# **EDGEWATER BOARD OF EDUCATION**

Gary J. Grembowiec Business Administrator/Board Secretary 251 Undercliff Avenue Edgewater, New Jersey 07020 Tel. (201) 945-4106 Fax (201) 840-9732

December 18, 2015

The Honorable President and Members of the Board of Education Borough of Edgewater School District County of Bergen, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Borough of Edgewater School District (the "District") for the fiscal year ended June 30, 2015, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (the "Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the basic financial statements and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the Independent Auditors' Report, management's discussion and analysis, the basic financial statements and notes providing an overview of the District's financial position and operating results, and supplementary schedules providing detailed budgetary information. The statistical section includes selected economic and demographic information, financial trends and the fiscal capacity of the District, generally presented on a multi- year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*, and New Jersey OMB Circular NJOMB 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Information related to this single audit, including the auditors' reports on the internal control and compliance with applicable laws, regulations, contracts and grants along with findings and questioned costs, is included in the single audit section of this report.

1) <u>REPORTING ENTITY AND ITS SERVICES</u>: The Borough of Edgewater School District is an independent reporting entity within the criteria adopted by the Government Accounting Standards Board ("GASB") in codification section 2100. All funds of the District are included in this report. The Edgewater Public School System, including the Eleanor Van Gelder Elementary School and the George Washington School, constitute the District's reporting entity.

2) <u>EDUCATIONAL PROGRAM</u>: The Edgewater Public School System is comprised of two elementary school, the George Washington School, PreK through Grade 2, and the Eleanor Van Gelder School, Grades 3 through 6, serving approximately 907 students. The public school is accredited by the New Jersey State Department of Education. The District is served by 67.7 (FTE) teachers and 4 (FTE) administrators. Approximately 57% of the faculty has earned masters degrees.

The Honorable President and Members of the Board of Education Borough of Edgewater School District December 18, 2015 Page 2

The District provides a full range of educational services appropriate to levels Pre-K through Grade 6. These include reading, language arts, social studies, mathematics, science, computer education, remedial instruction, special education, resource room instruction, family life, physical and health education, career education, world languages and enrichment. The curriculum is aligned with the New Jersey Core Curriculum Content Standards, the Common Core Standards as required and that of the Leonia Public School System where Edgewater students attend Grades 7-12.

The District's Spring 2015 results for Language Arts Literacy (LAL) and Mathematics are as follows:

	Langua	age Arts Literacy		Mathematics		
	Advanced		Partially	Advanced		Partially
	Proficient L5	Proficient L4	Proficient L3	Proficient L5	Proficient L4	Proficient L3
Grade 3	8.0%	40.0%	28.0%	15.5%	37.9%	26.2%
Grade 4	18.9%	46.7%	22.2%	13.7%	43.2%	25.3%
Grade 5	5.4%	61.3%	24.7%	7.2%	49.5%	19.6%
Grade 6	20.0%	74.7%	28.0%	22.4%	47.4%	50.0%

The District completed the 2014-2015 fiscal year with Pre-K through Grade 6 enrollment of 898 students and Grade 7-12 enrollment of 379 students in Leonia Public Schools, for an overall total of 1277 students, which is an increase of 42 students from the previous year's enrollment.

The following table details the changes in the District's average daily enrollment for grade levels Pre-K through 6 as of October 15 over the last five years:

Average Daily Enrollment								
Fiscal Year	Pre K-6 Enrollment	Percent Change						
2014-2015	907	3.20%						
2013-2014	878	11.96%						
2012-2013	773	16.41%						
2011-2012	664	7.44%						
2010-2011	618	4.20%						
2009-2010	593	22.10%						

3) <u>ECONOMIC CONDITIONS AND OUTLOOK</u>: The District's primary funding source is property tax revenue. . Overall tax revenue for the General Fund was increased for the 2014-15 school year, but the projected increase in expenditures from inflationary pressures and the enrollment growth has outpaced the additional revenue. As a result, the District, along with many other public school systems in the State, faces some difficult economic situations in the future. The District's administration continues to closely monitor the cost of operations and continues to look for innovative ways to cut costs in addition to finding new funding sources in order to maintain the guality educational services that the District has been accustomed to providing. The Honorable President and Members of the Board of Education Borough of Edgewater School District December 18, 2015 Page 3

4) MAJOR INITIATIVES: Specific initiatives for the 2014-2015 school year include the following accomplishments:

