Honorable President and Members of the Board of Education Alexandria Township County of Hunterdon, New Jersey

Dear Board Members:

The Comprehensive Annual Financial Report (CAF) of the Alexandria Township Board of Education for the fiscal year ending June 30, 2015 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation rests with the management of the Board of Education.

To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operation of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Some districts publish a comprehensive annual financial report (CAFR). A CAFR is the District's official annual financial report, containing the basic financial statements as well as introductory material; additional statements and schedules; and other financial, economic, and demographic information.

Basically the CAFR contains these three sections: introductory, financial, and the statistical sections. The contents of these three sections include:

 -Introductory section, including a letter of transmittal
 -Financial section, which includes the auditor's report, Management's Discussion and Analysis (MD&A), basic financial statements, required supplemental information (RSI), combining and individual fund financial statements and schedules
 -Statistical section The introductory section is the CAFR's first major section. As the name implies, this section introduces the reader to the CAFR. It includes the following:

-Cover -Title Page -Table of Contents -Transmittal Letter -Listing of Board Members and Administrators -Organizational Chart

The financial section consists of the MD&A, the auditor's report, the basic financial statements including notes to the financial statements, RSI, and the combining and individual fund statements.

The CAFR's last section is the statistical section, which presents comparative data for several periods of time.

School districts must prepare financial statements in accordance with the provision of GASB Statement No. 34.

A. <u>REPORTING ENTITY AND ITS SERVICES</u>: The Alexandria Township Board of Education is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board as established by the National Council on Governmental Accounting Statement No. 3. All funds and account groups of the District are included in this report. The Alexandria Township Board of Education and its two schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels prekindergarten through 8. These include regular, as well as special education services. Accelerated programs, enrichment opportunities for all students, and self-contained multiple disabilities program in the Alexandria Middle School.

The District also offers an integrated preschool program at the Lester D. Wilson School. This program generated tuition revenue for each regular education preschool student at \$6,000 per student for a full day 10 month program. Transportation for these students is the responsibility of the parents.

The Board of Education authorized the submission of the New Jersey Interdistrict Public School Choice Program application on October 20, 2010. In April 2011, the District received notice that we were chosen to participate in the school choice program commencing with the 2011-12 school year. The District receives Choice Aid for each student received.

District enrollment as of June 30, 2015, was 486 students.

B. ALEXANDRIA MIDDLE SCHOOL EXPANSION PROJECT:

On September 25, 2001, the voters approved a \$6,541,000 referendum for an expansion and renovation project at the Alexandria Middle School by a margin of 471 to 446.

Of the \$6,541,000, under the Educational Facilities Construction and Financing Act, a State grant in the amount of \$1,585,988 was received throughout the life of the project as certain milestones were met.

The Board of Education, on June 10, 2002, authorized the sale of \$4,955,000 in registered School Bonds that would mature in the principal amounts on July 15, 2004, and each July 15 through 2017.

Interest payments commenced on January 15, 2003, and were due each January 15 and July 15 through 2017.

On November 23, 2013, the Board of Education determined that the current tax-exempt interest rate environment may enable it to realize going-forward debt service savings for the taxpayers through the issuance by the Board of Refunding School Bonds, Series 2010 to refund all or a portion of its outstanding callable 2002 School bonds in the amount of \$2,595,000 maturing on July 15, 2012 through July 15, 2017.

On February 25, 2011 the Board of Education sold its School Refunding Series 2011. The sale resulted in a debt service savings considerably grater that the three percent (3%) savings minimum requirement by the State. The bonds were sold at a 4.618% present value savings. The yields on each annual maturity of the Bonds ranged from 0.800% to 2.630%.

Additionally, the Board of Education put \$100,000 of capital reserve funds toward the Refunding of School Bonds to yield a true \$225,383 in gross savings with a present value of \$210,254.

C. LESTER D. WILSON SCHOOL PROJECT

<u>Entrance Enhancement</u>: On June 27, 2013, the Alexandria Township Board of Education authorized the Spiezle Architectural Group to submit a security vestibule project for the Lester D. Wilson School as a Grant for a School Facilities Project. As of July 1, 2015, this project is complete. The conversion of a classroom to office space, redesign of security doors, and enhanced video camera system ensures a secure entrance to the school.

D. <u>QUALITY SINGLE ACCOUNTABILITY CONTINUUM (QSAC)</u>: The Quality Single Accountability Continuum is the Department of Education's monitoring and evaluation system for public school districts. The system shifts the monitoring and evaluation focus compliance to assistance, capacity-building and improvement. It is a single

comprehensive accountability system that consolidates federally required improvements. The system focuses on monitoring and evaluating school districts in five key components which, based on research, have been identified to be key factors in effective school districts. These components are:

- Instruction and program;
- Personnel;
- Fiscal Management;
- Operations: and
- Governance.

Pursuant to the requirements of N.J.A.C. 6A:30, the District submitted the QSAC district performance review (DPR) in November 2012. Based on that performance review following are the results, including county office verification of the District's self-assessment:

| • | Instruction and program | 91% |
|---|-------------------------|------|
| • | Fiscal management | 100% |
| • | Operations | 95% |
| • | Personnel | 100% |
| • | Governance | 100% |

Based on that performance review in which the District satisfied at least 80% of the QSAC indicators in all five DPR areas, the District has been designated as high performing.

On March 6, 2013, the State Board of Education certified the District for a period of three years as providing a thorough and efficient education, in accordance with N.J.S.A. 18A:7A-14

E. <u>INTERNAL ACCOUNTING CONTROLS</u>: The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles.

The internal control structure is designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognized that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of Federal and State financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance

with applicable laws and regulations related to those programs. Annual evaluations of the District's internal control structures validate the effectiveness of these oversight entities.

