

# Water Management Advisory Committee

## October 2015 WMAC Survey Results

**WMAC Meeting**  
*February 18, 2016*

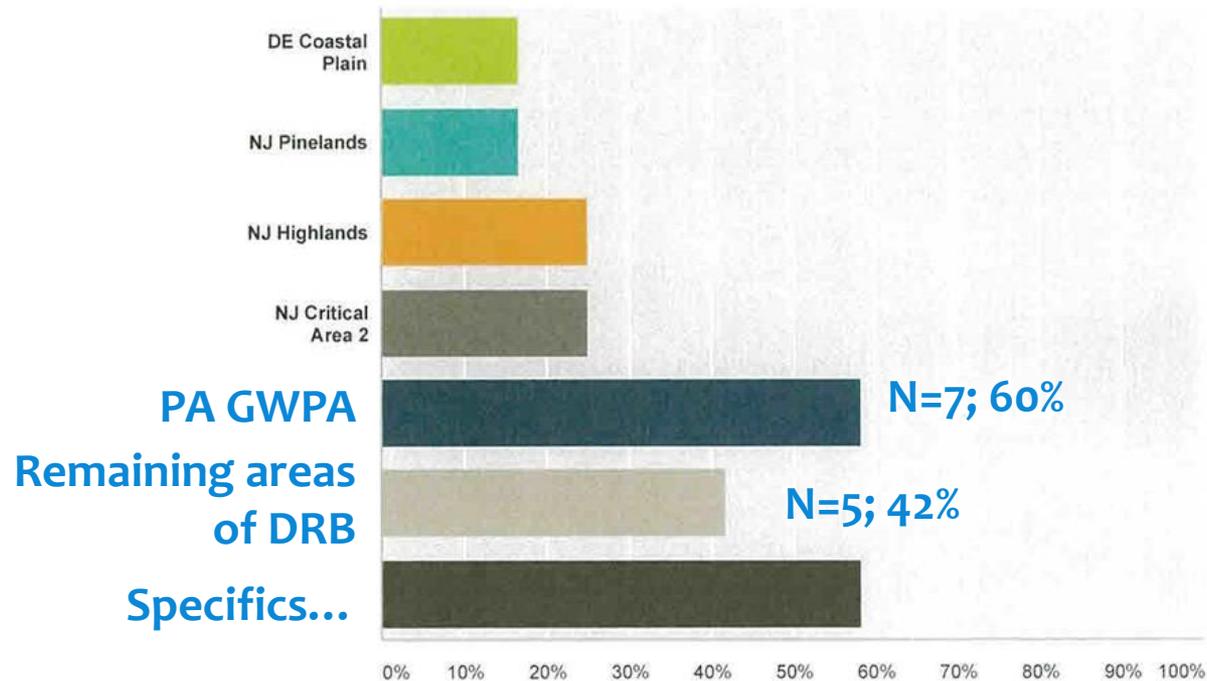

# Survey Responses

**Overall Response Rate:**

**14/20 (70%)**

# Q.1 Building on the October presentations, are there additional items you would like to discuss further?

Answered: 12 Skipped: 2

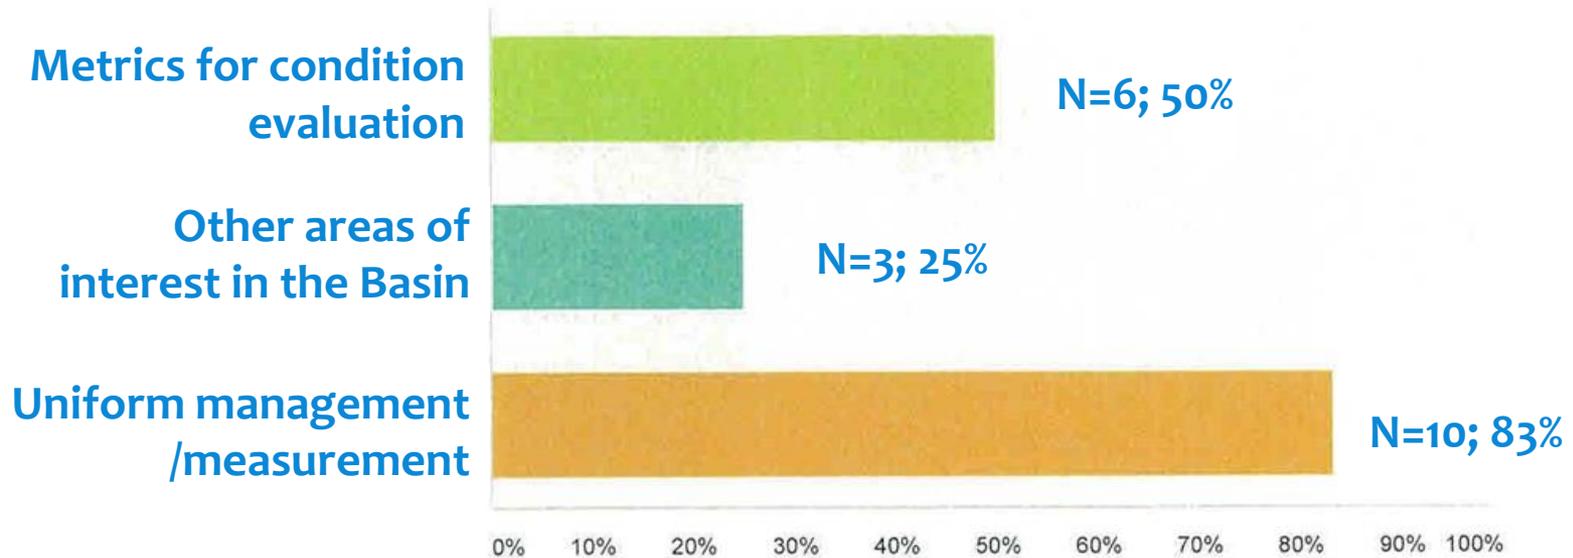

# Q.1 Specific discussion on...

- Specific Qs re SEPA GWPA
- Grassroots GW management programs for private sector
- Status of 4 states on participating in USGS-State cooperative programs for:
  - reporting water use
  - GW monitoring
- Implications of GW to SW migration for SW withdrawals, overall use & climate adaptation

