Date: June 25, 2020
To: Chief School Administrators, Charter School and Renaissance School Project Leads
Route To: Special Education Directors and Principals
From: Peggy McDonald, Assistant Commissioner
Division of Student Services

Webinars to Support Inclusive Education for Students with Disabilities

The Office of Special Education (OSE) would like to highlight five newly released, pre-recorded webinars that have been developed by the New Jersey Inclusive Education Technical Assistance (NJETA) project to assist educators and families supporting students with disabilities. These webinars, which share evidence-based practices for including students with disabilities, are separated into a K-12 and preschool focus. The information in the webinars is applicable to the remote instruction environment that districts are operating within now and will remain relevant upon return to in-person instruction as well.

Available webinar topics include:

- Engaging Parents as Partner Educators
- COVID-19 Stressors and Families – Yours and Your Students
- Promoting High Quality Early Childhood Inclusion During School Closure
- Utilizing Technology to Implement Inclusive Education in Remote Learning Environments
- Utilizing a Universal Design for Learning (UDL) Framework to Design Packet-Based Instruction

To access these free webinars, please visit the [NJETA website](#). The website has additional information regarding the overall goal of the NJETA project and a full listing of quality resources for educators, families, and caregivers.

For questions, please contact Chinwe Osondu, NJETA Program Officer, at chinwe.osondu@doe.nj.gov.