F. <u>BUDGETARY CONTROLS</u>: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to insure compliance with legal provisions embodied in the annual appropriate budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the General Fund, the Special Revenue Fund, and for the Debt Service Fund.

G. <u>ACCOUNTING SYSTEM AND REPORT</u>: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standard Board. The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements".

H. <u>FINANCIAL INFORMATION AT FISCAL YEAR-END</u>: As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

I. <u>CASH MANAGEMENT</u>: The investment policy of the District is guided in large part by State statute as detailed in "Notes to the Financial Statements". The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUPA). GUPA was enacted in 1970 to protect Governmental Units from loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

J. <u>RISK MANAGEMENT</u>: The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and content, and fidelity bonds.

K. <u>OTHER INFORMATION</u>: Independent audit – State statutes require an annual audit by an independent certified public accountant or registered municipal accountant. The accounting firm of William M. Colantano, Jr., Certified Public Accountant, was appointed by the Board of Education to conduct the annual audit. In addition to meeting the requirements set forth in State statutes, the audit is also designed to meet the requirements of the Single Audit Act of 1984 and the related OMB Circular A-133 and State Treasury Circulate letter 15-08 OMB, and GASB Statement No. 34. The auditor's report on the general-purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

L. <u>ACKNOWLEDGEMENTS</u>: We would like to express our appreciation to the members of the Alexandria Township Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school District and thereby contributing their full support to the development and maintenance of our financial operation.

Respectfully Submitted,

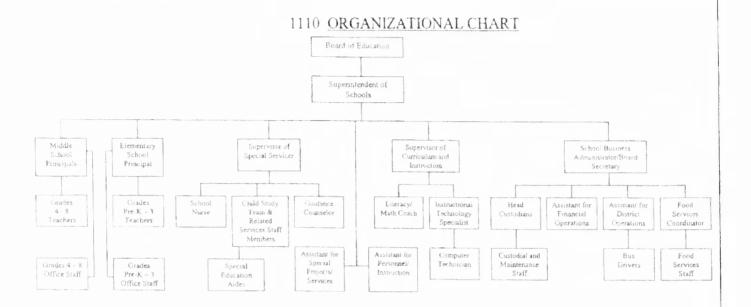

Matthew J. Jennings, Ed.D. Superintendent

David E. Pawlowski School Business Administrator/ Board Secretary

INDEPENDENT AUDITOR'S REPORT

October 28, 2015

Honorable President and Members of the Board of Education Alexandria Township School District County of Hunterdon, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Alexandria Township School District (the District) in the County of Hunterdon, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether dud to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and the schedule of state financial assistance as required by NJ OMB 15-08 and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, the schedule of and the schedule of state financial assistance as required by NJ OMB 15-08 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

William M. Colantano, Jr.

Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and the schedule of state financial assistance as required by NJ OMB 15-08 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 28, 2015 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION-PART I

Management's Discussion and Analysis For The Fiscal Year Ended June 30, 2015 Unaudited

This section of the Alexandria Township School District's annual financial report presents its discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2015. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

- In total, net position increased \$185,910, which represents a 2.81 percent increase from 2014.
- General revenues accounted for \$12,401,703 in revenue or 96.82 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions for \$406,994 or 3.15 percent to total revenues of \$12,808,697.
- Total assets of governmental activities increased by \$104,432 as cash and cash equivalents increased by \$454,920, receivables decreased by \$68,274 and capital assets decreased by \$282,214.
- The School District had \$12,658,347 in expenses; only \$406,994 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes) of \$12,251,353 were adequate to provide for these programs.
- Among major funds, the General Fund had \$10,578,641 in revenues and \$10,480,646 in expenditures. After accounting for net transfers out of \$14,563 the General Fund's balance increased \$83,432 over 2014.

Overview of the Financial Statements

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the district.

- The first two statements are **district-wide financial statements** that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are **fund financial statements** that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.

Management's Discussion and Analysis For The Fiscal Year Ended June 30, 2015 Unaudited

- The **governmental funds statements** tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
- **Proprietary funds** statements offer short- and long-term financial information about the activities the District operates like businesses such as food services.
- **Fiduciary funds** statements provide information about the financial relationships in which the District acts as a trustee or agent for the benefit of others, such as student activities.

District-Wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how they have changed. Net position – the difference between the district's assets and liabilities – is one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indicator or whether its financial position is improving or deteriorating. To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's property tax base, the condition of school buildings and other facilities, current laws in New Jersey restricting revenue growth, and required educational programs.

In the district-wide financial statements, the District's activities are divided into two categories:

- **Governmental activities:** Most of the District's basic services are included here, such as instruction, special education, support services, operation and maintenance of plant facilities, pupil transportation, administration, and extracurricular activities.
- **Business-type activities:** This service is provided on a charge for goods and services basis to cover the costs of certain services it provides. The food service is reported as business activity.

Management's Discussion and Analysis For The Fiscal Year Ended June 30, 2015 Unaudited

Reporting the School District's Most Significant Funds

Fund Financial Statements

The fund financial statements provide more detailed information about the District's fund, focusing on its most significant funds. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. The School District uses many funds to account for a multitude of financial transactions. Some funds are required by State law while the District establishes other funds to control and manage money for particular purposes such as repaying long-term debts and to show that it is properly using certain revenues such as federal grants.

The District has three kinds of funds:

Governmental funds: Most of the District's basic services are included in government funds, which focus on how money flows into and out of those funds and the balances left at the year-end that are available for spending. The government funds statements provide a detailed short-term view that helps you determine whether there are more or fewer resources that can be spent in the future to finance the District's programs. The relationship (or difference) between governmental activities (reported in the Statement of Net Assets and Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise funds: The District's enterprise funds are the same as its business-type activities but provide more detail and additional information.