- Curriculum articulation continued between Edgewater and Leonia Schools
- Continuation of music classes after school
- Continuation of after school clubs to include scholarships for economically disadvantaged
- Continued to expand our technology program by purchasing additional hardware and software
- Addition of two homerooms due to enrollment increase
- Launched partnership with Teachers College Reading and Writing Project to strengthen literacy instruction in Grades K-6
- Launched GoMath! curriculum in Grades K-6
- Restructured administration to include new EVG Principal position
- Launched online administration of state assessments
- Created a new K-6 Guidance program

5) INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control system designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state awards, the District also is responsible for ensuring that an adequate internal control system is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control system is also subject to periodic evaluation by the District's management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control system, including that portion related to federal and state award programs, as well as to determine that the District has complied with applicable laws, regulations, contracts and grants.

6) <u>BUDGETARY CONTROLS</u>: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund and the debt service fund. Project length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2015.

The Honorable President and Members of the Board of Education Borough of Edgewater School District December 18, 2015 Page 4

7) <u>ACCOUNTING SYSTEM AND REPORTS</u>: The District's accounting records reflect generally accepted accounting principles, as promulgated by the GASB. The accounting system of the District is organized on the basis of funds. These funds are explained in the "Notes to Financial Statements", Note 1.

8 <u>DEBT ADMINISTRATION</u>: At June 30, 2015, the District had \$ 31,023,000 in outstanding statutory debt, comprised entirely of school bonds to improve District facilities, and \$481 of debt authorized but not issued.

9) <u>CASH MANAGEMENT</u>: The investment policy of the District is guided in large part by state statute as detailed in the "Notes to Financial Statements", Note 3. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA" or the "Act"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

10) <u>RISK MANAGEMENT</u>: The Board carries various forms of insurance, including, but not limited to, general liability, excess liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

The Board is a member of the New Jersey School Boards Association Insurance Group (the "Group"). The Group is a risk-sharing public entity risk fund that is both an insured and self-administered group of school districts established for the purpose of providing low-cost insurance coverage to its members. Additional information on the Group is included in the "Notes to Financial Statements", Note 10.

#### 11) OTHER INFORMATION:

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of McEnerney, Brady and Company LLC, CPAs, was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act Amendments of 1996 and the related Federal OMB Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations,* and New Jersey OMB Circular NJOMB 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* The auditors' report on the basic financial statements and specific required supplementary information is included in the financial section of this report. The auditors' reports related specifically to the single audit are included in the single audit section of this report.

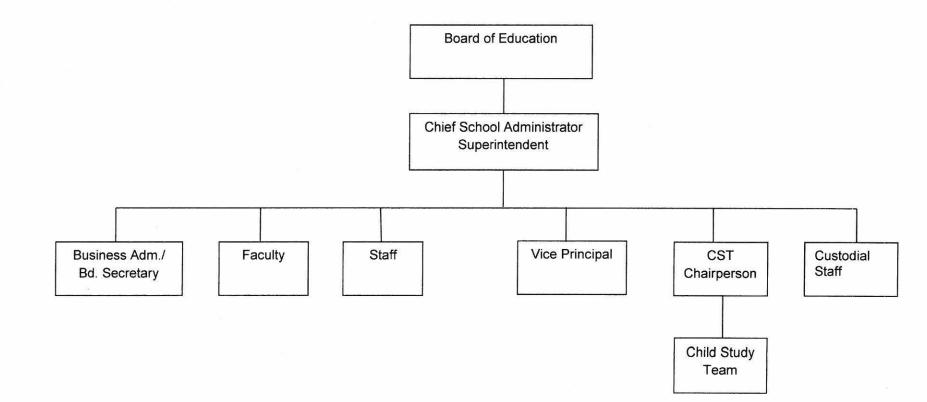

12) <u>ACKNOWLEDGMENTS</u>: We would like to express our appreciation to the members of the Borough of Edgewater School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the School District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of the financial and accounting staff.

Respectfully submitted,

an

Chief School Administrator

Business Administrator/Board Secretary

#### **Independent Auditors' Report**

The Honorable President and Members of the Board of Education Borough of Edgewater School District County of Bergen Edgewater, New Jersey

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Borough of Edgewater School District, in the County of Bergen, State of New Jersey (the "District"), as of and for the year ended June 30, 2015, and the related notes the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

In accordance with accounting principles generally accepted in the United States of America, management's discussion and analysis, pages 14 through 24, and the budgetary comparison information and long-term debt schedule of obligations under capital leases, pages 63 through 103 (collectively, "RSI"), are presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information, such as the combining and individual non-major fund financial statements (this "supplemental sections") and the schedules of federal and state awards, as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and New Jersey State Office of Management and Budget Circular Letter 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying other information, such as the introductory and statistical sections, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

The information included in the supplemental sections and schedules of expenditures of federal and state awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental sections and schedules of expenditures of federal and state awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Honorable President and Members of the Board of Education Borough of Edgewater School District Page 3

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2015 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

This section of Borough of Edgewater School District's (the "District") annual financial report presents its discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2015. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follow this section.

