December 9, 2015

Honorable President and Members of the Board of Education Cranford Township Public School District Cranford, NJ 07016

Dear Board Members:

The comprehensive annual financial (CAFR) of the Cranford Township Public School District (District) for the fiscal year ended June 30, 2015, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures rests with the management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

This comprehensive annual financial report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this letter of transmittal, the District's organization chart and a list of principal officials. The financial section includes the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), the basic financial statements and notes, supplemental information and the combining individual fund schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, as amended, and the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments and Non-Profit Organizations and the New Jersey OMB's Circular's 04- and 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. <u>REPORTING ENTITY AND ITS SERVICES</u>: The Cranford Township Public School District is an independent reporting entity within the criteria adopted by the Government Accounting Standards Board (GASB) in codification section 2100. All funds and account groups of the District are included in this report. The Cranford Township Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels K through 12. These include regular education as well as special education for handicapped youngsters. The District completed the 2014-2015 fiscal year with an enrollment of 3,903 students, which is 14 students above the previous year's enrollment. The following details the changes in the student enrollment of the District over the last five years:

Fiscal Year	Student Enrollment	Percent Change
2014-2015	3,903	0.36%
2013-2014	3,889	-0.18%
2012-2013	3,896	-0.38%
2011-2012	3,911	-0.43%
2010-2011	3,928	0.76%

- 2. <u>ECONOMIC CONDITION AND OUTLOOK</u>: Cranford is experiencing a period in which development is <u>not</u> expanding and business ratables, while decreasing during these economic times, will hopefully stabilize eventually when market conditions improve.
- 3. <u>MAJOR INITIATIVES</u>: On December 8, 2009, the District held a School Board Referendum. The School District voters approved the referendum, which consisted of the following:

Undertake district-wide roof/energy efficiency improvement projects including roof replacement at all schools; heating/ventilation upgrades at Brookside Place School, Walnut Avenue School and Bloomingdale Avenue School; and boiler replacement at Orange Avenue School, Hillside Avenue School and Lincoln School; expend on such projects an aggregate amount not exceeding \$19,981,269, which expenditure shall be funded, in part, with a \$7,992,506 State grant, based on aggregate final eligible costs of \$19,981,269 as determined by the Commissioner of Education; and issue bonds in an aggregate amount not exceeding \$11,988,763 representing the School District's local share of projects costs. The local shares of each of the projects may be transferred among projects.

Of the total amount of \$19,981,269, the School District Bonds received authorization to issue bonds in the amount of \$11,988,763, which represents the School Districts local share of the project costs.

Furthermore, the Board of Education has received grant approval from the State of New Jersey Schools Development Authority in the amount of \$7,992,506.

4. <u>INTERNAL ACCOUNTING CONTROLS</u>: Management of the District is responsible for establishing and maintaining internal control designed to ensure that the assets of the District are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal awards and state financial assistance, the District also is responsible for ensuring that an adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management. Since grant periods differ in their prescribed fiscal years, representations are made prior to the end of the fiscal year for those grants having fiscal years other than July 1 through June 30.

As part of the District's single audit described earlier, tests are made to determine the adequacy of internal control, including that portion related to federal awards and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. <u>BUDGETARY CONTROLS</u>: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for capital improvements and are accounted for in the capital projects fund. The original and final budget amount, as amended for the fiscal year, is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriation of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2015.

- 6. <u>ACCOUNTING SYSTEM AND REPORTS</u>: The District's accounting records reflect generally accepted accounting principles, as promulgated by the GASB, as explained in the "Notes to the Financial Statements," Note 1.
- 7. FINANCIAL INFORMATION AT FISCAL YEAR END: As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedule presents a summary of the general fund, special revenue fund, and debt service fund revenues for the fiscal year ended June 30, 2015 and the amount and percentage of increases/decreases in relation to prior year revenues.

			Increase/	Percent of
	FY 2015	Percent	(Decrease)	Increase
Revenue	Amount	of Total	From 2014	(Decrease)
Local Sources	55,027,724.42	84.78%	1, 893,550.05	3.56%
State Sources	8,836,416.53	13.61%	631,156.74	7.69%
Federal Sources	1,041,207.68	1.60%	41,766,50	4.18%
Total	64,905,348,63	100.00%	<u>2,566,473.29</u>	<u>4.12%</u>

The following schedule presents a summary of general fund, special revenue fund and debt service fund expenditures for the fiscal year ended June 30, 2015 and the percentage of increases/decreases in relation to prior year amounts.

- -	FY 2015	Percent	Increase/ (Decrease)	Percent of Increase
Expenditures	<u>Amount</u>	of Total	From 2014	(Decrease)
Current Expense:				
Instruction	26,637,762.56	40,94%	174,862.57	0.66%
Undistributed	35,572,654.55	54.67%	997,711.89	2.89%
Capital Outlay	487,225.50	0.75%	(388,692.57)	(44.38%)
Special Revenue	1,180,723.05	1.81%	57,569.80	5.13%
Debt Service:				
Principal	790,000.00	1.21%	35,000.00	4.64%
Interest	403,077.50	0.62%	(20,775.00)	<u>(4.90%</u>)
Total	<u>65,071,443,16</u>	<u>100.00%</u>	<u>855,676,69</u>	1.33%

- 8. <u>DEBT ADMINISTRATION</u>: At June 30, 2015, the District reported outstanding debt of \$11,760,000.00 of general obligation bonds.
- 9. <u>CASH MANAGEMENT</u>: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.
- 10. <u>RISK MANAGEMENT</u>: The Board carries various forms of insurance, including but not limited to general liability, automobile liability, and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds. Management and the Board of Education continue to explore innovative ways to contain insurance costs while still minimizing risks. A schedule of insurance coverage is found on Exhibit J-20.

The District along with other school districts, is a member of the Diploma Joint Insurance Fund for Workers' Compensation Insurance Coverage. The Fund is organized and operated pursuant to the regulatory authority of the Department of Banking and Insurance, State of New Jersey and provides for a pooling of risks, subject to established limits and deductibles. In addition, the Fund has obtained excess liability coverages for participants. Additional information is included in Note 8 to the Basic Financial Statements.

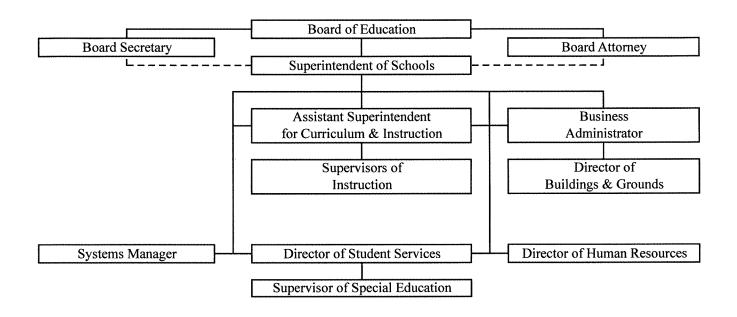

- 11. OTHER INFORMATION: Independent Audit State statues require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Hodulik & Morrison, P.A. was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements of the Single Audit Act of 1984, as amended, and the related OMB Circular A-133 and New Jersey OMB's Circular 04-04. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.
- 12. <u>ACKNOWLEDGMENTS</u>: We would like to express our appreciation to the members of the Cranford Township Board of Education for their diligence and concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted.

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Cranford School District Cranford, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Cranford School District, in the County of Union, State of New Jersey, as of and for the fiscal year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Cranford Board of Education's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Cranford Board of Education, County of Union, State of New Jersey as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, during the fiscal year ending June 30, 2015, the Cranford Board of Education implemented the provisions of Statement Number 68 of the Governmental Accounting Standards Board (GASB 68). GASB 68 changed the measurement criteria and reporting provisions relating to the District's proportionate share (if any), of the net pension liability of the defined benefit pension plans in which its employees are enrolled. The accompanying statement of net position discloses the District's net pension liability and pension plan related deferred outflows and deferred inflows of financial resources. The accompanying statement of activities and Note 16 to the financial statements disclose the adjustments to the District's beginning net position based upon GASB 68 implementation. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information including the Notes thereto, and pension plan information, including the Notes thereto, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economical, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Cranford Board of Education's basic financial statements taken as a whole. The accompanying other supplementary information, consisting of the combining and individual fund financial statements and long-tem debt schedules as listed in the table of contents, the schedule of expenditures of federal awards as required by U.S. Office of Management and Budget Circular A- 133, *Audits of States, Local Governments, and Non-Profit Organizations;* the schedule of expenditures of state financial assistance as required by New Jersey OMB's Circular 04-04, and the other information including the introductory section and the statistical section are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual fund financial statements, long-term debt schedules and schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, long-term debt schedules, schedule of expenditures of federal awards and the schedule expenditures of state financial assistance are fairly stated in all material respects in relation to the financial statements as a whole.

