

DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF COASTAL AND LAND USE PLANNING

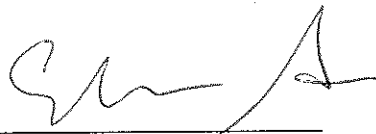

REVISION TO THE TRI-COUNTY WATER QUALITY MANAGEMENT PLAN

APR 22 2014

TAKE NOTICE that on \_\_\_\_\_, 2014, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A.58:11A-1 et seq, and the Statewide Water Quality Management Planning rules, N.J.A.C. 7:15-3.5, a revision to the Tri-County Water Quality Management Plan (WQMP) and the Gloucester County Utilities Authority (GCUA) Wastewater Management Plan (WMP) was adopted by the Department. This Revision corrects/updates the Tri-County WQMP and the GCUA WMP to include all of Block 407, Lots 31 and 40 in Deptford Township, Gloucester County in the GCUA sewer service area (SSA).

As currently mapped in the GCUA WMP (adopted on December 10, 2008), approximately 65% of this property located off of Tanyard Road (Route 663) is already included within the GCUA SSA. The remaining portion of the property is not constrained by any environmentally sensitive area as defined under 7:15-5.24, and was erroneously omitted. Expansion of the GCUA SSA to include the subject property in its entirety does not affect potential build-out calculations or potential wastewater generation per guidance under 7:15-5.25.

This qualifies as a revision in accordance with N.J.A.C. 7:15-3.5(b)1i which states, the Department and the designated planning agencies shall prepare revisions to Statewide and areawide WQM plans to correct, clarify, or update erroneous, unclear, or outdated statements regarding development and wastewater treatment facilities existing at the time of the most recently adopted areawide WQM plan or amendment affecting the site.

Elizabeth Semple, Acting Director  
Division of Coastal & Land Use Management  
Department of Environmental Protection
