

# STATE OF NEW JERSEY DEPARTMENT OF EDUCATION

A Memo from the New Jersey Department of Education

**Date:** June 3, 2026  
**To:** Local Educational Agency Leads  
**Route To:** Assistant Superintendents, Principals, Teachers, Curriculum Supervisors  
**From:** Jorden Schiff, Ed.D., Assistant Commissioner  
Division of Teaching and Learning Services

## Continuation of Climate Change Learning Collaboratives Initiative

In 2024, the New Jersey Department of Education (NJDOE) established regional [Climate Change Learning Collaboratives](#) (CCLCs) at four New Jersey institutes of higher education. The NJDOE is pleased to announce the continuation of the CCLCs initiative for a third year.

The CCLCs provide local education agencies (LEAs) with **free professional development, technical assistance, experiential learning opportunities, and networking opportunities** to aid in their implementation of the New Jersey Student Learning Standards supporting climate change education across all nine content areas. Local education agencies are encouraged to seek guidance and support for their climate change education initiatives from their regional CCLC and to visit their CCLC's website for information on upcoming events (**see table below for each CCLC's information**).

### Services Provided by the Climate Change Learning Collaboratives

Each CCLC will provide LEAs with the following services, **free of charge**, from June 1, 2026 to May 31, 2027:

- **Professional development** (stipends offered to educators) and **technical assistance** covering:
  - Climate change subject knowledge and climate justice issues.
  - Identifying, developing, and implementing interdisciplinary, project-based unit plans.
  - Creating and identifying locally focused experiential learning opportunities for students.
  - Relevant technology, teaching tools, self-assessment tools, and evaluation strategies.
  - Identifying and applying for external grants and certifications.
  - Establishing green teams and developing sustainability plans.
  - Green and blue career awareness and related workforce development opportunities.
- **Experiential learning opportunities** for educators (stipends offered) and students that extend climate change education beyond the classroom, providing opportunities to interact with local ecosystems.
- **Networking and collaborative opportunities**, including:
  - Dedicated time at events for innovating with fellow educators at neighboring LEAs.
  - An email listserv and cloud-based collaboration site for virtual networking and resource sharing.
  - Grade-banded, interdisciplinary educator professional learning communities.
  - A CCLC culminating conference showcasing the climate change education initiatives of LEAs.

### Contact Information

For questions, please contact the Climate Change Education Unit at [ClimateEducation@doe.nj.gov](mailto:ClimateEducation@doe.nj.gov).

## New Jersey Department of Education Climate Change Learning Collaboratives (CCLCs)

Each CCLC is comprised of an interdisciplinary project team from the institute of higher education and their community-based nonprofit organization partners.