The introductory section and statistical section have not been subjected to auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide assurance on them.

Other Reporting Required by Government Auditing Standards

Isrisa P.A.

In accordance with Government Auditing Standards, we have also issued our report dated December 9, 2015 on our consideration of the Cranford Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Cranford School District's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION

PART I

Cranford Township School District Cranford, New Jersey Union County

MANAGEMENT DISCUSSION AND ANALYSIS (MD&A) (Unaudited) June 30, 2015

The Cranford Township School District (the "District") discussion and analysis is designed to provide an overview of the District's financial activities for the year ended June 30, 2015, identify changes in the District's financial position, identify any material deviations from the financial plan (the approved budget), and identify individual fund issues or concerns.

The focus of the Management Discussion and Analysis (MD&A) is on current year activities, resulting changes and currently known facts. The MD&A should be read in conjunction with the Transmittal Letter and the District's Financial Statements.

FINANCIAL HIGHLIGHTS

The key financial highlights for the 2014-2015 fiscal year include the following:

Total net position for governmental activities are reported at \$34,447,687 at June 30, 2015. This represents a decrease of \$229,698 or 0.66% decrease over the prior year reported net position. Governmental funds reported a total fund balance of \$4,354,354 (see Exhibit B-1), which is a 1.83% increase from last year's total governmental fund balance. This increase is primarily the result of an increase in unassigned General Fund Balance at June 30, 2015. The general or operating fund balance was reported at \$379,383 of which \$82,403 was appropriated toward the approved and adopted 2015-2016 budget. The unrestricted general fund balance is reported at \$296,979. The ending fund balance was impacted by the non-recognition, on a GAAP basis, of net State Aid payments deferred to July 2015 in the amount of \$686,636 in the general fund, that were due at June 30, 2015 but not yet funded by the State of New Jersey as of that date. Total spending for all governmental funds was \$65,071,443. Total revenues were \$64,905,349, resulting in a deficit of revenues over expenditures of \$(166,095) for the year. This deficit is primarily the result of the utilization of fund balance in the approved and adopted 2014-2015 school district budget. Please note proceeds from the sale of financings are not included in revenues whereas the spending related to the capital projects are included in the expenditures reported. Revenues included \$9,877,514 in state and federal aid and \$51,169,585 in local taxes.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the district:

- The first two statements are district-wide financial statements that provide both short-term and long-term information about the district's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the district, reporting the district's operations in more detail than the district-wide statements.
- The governmental funds statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
- Proprietary funds statements offer short- and long-term financial information about the activities the district operated like businesses, such as food services.
- Fiduciary funds statements provide information about the financial relationship in which the district acts solely as a trustee or agent for the benefits of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the district's budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Figure A-1

Organization of the School District Annual Financial Report

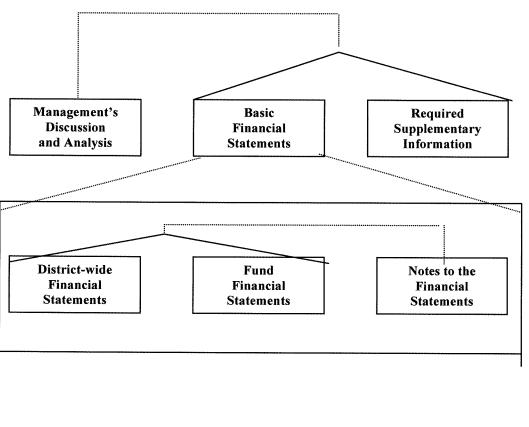

Figure A-2 summarizes the major features of the district's financial statements, including the portion of the district's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights that structure and contents of each of the statements.

	Figure A-2 Major Features of the District-Wide and Fund Financial Statements					
	District-Wide Fund Financial Statements					
	Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds		
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education and building maintenance	Activities the district operates similar to private businesses: food services and adult education	Instances in which the district administers resources on behalf of someone else, such as scholarship programs and student activities monies		
Required financial Statements	 Statement of net position Statement of activities 	Balance Sheet Statement of revenues, expenditures, and changes in fund balances	 Statement of net position Statement of cash flows 	 Statement of fiduciary net position Statement of changes in fiduciary net position 		
Accounting Basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus		
Type of asset / liability information	All assets, liabilities, Deferred inflows/outflows of resources, financial and capital, short-term and long term.	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can		
Type of inflow/out-flow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid		

District-wide Statements

The district-wide statements report information about the district as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the district's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the district's net position and how they have changed. Net position - the difference between the district's assets and liabilities - is one way to measure the district's financial health or position.

- Over time, increases or decreases in the district's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the district's overall health, you need to consider that the school district's goal is to provide services to students, not to generate profit as commercial entities do. One must consider many other non-financial factors, such as the quality of the education provided and the safety of the schools to assess the overall health of the district.

In the district-wide financial statements, the district's activities are divided into two categories:

- Governmental activities: Most of the district's basic services are included here, such as regular
 and special education, transportation, and administration. Property taxes and state formula aid
 finance most of these activities.
- Business-type activities: The district charges fees to help it cover the costs of certain services it provides. The district's food services and reading academy are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the district's funds, focusing on its most significant or "major" funds – not the district as a whole. Funds are accounting devices the district uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The district establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as federal grants).

The district has three kinds of funds:

- Governmental funds: Most of the district's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the district's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them.
- Proprietary funds: Services for which the district charges a fee are generally reported in
 proprietary funds. Proprietary funds are reported in the same way as the district-wide statements.
 The district's enterprise funds (one type of proprietary fund) are the same as its business-type
 activities but provide more detail and additional information, such as cash flows.

• Fiduciary funds: The district is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund and the student activities funds. The district is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The district excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The school district's Governmental Activities net position were \$34,447,687 at June 30, 2015. Of this amount, (\$17,933,121) was unrestricted. Restricted net position are reported separately to show legal constraints from debt covenants and enabling legislation that limit the school district's ability to use those net assets for day-to-day operations. Our analysis below focuses on the net position (Figure A-3) and change in net position (Figure A-4) of the school district's governmental activities.

Figure A-3
Net Position

	Governmental Activities 2014*	Governmental Activities 2015	% Increase (Decrease)
Current and other assets Capital assets	\$ 7,010,581 60,913,767	\$ 5,285,400 90,083,434	(24.61) (47.89)
Total assets	67,924,348	95,368,834	<u>40.40</u>
Deferred Outflow of Resources	680,868	1,968,128	189.06
Total Deferred Outflows	680,868	1,968,128	189.06
Current and other liabilities Long-term liabilities	\$ 4,571,075 29,356,756	\$ 2,778,350 29,186,356	(39.22) (0.58)
Total liabilities	\$33,927,831	<u>\$31,964,706</u>	(5.79)
Deferred Inflow of Resources	$\underline{0}$	921,569	100.00
Total Deferred Inflows	$\underline{0}$	921,569	100.00
Net Position: Net Investment in Capital Assets Restricted Unrestricted	\$48,363,767 4,033,465 (17,719,846)	\$48,323,434 4,057,375 (17,933,121)	(0.08) 1.20 <u>0.59</u>
Total net position (restated)	\$ <u>34,677,386</u>	\$ <u>34,447,687</u>	(0.66)

^{*}Restated to reflect GASB 68 Implementation

The (\$17,933,121) in unrestricted net position of governmental activities represents the accumulated results of all past years' operations. It means that if we had to pay off all of our bills today including all of our non-capital liabilities (compensated absences for example), we would have (\$17,933,121) left.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (Continued)

The results of this year's operations for the school district Governmental Activities as a whole are reported in the Statement of Activities. Figure A-4, below, takes the information from that Statement, rounds off the numbers, and rearranges them slightly so you can see our total revenues and expenses for the year.

<u>Figure A-4</u> Activity Results for Years Ended

Activity Results for Years Ended

Increase/-decrease in net position	\$ <u>(1,460,404)</u>	\$ <u>(229,698)</u>	<u>\$1,230,707</u>

Governmental Activities

As reported in the Statement of Activities, the cost of all our governmental activities this year was \$65,418,676. These costs were financed by \$51,169,585 in local property school taxes, \$10,246,100 in federal and state aid and \$3,773,182 in miscellaneous revenues including interest, general entitlements, special items and transfers.

