Introduction

The mission of the New Jersey Department of Education (NJDOE) is to ensure that all students, regardless of birth circumstance, graduate from high school ready for college and career. Charter schools play a critical role in meeting the mission of the NJDOE and we are committed to providing New Jersey families, particularly those in high-need communities, with quality schools. This Request for Applications (RFA) calls for applications to start charter schools that are likely to achieve strong educational outcomes. Through charter schools, we expect to provide families with educational options of many different shapes and sizes but with one thing in common: quality education.

This application packet will guide you through the steps of developing a charter school application. Each section requests information about a specific aspect of your plan that will allow reviewers to understand and determine the overall capacity of the founding team to open and operate a quality charter school.

Characteristics of a successful application include but are not limited to:

- A clear, focused, results-oriented mission statement that aligns with all parts of the application;
- Demonstrated success with the student population that the school is likely to serve;
- An educational program that is likely to be effective for the student population;
- Strong and diverse leadership with demonstrable experience leading successful charter schools; and
- Strong financial planning and management.
