

File Name: Interim

N.J. Department of Environmental Protection and Energy
Office of Regulatory Policy

AMENDMENT TO THE NJ WATER QUALITY MANAGEMENT PLANS

County: Warren

Municipality: Harmony Township

Adoption/Effective Date: February 10, 1992

Plan(s) Containing Amendment:

- A. Statewide _____
- B. Areawide X

What Plan:

Upper Delaware

Amendment Being Proposed

(Include location within the WQM Plan(s) of the changes):

This amendment proposal, which was requested by the Harmony Township Board of Education, allows for a new wastewater treatment facility utilizing groundwater disposal to serve the Harmony Elementary School. The facility will be sized to accommodate wastewater flow from 600 persons. The three existing on-site disposal systems will be abandoned and all flows conveyed to the new treatment facility. When, in the future, service becomes available to Brainard/Buck Horn Creek Sewage Treatment Plant (STP) the school will connect to the STP. *(Updated hopatcong*
