EXPERIMENTAL or INVESTIGATIONAL.

Services or supplies which We Determine are:

- a) not of proven benefit for the particular diagnosis or treatment of a [Member]'s particular condition; or

- b) not generally recognized by the medical community as effective or appropriate for the particular diagnosis or treatment of a [Member]'s particular condition; or
- c) provided or performed in special settings for research purposes or under a controlled environment or clinical protocol.

Unless otherwise required by law with respect to drugs which have been prescribed for treatment for which the drug has not been approved by the United States Food and Drug Administration (FDA), We will not cover any services or supplies, including treatment, procedures, drugs, biological products or medical devices or any hospitalizations in connection with Experimental or Investigational services or supplies.

We will also not cover any technology or any hospitalization in connection with such technology if such technology is obsolete or ineffective and is not used generally by the medical community for the particular diagnosis or treatment of a [Member]'s particular condition.

Governmental approval of a technology is not necessarily sufficient to render it of proven benefit or appropriate or effective for a particular diagnosis or treatment of a [Member]'s particular condition, as explained below.

We will apply the following five criteria in Determining whether services or supplies are Experimental or Investigational:

1. Any medical device, drug, or biological product must have received final approval to market by the FDA for the particular diagnosis or condition. Any other approval granted as an interim step in the FDA regulatory process, e.g., an Investigational Device Exemption or an Investigational New Drug Exemption, is not sufficient. Once FDA approval has been granted for a particular diagnosis or condition, use of the medical device, drug or biological product for another diagnosis or condition will require that one or more of the following established reference compendia:

- I. The American Hospital Formulary Service Drug Information; or
- II. The United States Pharmacopeia Drug Information.

recognize the usage as appropriate medical treatment. As an alternative to such recognition in one or more of the compendia, the usage of the drug will be recognized as appropriate if it is recommended by a clinical study or recommended by a review article in a major peer-reviewed professional journal. A medical device, drug, or biological product that meets the above tests will not be considered Experimental or Investigational.

In any event, any drug which the Food and Drug Administration has determined to be contraindicated for the specific treatment for which the drug has been prescribed will be considered Experimental or Investigational.

2. Conclusive evidence from the published peer-reviewed medical literature must exist that the technology has a definite positive effect on health outcomes; such evidence must include well-designed investigations that have been reproduced by nonaffiliated authoritative sources, with measurable results, backed up by the positive endorsements of national medical bodies or panels regarding scientific efficacy and rationale;

3. Demonstrated evidence as reflected in the published peer-reviewed medical literature must exist that over time the technology leads to improvement in health outcomes, i.e., the beneficial effects outweigh any harmful effects;

4. Proof as reflected in the published peer-reviewed medical literature must exist that the technology is at least as effective in improving health outcomes as established technology, or is usable in appropriate clinical contexts in which established technology is not employable; and

5. Proof as reflected in the published peer-reviewed medical literature must exist that improvements in health outcomes, as defined in paragraph 3, is possible in standard conditions of medical practice, outside clinical investigatory settings.

- a) is properly licensed, certified, or accredited to provide health care under the laws of the state in which it operates; and

insurance; coverage for on-site medical clinics; and other similar insurance coverage, as specified in federal regulations, under which benefits for medical care are secondary or incidental to other insurance benefits. Health Benefits Plans shall not include the following benefits if they are provided under a separate policy, certificate or contract of insurance or are otherwise not an integral part of the plan: limited scope dental or vision benefits; benefits for long term care, nursing home care, home health care, community based care, or any combination thereof; and such other similar, limited benefits as are specified in federal regulations. Health Benefits Plan shall not include hospital confinement indemnity coverage if the benefits are provided under a separate policy, certificate or contract of insurance, there is no coordination between the provision of the benefits and any exclusion of benefits under any group Health Benefits Plan maintained by the same Plan Sponsor, and those benefits are paid with respect to an event without regard to whether benefits are provided with respect to such an event under any Group Health Plan maintained by the same Plan Sponsor. COORDINATION OF BENEFITS AND SERVICES

Purpose Of This Provision

A Member may be covered under this Contract and subsequently become covered by or eligible for coverage under a group Health Benefits Plan, Group Health Plan, Governmental Plan, or Church Plan. This provision also allows us to coordinate benefits with what a group Health Benefits Plan, Group Health Plan, Governmental Plan, or Church Plan pays. Coordination of benefits is intended to avoid duplication of benefits while at the same time preserving certain rights to coverage under all Plans under which the Member is covered.

