**[Board of Public Utilities' Energy Savings Improvement Program \(ESIP\)](#)**

Do you need to make energy efficient improvements to the buildings in your district, but don't have room in the budget? NJ BPU's Energy Savings Improvement Program (ESIP) is a financing mechanism that allows public entities to make energy efficient facility upgrades without upfront capital expense OR impact to taxpayers. If you're looking to modernize aging infrastructure; lower your energy spend while also significantly enhancing indoor air quality/occupant comfort, then ESIP is for you!

For more information about the program, please complete the [ESIP Intake form](#) and the ESIP Coordinator will contact you to schedule a meeting.

**Deadline:** Rolling admissions; can participate at any time