#### **Financial Highlights**

- The District's net position decreased by \$7,190,077. Due to recording of the District's pension cost and the change in capital assets.
- Overall revenue was \$21,674,088.
- Revenue increased due to an increase in the tax levy and an increase in tuition for the Pre-K.
- Overall expenses were \$25,682,473.
- Pre-K through grade 6 student enrollment in the District reflects marked growth while expenditures increased 3.95% excluding depreciation expense.
- Capital expenditures during the year totaled \$288,818 which was for the improvements to classrooms at the Eleanor Van Gelder School.

#### **Overview of the Financial Statements**

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more* detail than the district-wide statements.
- The governmental funds statements tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.
- Proprietary funds statements offer short-and long-term financial information about the activities the District operates like a business, such as food services.
- *Fiduciary funds statements* provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Figure A-I shows how the various parts of this annual report are arranged and related to one another.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

#### **District-wide Statements**

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's *net position* and how they have changed. Net position -the difference between the District's assets and liabilities -is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the District-wide financial statements, the District's activities are divided into two categories:

- Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of these activities.
- Business-type activities: The District charges fees to help it cover the costs of certain services it
  provides. The District's food service is included here. The District also began a tuition based PreK program which is also included under business type activities.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds -not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- · Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that is it properly using certain revenue (such as federal grants).

The District has three kinds of funds:

 Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or difference) between them.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

#### **Fund Financial Statements**

- Proprietary funds: Services for which the District charges a fee are generally reported in
  proprietary funds. Proprietary funds are reported in the same way as the district-wide statements.
  The District's enterprise funds (one type of proprietary fund) are the same as its business-type
  activities but provide more detail and additional information, such as cash flows. The internal
  service funds (the other kind of proprietary fund) report activities that provide supplies and
  services for its other programs and activities. The District currently does not maintain any internal
  service funds.
- Fiduciary funds: The District is the trustee, or fiduciary, for assets that belong to others, such as scholarship funds and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

#### Notes to the Basic Financial Statements

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements. The Notes to the Basic Financial Statements can be found immediately following the fund financial statements.

#### Financial Analysis of the District as a Whole

The net position as of June 30, 2014 has been restated due to the implementation of GASB68 relating to the District's pension costs. Net position as restated for June 30, 2014 is \$5,493,454 a decrease of (\$2,297,128). The District's combined net position at June 30, 2015 \$1,179,174 which represents a decrease of (\$7,003,129) or 77.35% from the previous year. Net position invested in capital assets (net of related debt) decreased (\$4,557,404) due to an appraisal report on file at the District which stated the revised total. Restricted net assets decreased (\$913,565) and unassigned net assets decreased (\$1,467,273). (See in figure A-3).

*Revenue Sources.* The District's total revenue for the 2014/15 school year was \$21,674,088 (See Figure A-5). Property taxes and aid accounted for most of the District's revenue, with local taxes accounting for 85.2%. Another 11.0% came from federal and state categorical grants and the remaining 3.8% came from miscellaneous sources and charges for services.

The District's expenses are predominantly related to instructing, caring for (pupil and instruction services) and transporting students (69%) (See Figure A-6). The District's administrative and business activities accounted for 5.5% of total costs. It is important to note that other expenses include \$5,257,189 of depreciation expense and adjustments for fixed assets on the District's capital assets and the interest due on the District's debt service.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

#### **Governmental Activities**

The financial position of the District remains strong. Maintaining existing programs with increased regular pupil enrollment and the provision of a multitude of special programs and services for disabled pupils place great demands on the District's resources. In recent years, numerous veteran teachers have retired and have been replaced by teachers of less experience. Such changes have generated significant salary savings, but these have not been sufficient enough to offset increased enrollment, increased special education programs and increased health benefit costs.

It is crucial that the District examine and monitor its expenditures carefully. Increasing parental and student demands for new activities and programs must be evaluated thoroughly.