Fiduciary funds: The District is the trustee, or fiduciary, for assets that belong to others, such as the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use assets to finance its operations.

Financial Analysis of the District as a Whole

The Statement of Net Position provides the perspectives of the District as a whole, showing assets, liabilities, and the difference between them (net position). Net position may serve over time as a useful indicator of a district's financial position.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Management's Discussion and Analysis For The Fiscal Year Ended June 30, 2015 Unaudited

Table 1 provides a summary of the District's net position at 6/30/15 with comparisons to 6/30/14.

The negative balance in unrestricted net assets is not a negative reflection on the District's financial condition, but is the result of reporting required by GASB Statement No. 68 Accounting and Financial Reporting for Pensions which allocates the proportionate share of the State's net pension liability for PERS to each contributing entity throughout the State.

Governmental Activities

The unique nature of property taxes in New Jersey creates the need to routinely seek voter approval for the school district operations. Property taxes made up 72.20 percent of revenues for governmental activities for the Alexandria Township School District for the fiscal year 2015. The district's total governmental revenues on a district wide basis were \$11,221,634 for the year ended June 30, 2015.

Management's Discussion and Analysis For The Fiscal Year Ended June 30, 2015 Unaudited

The total cost of all governmental expenses and services on a district wide basis was \$11,167,702.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3 provides a summary of the School District's cost of governmental services in fiscal years 2015 and 2014.

Table 3 Cost of Governmental Services

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student.

Pupils and instructional staff include activities involved with assisting staff with the content and process of teaching to students.

General administration, school administration, and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings, and equipment in an effective working condition.

Management's Discussion and Analysis For The Fiscal Year Ended June 30, 2015 Unaudited

Curriculum and staff development includes expenses related to planning, research, development, and evaluation of support services, as well as the reporting of this information internally and to the public.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by State law.

Extracurricular activities include expenses related to student activities provided by the school district which are designed to provide opportunities for students to participate in school events, public events, or a combination of these for the purposes of motivation, enjoyment, and skill improvement.

Interest on debt involves the transactions associated with the payment of interest and other related charges to debt of the School District.

The School District's Funds

All governmental funds, General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund, presented in the fund-bases statements are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$11,211,634 and expenditures were \$11,167,702. The net change in fund balance for the year was a increase of \$53,932.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

General Fund Budgeting Highlights

The Alexandria Township School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

Budgets are prepared in December/January with revenue information made available in February/March and a public vote on the school district budget, if necessary, in November. The fiscal year runs from July 1 through June 30. Changes occur over that 18-month period.

Unanticipated shifts in enrollment, staffing needs, students requiring special services, uncertain energy costs, and unfunded programs are often mandated after a budget is adopted.

The District builds a budget to meet the needs of its students based on the information and projections that are available during the budget cycle.

Management's Discussion and Analysis For The Fiscal Year Ended June 30, 2015 Unaudited

During the course of the 2015 fiscal year, the District amended its General Fund Budget by transferring funds as needed to prevent over-expenditures in specific line item accounts and to respond to a reduction in state aid and additional special education costs.

Capital Assets

At the end of the fiscal year 2015, the District had \$9,154,909 invested in land, buildings, furniture, equipment, construction in progress, and vehicles, net of accumulated depreciation.

Table 4 provides a summary of the School District's capital assets net of depreciation at 6/30/15 with comparisons to 6/30/14.

Factors Bearing on the District's Future

The Alexandria Township School District is in good financial condition although at the time these financial statements were prepared and audited, the District was not aware of existing circumstances that could affect its financial health in the future.

Management's Discussion and Analysis For The Fiscal Year Ended June 30, 2015 Unaudited

A concern is with the increased reliance on local property taxes to support the District's programs. Additionally, health benefit costs are rising in the double digits. Future finances are not without challenges.

On January 26, 2012 the Alexandria Township Board of Education passed a resolution to eliminate the vote on the annual budget and to move the election of school board members to the general election in November. P.L. 2011, Chapter 202 legislation provides districts this option. This eliminates the vote on the annual school budget which shall be within the statutory cap and becomes effective for the 2012-13 budget.

Alexandria Township is primarily a residential community, with very few ratables; thus the burden is focused on homeowners to bear the tax burden.

New Jersey school districts have no taxing authority. Municipalities collect all property taxes for their respective communities and pay over to the other government agencies what is collected on their behalf. The municipalities pay over to the school districts the exact amount approved by the voters or, in the case of a budget defeat, the amount agreed to by the municipalities and Board of Education.

In conclusion, the Alexandria Township School District has committed itself to financial excellence for many years. In addition, the District's system for financial planning, budgeting, and internal financial controls are well regarded. The District plans to continue its sound fiscal management to meet the challenge of the future.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (Board) of the Alexandria Township School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

The Basic Financial Statements Include:

- A Management's Discussion and Analysis (MD&A) providing an analysis of the Districts overall financial position and results of operations.
- Basic financial statements prepared using full-accrual accounting for all of the District's activities.

A. Reporting Entity

The District is a Type II district located in the County of Hunterdon, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board is comprised of nine members elected to three-year-terms. The purpose of the district is to educate students in Grades K-8. The District had an approximate enrollment at June 30, 2015 of 486 students.

The primary criterion for including activities within the District's reporting entity as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- 1. The organization is legally separate (can sue or be sued in their own name.)
- 2. The District holds the corporate powers of the organization.
- 3. The District appoints a voting majority of the organization's board.
- 4. The District is able to impose its will on the organization.
- 5. The organization has the potential to impose a financial benefit/ burden on the District.
- 6. There is a fiscal dependency by the organization on the District.

