

DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATERSHED MANAGEMENT

REVISION TO THE NORTHEAST WATER QUALITY MANAGEMENT PLAN

TAKE NOTICE that on DEC 18 2009, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A.58:11A-1 et seq, and the Statewide Water Quality Management Planning rules, N.J.A.C. 7:15-3.5, a revision to the Northeast Water Quality Management Plan (WQMP) and the West Milford Wastewater Management Plan (WMP) was adopted by the Department. This revision corrects/updates the Northeast WQMP and the West Milford WMP to identify the existing discharge to ground water wastewater treatment and disposal facility that serves the Shiloh Bible Camp (Shiloh) located at 753 Burnt Meadow Road (Block 6002, Lot 47) in West Milford Township, Passaic County. Shiloh has a large residential dwelling with 7 bedrooms and serves as a weekend retreat camp with a maximum of 84 campers situated on 12 acres. Shiloh received a Highlands Applicability Determination Exemption #6 dated June 14 2006 for a proposed 10,861 square foot worship center that would include a main worship center/multipurpose room and also house meeting rooms and bathroom facilities. Shiloh is permitted by New Jersey Pollutant Discharge Elimination System permit number NJG0166618 and has an approved design flow of 2,528 gallons per day. The proposed building and use does not increase the projected wastewater flow and the site will remain regulated under its existing permit.

This qualifies as a revision in accordance with N.J.A.C. 7:15-3.5(b)1i which states, the Department and the designated planning agencies shall prepare revisions to Statewide and areawide WQM plans to correct, clarify, or update erroneous, unclear, or outdated statements in Statewide and areawide WQM Plans regarding development and wastewater treatment facilities existing at the time of the most recently adopted areawide WQM plan or amendment affecting the site.

Lawrence J. Baier, Director