Please note: The ONLY circumstances in which a person may be covered under both this Contract and under coverage under a group Health Benefits Plan, Group Health Plan, Governmental Plan, or Church Plan occur when a Member is already covered under this Contract and subsequently becomes eligible for coverage under a group Health Benefits Plan, Group Health Plan, Governmental Plan, or Church Plan.

Note: See the separate provision addressing Medicare.

DEFINITIONS

The words shown below have special meanings when used in this provision. Please read these definitions carefully. [Throughout this provision, these defined terms appear with their initial letter capitalized.]

Allowable Expense: The charge for any health care service, supply or other item of expense for which the Member is liable when the health care service, supply or other item of expense is covered at least in part under any of the Plans involved, except where a statute requires another definition, or as otherwise stated below.

We will not consider the difference between the cost of a private hospital room and that of a semi-private hospital room as an Allowable Expense unless the stay in a private room is Medically Necessary and Appropriate.

Allowed Charge: An amount that is not more than allowance for the service or supply as determined by Us, based on a standard which is most often charged for a given service by a Provider within the same geographic area.

Claim Determination Period: A Calendar Year, or portion of a Calendar Year, during which a Member is covered by this Contract and covered by a Plan and incurs one or more Allowable Expense(s) under such Plans.

Plan: Coverage with which coordination of benefits is allowed. Plan includes:

- a) Group insurance and group subscriber contracts, including insurance continued pursuant to a Federal or State continuation law;
- b) Self-funded arrangements of group or group-type coverage, including insurance continued pursuant to a Federal or State continuation law;
- c) Group or group-type coverage through a health maintenance organization (HMO) or other prepayment, group practice and individual practice plans, including insurance continued pursuant to a Federal or State continuation law;
- d) Group hospital indemnity benefit amounts that exceed \$150 per day;
- e) Governmental benefits, except when, pursuant to law, the benefits must be treated as in excess of those of any private insurance plan or non-governmental plan.

For purposes of determining plans with which this plan can coordinate, Plan does not include:

- a) Individual or family insurance contracts or subscriber contracts;
- b) Individual or family coverage through a health maintenance organization or under any other prepayment, group practice and individual practice plans;
- c) Group or group-type coverage where the cost of coverage is paid solely by the [Member], except that coverage being continued pursuant to a Federal or State continuation law shall be considered a Plan;
- d) Group hospital indemnity benefit amounts of \$150 per day or less;
- e) School accident –type coverage;
- f) A State plan under Medicaid;
- g) Medicare.

PRIMARY AND SECONDARY PLAN

We consider each plan separately when coordinating payments.

For the purpose of coordinating benefits with this individual contract, coverage under a group Health Benefits Plan, Group Health Plan, Governmental Plan, or Church Plan is always the Primary Plan and this Contract is always the Secondary Plan. Coverage under a group Health

Benefits Plan, Group Health Plan, Governmental Plan, or Church Plan pays or provides services or supplies first, without taking into consideration the existence of this Contract.

This Contract takes into consideration the benefits provided by coverage under a group Health Benefits Plan, Group Health Plan, Governmental Plan, or Church Plan. During each Claim Determination Period, this Contract will pay up to the remaining unpaid allowable expenses, but this Contract will not pay more than it would have paid if it had been the Primary Plan. The method this Contract uses to determine the amount to pay is set forth below in the **“Procedures to be Followed by the Secondary Plan to Calculate Benefits”** section of this provision.

This Contract shall not reduce Allowable Expenses for Medically Necessary and Appropriate services or supplies on the basis that precertification, preapproval, notification or second surgical opinion procedures were not followed.

Procedures to be Followed by the Secondary Plan to Calculate Benefits

In order to determine which procedure to follow it is necessary to consider:

- a) the basis on which the Primary Plan and the Secondary Plan pay benefits; and
- b) whether the provider who provides or arranges the services and supplies is in the network of either the Primary Plan or the Secondary Plan.