Based on the aforementioned criteria, the District has no component units.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity as been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The District has elected to treat all of its governmental funds as major funds and they are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, early retirement, arbitrage rebates, and post employment healthcare benefits, are recorded only when payment is due.

Property taxes, tuition and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. As under New Jersey State Statute, a municipality is required to remit to its school district the entire property tax balance, in the amount voted upon or certified prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an accounts receivable. All other revenue items are considered to be measurable and available only when the District receives cash.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Cont'd)

Amounts reported as program revenues include 1) charges to students for tuition, fees, rental, material, supplies, or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, and unrestricted state aids.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted, as they are needed.

The District reports the following major governmental funds:

<u>General Fund</u> - The General Fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment, which are classified in the Capital Outlay sub fund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

<u>Special Revenue Fund</u> - The District accounts for the proceeds of specific revenue sources from State and Federal Government (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes in the Special Revenue Fund.

<u>Capital Projects Fund</u> - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

<u>Debt Service Fund</u> - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Cont'd)

Additionally, the District Reports the Following Fund Types:

Proprietary Fund Types

<u>Proprietary Fund</u> - The focus of Proprietary Fund measurement is upon determination of net income, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the Proprietary Funds of the District:

<u>Enterprise Fund</u> - The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund is comprised of the Food Service Fund.

All proprietary funds are accounted for on a current financial resources measurement focus. This means that all assets and liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (total net position) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

| Equipment | 12 Years |
|-------------------------|----------|
| Light Trucks & Vehicles | 4 Years |
| Heavy Trucks & Vehicles | 6 Years |

Fiduciary Fund Types

<u>Trust and Agency Funds</u> - The Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/ or other funds. Agency funds are custodial in nature and do not involve measurement of results of operations. The following is a description of the Trust and Agency Funds of the District.

<u>Unemployment Compensation Trust Fund</u> - This fund is used to account for the portion of employee deductions for unemployment compensation required to be deposited and accumulated for future unemployment claims under the "Benefit Reimbursement Method."

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Cont'd)

Fiduciary Fund Types (Cont'd)

<u>Student Activities Agency Fund</u> - This fund is used to account for funds derived from athletic events or other activities of pupil organizations and accumulated for payment of student group activities.

<u>Payroll Agency Fund</u> - This fund accounts for the withholding and remittance of employee salary deductions.

D. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue, and Debt Service Funds. The budgets are submitted to the county office and, if necessary, are voted upon at the annual school election in November. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in NJAC 6:20-2A.2(m)1. All budget amendments must be approved by School Board resolution. Budget amendments during the year ended June 30, 2015 were insignificant.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For Governmental Funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund Types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

E. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in Governmental Funds other than the Special Revenue Fund are reported as reservations of fund balances at fiscal yearend as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund for which the District has received advances are reflected in the balance sheet as unearned revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

F. Tuition Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

G. Tuition Payable

Tuition charges for the fiscal years 2014-2015 and 2013-2014 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

H. Short-Term Interfund Receivables/Payables

Short-Term Interfund receivables/payables represents amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

I. Inventories and Prepaid Items

Inventories and prepaid items, which benefit future periods, other than those recorded in the Enterprise Fund are recorded as an expenditure during the year of purchase.

Enterprise Fund inventories are valued at cost, which approximates market, using the first-in-firstout (FIFO) method. The commodities inventory value at balance sheet date is reported as a unearned revenue as title does not pass to the school district until the commodities are used. Prepaid items in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2015.

J. Capital Assets

Capital assets, which include land, land improvements, buildings and improvements, vehicles and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$2,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

J. Capital Assets (Cont'd)

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

All reported capital assets, except for land and construction in progress, of the District are depreciated using the straight-line method over the following estimated lives:

| Assets | Years |
|--|---------|
| Buildings | 50 |
| Building Improvements & Portable Classroom | 50 |
| Land Improvements | 20 |
| Furniture | 20 |
| Maintenance Equipment | 15 |
| Musical Instruments | 10 |
| Athletic Equipment | 10 |
| Audio Visual Equipment | 10 |
| Office Equipment | 5 to 10 |
| Computer Èquipment | 5 to 10 |
| Vehicle | 5 |

K. Compensated Absences

The District accounts for compensated absences (e.g., unused vacation and sick leave) as directed by Governmental Accounting Standards Board statement number 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the Districts' agreements with the various employee unions.

The liability for compensated absences was accrued using the vesting method, whereby the liability is calculated by vesting balances as of the balance sheet date for which a payment is probable. Salary related payments for the employer's share of social security and medicare taxes are included.

For the government-wide statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, in the fund financial statements, all of the compensated absences are considered long-term and therefore are not a fund liability. This represents a reconciling item between the fund and government-wide presentations.

L. Unearned Revenue

Unearned revenue in the General Fund and Special Revenue Fund represents cash, which has been received but not yet earned. See Note 1 (E) regarding the Special Revenue Fund.

Unearned revenue in the Enterprise Fund includes United States government commodity inventories at year-end. The aid revenue associated with this commodity inventory is deferred until it is used in the operations of the Food Service Fund. Prepaid lunch debit card revenue balances at year-end are also included in unearned revenue.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

M. Long-Term Obligations

In the government-wide financial statements and in internal service fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses.

N. Fund Balances-Governmental Funds

In the fund financial statements, governmental funds report the following classifications of fund balance:

- Non-Spendable–includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.
- Restricted–includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.
- Committed—includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education.
- Assigned-includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator.
- Unassigned-includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

O. Comparative Data/Reclassifications

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the District's financial position and operations. Also, certain immaterial amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

P. Allocation of Indirect Expenses

Certain expenses, which have not been charged to a specific function in the District's fund financial statements, have been allocated to the functions for the government-wide statements. Employee benefits, on-behalf TPAF pension contributions, reimbursed TPAF social security contributions and compensated absences accruals have been allocated based on salaries by function. Depreciation expense which was not specifically identified by function has been allocated based on the current year expenses by function.