In Figure A-5, below, we have presented the cost of each of the school district's seven largest functions as listed below. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by the function.

Figure A-5
Governmental Activities
Total Cost of Services

	Year Ended	Year Ended
	<u>June 30, 2014</u>	June 30, 2015
Regular programs instruction	\$18,098,671	\$18,090,668
Unallocated benefits	15,730,745	17,432,392
Student services	6,729,075	6,707,037

Plant services	5,730,930	5,514,705
School Administration	2,793,847	2,718,688
All others	7,889,817	7,888,709
Total	\$ <u>63,799,280</u>	\$ <u>65,418,676</u>

Financial Analysis of the District's Funds

As we noted earlier, the school district uses funds to help it control and manage money for particular purposes. Looking at funds helps you consider whether the school district is being accountable for the resources provided to it, and also, gives more insight into the school district's overall financial health.

As the school district completed this year, our governmental funds reported a combined fund balance of \$4,354,354, which is an increase of \$78,296 from last year. This increase is primarily the result of the excess of favorable budget variance over the fund balance utilized in the approved and adopted 2014-15 school district budget. Also, as noted previously, the reported governmental fund balance is impacted by the non-recognition, on a GAAP basis, of State Aid payments deferred to July 2015 in the combined amount of \$686,636.

General Fund Budgetary Highlights

Over the course of the year, the school district revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. Budget changes/transfers are approved by the Board of Education throughout the year. Although the district's projected budget for the general fund anticipated that revenues and expenditures would be roughly equal, the actual results for the year show a deficit.

Actual revenues reflect a positive variance of \$6.2 million. This is primarily due to the non-budgeted employer on-behalf TPAF pension, post retirement medical and social security contributions of \$5.9 million made by the State of New Jersey.

Actual expenditures reflect a negative variance of \$5.5 million even though almost all budget lines show a positive variance. This is primarily due to the non-budgeted employer on-behalf TPAF pension, post retirement medical and social security contributions of \$5.9 million made by the State of New Jersey.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2015, the school district had \$134,055,474 invested in a broad range of capital assets, including land, buildings, building improvements, other improvements and furniture and equipment. This amount represents a net increase (including additions and deductions) of \$181,407, or approximately 0.14% percent, from last year. These amount do not include depreciation.

Figure A-6
Capital Assets at Year-End

Governmental Activities	<u>2014</u>	2015
Land Buildings and Improvements Furniture, Equipment and Vehicles	\$41,197,641 87,578,971 <u>5,097,455</u>	\$41,197,641 87,785,959 <u>5,071,874</u>
Total	<u>\$133,874,067</u>	\$134,055,474

See the accompanying Notes to the Financial Statements for additional information.

Long-Term Debt

At the end of this year, the school district had \$12,135,517 in bonds and capital leases outstanding versus \$12,888,204 the previous year – a decrease of 5.84%. The long-term debt at of the District consisted of:

Figure A-7 Outstanding Debt, at Year-End		
Governmental Activities	<u>2014</u>	<u>2015</u>
Capital leases General obligation bonds	\$ 338,204 12,550,000	\$ 375,517 11,760,000
Total	\$12,888,204	\$12,135,517

The school district's general obligation bond rating continues to be above investment grade. The state limits the amount of general obligation debt that Districts can issue to 4% (for K through 12 districts) of the most recent three-year average state equalized assessed value of the taxable property within the school district's corporate limits. The school district's outstanding and authorized but not issued general obligation debt of \$12,135,517 at June 30, 2015 is significantly below the \$142,087,615 statutorily-imposed limit. See the Notes to the Financial Statements and Schedule J-13 for additional information.

Other obligations include accrued vacation pay and sick leave and the school district's proportionate share of the Net Pension Liability of the New Jersey Public Employees Retirement System. We present more detailed information about our long-term liabilities in the notes to the financial statement.

FACTORS AFFECTING THE DISTRICT'S FUTURE

- The financial position of the district remains in a good and stable condition despite the difficult economic times. However, maintaining existing programs with enrollment needs, provisions of the multitude of programs/services legally required for special needs pupils, unfunded federal and state mandates and the cost of employee benefits place a great demand on the district's resources. As a result, careful management of expenses remains essential for the district to sustain its financial health.
- The state made significant cuts in aid to the district's 2010-2011 budget in the amount of \$2,594,245. This cut in the 2010-2011 budget represented 5% of the district's overall budget. Even though unrestricted state aid has been increased through the 2015-2016 budget cycle, the district is still dealing with a net loss of \$1,036,087 in state aid since 2009-2010 funding levels. There is no guarantee, based upon the current economic conditions that state aid levels will continue in the future. Also, the state currently only funds approximately 5% of the overall district budget. The incremental effect of the continued under funding of education, including unfunded federal and state mandates, continues to increase the reliance on local tax revenues to sustain the existing educational programs.
- Budget cap law, P.L. 2010, c. 44, effective July 13, 2010 (the "New Cap Law"), further provides limitations on a school district spending by limiting the amount a school district can raise for school district purposes through the property tax levy by two percent (2%) over the prior year's tax levy. The New Cap Law provides for certain adjustments to the tax levy cap for specific circumstances relating to enrollment increases, health care cost increases and increases in amounts for certain normal and accrued liability pension contributions. However, any utilization of these adjustments will result in an increased local tax burden upon the property owners of Cranford.
- The passage of S-1701 required all districts to reduce surplus to the greater of 2% or \$100,000 in 2005-2006 and maintained a reduced surplus of 2% starting in the 2006-2007 fiscal year. The law's surplus restriction runs contrary to sound financial principles, which have served as the basis for previous, long-standing state Department of Education policy. This restriction also undermines needed flexibility for long-term district planning. Until the enactment of S-1701, state statute permitted school districts, such as Cranford, to establish surplus accounts that ranged between 3% and 6%. Further, the state Department of Education's previous policy and administrative code required school districts to obtain state permission to budget surplus below the 3% maximum. Inadequate reserves place schools districts in a precarious financial position as they could find themselves ill prepared to deal with unanticipated expenditures that may lead to a budgetary crisis. Furthermore, the drawing down of district surplus's through forced utilization of budgeted fund balance generates automatic revenue shortfalls in subsequent budgets and drives the need to offset such shortfalls through increases in the tax levy or cut other areas such as instructional programming or maintenance.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

Our financial report is designed to provide our citizens, taxpayers, parents, students, investors and creditors with a general overview of the school district's finances and to show the school district's accountability for the money it received. If you have questions about this report or wish to request additional financial information, contact Robert J. Carfagno, CPA, Business Administrator/Board Secretary, at 132 Thomas Street, Cranford, New Jersey, 07016.

CRANFORD SCHOOL DISTRICT RECONCILATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2015

Total net change in fund balances - governmental funds (from B-2) 78,295.47 Amounts reported for governmental activities in the statement of activities (A-2) are different because: Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period. Depreciation expense (1,244,654.98) Capital outlays 487,225.50 (757,429.48)Repayment of bond and lease obligation (long-term debt)principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities. 997,077.13 Proceeds from debt issues are a financing source in the governmental funds. They are not revenue in the statement of activities; issuing debt increases long-term liabilities in the statement of net assets. Capital lease proceeds (244,390.00)In the statement of activities, only the gain on the disposal of capital assets is reported, whereas in the governmental funds, the proceeds from a sale increase financial resources. Thus, the change in net assets will differ from the change in fund balance by the cost of the asset removed. (-) (72,903.57)In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due. The accrued interest is an addition in the reconciliation. (+) 5,094.58 Pension expenditures in the governmental funds are recognized when paid or payable from expendable available financial resources. In the statement of activities, pension costs are recognized on a full accrual basis utilizing actuarial valuations. The amount by which actuarialy calculated pension expense exceeds the expenditure reported in the funds is a deduction. (260,488.00)In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).

The accompanying Notes to Financial Statements are an integral part of this statement.

TOWNSHIP OF CRANFORD SCHOOL DISTRICT COUNTY OF UNION, NEW JERSEY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) of the Board of Education (Board) of the Township of Cranford School District (District) report information on all of the nonfiduciary activities of the primary government only. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support. The District is not financially accountable for any legally separate component units, and no component units have been included in the government-wide financial statements.