Benefits may be based on the Allowed Charge (AC), or some similar term. This means that the provider bills a charge and the Member may be held liable for the full amount of the billed charge. In this section, a Plan that bases benefits on an allowed charge is called an “AC Plan.”

Benefits may be based on a contractual fee schedule, sometimes called a negotiated fee schedule, or some similar term. This means that although a provider, called a network provider, bills a charge, the Member may be held liable only for an amount up to the negotiated fee. In this section, a Plan that bases benefits on a negotiated fee schedule is called a “Fee Schedule Plan.” An HMO and Exclusive Provider Organization (EPO) are examples of network only plans that could use a fee schedule. If the Member uses the services of a non-network provider, the plan will be treated as an AC Plan even though the plan under which he or she is covered allows for a fee schedule.

Payment to the provider may be based on a “capitation”. This means that then HMO or other plans pays the provider a fixed amount per Member. The Member is liable only for the applicable deductible, coinsurance or copayment. If the Member uses the services of a non-network provider, the HMO, EPO or other plans will only pay benefits in the event of emergency care or urgent care. In this section, a Plan that pays providers based upon capitation is called a “Capitation Plan.”

In the rules below, “provider” refers to the provider who provides or arranges the services or supplies and “HMO” refers to a health maintenance organization plan, and “EPO” refers to Exclusive Provider Organization.

Primary Plan is AC Plan and Secondary Plan is AC Plan

The Secondary Plan shall pay the lesser of:

- a) the difference between the amount of the billed charges and the amount paid by the Primary Plan; or
- b) the amount the Secondary Plan would have paid if it had been the Primary Plan.

When the benefits of the Secondary Plan are reduced as a result of this calculation, each benefit shall be reduced in proportion, and the amount paid shall be charged against any applicable benefit limit of the plan.

Primary Plan is Fee Schedule Plan and Secondary Plan is Fee Schedule Plan

If the provider is a network provider in both the Primary Plan and the Secondary Plan, the Allowable Expense shall be the fee schedule of the Primary Plan. The Secondary Plan shall pay the lesser of:

- a) The amount of any deductible, coinsurance or copayment required by the Primary Plan; or
- b) the amount the Secondary Plan would have paid if it had been the Primary Plan.

The total amount the provider receives from the Primary plan, the Secondary plan and the Member shall not exceed the fee schedule of the Primary Plan. In no event shall the Member be responsible for any payment in excess of the copayment, coinsurance or deductible of the Secondary Plan.

Primary Plan is AC Plan and Secondary Plan is Fee Schedule Plan

If the provider is a network provider in the Secondary Plan, the Secondary Plan shall pay the lesser of:

- a) the difference between the amount of the billed charges for the Allowable Expenses and the amount paid by the Primary Plan; or
- b) the amount the Secondary Plan would have paid if it had been the Primary Plan.

The Member shall only be liable for the copayment, deductible or coinsurance under the Secondary Plan if the Member has no liability for copayment, deductible or coinsurance under the Primary Plan and the total payments by both the primary and Secondary Plans are less than the provider's billed charges. In no event shall the Member be responsible for any payment in excess of the copayment, coinsurance or deductible of the Secondary Plan.

Primary Plan is Fee Schedule Plan and Secondary Plan is AC Plan

If the provider is a network provider in the Primary Plan, the Allowable Expense considered by the Secondary Plan shall be the fee schedule of the Primary Plan. The Secondary Plan shall pay the lesser of:

- a) The amount of any deductible, coinsurance or copayment required by the Primary Plan; or
- b) the amount the Secondary Plan would have paid if it had been the Primary Plan.

Primary Plan is Fee Schedule Plan and Secondary Plan is AC Plan or Fee Schedule Plan

If the Primary Plan is an HMO or EPO plan that does not allow for the use of non-network providers except in the event of urgent care or emergency care and the service or supply the Member receives from a non-network provider is not considered as urgent care or emergency care, the Secondary Plan shall pay benefits as if it were the Primary Plan.