NOTE 2. TAX ASSESSMENTS AND PROPERTY TAXES

Property valuations (assessments) are determined on true values as arrived at by a cost approach, market data approach and capitalization of net income where appropriate. Current assessments are the results of new assessments on a like basis with established comparable properties for newly assessed or purchased properties. This method assures equitable treatment to like property owners.

Upon the filing of certified adopted budgets by the municipality, the municipality's local school districts, and the county, the tax rate is struck by the County Board of Taxation based on the certified amounts in each of the taxing districts for collection to fund the budgets. The statutory provision for the assessment of property, levying of taxes and the collection thereof are set forth in NJSA 54:4 et seq. Special taxing districts are permitted in New Jersey for various special services rendered to the properties located within the special districts.

Tax bills are mailed annually in June. The taxes are due August 1 and November 1 respectively, and are adjusted to reflect the current fiscal year's total tax liability. The preliminary taxes due February 1 and May 1 of the succeeding fiscal year are based upon one-half of the current year's total tax.

Tax installments not paid on or before the due date are subject to interest penalties of eight percent per annum on the first \$1,500 of the delinquency and eighteen percent per annum on any amount in excess of \$1,500. Pursuant to Chapter 75, PL 1991, the governing body may also fix a penalty to be charged to a taxpayer with a delinquency in excess of \$10,000 who fails to pay that delinquency prior to the end of the calendar year. The penalty so fixed shall not exceed six percent of the amount of the delinquency. These interest and penalties are the highest permitted under the New Jersey statutes. Delinquent taxes are annually included in a tax sale in accordance with New Jersey statutes.

School taxes are guaranteed as to amount of collection by the municipality, the collection agency, and are transmitted to the school district in accordance with the schedule of tax installments as certified by the school district's Board of Education on an annual basis.

NOTE 3. DEPOSITS AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. US Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at amortized cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

NJSA 17:9-41 e.t. seq establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and saving banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

Deposits at June 30, 2015 appear in the financial statements as summarized below:

| Cash | | <u>\$ 1,173,345</u> |

Deposit and Investment Risk

GASB Statement No. 40 "Deposit and Investment Risk Disclosures" requires state and local governments to communicate key information about deposit and investment risks. Required disclosures are as follows:

- 1. Custodial credit risk disclosures are required for:
 - deposits that are uninsured and either (a) uncollateralized or (b) collateralized with securities held by the pledging financial institution, or its trust department or agent but not in the government's name
 - •
 - Investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the government's name

As the district has no such investments, this disclosure is not applicable.

- 2. Credit quality ratings for investments in debt securities, external investment pools, money market funds, bond mutual funds, and other pooled investments of fixed-income securities. As the district has no such investments, this disclosure is not applicable.
- Disclosure of investments by amount and issuer for any issuer that represents five percent of more of total investments. This requirement does not apply to investments issued or explicitly guaranteed by the US government and investments in mutual funds or pools. This disclosure is reported below under <u>Concentration of Credit Risk</u>.
- 4. Interest rate risk disclosures are required for all debt investments and non-money market like pools. As the district has no such investments, this disclosure is not applicable.
- 5. Investments that are exposed to foreign currency risk should be disclosed. As the district has no such investments this disclosure is not applicable.

Concentration of Credit Risk

The State of New Jersey does not place any limit on the amount that the district may invest with any one issuer. As of June 30, 2015, the district had no investments.

\$ 1,300,000

The general obligation bonded debt of the District is limited by state law to 3.00% of the average equalized assessed values of the total taxable property in the District for the past three years. The legal debt limit at June 30, 2015 is \$23,429,382. General obligation debt at June 30, 2015 is \$1,300,000, resulting in a legal debt margin of \$22,129,382.

NOTE 6. PENSION PLANS

Description of Systems

Substantially all of the Board's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF), Public Employees' Retirement System (PERS) and the Defined Contribution Retirement Program (DCRP). The PERS and TPAF systems are sponsored and administered by the State of New Jersey. The DCRP system is administered by Prudential Financial for the Division of Pensions and Benefits. The Teachers' Pension and Annuity Fund retirement system is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees Retirement System and Defined Contribution Retirement Program are considered cost sharing multiple-employer plans.

A. Public Employees' Retirement System (PERS)

Plan Description

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multipleemployer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/annrprts.shtml.

NOTE 6. PENSION PLANS

A. Public Employees' Retirement System (PERS) (Cont'd)

The vesting and benefit provisions are set by NJSA 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

| Tier | Definition |
|------|---|
| 1. | Members enrolled prior to July 1, 2007 |
| 2. | Members eligible to enroll on or after July 1, 2007 and prior to November 2, 2008 |
| 3. | Members eligible to enroll on or after November 2, 2008 and prior to May 22, 2010 |
| 4. | Members eligible to enroll on or after May 22, 2010 and prior to June 28, 2011 |
| 5. | Members eligible to enroll on or after June 28, 2011 |
| | |

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Allocation Methodology and Reconciliation to Financial Statements

Although the Division administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense excluding that attributable to employer-paid member contributions are determined separately for each individual employer of the State and local groups of the plan.

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer allocations are applied to amounts presented in the schedules of pension amounts by employer. The allocation percentages for each group as of June 30, 2014 and 2013 are based on the ratio of each employer's contributions to total employer contributions of the group for the fiscal years ended June 30, 2014 and 2013, respectively.

