REVISION TO THE UPPER RARITAN WATER QUALITY MANAGEMENT PLAN

TAKE NOTICE that on **FEB 09 1998**, pursuant to the provisions of the Water Quality Planning Act, N.J.S.A. 58:11A-1 *et seq.*, and the Statewide Water Quality Management Planning rules, N.J.A.C. 7:15-3.5, a revision to the Upper Raritan Water Quality Management Plan was adopted by the Department. This revision modifies the Tewksbury Township Wastewater Management Plan (WMP) to reflect the correct block and lot numbers of the Route 78 (Bellemead Development) Service Area Treatment Plant sewer service area. The WMP presently indicates, on page 30, that the defined service area will include a portion of the RO zone located south of Route 78 identified as Block 48, Lots 47 and 48 and Block 46.01, Lots 6.01, 7, 8, 15, 16, and 17. During NJPDES permit review it was discovered that the WMP incorrectly cited Block 48. The correct block number is Block 47. All other lot and block numbers are correct and remain unchanged. This correction will be noted in the WMP. Additionally, the NJPDES number of the facility (#NJ0102563) will be noted on the Facility Table.