Primary Plan is Capitation Plan and Secondary Plan is Fee Schedule Plan or AC Plan

If Member receives services or supplies from a provider who is in the network of both the Primary Plan and the Secondary Plan, the Secondary Plan shall pay the lesser of:

- a) The amount of any deductible, coinsurance or copayment required by the Primary Plan; or
- b) the amount the Secondary Plan would have paid if it had been the Primary Plan.

Primary Plan is Capitation Plan or Fee Schedule Plan or R&C Plan and Secondary Plan is Capitation Plan

If the Member receives services or supplies from a provider who is in the network of the Secondary Plan, the Secondary Plan shall be liable to pay the capitation to the provider and shall not be liable to pay the deductible, coinsurance or copayment imposed by the Primary Plan. The Member shall not be liable to pay any deductible, coinsurance or copayments of either the Primary Plan or the Secondary Plan.

[Primary Plan is an HMO and Secondary Plan is an HMO or EPO

If the Primary Plan is an HMO or EPO plan that does not allow for the use of non-network providers except in the event of urgent care or emergency care and the service or supply the Member receives from a non-network provider is not considered as urgent care or emergency care, but the provider is in the network of the Secondary Plan, the Secondary Plan shall pay benefits as if it were the Primary Plan. Except that the Primary Plan shall pay out-of-Network services, if any, authorized by the Primary Plan.]

[Note to carriers: This paragraph should only be included in plans issued as HMO or EPO coverage.]

EFFECT OF MEDICARE ON AN INDIVIDUAL HEALTH BENEFITS PLAN

Eligible for Medicare and Entitled to Medicare

There are three ways a person may become eligible for Medicare. The most common eligibility is the first of the month in which a person attains age 65. A person may also become eligible for Medicare due to disability following a determination of disability by the Social Security Administration. Lastly, a person may become eligible for Medicare due to End Stage Renal Disease (ESRD).

Eligibility for Medicare means a person meets the requirements to be covered under Medicare. It does not mean the person has enrolled for Medicare.

A person who is Eligible for Medicare has the opportunity to enroll for Medicare Parts A and B and may also enroll in Medicare Part D and may elect to buy a Medicare Supplement Plan. Alternatively, a person may enroll for Medicare Parts A and B and may elect coverage under a Medicare Advantage plan. For the purpose of this provision, **Eligible for Medicare** means a person is eligible for premium-free coverage under Medicare Part A.

A person who enrolls for Medicare Part A and Part B or just Part A is **Entitled to Medicare**. **Entitled to Medicare** means the person has coverage under at least one part of Medicare.

Individual is Covered Under an Individual Health Benefits Plan and Later Becomes Eligible for Medicare

Since individual health benefits plans are guaranteed renewable, We do not terminate a Member's coverage when the Member becomes Eligible for Medicare. However, the payment of benefits may change significantly. The Member must respond to Our inquiries regarding enrollment for Medicare Parts A and B.

Individual health benefits plans are not Medicare Supplement Plans and do not operate as Medicare Supplement Plans. Also note that the Medicare coordination process that applies to group plans does not apply to individual plans.

Eligibility Due to Age

We will assume the Member enrolled for Medicare Parts A and B when the person was first eligible for premium-free Medicare Part A whether or not the person actually enrolls for Medicare. The benefit payable under this Contract will equal the applicable cost sharing under Medicare Parts A and B for the services and supplies received. For example, if Medicare Part B would have paid 80% of the Medicare allowed charge, the benefit payable under this Contract would be the cost sharing of 20% of the Medicare allowed charge. This Contract will not pay benefits that would have been payable by Medicare Parts A or B if the person had enrolled for Medicare Parts A and B.

Eligibility due to ESRD and Disability

If the person has not enrolled for Medicare Parts A and B this Contract will continue to pay benefits without consideration of Medicare. If the person has enrolled for Medicare Part A or Medicare Parts A and B this Contract will pay benefits as secondary to Medicare.

Individual is Entitled to Medicare and Applies for an Individual Health Benefits Plan

Both the anti-duplication provisions of the Social Security Act and the New Jersey Individual Health Insurance Reform Act prohibit Us from issuing an individual health benefits plan to an individual who is entitled to Medicare, even if the individual has enrolled only for Medicare Part A.

