Commissioner:

In compliance with your instructions and pursuant to Insurance Laws and Rules of the State of New Jersey, a comprehensive risk focused examination has been made of the books, records and financial condition of

Selective Insurance Company of America
40 Wantage Avenue
Branchville, New Jersey 07890
NAIC Group Code 0242
NAIC Company Code 12572

hereinafter referred to as the "Company" or "SICA". The following examination report as to the condition of the Company is respectfully submitted.

SCOPE OF THE EXAMINATION

The New Jersey Department of Banking and Insurance, hereinafter referred to as the "NJDOBI" or "We", led a full scope coordinated multi-state risk-focused examination with the New York and Indiana Departments of Insurance participating. This examination covers the period of January 1, 2013, through December 31, 2017, including any material transactions and/or events occurring subsequent to the examination date and noted during the course of the examination. The principal portion of the examination was conducted at the Company's statutory home office in Branchville, New Jersey.

The Company was last examined as of December 31, 2012. The current examination was conducted concurrent with the examinations of its affiliates, Selective Way Insurance Company ("SWIC"), Selective Auto Insurance Company of New Jersey ("SAICNJ"), Selective Insurance Company of New England ("SICNE"), Mesa Underwriters Specialty Insurance Company ("MUSIC"), Selective Casualty Insurance Company ("SCIC"), Selective Fire and Casualty Insurance Company ("SFCIC"), Selective Insurance Company of the Southeast ("SICSE"), Selective Insurance Company of South Carolina ("SICSC") and Selective Insurance Company of New York ("SICNY"), (collectively, "The Group").

The NJDOBI conducted the examination in accordance with the 2017 edition of the National Association of Insurance Commissioners ("NAIC") Financial Condition Examiners Handbook (the "NAIC Handbook"). The NAIC Handbook requires NJDOBI to plan and perform the examination in order to evaluate the financial condition and identify prospective risks of the Company. To meet these objectives, NJDOBI obtained information regarding the Company's corporate governance environment, identified and assessed inherent risks to which it is exposed and evaluated the Company's system of internal controls and procedures used to mitigate identified risks. The examination also included assessing the principles used and significant estimates made by management, as well as, evaluating the overall Financial Statement presentation, management's compliance with Statutory Accounting Principles and Annual Statement instructions when applicable to domestic state regulations.

According to the NAIC Handbook, "One of the increased benefits of the enhanced risk-focused approach is to include … consideration of other than financial risks that could impact the insurer's future solvency. By utilizing the enhanced approach, the examiner reviewed the "financial" and "enterprise" risks that existed at the examination "as of" date and will be positioned to assess "financial" and "enterprise" risks that extend or commence during the time the examination was conducted and "prospective" risks which are anticipated to arise or extend past the point of examination completion. Using this approach, examiners will be better positioned to make recommendations for appropriate future supervisory plans (i.e., earlier statutory exams, limited-scope exams, key areas for financial analysts to monitor, etc.) for each insurer."

All accounts and activities of the Company were considered in accordance with the risk-focused examination process. The examination report only addresses regulatory information revealed by the examination process in accordance with the NAIC Handbook. All other financial matters were reviewed and determined not to be material for discussion in this report.

During the course of this examination, consideration was given to work performed by the Company's Internal Audit Department and the Company's external accounting firm. Work reviewed included Sarbanes-Oxley compliance, risk analysis, documentation, test work and remediation efforts over weaknesses identified. Certain auditor work papers have been incorporated into the work papers of the examiners and have been utilized in determining the scope and areas of emphasis in conducting the examination.

COMPLIANCE WITH PRIOR EXAMINATION RECOMMENDATIONS

There were no examination report recommendations from the prior examination as of December 31, 2012.
