District Consultations with Nonpublic Schools Regarding ESSA Titled Programs

This memo serves as a reminder to districts of the requirement of the *Every Student Succeeds Act of 2015 (ESSA)* to provide consultation for equitable services for nonpublic school students, their teachers, and other educational personnel.

For districts to comply, outreach and consultation must begin before the implementation of services. The New Jersey Department of Education (NJDOE) advises districts to begin the consultation process as soon as possible to ensure that all third-party contracts and agreements are executed no later than June 30, 2021, so services can begin on July 1, 2021.

As a result of the public health-related school closures, all consultations can be conducted virtually, and all signed forms may be collected via email.

Successful consultation establishes positive and productive working relationships and ensures effective planning. Consultation should continue throughout implementation period of equitable services to ensure that the services meet the needs of eligible students, their teachers, and other educational personnel.