Figure A-7 presents the cost of six major District activities: instruction, pupil and instructional services, administration and business, maintenance and operations, transportation, and other. The table also shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of these functions:

### Figure A-7 Net Cost of Governmental Activities

	Total Cost	t of Services	Net Cost of Services		
	2015/2014	2014/2013	2015/2014	2014/2013

Total Net Cost of Governmental Activities	\$25,747,352	\$ 19,899,292	\$24,645,661	\$19,020,099	

 The cost of all governmental activities this year was \$25,747,352 including adjustment to fixed assets of \$4,212,817 and an adjustment due to the pension liability.

 The federal and state governments subsidized certain governmental activities programs with grants, state aid and contributions in the amount of \$2,258,612.

· Most of the District's governmental activities costs, however, were financed by District taxpayers.

 The remainder of the funding came from charges for services, miscellaneous revenue and investment earnings.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

#### **Business-Type Activities**

Net position from the District's business-type activity increased \$186,948 (Refer to Figure A-4). Food service program revenue and expenses increased uniformly, as did the Pre-K program.

#### **Financial Analysis of the District's Funds**

The District's financial position has decreased only slightly despite changes in the student population and difficult economic times which have had a direct impact upon the District's revenue sources. Interest from investments declined significantly this year due to lower interest rates. Ratables in the municipality have been growing and could help to support potential increases in the local tax levy in the future. In order to maintain a stable financial position, the District must continue to practice sound fiscal management.

#### General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget several times. These budget amendments fan into two categories:

- Changes made within budgetary line items for changes in school-based needs for programs, supplies and equipment.
- The preparation of the 2014/2015 budget was difficult as a result of rising costs and the state mandated budget CAP.

#### Capital Asset and Debt Administration

During the 2014/15 school year, the District expended \$288,818 toward the renovation of classrooms at the Eleanor Van Gelder School. Current year depreciation for the governmental activities and business-type activities was \$5,257,189 which was adjusted to reflect the amounts reported on the appraisal report of the District and \$216, related to business type activities. (More detailed information about the District's capital assets is presented in Note 6 to the Basic Financial Statements).

#### Long-term Debt

At year-end, the District had \$31,023,000 in general obligation bonds. The District refunded their 2003 bonds, which reduced not only their overall interest payments, but also the principal of the refunding bonds. (More detailed information about the District's long-term liabilities is presented in Note 7 to the Basic Financial Statements).

Total	\$	33,928,688	\$	32,031,203	

 Other long-term liabilities, consisting entirely of compensated absences payable, a decrease by the net amount of \$124,899 pursuant to contractual agreements. As noted earlier GASB68 Reporting of Pensions is now required to be reported on the financial statements of the District. Refer to Footnote #8 in the Notes to the Financial Statements.

#### Factors Bearing on the District's Future

Presently, the District's financial condition is strong. The district is proud of the support the community gives to its public schools. However, future finances are not without challenges as the community continues to grow and state funding remains relatively unchanged.

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could significantly affect the health of its future.

Demographic projections indicate that enrollment is likely to continue growing over the next several years, and the Board is considering a referendum to expand the school facilities to accommodate this growth.

The District's contract with the Edgewater Education Association expires on June 30, 2015. The Board plans to negotiate a new multi-year contract, and the increase is unknown at this point.

The District plans to continue to improve its fiscal management to meet the challenges of the future.

#### **Contacting the District's Financial Management**

This financial report is designed to provide the District's citizens, taxpayers and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Board of Education Office, 251 Undercliff Avenue, Edgewater, New Jersey 07020.

# 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Reporting Entity:

The Board of Education (the "Board") of the Borough of Edgewater School District (the "District") is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

Governmental Accounting Standards Board publication, Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. The basic criterion for inclusion or exclusion from the financial reporting entity is the exercise of oversight responsibility over agencies, boards and commissions by the primary government. The exercise of oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. In addition, certain legally separate, tax-exempt entities that meet specific criteria (i.e. benefit of economic resources, access/entitlement to economic resources, and significances) should be included in the financial reporting entity. The combined financial statements include all funds of the District over which the Board exercises operating control. The operations of the District include one elementary school located within the Borough of Edgewater. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

#### Basis of Presentation:

The financial statements of the District have been prepared in conformity with generally accepted accounting principles ("GAAP") as applied to government units, The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

#### District-Wide Financial Statements:

The statement of net position and the statement of activities present financial information about the District's governmental and business-type activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenue and other nonexchange transactions. Business-type activities are financed in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenue for business-type activities and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses are allocated to the functions using an appropriate allocation method or association with the specific function. Indirect expenses include health benefits, employer's share of payroll taxes, compensated absences and tuition reimbursements. Program revenue includes (a) charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that is not classified as program revenue, including all taxes, is presented as general revenue. The comparison of direct expenses with program revenues identifies the extent to which each government function or business segment is self-financing or draws from the general revenues of the District.

