

DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATERSHED MANAGEMENT

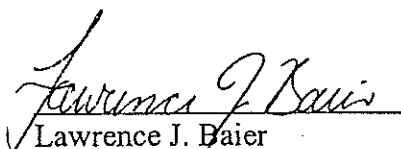

REVISION TO THE SUSSEX COUNTY-WIDE WASTEWATER MANAGEMENT
PLAN/SUSSEX COUNTY WATER QUALITY MANAGEMENT PLANS

TAKE NOTICE that on MAR 03 2003, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules, N.J.A.C. 7:15-3.5, a revision to the Sussex County-Wide Wastewater Management Plan/Sussex County Water Quality Management Plan was adopted by the Department of Environmental Protection (Department).

This revision, prepared by Suburban Consulting Engineers, Inc. on behalf of the Township of Lafayette, would permit the expansion of the existing, NJPDES Discharge to Groundwater (DGW) permitted, TMB Partners wastewater treatment facility service area located on the corner of Routes 15/94 and 623 in the Township of Lafayette, Sussex County.

The expanded service area (totaling 6.4 acres) will be created by combining the existing parcel, (Block 9, Lot 25) with the newly designated parcel, Block 9, Lot 21.03 (approximately 2.4 acres). The wastewater flow from the expanded service area/DGW treatment facility will increase from 6,936 gallons per day (gpd) to 8,686 gpd and the Sussex County Municipal Utilities Authority will retain ownership and operation of the TMB Partners wastewater treatment facility.

This revision has been reviewed in accordance with Executive Order No. 109 (2000) and N.J.A.C. 7:15-5.18. Due to the scope of this revision, it is not subject to the alternatives analysis under that Executive Order and rule provision.

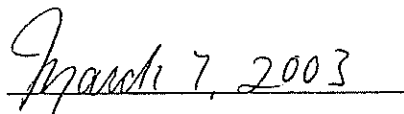

Lawrence J. Baier
