AMENDMENT TO THE MONMOUTH COUNTY WATER QUALITY
MANAGEMENT PLAN

Public Notice

Take notice that on APR 14 1997, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment to the Monmouth County Water Quality Management Plan was adopted by the Department of Environmental Protection (Department). This amendment updates the Township of Colts Neck Wastewater Management Plan. The amendment identifies the Conover Road School, on Block 8, Lot 2 in Colts Neck Township, Monmouth County, as the service area for an on-site treatment facility with discharge to ground water with a flow of less than 20,000 gallons per day (gpd). An addition to the school will allow for an increase in student population from the existing 518 to a future of 650. The future wastewater planning flow of the wastewater treatment and disposal system will be 9,750 gpd, based on a flow contribution of 15 gallons per student per day.

This amendment represents only one part of the permit process and other issues will be addressed prior to final permit issuance. Additional issues which were not reviewed in conjunction with this amendment but which may need to be addressed may include, but are not limited to, the following: antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.
