Please join the Children's System of Care in collaboration with PerformCare, in our Virtual Town Hall. We look forward to providing a deeper understanding of who CSOC and PerformCare are, an overview of services offered and the processes that are involved within our system. This will be an opportunity for you to get to know the CSOC and PerformCare team, ask questions, and gain a deeper understanding of the services and supports available to your students with mental health, substance use and intellectual and developmental disability needs.