# 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Financial Statements:

During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category - *governmental, proprietary and fiduciary* are presented. The New Jersey Department of Education ("NJDOE") has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

The District reports the following governmental funds:

<u>General Fund</u>: The General Fund is the general operating fund of the District and is used to account for all expendable financial resources, except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment, which are classified in the capital outlay subfund.

As required by NJDOE, the District includes budgeted capital outlay in this fund. Accounting principles generally accepted in the United States of America ("GAAP"), as it pertains to governmental entities, states that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources, in such cases, are derived exclusively from unrestricted revenue. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, District taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment.

<u>Special Revenue Fund:</u> The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Governments (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted to expenditures for specified purposes.

<u>Capital Projects Fund</u>: The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds. The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

<u>Debt Service Fund</u>: The Debt Service Fund is used to account for the accumulation of resources for and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

# 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The District reports the following proprietary funds:

<u>Enterprise (Food Service) Fund:</u> The Enterprise Fund accounts for all revenue and expenses pertaining to the District's cafeteria operations. The Food Service Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

<u>Pre-Kindergarten Fund:</u> The Pre-K Fund was established by the District for Fiscal Year 2013. The stated intent is that the costs of maintaining a Pre-K Program (including both direct and indirect costs) of providing those services to the students are financial through tuition payments.

Additionally, the District reports the following fund type:

<u>Fiduciary Funds</u>: The Fiduciary Funds are used to account for assets held by the District on behalf of others and include the Student Activities Fund and Payroll Agency Fund.

Measurement Focus and Basis of Accounting

The District-wide financial statements and the proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The Governmental Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting, a special purpose framework. Under this method, revenue is recognized when measurable and available. The District considers all revenue reported in the governmental funds to be available if the revenue is collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenue. Therefore, when program expenses are incurred, both restricted and unrestricted net assets may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenue.

Reports for the District's Food Service Fund are prepared following the Financial Accounting Standards Board ("FASB") Statements and Interpretations issued on or before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

## Notes to Financial Statements

# Year Ended June 30, 2015

## 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and District-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

The District reports unearned revenue on its balance sheet and statement of net position. Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenue also arises when resources are received by the District before it has legal claim to them, as when federal assistance is received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Ad Valorem (Property) taxes are susceptible to accrual as, under New Jersey State Statue, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "account receivable." The County Board of Taxation is responsible for the assessment of properties and the Township Tax Collector is responsible for the collection of taxes. Assessments are certified and taxes are levied on January 1; taxes due February 1, May 1, August 1, and November 1. Unpaid taxes are considered delinquent the following January 1 and are then subject to lien.

## Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue and Debt Service Funds. The budgets are submitted to the County office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by Board resolution at any time during the fiscal year. All budgetary amounts presented in the accompanying supplementary information reflect the original budget and the amended budget which have been adjusted for legally authorized revisions of the annual budgets during the year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For Governmental Funds, there are no substantial differences between the budgetary basis of accounting and GAAP, with the exception of the Special Revenue Fund as noted below, Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund types. Unencumbered appropriations lapse at year end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting on the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budgetary revenue for the General and Special Revenue Funds differs from GAAP revenue due to a difference in the recognition of the June State aid payments for the current year, Since the State is recording the June State aid payments in the subsequent fiscal year, the District cannot recognize these payments on the GAAP financial statements.

### Cash, Cash Equivalents and Investments:

Cash and cash equivalents include petty cash and cash in banks and certificates of deposit with maturities of one year or less when purchased and are stated at cost.

New Jersey school districts are limited as to type of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts. Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA" or the "Act"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of government units. If a public depository fails, the collateral it has pledged, plus the collateral of all the other public depositories, is available to pay the full amount of their deposits to the governmental units.

### 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

## Interfund Transactions:

Transfers between governmental and business-type activities on the District-wide statements are reported in the same manner as general revenues. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing source/uses in governmental funds and after non-operating revenues/expenses in the enterprise fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net position, except for amounts due between governmental and business-type activities, which are presented as internal balances.

## Allowance for Uncollectible Accounts:

No allowance for uncollectible accounts has been recorded, as all amounts are considered collectible.