B. Reporting Entity:

The Township of Cranford School District is a Type II district located in the County of Union, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The board is comprised of nine members elected to three-year terms. The purpose of the district is to educate students in grades K-12. The Township of Cranford School District had an enrollment at June 30, 2015 of 3,864 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

C. Basis of Presentation - Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

D. Basis of Presentation – Fund Financial Statements:

The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each category – governmental, proprietary and fiduciary are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, with each displayed in a separate column. Any remaining governmental and enterprise funds are aggregated and reports as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the Capital Outlay subfund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. Resources for instructional and noninstructional equipment can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Permanent Fund – The Permanent Fund is used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the District's programs.

D. Basis of Presentation - Fund Financial Statements (Cont'd)

The District reports the following major enterprise funds:

Food Service Fund – the Food Service Fund is used to account for the activities of the cafeteria operations of the District.

The District also reports the following fiduciary fund types:

Agency Fund – The Agency Fund is used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. Agency funds are custodial in nature and do not involve measurement of results of operations. Agency funds include payroll and student activities funds,

Employee Benefit Trust (Unemployment Insurance) – Employee Benefit Trust should be used to report resources that are required to be held in trust for members and beneficiaries of employee benefit plans.

During the course of its normal operations, the District will have activity between funds (interfund activity) for various purposes. Any residual interfund balances at year-end are reported as interfund accounts receivable/payable. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of government-wide financial statements. Balances between funds included within governmental activities (the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, any interfund balances between business-type (enterprise) funds are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, interfund activity may occur during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers' in/out. In the preparation of the government-wide financial statements, transfers between funds included as governmental activities are eliminated so that only net amounts of resources transferred from or to the governmental activities are reported. A similar treatment is afforded transfers of resources between enterprise funds for the preparation of business-type activity financial statements.

E. Measurement Focus and Basis of Accounting:

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured, such as current financial resources or economic resources. The basis of accounting refers to the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the fiscal period that the taxes are levied by the municipality(s) within which the District is domiciled. Ad Valorem (Property) Taxes are susceptible to accrual and under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District recognizes the entire approved tax levy s revenue in the fiscal period for which they were levied. The District is entitled to receive moneys under an established payment schedule and any unpaid amount is considered to be an "accounts receivable". Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. State categorical aid revenues are recognized as District revenue during the fiscal period in which they are appropriated.

The governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period,. Expenditures are generally recorded when a liability is incurred, as under accrual basis accounting. Exceptions to this general rule include debt service, for which interest and principal expenditures in the Debt Service Fund are recognized on their due dates, and expenditures relating to compensated absences, claims and judgments, which are recorded in the period when payment becomes due. General capital assets acquisitions are recorded as expenditures in the governmental funds and are not capitalized. The issuance of long-term debt for capital purposes and capital lease obligations incurred to acquire general capital assets are reported as "other financing sources."

The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. Entitlements are recorded as revenue when all eligibility requirements, including timing of funding appropriations, are met, subject to the 60-day availability requirement for collection. Interest and tuition revenues are considered susceptible to accrual and have been recognized as revenues of the current fiscal period, subject to availability. Expenditure driven grant revenues are recorded as qualifying expenditures are incurred and all other eligibility requirements have been met, subject to availability requirements. All other revenue items are considered measurable and available only when cash is received by the District.

The District's proprietary funds, employee benefit trust fund and private purpose scholarship trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

F. Budgets/Budgetary Control:

Annual budgets are adopted for the general, special revenue and debt service funds using a regulatory basis of accounting, which differs from generally accepted accounting principles in one material respect. Budgetary revenues for certain nonexchange state aid transactions are recognized for budgetary purposes in the fiscal period prior to the period in which the state recognizes expenditures/expenses. The amounts of the adjustments needed to reconcile the budgetary basis to the GAAP based fund financial statements are set forth in the explanation of differences schedules, which follow.

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval. Pursuant to changes in the Local District School Budget Law, statutorily conforming base budgets of Districts with annual school elections held in November are no longer required to be presented to the voters for approval on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m) 1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year. New Jersey statutes place limitations on the Board's ability to increase budgeted expenditures through the appropriation of previously undesignated fund balance and requires the District to obtain additional approvals when budgetary transfers, measured using the advertised budgetary account totals rather than line-item totals, exceed certain thresholds. The Board of Education did not make any supplemental budgetary appropriations during the fiscal year that required additional approvals from oversight agencies.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only and special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

Appropriations in the general and debt service funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executor) contracts for goods and services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year-end, valid outstanding encumbrances, for which the contracted performance is expected during the subsequent budget cycle, are legally restricted at year-end and are automatically re-appropriated and become part of the subsequent years' budget pursuant to state regulations.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial statements

F. Budgets/Budgetary Control (Cont'd):

The following presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual - General, Special Revenue and Debt Service Funds to the GAAP basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types.

Explanation of differences between Budgetary Inflows and Outflows and GAAP Revenues and Expenditures:

Sources/inflows of resources	General Fund	Special Revenue Fund
Actual amounts (budgetary) "revenues" from the budgetary comparison schedules	\$62,479,310.58	\$1,180,723.05
Difference- budget to GAAP: The last State Aid payment is recognized as revenue for budgetary purposes, and differs from GAAP, which does not recognize this revenue until the subsequent year when the State		
recognizes the related expense (GASB 33).	(685,636.00)	
State Aid payment recognized for GAAP statements in the current year, previously recognized for budgetary purposes.	737,873.00	
Total revenues as reported on the statement of		
revenues, expenditures and changes in fund balance – governmental funds.	\$ <u>62,531,547.58</u>	\$ <u>1,180,723.05</u>
Uses/Outflows of resources Actual amounts (budgetary basis) "total outflows" From the budgetary comparison schedule	\$62,668,992.61	\$1,180,723.05
Total expenditures as reported on the statement of		
revenues, expenditures, and changes in fund balances – governmental funds.	\$ <u>62,668,992.61</u>	\$ <u>1,180,723.05</u>

G. Cash, Cash Equivalents and Investments:

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A: 20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 ET. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

H. Tuition Payable

Tuition charges for the fiscal years 2013-2014 and 2014-2015 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

I. Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as expenditure during the year of purchase.

Inventories in the Proprietary Funds are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2015.

J. Short-Term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

K. Capital Assets:

Capital assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$2,000.00 or more for capitalizing capital assets. The system for accumulation of fixed assets cost data does not provide the means for determining the percentage of assets valued at actual and those valued at estimated costs.

Capital assets are recorded in the District-wide financial statements, but are not reported in the Fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purpose. Useful lives vary from 20 to 50 years for land improvements and buildings, and 5 to 15 years for equipment.

Capital assets not being depreciated include land and construction in progress.

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund statement of net position. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated used lives are as follows"

Food Service Fund: Equipment

10 Years

L. Accounts Receivable State - Capital Projects Fund

The District received approval for state grants in the amounts of \$2,099,527.00 for the 2002 School Board Referendum and \$7,992,506.00 for the 2009 School Board Referendum, to make improvements to various school buildings in the District. The state grant participation in the projects represents 40% of total project costs of \$6,271,527.00 and \$19,981,269.00, respectively, of costs deemed eligible as determined by the Commissioner of Education. The state has also established a fixed schedule for the submission of reimbursement vouchers, which is based upon the achievement of certain percentage of completion.

The District recognizes state grant revenue as earned, i.e., as eligible expenditures are incurred, at the rate of 40% of said expenditures. It is assumed that project completion will continue at a pace that will permit the filing of reimbursement vouchers within a time frame, which meets the availability criterion for revenue recognition under GAAP. Through June 30, 2015, the District has recognized a total of \$7,992,506.00 in state grant revenue and \$1,371,368.41 has not been received for the 2009 referendum.

M. Compensated Absences:

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that related to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place. The School District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences".

The entire compensated absences liability is reported on the government-wide financial statements. For governmental funds, the current portion of unpaid compensated absences in the amount expected to be paid using expendable available resources. The non-current portion of the liability is not reported.

N. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Jersey Public Employees Retirement System (PERS) and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

O. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and will not be recorded as an outflow of resources (expenditure/expense) until that time. The District is reporting three items in this category; Change in Pension Assumptions, Change in Proportion and the amounts of pension payments made by the District subsequent to the pension measurement date. The former represents the District's proportionate share of plan earnings in excess of assumed amounts, while the latter represents the favorable impact of a decline in the District's proportionate share of system wide net pension liability.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element represents the acquisition of net position that applies to a future period(s) and will not be recorded as an inflow of resources (revenue) until that time. The District is reporting one pension related item in this category, the Difference in Pension Earnings.

