Release of Independent Auditor Information for Fiscal Year Ending June 30, 2022

The New Jersey Department of Education (NJDOE) has posted the following year-end audit documents to the [Finance section](#) of its website:

- School District, Charter School, and Renaissance School Project Audit Program for FY 2022 (Audit Program);
- The School District, Charter School, and Renaissance School Project State Aid/Grant Compliance Supplement for FY 2022 (Compliance Supplement); and
- The School District, Charter School, and Renaissance School Project Administrative Questionnaire (Questionnaire)

Key steps/actions

The *2021-22 Audit Program and Compliance Supplement* have been updated and revised to reflect changes to laws, regulations, programs and financial reporting standards effective for FY 2022. For ease of use, new guidance added to the *Audit Program* has been summarized in the Introductory Section (Significant Changes and Other Changes and Updates).

The *Compliance Supplement* establishes the audit procedures to test compliance with the requirements for selected State of New Jersey funded programs, and is arranged by sections and chapters. Similar to the *Audit Program*, the *Compliance Supplement* presentation for 2022 is applicable to public school districts, charter schools, and renaissance school projects. The 2022 presentation includes subtitles for each type of aid that clearly indicate whether the compliance requirements and suggested audit procedures for that aid category are applicable to independent audits of school districts, charter schools, or renaissance school projects.

The *Questionnaire* must be completed by every school district, charter school and renaissance school project. The school undergoing audit must present the completed *Questionnaire* to the auditor no later than commencement of audit fieldwork. The *Questionnaire* is included in Section III – Chapter 6 of the *Audit Program*. Auditors must review this questionnaire in conjunction with their test of transactions and include a finding and recommendation if the school district, charter school or renaissance school project presents a questionnaire that is substantially incomplete or inaccurate.

School district, charter school, and renaissance school project business administrators/board secretaries are encouraged to download a copy of the *Questionnaire* from the [NJDOE's Finance webpage](#) for completion prior to the start of the audit. Auditors will obtain the *Questionnaire* for inclusion in their audit work papers.

This checklist is presented in Section III, Chapter 6 of the *Audit Program*.
- The Statistical Section is a required component of the ACFR (reference the *Audit Program* - Section III, Chapter Three) and requires the availability of certain statistical data for presentation.