NOTE 6. PENSION PLANS (Cont'd)

A. Public Employees' Retirement System (PERS) (Cont'd)

GASB Statement No. 68, Accounting and Financial Reporting for Pensions, requires participating employers in PERS to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources and collective pension expense excluding that attributable to employer-paid member contributions. The employer allocation percentages presented in the Division's schedule of employer allocations and applied to amounts presented in the schedule of pension amounts by employer are based on the ratio of the contributions as an individual employer to total contributions to the PERS during the years ended June 30, 2014 and 2013. Employer allocation percentages have been rounded for presentation purposes, therefore amounts presented in the schedule of pension amounts by employer may result in immaterial differences.

Contributions

The contribution policy for PERS is set by NJSA 15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For Fiscal years 2014 and 2013, the State's pension contribution was less than the actuarial determined amount.

The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, PL 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

Collective Net Pension Liability and Actuarial Information

Components of Net Pension Liability

The components of the District's allocable share of the net pension liability for PERS as of June 30, 2014 and 2013 are as follows:

| Total Pension Liability Plan Fiduciary Net Position | 2014 \$ 3,992,573 2,079,364 | 2013 \$ 3,198,233 1,558,286 |
|---|-----------------------------------|-----------------------------------|
| Net Pension Liability | <u>\$ 1,913,209</u> | \$ 1,639,947 |
| Plan Fiduciary Net Position as a Percentage of the Total Pension Liability | 52.08% | 48.72% |

The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2013, which was rolled forward to June 30, 2014. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

| Inflation Rate | 3.01% |
|---------------------------|-------------|
| Salary Increases (Based c | on Age): |
| 2012-2021 | 2.15%-4.40% |
| Thereafter | 3.15%-5.40% |

Investment Rate of Return 7.90%

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA.

The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011.

NOTE 6. PENSION PLANS (Cont'd)

A. Public Employees' Retirement System (PERS) (Cont'd)

Discount Rate

The discount rate used to measure the total pension liability was 5.39% and 5.55% as of June 30, 2014 and 2013, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 4.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability of the District as of June 30, 2014 and 2013, respectively, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

| At Current Discount Rate (5.39%) At a 1% Lower Rate (4.39%) At a 1% Higher Rate (6.39%) | \$ 2014 1,913,209 2,406,882 1,498,649 |

Collective Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

| | Deferred Deferred Outflows Inflows of Resources of Resource | | | | | |

B. Teacher's Pension and Annuity Fund (TPAF)

Plan Description

The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multipleemployer defined benefit pension plan with a special-funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about TPAF, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/annrprts.shtml.

The vesting and benefit provisions are set by NJSA 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

NOTE 6. PENSION PLANS (Cont'd)

B. Teacher's Pension and Annuity Fund (TPAF) (Cont'd)

The following represents the membership tiers for TPAF:

| Tier | Definition |
|------|---|
| 1. | Members enrolled prior to July 1, 2007 |
| 2. | Members eligible to enroll on or after July 1, 2007 and prior to November 2, 2008 |
| 3. | Members eligible to enroll on or after November 2, 2008 and prior to May 22, 2010 |
| 4. | Members eligible to enroll on or after May 22, 2010 and prior to June 28, 2011 |
| 5. | Members eligible to enroll on or after June 28, 2011 |

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Special Funding Situation

The employer contributions for local participating employers are legally required to be funded by the State in accordance with NJSA 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

C. Defined Contribution Retirement Program

The Defined Contribution Retirement Program (DCRP) was established under the provisions Ch 92, PL 2007 and expanded under the provisions of Ch 89, PL 2008 and Ch 1, PL 2010 to provide eligible members with a tax sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Employees eligible to enroll in the program include the following: First, employees enrolled in the Public Employees Retirement System (PERS) or Teachers Pension and Annuity Fund (TPAF) on or after July 1, 2007 who earn salary in excess of maximum compensation limits. Also, employees otherwise eligible to enroll in the TPAF and PERS who do not earn the minimum salary (\$8,200 in 2015) but who earn salary of at least \$5,000 annually are eligible to participate. The program administrator, Prudential Financial, makes information regarding the program available on its New Jersey Defined Contribution Program Web Site: www.prudential.com/njdcrp.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statement and required supplementary information for TPAF and PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey 08625-0295.

NOTE 6. PENSION PLANS (Cont'd)

Contribution Requirements

The contribution policy is set by state statutes and contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Significant legislation which became effective October 1, 2011 will gradually increase the employee contribution rate for PERS and TPAF members. Effective October 1, 2011 the rate increased from 5.50% to 6.50% of annual contractual compensation for employees enrolled in the TPAF and PERS pension plans. The rate will increase each year on the first of July over a seven year phase-in period until the withholding rate reaches 7.50% effective July 1, 2018. Contribution rates for DCRP provide for employee contributions of 5.50% of annual contractual compensation as defined. Employers are required to contribute at an actuarially determined rate in TPAF, PERS and DCRP. The actuarially determined contribution includes funding for cost-of-living adjustments, non-contributory death benefits and post-retirement medical premiums. Under current statute, the Board is a noncontributing employer of the TPAF.

Three-Year Trend Information for TPAF (Paid On-Behalf of the District)

| 06/30/14 | | 568,795 | 100% |
| 06/30/13 | | 719,028 | 100% |

Three-Year Trend Information for PERS

| | Annual | Percentage |
|----------|------------|-------------|
| Year | Pension | of APC |
| Funding | Cost (APC) | Contributed |
| 06/30/15 | \$ 84,963 | 100% |
| 06/30/14 | 64,654 | 100% |
| 06/30/13 | 72,043 | 100% |

During the year ended June 30, 2015, the State of New Jersey contributed \$437,179 to the TPAF for post-retirement medical benefits and \$18,483 for the non-contributory insurance premiums and \$256,905 for TPAF normal costs and accrued liability costs on behalf of the Board. Also, in accordance with NJSA 18A:66-66 the State of New Jersey reimbursed the Board \$356,937 during the year ended June 30, 2015 for the employer's share of social security contributions for TPAF members calculated on their base salaries. These amounts have been included in the financial statements and the combining and individual fund and account group statements and schedules as revenues and expenditures in accordance with GASB 27.