#### Encumbrances:

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund for which the District has received advances are reflected in the Statement of Net Position as deferred revenue at year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

#### Short-term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from, a particular fund in the District and that are due within one year.

# Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the Enterprise Fund, are recorded as an expenditure during the year of purchase.

Enterprise Fund inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method. Prepaid expenses in the enterprise fund represent payments made to vendors for services that will benefit periods beyond June 30, 2015.

## Notes to Financial Statements

Year Ended June 30, 2015

## Capital Assets:

During the year ended June 30, 1994, the District established a formal system of accounting for its capital assets. Capital assets acquired or constructed subsequent to June 30, 1994, are recorded at historical cost, including ancillary charges necessary to place the asset into service. Capital assets acquired or constructed prior to the establishment of the formal system are valued at cost based on historical records or through estimated historical cost. Donated capital assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs is not capitalized. The District does not possess any infrastructure. Capital assets have been reviewed for impairment and there is no impairment for the year ended June 30, 2015.

The capitalization threshold (the dollar value above which asset acquisitions are added to the capital asset accounts) is \$2,000. The depreciation method is straight-line. The estimated useful lives of capital assets reported in the District-wide statements and proprietary funds are as follows:

	Estimated Useful Life
Buildings	50 years
Buildings Improvement	10 to 50 years
Site Improvements	20 years
Machinery and Equipment	10 to 15 years
Computer and Related Technology	5 years
Vehicles	8 years

In the Fund financial statements, capital assets used in Governmental Fund operations are accounted for as capital outlay expenditures in the Governmental Fund upon acquisition. Capital assets are not capitalized and related depreciation is not reported in the Fund financial statements.

## Long Term Liabilities:

In the District-wide and Enterprise Fund statements of net position, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or enterprise funds. Bond issuance costs, as well as applicable bond premium and discounts, are reported as deferred charges and amortized over the term of the related debt using the straight-line method of amortization. In the Fund financial statements, Governmental Fund types recognize bond discounts, as well as bond issuance costs, as expenditures in the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

## Accrued Salaries and Wages:

The District does not allow employees who provide services over the ten-month academic year the option to have their salaries evenly distributed during the entire twelve-month year; therefore, there are no accrued salaries and wages as of June 30, 2015.

Notes to Financial Statements

## 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Compensated Absences:

The District accounts for compensated absences (e.g., unused vacation, sick leave) as required by GASB 16, *Accounting for Compensated Absences*. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy and agreements with the various employee unions. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's personnel policy and agreements with the various employee unions.

In the District-wide Statement of Net Position, the liabilities, whose average maturities are greater than one year, should be reported in two components, the amount due within one year and the amount due beyond one year.

#### Unearned Revenue:

Unearned revenue in the Special Revenue Fund represents cash which has been received, but not yet earned. See Note I (D) regarding the Special Revenue Fund.

#### Fund Balance Reserves:

The NJDOE has established a policy of classifying fund balances in accordance with GASB #54:

Committed Fund Balance – amounts constrained to specific purposes by the NJDOE itself using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose, unless the NJDOE takes the highest level action to remove or change the constraint. Presently, committed are funds Designated for Subsequent Year's Expenditures and Excess Surplus.

Restricted – includes amounts that can be spent only for the specific purposes stipulated by external resource providers or through enabling legislation. Effectively, restrictions may be modified or removed only with the consent of the provider.

Unassigned Fund Balance – amounts that are available for any purpose; these amounts are reported only in the General Fund.

# 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Net Position:

Net position represents the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net positions are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

#### Revenue - Exchange and Nonexchange Transactions:

Revenue, resulting from exchange transactions in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, "available" is defined as "within sixty days of the fiscal year end".

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes, interest and tuition.

## **Operating Revenue and Expenses:**

Operating revenue are those revenues that are generated directly from the primary activities of the Enterprise Funds. For the District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the services that are the primary activities of the Enterprise Funds.

#### Management Estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of revenue and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

# 2. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, amounts in deposits, money market accounts, and short-term investments with original maturities of three months or less.

Investments are stated at cost, which approximates market. The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB Statement No. 40, *Governmental Accounting Standards Board Deposit and Investment Risk Disclosures,* requires disclosure of the level of custodial credit risk assumed by the Board in its cash, cash equivalents and investments, if those items are uninsured or unregistered. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned.

Interest Rate Risk - In accordance with its informal cash management plan, the Board ensures that any deposit or investment matures within the time period that approximates the prospective need for the funds, deposited or invested, so that there is not a risk to the market value of such deposits or investments.

