment Plant, which discharges to the Millstone River, is proposed as part of this amendment.

This amendment represents only one part of the permit process and other issues will be addressed prior to final permit issuance. Additional issues which were not reviewed in conjunction with this amendment but which may need to be addressed may include, but are not limited to, the following: antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Lance R. Miller, Director
Division of Watershed Management
Department of Environmental Protection