NOTE 7. POST-RETIREMENT BENEFITS

Chapter 384 of PL 1987 and Ch 6 of PL 1990 required TPAF and PERS, respectively, to fund postretirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement PL 2007, Ch 103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2014, there were 103,432 retirees eligible for post-retirement medical benefits and the state contributed \$1.04 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with Ch 62, PL 1994. Funding of post-retirement medical benefits changed from a prefunding basis to a pay-as-you-go basis beginning the fiscal year 1994.

The State is also responsible for the cost attributable to Ch 126, PL 1992, which provides free health benefits to members of PERS, and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. In fiscal year 2014, the State paid \$165.8 million toward Ch 126 benefits for 18,122 eligible retired members.

GASB Statement 45 requires certain disclosures relating to governmental entities obligations for other post-employment benefits (OPEB), which are post-employment benefits other than pensions. The District's only material OPEB obligation is for healthcare provided to eligible retirees through the NJ State Health Benefits Program.

Plan Description-The School District contributes to the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under <u>NJSA</u> 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code, SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. The school district adopted a resolution to participate in the SHBP. The States Health Benefits Commission is the executive body established by the statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, PO Box 295, Trenton, NJ 08625-0295 or by visiting their website at (www.nj.gov/treasury/pensions).

Funding Policy-Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis. Information regarding the State's annual contributions, annual OPEB cost and net OPEB obligations is available through the State as noted in the previous paragraph.

NOTE 8. DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403 (b). The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Metropolitan Life Equitable Life Assurance Waddell and Reed Financial Services

NOTE 9. INTERFUND RECEIVABLE AND PAYABLES

There were no Interfund balances as of June 30, 2015.

NOTE 10. INVENTORY

Inventory in the Food Service Fund June 30, 2015 consisted of the following:

| Food Supplies | \$ 4,928 834 |
|------------------|--------------------|
| Total | \$ 5,762 |

NOTE 11. CONTINGENT LIABILITIES

The District is involved in various legal proceedings that are incidental to its operations. These legal proceedings are not likely to have a material adverse effect on the financial position of the School District.

NOTE 12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

<u>Property and Liability Insurance</u> - The District maintains commercial insurance coverage for property, liability, and student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of the Comprehensive Annual Financial Report.

NOTE 12. RISK MANAGEMENT (Cont'd)

<u>New Jersey Unemployment Compensation Insurance</u> - The District has elected to fund its NJ Unemployment Compensation Insurance under the "Benefit Reimbursement Method." Under this plan, the District is required to reimburse the NJ Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, and interest earnings, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's unemployment trust fund for the current and previous two years:

NOTE 13. LEGAL RESERVE ACCOUNTS

A capital reserve account was established by the District by inclusion of \$1 on September 26, 2000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the districts approved Long Range Facilities Plan (LRFP) and updated annually in the Quality Assurance Annual Report (QAAR). Upon submission of the LRFP to the Department of Education, a district may deposit funds into the capital reserve at any time upon board resolution through the transfer of undesignated, unreserved general fund balance or of excess undesignated, unreserved general fund balance that is anticipated in the budget certified for taxes. Pursuant to NJAC 6:23A-5.1 (d) 7, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

Beginning in fiscal year 2008, Districts are allowed as per NJSA 18A:7F-41(a) & 41(b) to deposit to the legal reserves by board resolution during the month of June for any unanticipated revenue and/or unexpended line-item appropriation amounts. Pursuant to this state statute, the District deposited \$30,000 to their Capital Reserve Account and \$120,000 to their Maintenance Reserve Account by board resolution in June 2015 as summarized in the following schedule.

NOTE 13. LEGAL RESERVE ACCOUNTS (Cont'd)

NOTE 16: SUBSEQUENT EVENTS

The District has evaluated subsequent events through October 28, 2015, which is the date the financial statements were available to be issued and no additional items were noted for disclosure.

NOTE 17. RECENT ACCOUNTING PRONOUNCEMENTS NOT YET EFFECTIVE

The following is a list of recent accounting pronouncements which are not yet effective as of the year end date of this report:

In February 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 72 "Fair Value Measurement and Application". This statement, which is effective for fiscal periods beginning after June 15, 2015, is not expected to have an effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 73 "Accounting and Financial Reporting for Pensions and Related Assets that are not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. This statement, which is effective for fiscal periods beginning June 15, 2015 and June 15, 2016 for pension systems not within the scope of GASB 68, is not expected to have an effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 74 "Financial Reporting for Postemployment Benefits Other than Pension Plans". This statement, which is effective for fiscal periods beginning June 15, 2016, is expected to have a nominal effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 75 "Accounting and Financial Reporting for Postemployment Benefits Other than Pensions". This statement, which is effective for fiscal periods beginning June 15, 2017, is expected to have a nominal effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 76 "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments". This statement, which is effective for fiscal periods beginning June 15, 2015, is not expected to have an effect on the District's financial reporting.

In August 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 77 "Tax Abatement Disclosures". This statement, which is effective for fiscal periods beginning December 15, 2015, is not expected to have an effect on the District's financial reporting.