Credit Risk - The Board limits its investments to those authorized in its formal cash management plan which are those permitted under state statute as detailed below and on the following page.

## Deposits

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed insurance limits as follows:

- The market value of the collateral must equal 5% of the average daily balance of public funds on deposit, and
- In addition to the above collateral requirement, if public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

## Investments

New Jersey statutes permit the District to purchase the following types of securities:

- Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- (2) Government money market mutual funds;
- (3) Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;

# Notes to Financial Statements

# Year Ended June 30, 2015

# 2. CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

- (4) Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, approved by the Division of Investment of the Department of the Treasury for investment by local units;
- (5) Local government investment pools;
- (6) Deposits with the State of New Jersey Cash Management Fund; or
- (7) Agreements for the repurchase of fully collateralized securities if:
  - a) the underlying securities are permitted investments pursuant to paragraphs (1) and (3) above;
  - b) the custody of collateral is transferred to a third party;
  - c) the maturity of the agreement is not more than 30 days;
  - d) the underlying securities are purchased through a public depository as defined in statue; and
  - e) a master repurchase agreement providing for the custody and security of collateral is executed.

As of June 30, 2015, cash and cash equivalents of the District consisted of the following:

		Cash and		Capital			
	Cash		Reserve				
	1.000	Equivalents Account		Account	Total		
Checking Accounts	\$	3,837,713.28	\$	937,312.87	\$	4,775,026.15	

During the period ended June 30, 2015, the District did not hold any investments. The carrying amount of the District's cash and cash equivalents at June 30, 2015 was \$4,775,026.15 and the bank balance was \$5,922,007.65.

## 3. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Board during the 1999-2000 fiscal years for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan ("LRFP"). Upon submission of the LRFP to the State Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

Notes to Financial Statements

Year Ended June 30, 2015

# 3. CAPITAL RESERVE ACCOUNT (continued)

The activity of the capital reserve for the year ended June 30, 2015 is as follows:

Beginning Balance, July 1, 2014	\$	1,309,482.91
Interest Earnings		
		1,309,482.91
Withdrawals	-	(57,308.00)
Ending Balance, June 30, 2015	\$	1,252,174.91

The June 30, 2015 Capital Reserve Account balance does not exceed the local support costs of uncompleted capital projects in the District's "LRFP

The Board of Education approved a withdrawal from the capital reserve account on June 11, 2015 of \$57,308 for preliminary engineering costs related to construction of an additional to the Eleanor Van Gelder School.

# 4. MAINTENANCE RESERVE ACCOUNT

A balance of \$100,000.00 exists in the maintenance reserve account as of June 30, 2015.

## 5. TRANSFERS TO CAPITAL OUTLAY

During the year ended June 30, 2015, there were no approved transfers the District made to the capital outlay accounts for equipment purchases.

#### A. Bonds Payable:

Bonds are authorized in accordance with State law by the voters of the municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the District are general obligation bonds and will be liquidated by the Debt Service Fund.

On December 8, 2009, the voters of the District approved a referendum which authorized debt totaling \$28,728,400 and on May 20, 2010, the District issued \$28,728,000 of school bonds with interest rates ranging from 3.00% to 4.30%.

On March 1, 2013, the District refunded their 2003 General Improvement Bonds. Total refunding bonds issued was \$3,080,000.00 with interest rates ranging from 3.00% to 4.00%. The amount of bonds refunded was \$3,190,000.00.

The District has the following bonds outstanding as of June 30, 2015:

Date of	Final	Interest	
Issue	Maturity	Rate	 Amount
08/08/2007	09/15/2017	5.00%	\$ 220,000.00

	\$31,023,000.00	\$ 19,123,331.00	\$ 50,146,331.00

B. Bonds Authorized But Not Issued:

As of June 30, 2015, the District had \$481.00 of bonds authorized but not issued.

C. Compensated Absences:

The liability for compensated absences of the governmental fund types is recorded in the current and long-term liabilities. Since there is no current liability for compensated absences at June 30, 2015, the balance of compensated absences of \$183,303.56 is a long-term liability and will be liquidated by the General Fund.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2015, no liability existed for compensated absences in the Proprietary Funds.

# 8. PENSION PLANS

## **Description of Systems**

Substantially all of the District's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employees' Retirement System (PERS). These systems are sponsored and administered by the State of New Jersey. The Teachers' Pension and Annuity Fund Retirement System is considered a cost-sharing multiple-employer plan, with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees' Retirement System is considered a cost-sharing multiple-employer plan.