# Q.2 Are there groundwater-related issues that you would like to discuss?

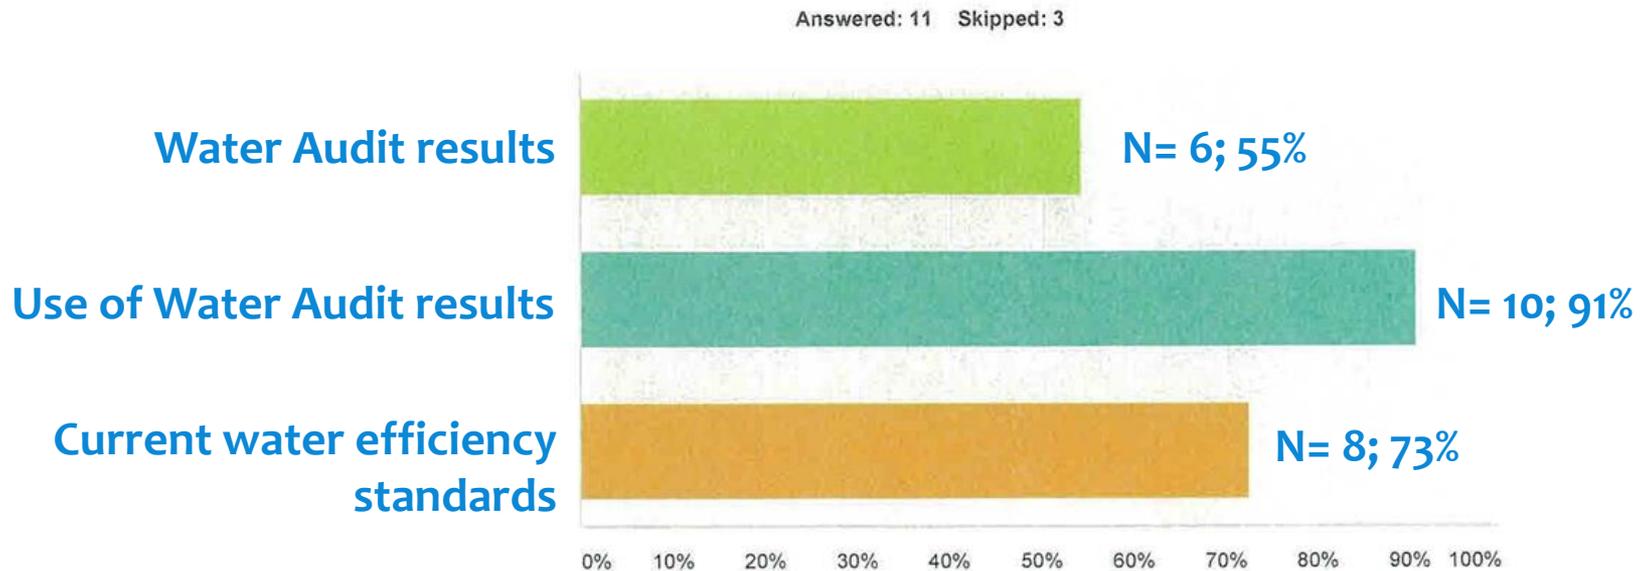

Answered: 12 Skipped: 2

## Q.2 Additional Issues

- Potential to include groundwater in the water use charging program
- More 'live' graphics/maps that highlight groundwater use?
- Increased understanding of how DRBC reviews GW withdrawal applications
- How will waste disposal around the Keystone Industrial Port Complex affect GW quality?

# Q.3 Please Identify conservation topics of interest.

## Q.3 Additional Issues

- Conservation-oriented water rates
- Economic considerations in long-range planning and as tool for conservation
- Trends in system losses
- More about water audits generally