P. Unearned Revenue/Advances from Grantors:

Unearned revenue represents cash advances received relating to services (expenditures/expenses) that will be provided in a subsequent fiscal period. Similarly, for expenditure-driven grants, amounts advanced to the District in excess of the amounts expended and earned are recorded as advances from grantors,

Q. Net Position Flow Assumption (District-Wide and Proprietary Fund Financial Statements

Periodically, the District may fund outlays for a particular purpose from both restricted resources, such as bond referendum proceeds and/or grant proceeds, and unrestricted resources. To determine the amounts of net position – restricted and unrestricted that should be reported in the government-wide and proprietary fund financial statements, a flow assumption must be made to establish the order in which resources are considered to be applied. In the absence of specific grant compliance requirements to the contrary, the District policy is to utilize all amounts of available restricted net position prior to applying unrestricted net position to fund acquisition costs.

R. Fund Balance Flow Assumption (Governmental Fund Financial Statements)

Periodically, the District may fund outlays for a particular purpose form both restricted resources and unrestricted resources (the total of the committed, assigned and unassigned fund balance). To determine the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made to establish the order in which resources are considered to be applied. In the absence of specific grant compliance requirements to the contrary, the District policy is to utilize all amounts of available restricted fund balance prior to applying any component of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance, with unassigned fund balance applied last.

S. Fund Balance Policies:

Fund balance of the governmental funds is reported in various categories based upon the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through actions to transfer amounts to legally restricted reserve accounts (capital, maintenance and emergency reserves), or actions to commit or assign fund balance.

The committed fund balance includes amounts that can only be used for the specific purposes determined by a formal action of the Board of Education. Commitments of fund balance remain in place until the committed fund balance is fully depleted or an amendatory action is taken by the Board of Education.

Assignments of fund balance are made by the Board of Education for specific purposes that do not meet the criteria to be classified as committed. The Board of Education also assigns fund balance when it appropriates unrestricted/unassigned fund balance to bridge a gap between estimated revenue and appropriations in the subsequent years budget. Unlike commitments, assignments are generally temporary in nature, and additional actions of the Board are generally not required to remove an assignment, whereas an action of the Board is essential to the modification or elimination of an unexpended committed fund balance.

T. District-Wide Financial Statement Classifications

- 1. Program Revenues Amounts reported as program revenues include a) charges to customers or applicants who purchase, use or benefit from goods services or privileges provided by a given function or segment and b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.
- 2. General Revenues all taxes, including those designated for specific purposes such as debt service, are reported as general revenues. All other resources, including internally dedicated resources, unrestricted entitlements, and investment income are reported as general revenues.
- 3. Capital Assets In the statement of net position, capital assets are reported, net of accumulated depreciation as assets of the governmental activities and business-type activities.
- 4. Long-term Debt In the statement of net position, long-term debt is reported as a component of long-term liabilities of the governmental activities and business-type activities.
- 5. Net Investment in Fixed Assets In the statement of Net Position, the net undepreciated value of capital assets, less the value of outstanding debt issued to purchase acquire or build those capital assets, is reported as Net Investment in Fixed assets as a component of net position for the governmental activities and business-type activities.

U. Proprietary Fund Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and products in connection with the primary purpose or function for which the fund was established. The District's Food Service proprietary fund reports operating revenues from the sale of lunches and a la carte items, and operating expenses include the costs of sales (food, supplies and labor), administrative costs and depreciation on capital assets. Revenues earned through the District's participation in the National School Lunch Program are classified as nonoperating revenues, notwithstanding the limitations on the pricing of Type A student lunches that is required for program participation.

V. Reconciliation of District-Wide and Fund Financial Statements

I. Differences between governmental fund balance sheet and District-wide statement of net position:

Total Governmental Fund Balance (B-1)	\$4,354,353.88
Adjustments to District-Wide Net Position:	
Capital Assets (see Note 3)	60,083,433.92
Long-Term Liabilities (see Note 4)	(14,818,053.22)
Net Pension Liability	(15,463,969.00)
Other Items not recognized in Fund Financial Statements:	, , , ,
Deferred Inflows of Financial Resources	1,284,260.00
Deferred Outflows of Financial Resources	(921,569.00)
Accrued Interest on Long-term Debt	(70,769.17)
Net Position of Governmental Activities (A-1)	<u>\$34,447,687.41</u>

II. Differences between governmental fund statement of revenues, expenditures and changes in fund balances and District-wide statement of activities:

Total Net Change Governmental Fund Balance (B-2)	\$78,295.47
Adjustments to District-Wide Net Position:	
Depreciation on Capital Assets (see Note 3)	(757,429.48)
Repayment of Long-Term Liabilities (see Note 4)	997,077.13
Capital Leases Issued	(244,390.00)
Other Adjustments to Fund Financial Statements:	,
Gain on Disposal of Capital Assets	(72,903.57)
Compensated Absences	25,045.95
Net Increase in Pension Expense	(260,488.00)
Interest on Long-term Debt (Accrual Basis for District-Wide)	5,094.58

Net Position of Governmental Activities (A-2) \$\(\frac{\$(229,697.92)}{}\)

W. Estimates:

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2. CASH AND CASH EQUIVALENTS AND INVESTMENTS

The Cranford Board of Education had the following depository accounts. All deposits are carried at cost plus accrued interest. The government does not have a deposit policy.

Depository Account	Bank Balance
Insured - FDIC Insured – NJGUDPA (N.J.S.A.17:9-41)	\$ 250,000.00 4,500,993.93
Total Deposits	\$ 4,750,993.93

Custodial Credit Risk – Deposits- Custodial credit risk is the risk that in the event of a bank failure, the board's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. As of June 30, 2015, \$0.00 of the Board's bank balance of \$4,750,993.93 was exposed to custodial risk. (See Note 1-F. relating to statutory mitigation of custodial risk in the event of a bank failure).

New Jersey Cash Management Fund – All investments in the Fund are governed by the regulations of the Investment Council, which prescribe specific standards designed to insure the quality of investments and to minimize the risks related to investments. In all the years of the Division of Investment's existence, the Division has never suffered a default of principal or interest on any short-term security held by it due to the bankruptcy of a securities issuer; nevertheless, the possibility always exists, and for this reason a reserve is being accumulated as additional protection for the "Other-than-State" participants. In addition to the Council regulations, the Division sets further standards for specific investments and monitors the credit of all eligible securities issuers on a regular basis.

As of June 30, 2015, the District had \$48,234.00 on deposit with the New Jersey Cash Management Fund.

NOTE 3. FIXED ASSETS

CRANFORD SCHOOL DISTRICT CAPITAL ASSETS NOTE DISCLOSURE DISCLOSURE OF INFORMATION ABOUT CAPITAL ASSETS (UNAUDITED)

The governmental fund balance sheet includes a reconciliation between fund balance - total government funds and net position - governmental activities as reported in the District-wide statement of net position. One item of that reconciliation explains that capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. An addition to the fund balance - total governmental funds is made to reflect the carrying value of the District's capital assets at year-end in the District-wide financial statements, which consist of:

Total captial assets at cost
Less: accumulated depreciation

Government Activities Captial Assets, Net

\$ 134,055,474.10
(73,972,040.18)

\$ 60,083,433.92

Capital assets by classification and activity for the year ended June 30, 2015 was as follows:

		Beginning			Ending
Governmental Activities:		Balance	Additions	Deletions	Balance

D. Bond Referendum

On March 11, 2002, the District held a School Board Referendum. The School District voters approved the referendum, which consisted of the following:

Construction of additional classrooms to Walnut Avenue K-2 Elementary School and various renovations, upgrades and improvements to various school facilities within the School District in an amount not to exceed \$6,271,785, and authorizing the issuance of bonds in the amount of \$4,172,000.

Of the total amount of \$6,271,785, School District Bonds dated September 15, 2002 were issued in the amount of \$4,172,000.

Furthermore, the Board of Education has received grant approval from the State of New Jersey Economic Development Authority in the amount of \$2,099,527.

D. Bond Referendum (Cont'd.)

On December 8, 2009, the District held a School Board Referendum. The School District voters approved the referendum, which consisted of the following:

Undertake district-wide roof/energy efficiency improvement projects including roof replacement at all schools; heating/ventilation upgrades at Brookside Place School, Walnut Avenue School and Bloomingdale Avenue School; and boiler replacement at Orange Avenue School, Hillside Avenue School and Lincoln School; expend on such projects an aggregate amount not exceeding \$19,981,269, which expenditure shall be funded, in part, with a \$7,992,506 State grant, based on aggregate final eligible costs of \$19,981,269 as determined by the Commissioner of Education; and issue bonds in an aggregate amount not exceeding \$11,988,763 representing the School District's local share of projects costs. The local shares of each of the projects may be transferred among projects.

