

DEPARTMENT OF ENVIRONMENTAL PROTECTION  
OFFICE OF WATER RESOURCE MANAGEMENT (WRM) COORDINATION

REVISION TO THE SUSSEX COUNTY WATER QUALITY MANAGEMENT  
PLAN

SEP - 9 2015

TAKE NOTICE that on \_\_\_\_\_, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A.58:11A-1 et seq., the Statewide Water Quality Management (WQM) Planning rules, N.J.A.C. 7:15, a revision to the Sussex County Water Quality Management (WQM) Plan (Program Interest No.: 435459; Activity No.: REV150002) was adopted by the Department. This revision, submitted on behalf of Lisa Palanchi, CEO, Rusty Cleat, LLC recognizes, as part of the Sussex County WQM Plan, an existing discharge to groundwater NJPDES-T1 Permit (NJG237566) issued to the Windlass Restaurant, located on Block 196; Lot 16, within Jefferson Township, Morris County.

It came to the Department's attention that a NJPDES T1 permit issued for an existing restaurant in operation since the 1963 was not identified in the Sussex County WQM Plan or the recently adopted Jefferson Township Municipal Chapter to the Morris County-wide Wastewater Management Plan (WMP). Adoption of this revision modified both the Jefferson Township Municipal Chapter and the Morris County-wide WMP Summary to identify the parcel as an existing on-site discharge to ground water location. In addition, the Jefferson Township Municipal Chapter has been updated to include a T1 Facility Table recognizing the discharge to groundwater facility for the Windlass Restaurant with seating for up to 299 patrons.

In accordance with N.J.A.C. 7:15-3.5(b)1.i, the adoption of this revision is necessary to correct and update statements in the areawide WQM Plan regarding development and wastewater treatment facilities existing at the time of the most recently adopted amendment affecting this site.
