- Major Roads (County, State, Federal)

New Jersey Highlands Council

- New Jersey Highlands Council Planning Area Boundary as defined by the New Jersey Highlands Water Protection and Planning Act of 2004 - Polygon (Preservation Area Boundary is also represented.)

NJ Department of Environmental Protection

- Water Quality Management Planning Areas

Highlands Boundary

East Hanover, Lincoln Park, Chatham Borough, Chatham Township, Madison, Florham Park and Long Hill are not located in the Highlands Region.

Notes:

The Municipal Chapters of the Morris County Wastewater Management Plan for those municipalities identified as Highlands Conforming Towns on this map are being developed through the Highlands Council's Plan Conformance process cooperatively between the Highlands Council and the municipality. These Municipal Chapters will be submitted separately as amendments to the Morris County Wastewater Management Plan when completed and are not addressed herein.

Please refer to individual municipal maps for additional information.

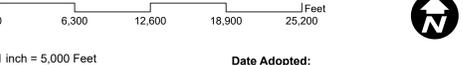

* Washington Township is its own wastewater management planning entity.

These Municipal Chapters will be submitted separately as amendments to the Morris County Wastewater Management Plan when completed and so are not addressed herein.

Please refer to individual municipal maps for additional information.

Notes:

Surface waters that are designated Category One are listed in the Surface Water Quality Standards at N.J.A.C. 7:9B. The Department's "Surface Water Quality Standards" GIS data layer was utilized to determine these waters. The applicable 300 foot buffer has been applied to these waterways and removed from the proposed sewer service areas on the mapping. Lesser width buffers have not been graphically removed from the sewer service area but are not proposed for sewer service. Jurisdictional determinations by the Department will be utilized to determine the extent of the sewer service area on individual lots.

Pre-existing grant conditions and requirements (from Federal and State grants or loans for sewerage facilities) which provide for restriction of sewer service to environmentally sensitive areas, are unaffected by adoption of this document and compliance is required.

Development in areas mapped as environmentally sensitive features may be subject to special restrictions under Federal or State statutes or rules. Interested persons should check with the Department for the latest information. Depiction of environmental features shall be for general information purposes only, and shall not be construed to define the legal.