Of the total amount of \$19,981,269, the School District Bonds received authorization to issue bonds in the amount of \$11,988,763, which represents the School Districts local share of the project costs.

Furthermore, the Board of Education has received grant approval from the State of New Jersey Schools Development Authority in the amount of \$7,992,506. At June 30, 2015 a balance of \$1,461,922.04 of SDA funds remained uninvoiced and has not been recognized as project revenues.

NOTE 5. PENSION PLANS

Description of Plans - The State of New Jersey, Division of Pension and Benefits (the Division) was created and exists pursuant to N.J.S.A. 52:18A to oversee and administer the pension trust and other postemployment benefit plans sponsored by the State of New Jersey (the State). According to the State of New Jersey Administrative Code, all obligations of the Systems will be assumed by the State of New Jersey should the plans terminate. Each defined benefit pension plan's designated purpose is to provide retirement, death and disability benefits to its members. The authority to amend the provision of plan rests with new legislation passed by the State of New Jersey. Pension reforms enacted pursuant to Chapter 78, P.L. 2011 included provisions creating special Pension Plan Design Committees for the public Employees Retirement System (PERS) and the Teachers Pension and Annuity Fund (TPAF), once a Target Funded Ratio (TFR) is met, that will have the discretionary authority to modify certain plan design features, including member contribution rate; formula for calculation of final compensation or final salary; fraction used to calculate a retirement allowance; age at which a member may be eligible and the benefits for service or early retirement; and benefits provided for disability retirement. The committee will also have the authority to reactivate the cost of living adjustment (COLA) on pensions. However, modifications can only be made to the extent that the resulting impact does not cause the funded ratio to drop below the TFR in any one year of a projection period. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for each of This report may be accessed via the Division of Pensions and Benefits website, at the plans. www.state.nj.us/treasury/pensions, or may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

A. Public Employees' Retirement System (PERS) - The Public Employee Retirement System is a cost-sharing, multiple employer defined benefit pension plan as defined in GASB Statement No. 68. The Plan is administered by The New Jersey Division of Pensions and Benefits (Division). The more significant aspects of the PERS Plan are as follows:

Plan Membership and Contributing Employers- Substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency are enrolled in PERS, provided the employee is not required to be a member of another state-administered retirement system or other state pension fund or other jurisdiction's pension fund. Membership and contributing employers of the defined benefit pension plans consisted of the following at June 30, 2014:

Inactive plan members or beneficiaries currently receiving benefits	160,716
Inactive plan members entitled to but not yet receiving benefits	730
Active plan members	<u>266,526</u>
Total	<u>427,972</u>

Contributing Employers -1,707.

Significant Legislation – For State of New Jersey contributions to PERS, Chapter 1, P.L. 2010, effective May 21, 2010, required the State to resume making actuarially recommended contributions to the pension plan on a phased-in basis over a seven year period beginning in the fiscal year ended June 30, 2012. For State fiscal year 2014, the State was required to make a minimum contribution representing 3/7th of the actuarially determined contribution amount based on the July 1, 2012 actuarial valuation.

Chapter 19, P.L. 2009, effective March 17, 2009, provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State Fiscal Year 2009. Such an employer will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of PERS, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets. Pursuant to the provision of Chapter 78, P.L. 2011, COLA increases were suspended for all current and future retirees of PERS.

For the year ended June 30, 2015 the Board's total payroll for all employees was \$37,372,790. Total PERS covered payroll was \$5,549,124. Covered payroll refers to all compensation paid by the Board to active employees covered by the Plan.

Specific Contribution Requirements and benefit provisions – The contribution policy is set by N.J.S.A 43:15 and requires contributions by active members and contributing employers. Members contribute at a uniform rate. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years beginning in July 2012. The member contribution rate was 6.78% in State fiscal year 2014. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. Employers contribution amounts are based on an actuarially determined rate. The annual employer contributions include funding for basic retirement allowances and noncontributory death benefits. The School Board's cash basis contributions to the Plan for the years ended June 30, 2014 and 2015 were \$585,090 and \$680,898, respectively. School Board Contributions are due and payable in the fiscal period subsequent to plan year for which the contributions requirements were calculated.

A. Public Employees' Retirement System (PERS) (Cont'd.)

The vesting and benefit provisions are set by N.J.S.A. 43:15. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007.
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 8, 2008
3	Members who were eligible on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

A service retirement benefit of 1/55th of final average salary for each year of service credit is available to tier 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tier 1 and 2 members before reaching age 60, to tier 3 and 4 members before age 62 and tier 5 members with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age of his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions – At June 30, 2015, the School Board reported a liability of \$15,463,969 for it's proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Board's proportion of the net pension liability was based on a projection of the Boards long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2014, the Boards proportion was 0.082595%, which was an increase of 0.106814% from its proportion measure as of June 30, 2013.

A. Public Employees' Retirement System (PERS) (Cont'd.)

For the year ended June 30, 2015, the Board recognized pension expenses of \$962,429. At June 30, 2015 the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows Of Resources	Deferred Inflows Of Resources
Changes in assumptions	\$486,270	\$
Net difference between projected and actual		
earnings on Plan investments		921,569
Changes in proportion and differences between		
Board contributions and proportionate share		
of contributions	797,990	
Board contributions subsequent to the		
measurement date	<u>680,868</u>	
Total	\$1,965,128	\$921,569

The \$680,868 of deferred outflows of resources resulting from the Boards contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

June 30,	
2016	(\$15,105.45)
2017	(\$15,105.45)
2018	(\$15,105.45)
2019	(\$15,105.45)
2020	(\$15,105.45)
Thereafter	(\$287,163.73)

Actuarial Assumptions- The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.01%	
Salary Increases (2012-2021)	2.15-4.40% Based on age	
Thereafter	3.15-5.40% Based on age	
Investment rate of return	7.90%	

Mortality rates were based on the RP-2000 Combined Table for Males or Females, as appropriate with adjustments for mortality improvements based on Scale AA.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2014 are summarized in the following table:

A. Public Employees' Retirement System (PERS) (Cont'd.)

Asset Class

Cash	0.08%
Core Bonds	2.49%
Intermediate-Term Bonds	2.26%
Mortgages	2.17%
High Yield Bonds	4.82%
Inflation-Indexed Bonds	3.51%
Broad US Equities	8.22%
Developed Foreign Equities	8.12%
Emerging Market Equities	9.91%
Private Equity	13.02%
Hedge Funds/Absolute Return	4.92%
Real Estate (Property)	5.80%
Commodities	5.35%

Discount Rate - The discount rate used to measure the pension liabilities of PERS was 5.39%

Sensitivity of Net Pension Liability – the following presents the net pension liability of PERS calculated using the discount rates as disclosed above as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage rate higher than the current rate:

	At 1% Decrease	At current discount rate	At 1% increase
PERS	\$47,326,289,075	\$38,849,838,953	\$31,735,758,503

Plan Fiduciary Net Position – The plan fiduciary net position for PERS, including the State of New Jersey, at June 30, 2014 was \$28,999,581,773. Information regarding the portion of the Plan Fiduciary Net Position that was allocable to the Local (Non-State) Group was not available.

B. Teachers Pension and Annuity Fund

The Teachers Pension and Annuity Fund is a cost-sharing, multiple employer defined benefit pension plan with a special funding situation as defined in GASB Statement No. 68. The Plan is administered by The New Jersey Division of Pensions and Benefits (Division). The more significant aspects of the TPAF Plan are as follows:

Plan Membership and Contributing Employers- Substantially all teachers or members of the professional staff of Local Education Agencies that are certified by the State Board of Examiners, and Employees of the Department of Education who have titles that are unclassified, professional and certified are enrolled in the TPAF. Membership and contributing employers of the defined benefit pension plans consisted of the following at June 30, 2014:

Inactive plan members or beneficiaries currently receiving benefits Inactive plan members entitled to but not yet receiving benefits	94,822 276	
Active plan members	152,812	
Total	247,910	

B. Teachers Pension and Annuity Fund (Cont'd.)

In addition to the State, who is the sole payer of regular employer contributions to the fund, TPAF's contributing employers include boards of education who elected to participate in the Early Retirement Incentive Program (ERIP) and are legally responsible to continue to pay towards their incurred liability. The current number of ERIP Contributing Employers is 26.