ALEXANDRIA TOWNSHIP SCHOOL DISTRICT NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2015 (Continued)

NOTE 18. RESTATEMENT OF PRIOR YEAR NET POSITION

During the fiscal year ending June 30, 2015, the District has determined that a restatement of its prior year net position is necessary. Due to changes in accounting principles resulting from the issuance of Government Accounting Standards Board's (GASB) Statement No. 68, for pension liabilities, adjustments to the net position for the net pension liability and deferred outflows of resources as of the measurement date of June 30, 2014 are necessary. The following is a summary of the District's restatement of net position as of June 30, 2014:

| | | Governmental Activities |
|-------|--|----------------------------|
| Net P | osition, June 30, 2014 as Originally Stated | \$ 8,130,571 |
| Add: | Additional State Project Grant Deferred Outflow of Resources for Pension Activity | 35,560 6 4 ,654 |
| Less: | PERS Net Pension Liability as of June 30, 2014 | (1,639,947) |
| Net P | osition, June 30, 2014 as Restated | \$ 6,590,837 |

NOTE 19. DEFICIT BALANCE IN UNRESTRICTED NET POSITION

The District is reporting a deficit balance in unrestricted net position for governmental activities as of June 30, 2015 of \$1,628,755 on schedule A-1 "Statement of Net Position". The deficit balance is not a negative reflection on the District's financial condition, but is the result of reporting required by GASB Statement No. 68 Accounting and Financial Reporting for Pensions which allocates the proportionate share of the State's net pension liability for PERS to each contributing entity throughout the State.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION-PART III

ALEXANDRIA TOWNSHIP SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION-PART III (UNADUITED)

JUNE 30, 2014 AND 2013

NOTE 1. SPECIAL FUNDING SITUATION-TPAF

The participating employer allocations included in the supplemental schedule of employer special funding allocations and the supplemental schedule of special funding amounts by employer for each local employer are provided as each local employer is required to record in their financial statements, as an expense and corresponding revenue, their proportionate share of the pension expense allocated to the State of New Jersey (the State) under the special-funding situation and include their proportionate share of the net pension liability in their respective notes to their financial statements. For this purpose, the proportionate share was developed based on actual contributions made to the Teachers' Pension and Annuity Fund allocated to employers based upon covered payroll and adjusted by expected State Early Retirement Incentive contributions for the respective fiscal year.

NOTE:

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

(a) The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.

(b) Rates for debt service are based on each year's requirements.

Overlapping Governments are those that Coincide, at least in Part, with the Geographic Boundaries of the District. This Schedule Estimates the Portion of the Outstanding Debt of Those

Note: Overlapping Governments that is Borne by the Residents and Businesses of the Municipality. This Process Recognizes that, when Considering the District's Ability to Issue and Repay Long-Term Debt, the Entire Debt Burden Borne by the Residents and Businesses Should be Taken into Account. However this Does Not Imply that Every Taxpayer is a resident, and Therefore Responsible for Repaying the Debt, of Each Overlapping Payment.

For Debt Repaid with Property Taxes, the Percentage of Overlapping Debt Applicable is Estimated

(a) Using Taxable Assessed Property Values. Applicable Percentages were Estimated by Determining the Portion of Another Governmental Unit's Taxable Value that is Within the District's Boundaries and Dividing it by Each Unit's Total Taxable Value.

INDEPENDENT AUDITOR'S REPORT

October 28, 2015

Honorable President and Members of the Board of Education Alexandria Township School District County of Hunterdon, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Alexandria Township School District, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements, and have issued our report thereon dated October 28, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board of Education's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board of Education's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board of Education's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT

October 28, 2015

Honorable President and Members of the Board of Education Alexandria Township School District County of Hunterdon, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Board of Education of the Alexandria Township School District's (the District) compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement and the New Jersey OMB State Grant Compliance Supplement that could have a direct and material effect on each of the Board of Education's major federal and state programs for the year ended June 30, 2015. The Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Board of Education's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and New Jersey OMB 15-08. Those standards, OMB Circular A-133 and NJ OMB 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Board of Education's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of The Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133 and NJ OMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiencies, in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance is a deficiencies, in internal control over compliance is a deficiency in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedules of Expenditures of Federal Awards Required by OMB Circular A-133 and Expenditures of State Financial Assistance Required by NJ OMB 15-08

We have audited the financial statements of the District as of and for the year ended June 30, 2015, and have issued our report thereon dated October 28, 2015, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by OMB Circular A-133 and NJ Circular 15-08 and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements or to the financial statements themselves, and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

ALEXANDRIA TOWNSHIP SCHOOL DISTRICT NOTES TO THE SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE JUNE 30, 2015

NOTE 1. GENERAL

The accompanying schedules of financial assistance present the activity of all federal and state financial assistance programs of the Board of Education, Alexandria Township School District. The Board of Education is defined in Note 1 (A) to the Board's financial statements. All federal financial assistance received directly from federal agencies, as well as federal financial assistance passed through other government agencies, is included on the schedule of federal financial assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of financial assistance are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes 1 (C) and 1 (D) to the Board's general-purpose financial statements.

NOTE 3. RELATIONSHIP OF FINANCIAL STATEMENTS

The financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to PL 2004, Ch 97 (A3521). For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferred and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is (\$4,154) for the general fund and \$-0- for the special revenue fund. See Exhibit C-3 for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds.

Financial assistance revenues are reported in the Board's financial statements on a GAAP basis as follows:

| General Fund | Federal | \$ | State 2,822,136 | \$ | Total 2,822,136 |
|---|-------------------------|----|--------------------|----|--------------------|
| Special Revenue Fund Enterprise Fund | \$ 188,093 27,934 | Ψ | 1,018 | Ψ | 188,093 28,952 |
| | \$ 216,027 | \$ | 2,823,154 | \$ | 3,039,181 |