The Member must respond to Our inquiries regarding whether they are Eligible for Medicare or Entitled to Medicare. When a Member turns 65 We will assume the Member is Eligible for Medicare and pay secondary benefits as set forth in this section unless the Member provides written documentation that proves the Member is not Eligible for Medicare. If Our records show that the member is Entitled to Medicare due to disability or ESRD We pay secondary benefits as set forth in this section unless the Member provides written documentation that proves they are not Entitled to Medicare and thus Our records are incorrect.

If an individual provides misinformation on the application regarding Medicare entitlement and is issued an individual health benefits plan, upon discovery of the misstatement We will take action as explained in the **Incontestability of this Contract** provision.

SERVICES FOR AUTOMOBILE RELATED INJURIES

This section will be used to determine a [Member's] coverage under this Contract when services are provided as a result of an automobile related Injury.

Definitions

"Automobile Related Injury" means bodily Injury sustained by a [Member] as a result of an accident:

- a) while occupying, entering, leaving or using an automobile; or
- b) as a pedestrian;

caused by an automobile or by an object propelled by or from an automobile.

"Allowable Expense" means a medically necessary, reasonable and customary item of expense covered at least in part as an eligible expense or eligible services by:

- a) this Contract;
- b) PIP; or
- c) OSAIC.

"Eligible Services" means services provided for treatment of an Injury which is covered under this Contract without application of Cash Deductibles and Copayments, if any or Coinsurance.

"Out-of-State Automobile Insurance Coverage" or "OSAIC" means any coverage for medical expenses under an automobile insurance policy other than PIP. OSAIC includes automobile insurance policies issued in another state or jurisdiction.

"PIP" means personal injury protection coverage provided as part of an automobile insurance policy issued in New Jersey. PIP refers specifically to provisions for medical expense coverage.

Determination of primary or secondary coverage.

This Contract provides secondary coverage to PIP unless health coverage has been elected as primary coverage by or for the [Member] under this Contract. This election is made by the named insured under a PIP policy. Such election affects that person's family members who are not themselves named insureds under another automobile policy. This Contract may be primary for one [Member], but not for another if the person has a separate automobile policy and has made different selection regarding primacy of health coverage.

This Contract is secondary to OSAIC, unless the OSAIC contains provisions which make it secondary or excess to the Contractholder's plan. In that case this Contract will be primary.

If there is a dispute as to which policy is primary, this Contract will pay benefits or provide services as if it were primary.

Services this Contract will provide if it is primary to PIP or OSAIC.

If this Contract is primary to PIP or OSAIC it will provide benefits for eligible expenses in accordance with its terms.

Benefits this Contract will pay if it is secondary to PIP or OSAIC.

If this Contract is secondary to PIP or OSAIC the actual benefits payable will be the lesser of:

- a) the Allowable Expenses left uncovered after PIP or OSAIC has provided coverage after applying Cash Deductibles and Copayments, or
- b) the equivalent value of services if this Contract had been primary.

GENERAL PROVISIONS

AMENDMENT

We may make amendments to the Contract upon 30 days' notice to the Contractholder, and as provided in (b) and (c) below. An amendment will not affect benefits for a service or supply furnished before the date of change; and no change to the benefits under this Contract will be made without the approval of the Board.

Only Our officers have authority: to waive any conditions or restrictions of the Contract, to extend the time in which a premium may be paid, to make or change a Contract, or to bind Us by a promise or representation or by information given or received.

No change in the Contract is valid unless the change is shown in one of the following ways:

- a) it is shown in an endorsement on it signed by one of Our officers.
- b) if a change has been automatically made to satisfy the requirements of any state or federal law that applies to the Contract, as provided in the section of this Contract called **Conformity With Law**, it is shown in an amendment to it that is signed by one of Our officers.
- c) if a change is required by Us, it is accepted by the Contractholder, as evidenced by payment of a premium on or after the effective date of such change.
- d) if a written request for a change is made by the Contractholder, it is shown in an amendment to it signed by the Contractholder and by one of Our officers.