Significant Legislation – For State of New Jersey contributions to TPAF, Chapter 1, P.L. 2010, effective May 21, 2010, required the State to resume making actuarially recommended contributions to the pension plan on a phased-in basis over a seven year period beginning in the fiscal year ended June 30, 2012. For State fiscal year 2014, the State was required to make a minimum contribution representing 3/7th of the actuarially determined contribution amount based on the July 1, 2012 actuarial valuation.

Pursuant to the provision of Chapter 78, P.L. 2011, COLA increases were suspended for all current and future retirees of TPAF.

For the year ended June 30, 2015 the Board's total payroll for all employees was \$37,372,790. Total TPAF covered payroll was \$27,043,401. Covered payroll refers to all compensation paid by the Board to active employees covered by the Plan.

Specific Contribution Requirements and benefit provisions – The contribution policy is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contributions rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years beginning in July 2012. The member contribution rate was 6.78% in State fiscal year 2014. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. The State of New Jersey contribution amount is based on an actuarially determined amount which includes the employer portion of normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory insurance is based on actual claims paid for fiscal years 2014 & 2013, the State's contribution was less than the actuarial determined amount.

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

<u>Tier</u> <u>Definition</u>

- 1 Members who were enrolled prior to July 1, 2007.
- 2 Members who were eligible to enroll on or after July 1, 2007 and prior to November 8, 2008
- Members who were eligible on or after November 2, 2008 and prior to May 22, 2010
- 4 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 5 Members who were eligible to enroll on or after June 28, 2011

B. Teachers Pension and Annuity Fund (Cont'd.)

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age of his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions – The State of New Jersey is solely responsible for funding the normal pension obligations of the TPAF, including 100% of the obligations of LEAs within the State. Accordingly, the District does not report TPAF pension liabilities or deferred inflows and outflows of financial resources in its financial statements. Payments made by the State to the TPAF "on-behalf" of the LEAs are reported to the LEAs and reported as TPAF pension expenditures/expenses as made.

Three-Year Trend Information for TPAF (Paid on-behalf of the District, excluding post-retirement

	medica	i denemits which a	ire reportea in No	ote o)	
Year		Annual	Percentage		Net Local
Funding		Pension Cost (APC)	of APC Contributed		Pension Obligation
6/30/15	\$	1,488,656.00	100	%	\$ 0
6/30/14		1,127,466.00	100	%	0
6/30/13		1,733,732.00	100	%	0

At June 30, 2014, the TPAF reported a net pension liability of \$53,446,745,367 for its Non-State Employer Member Group. The proportionate share of the State of New Jersey's the net pension liability for the Non-State Employer Member Group that is attributable to the District was \$142,443,280, or 0.267%. State non-employer contributions allocated to the District were \$1,132,123 and \$1,734,782 for 2014 and 2013.

Actuarial Assumptions- The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary Increases (2012-2021)	Varies based on experience
Thereafter	Varies based on experience
Investment rate of return	7.90%

Mortality rates were based on the RP-2000 Combined Table for Males or Females, as appropriate with adjustments for mortality improvements based on Scale AA.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class.

B. Teachers Pension and Annuity Fund (Cont'd.)

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2014 are summarized in the following table:

Asset Class

Cash	0.05%
Core Bonds	1.38%
Intermediate-Term Bonds	2.60%
Mortgages	2.84%
High Yield Bonds	4.15%
Inflation-Indexed Bonds	1.30%
Broad US Equities	5.88%
Developed Foreign Equities	6.05%
Emerging Market Equities	8.90%
Private Equity	9.15%
Hedge Funds/Absolute Return	3.85%
Real Estate (Property)	4.43%
Commodities	3.60%

Discount Rate - The discount rate used to measure the pension liabilities of TPAF was 4.68%

Sensitivity of Net Pension Liability – the following presents the net pension liability of TPAF calculated using the discount rates as disclosed above as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage rate higher than the current rate:

	At 1% Decrease	At current discount rate	At 1% increase
TPAF	\$64,722,984,539	\$53,813,067,539	\$44,738,870,539

Plan Fiduciary Net Position - The plan fiduciary net position for TPAF at June 30, 2014 was \$27,282,252,461.

NOTES TO FINANCIAL STATEMENTS

NOTE 5. PENSION PLANS (CONT'D.)

Defined Contribution Retirement System (DCRP)

The Defined Contribution Retirement Plan (DCRP) is a multiple employer defined contribution plan as defined in GASB Statement No. 68. The Plan is administered by The New Jersey Division of Pensions and Benefits (Division). The more significant aspects of the DCRP are as follows:

Plan Membership and Contributing Employers- Enrollment in the DCRP is required for state or local officials, elected or appointed on or after July 1, 2007; employees enrolled in TPAF or PERS on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits; employees otherwise eligible to enroll in TPAF or PERS on or after November 2, 2008, who do not earn the minimum annual salary for tier 3 enrollment but who earn salary of at least \$5,000 annually; and employees otherwise eligible to enroll in TPAF or PERS after May 21, 2010, who do not work the minimum number of hours per week required for tier 4 or tier 5 enrollment, but who earn salary of at least \$5,000 annually. At June 30, 2014, the membership in the DCRP, based on the information within the Division's database, was 28,270.

Contribution Requirement and Benefit Provisions - State and local government employers contribute 3% of the employees base salary. Active members contribute 5.5% of base salary.

Eligible members are provided with a defined contribution retirement plan intended to qualify for favorable Federal income tax treatment under IRC Section 401(a), a noncontributory group life insurance plan and a noncontributory group disability benefit plan. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employee contributions shall immediately become and shall at all times remain fully vested and non forfeitable. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employer contributions shall be vested and non forfeitable on the date the participant commences the second year of employment or upon his or her attainment of age 65, while employed by an employer, whichever occurs first.

For the year ended June 30, 2015 the Board's total payroll for all employees was \$37,372,790. Total DCRP covered payroll was \$485,256. Covered payroll refers to all compensation paid by the Board to active employees covered by the Plan. Board and employee contributions to the DCRP for the year ended June 30, 2015 were \$15,003 and \$26,689, respectively.

NOTE 6. POST-RETIREMENT BENEFITS

P.L. 1987, Chapter 384 and P.L. 1990, Chapter 6 required Teachers' Pensions and Annuity Fund (TPAF) and Public Employee's Retirement System (PERS), respectively, to fund postretirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2014, there were 103,432 retirees eligible for post-retirement medical benefits and the State contributed \$1.04 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in fiscal year 1994.

NOTE 6. POST-RETIREMENT BENEFITS (CONT'D.)

The State is also responsible for the cost attributable to Chapter 126, P.L. 1992, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired form a board of education or county college with 25 years of service. The State paid \$165.8 million toward Chapter 126 benefits for 18,122 eligible retired members in Fiscal Year 2014.

The Division of Pensions issues a publicly available financial report that includes the financial statements and required supplementary information for the Health Benefits Program Fund – Local Government.

This report may be accessed via the Division of Pensions and Benefits website, at www.state.nj.us/treasury/pensions, or my be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, NJ 08625.

The State contributions to the Health Benefits Program Fund of the District for TPAF retiree health benefits, for the last three years, is as follows:

Three-Year Trend Information for TPAF (Paid on-behalf of the District)

Year <u>Funding</u>		Annual Post Retirement Medical Cost (APC)	Percentage of APC Contributed		Net Pension Obligation	
6/30/15	\$	2,363,242	100	%	\$ 0	
6/30/14		1,848,621	100		0	
6/30/13		1,960,413	100		0	

NOTE 7. COMPENSATED ABSENCES

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the district's personnel policy. Upon termination, employees are paid for accrued vacation in accordance with the District's agreements with the various employee unions or individual employment contracts. The district's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the district for the unused sick leave in accordance with the Districts' agreements with the various employee unions or individual employment contracts.

In the district-wide *Statement of Net Assets*, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2015, no liability existed for compensated absences in the District Enterprise funds.

NOTE 8. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

<u>Property and Liability Insurance</u> - The District maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of employee contributions and interest earnings, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and prior two years:

Fiscal Year	Contributions/Interest	Amount Reimbursed	Ending Balance
2014-2015	\$ 78,273.51	\$ 94,649.18	\$ 59,205.96
2013-2014	58,367.47	121,984.28	75,581.63
2012-2013	206,897.81	91,754.53	139,198.44

The Board, along with other school districts, is a member of the Diploma Joint Insurance Fund for Workers' Compensation Insurance Coverage. The Fund is organized and operated pursuant to the regulatory authority of the Department of Banking and Insurance, State of New Jersey and provides for a pooling of risks, subject to established limits and deductibles. In addition, the Fund has obtained excess liability coverages for participants.

At June 30, 2015, the last available audit report, the Fund reported case revenue and losses incurred but not reported (IBNR) in excess of fund balance for all years of \$1,769,508.00.

NOTE 9. INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances remained on the balance sheet at June 30, 2015:

Fund	Interfund Receivable	Interfund <u>Payable</u>
General Fund	\$ 201,444.76	\$
Special Revenue Fund		201,444.76
Total	\$ 201,444.76	\$ 201,444.76

NOTE 10. INVENTORY

Inventory in the Food Service Fund at June 30, 2015 consisted of the following:

Food	\$	10,904.74
Supplies	_	4,085.18
	\$_	14,989.93

The value of Federal donated commodities as reflected on Schedule A (required by the Single Audit Law of 1984) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of nonoperating revenue in the financial statements.

NOTE 11. FUND BALANCE APPROPRIATED

General Fund (B-1) - Of the \$379,383.10 General Fund balance at June 30, 2015, \$82,402.88 is reserved for encumbrances; \$1.00 has been reserved in the Capital Reserve Account; and \$296,979.22 is unassigned.

Debt Service Fund (B-1) – Of the \$1,832,912.21 Debt Service Fund balance at June 30, 2015 \$743,317.00 has been appropriated and included as anticipated revenue for the year ending June 30, 2015 and \$1,089,595.21 is assigned.

Capital Projects Fund (B-1) - Of the \$2,142,058.57 Capital Projects Fund balance at June 30, 2015, \$2,142,058.57 is assigned.

NOTE 12. CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A. 18A: 7F-7, as amended by P.L. 2004, c.73 (S1701), the designation for Reserved Fund Balance -- Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2015, calculated on a budgetary basis pursuant to statute, is \$0.00.

NOTE 13. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Cranford Township Board of Education by inclusion of \$1.00 on September 25, 2000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

NOTE 13. CAPITAL RESERVE ACCOUNT (CONT'D)

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP) and updated annually in the Quality Assurance Annual Report (QAAR). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district my also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of four special elections authorized pursuant to N.J.S.A 19:60 – 2. Pursuant to N.J.A.C. 6:23A-5.1 (d) 7, the balance in the account cannot at any time exceed the local support costs of uncompleted projects in its approved LRFP.

NOTE 14. DEFICIT FUND BALANCES

The District did not have any deficit fund balances at June 30, 2015 that would have been reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the delayed one or more June state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payment(s) in the subsequent fiscal year, the school district cannot recognize the June state aid payments (on the GAAP financial statements) until the year the State records the payable. Due to the timing difference of recording the June state aid payments, the General and Special Revenue Fund balance deficit does not alone indicate that the district is facing financial difficulties.

Pursuant to N.J.S.A. 18A: 22-44.2 any negative unreserved, undesignated general fund balance that is reported as a direct result from a delay in the payment of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action.

NOTE 15. PENDING LITIGATION AND CONTINGENT LIABILITIES

As at the date of this report, there was no litigation pending which, in the event of an adverse or unfavorable outcome, would materially impair the financial position of the Cranford School District.

NOTE 16. RESTATEMENT OF GOVERNMENTAL ACTIVITIES NET POSITION

The District implemented the provisions of GASB Statement No. 68 effective July 1, 2014. The adoption of this standard required recognition in the Governmental Activities Net Position and Activities of the District's proportionate share of the net pension liability of the Public Employees Retirement System (PERS), and an associated deferred outflow of financial resources for payments made subsequent to the June 30, 2013 measurement date. Prior to the implementation of GASB Statement No. 68, no amounts were required to be reported in the District's financial statements for its share of the PERS net pension liability or for the specific deferred inflows and deferred outflows of financial resources attributable to the District resulting from Plan operations. PERS pension expenditures/expenses were reported in the year paid, which lags the period in which PERS employer contributions are recorded by one fiscal year. The new standard improves the information provided in government financial reports about pension-related costs, obligations and the resources available to satisfy those obligations. A prior period adjustment to effect a restatement of the June 30, 2014 Governmental Activities Net Position was required as follows:

Governmental Activities Net Position as Reported 6-30-14 \$49,518,175.33

June 30, 2013 Proportionate Share of PERS

Net Pension Liability (\$14,840,790.00) Accrued Pension Accounts Payable (546,391.00)

Less: Deferred Outflow of Resources for

Payment Subsequent to Measurement Date 549,391.00

Net Decrease in Governmental Activities Net Position (14,840,790.00)

Governmental Activities Net Position 6-30-14 Restated \$34,677,385.33

NOTE 17. SUBSEQUENT EVENTS

As at the date of the audit report, no events have occurred that would have a material effect on the financial statements.

^{*}Formerly reported as a deferred asset and amortized over the life of the related debt.

Note:

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.

b Rates for debt service are based on each year's requirements.

Cranford Public School District Direct and Overlapping Governmental Activities Debt As of June 30, 2015 Unaudited

		Estimated Percentage	Estimated Share of
Governmental Unit	Debt Outstanding	Applicable ^a	Overlapping Debt
Debt repaid with property taxes			
Township of Cranford	\$43,044,897.01	100.00%	\$43,044,897.01
County of Union	570,015,152.42	5.98%	34,081,205.96
Subtotal, overlapping debt	,		77,126,102.97
Cranford School District Direct Debt			11,760,000.00
Total direct and overlapping debt			\$88,886,102.97

Sources:

Assessed value data used to estimate applicable percentages provided by the Union County Board of Taxation.

Debt outstanding data provided by each governmental unit.

Note:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Cranford. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITNG STANDARDS

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Cranford School District Cranford, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United Sates of America and the standards applicable to financial audits contained in *Governmental Auditing* Standards issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Cranford Board of Education in the County of Union, State of New Jersey, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Cranford Board of Education's basic financial statements and have issued our report thereon dated December 9, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Cranford Board of Education's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Cranford Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Cranford Board of Education's internal control

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses deficiencies or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Cranford Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

We noted other matters involving internal control and internal control over financial reporting that we reported to the Board of Education in a separate report entitled, Auditors Management Report on Administrative Findings dated December 9, 2015.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM;
REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT
ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AND
STATE FINANCIAL ASSISTANCE REQUIRED BY
OMB CIRCULAR A-133 AND NEW JERSEY OMB CIRCULAR 04-04

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Cranford School District County of Union, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the compliance of the Cranford Board of Education with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement and the New Jersey Compliance Manual State Grant Compliance Supplement that could have a direct and material effect on each of the Cranford Board of Education's major federal and state programs for the year ended June 30, 2015. The Cranford Board of Education's major federal and state programs are identified in the Summary of Auditor's Results Section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to it federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Cranford Board of Education's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey; audit requirements as prescribed by OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and New Jersey OMB Circular 04-04, Single Audit Policy for Recipients of Federal Grants and State Aid. Those standards and OMB Circular A-133 and New Jersey OMB's Circular 04-04, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Cranford Board of Education's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion for each major federal and state program. However, our audit does not provide a legal determination on the Cranford Board of Education's compliance.

Opinion on each Major Federal and State Program

In our opinion, the Cranford Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the Cranford Board of Education is responsible for establishing and maintaining effective internal control over compliance with types of compliance requirements referred to above. In planning and performing our audit, we considered the Cranford Board of Education's internal control over compliance with the requirements that could have a direct and material effect on a major federal and state programs to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and New Jersey OMB 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Cranford Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weakness, as defined above.

Purpose of Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133 and New Jersey OMB 04-04. Accordingly, this report is not suitable for any other purpose.

CRANFORD SCHOOL DISTRICT NOTES TO THE SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE JUNE 30, 2015

NOTE 1. GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Cranford School District. The Board of Education is defined in Note 1 to the Boards' basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to *N.J.S.A.* 18A:22-44.2. For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget, consistent with *N.J.S.A.* 18A:22-4.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$51,237.00 for the general fund and \$0.00 for the special revenue fund. See Note 1 for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basics financial statements on a GAAP basis as presented on the following page:

CRANFORD SCHOOL DISTRICT NOTES TO THE SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE JUNE 30, 2015

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS (CONT'D.):

	<u>Federal</u>	State	<u>Total</u>
General Fund	\$111.82	\$ 8,713,313.64	\$ 8,713,425.46

Food Service Fund	0.00	1,324.52	1,324.52
Total Awards & Financial			
Assistance	<u>\$ 1,041,207.68</u>	<u>\$12,776,245.52</u>	<u>\$13,817,453.20</u>

NOTE 4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 5. OTHER

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the District for the year ended June 30, 2015. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2015.