# **Teachers' Pension and Annuity Fund**

The Teachers' Pension and Annuity Fund was established in January 1955 under the provisions of N.J.S.A.18A:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for health care coverage.

Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively, with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively, with an annual benefit generally determined to be 1/60th of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

# Public Employee's Retirement System

The Public Employees' Retirement System was established in January 1955 under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full time employees of the State or any county, municipality, school Board or public agency provided the employee is not a member of another State-administered retirement system.

Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively with an annual benefit generally determined to be 1/55<sup>th</sup> of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively with an annual benefit generally determined to be 1/60<sup>th</sup> of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

## 8. PENSION PLANS (continued)

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issued publicly available financial reports that include the financial statements and required supplementary information for TPAF and PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

#### Funding Policy

The contribution policy is set by New Jersey State Statutes and contributions are required by active members and contributing members. Plan member and employer contributions may be amended by State of New Jersey legislation. Under the provisions of Chapter 78, P.L. 2011, employee contribution rates for TPAF and PERS increased from 5.5% to 6.5% of employees' annual compensation. An additional increase is to be phased in over the next seven years that will bring the total pension contribution rate to 7.5% of employees' annual compensation. Employers are required to contribute at an actuarially determined rate in both the TPAF and PERS.

The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Board is a non-contributing employer of the TPAF.

During the year ended June 30, 2015, the State of New Jersey contributed \$389,358 to the TPAF for normal costs of pension and post-retirement medical benefits on behalf of the District. Also, in accordance with N.J.S.A.18A:66-66 the State of New Jersey reimbursed the District \$308,497 during the year ended June 30, 2015 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. These amounts have been included in the government-wide fund financial statements.

The District's actuarially determined contributions to PERS for each of the years ended June 30, 2015, 2014, and 2013 were \$119,870, \$100,843, and \$98,484, respectively, equal to the required contributions for each year.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

#### Public Employee's Retirement System (PERS)

At June 30, 2015, the District reported a liability of \$2,722,384 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation July 1, 2013, which was rolled forward to June 30, 2014. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2014, the District's proportion was 0.014540526 percent, which was an increase of 0.002521222 from its proportion measured as of June 30, 2013. For the year ended June 30, 2015, the District recognized full accrual pension expense of \$214,726 in the government-wide financial statements. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

#### Actuarial Assumptions

The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2013, which was rolled forward to June 30, 2014. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	3.01%
Salary increases	
2012-2021	2.15 - 4.40%
	based on age
Thereafter	3.15 - 5.40%
	based on age

Investment rate of return 7.90%

### 8. PENSION PLANS (continued)

The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011.

## Mortality Rates

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA.

## Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2014 are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	6.00%	0.80%
Core Bonds	1.00%	2.49%
Intermediate-Term Bonds	11.20%	2.26%
Mortgages	2.50%	2.17%
High Yield Bonds	5.50%	4.82%
Inflation-Indexed Bonds	2.50%	3.51%
Broad US Equities	25.90%	8.22%

Emerging Market Equities	6.50%	9.91%
Private Equity	8.25%	13.02%

Real Estate (Property)	3.20%	5.80%
Commodities	2.50%	5.35%
	100.00%	

## Discount rate

The discount rate used to measure the total pension liability was 5.39% as of June 30, 2014. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.90%, and a municipal bond rate of 4.29% as of June 30, 2014 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that

# Notes to Financial Statements

Year Ended June 30, 2015

# 8. PENSION PLANS (continued)

contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

## Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability as of June 30, 2014 calculated using the discount rate as disclosed above as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.39 percent) or 1-percentage-point higher (6.39 percent) than the current rate:

		At 1%	A	t Current	At 1%
	1	Decrease (4.39%)	Dis	count Rate (5.39%)	Increase (6.39%)
District's proportionate share of the net pension liability	\$	3,424,852	\$	2,722,384	\$ 2,132,490

# Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report for the State of New Jersey Public Employees Retirement System.

## Additional Information

Collective balances at June 30, 2014 are as follows:

Collective deferred outflows of resources	\$	1,452,705,538
Collective deferred inflows of resources	\$	2,135,560,656
Collective net pension liability - Local Group	\$	18,722,735,003
District's Proportion	C	0.0145405260%

Collective pension expense for the Local Group for the measurement period ended June 30, 2014 is \$968,532,408.

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined at July 1, 2013 (the beginning of the measurement period ended June 30, 2014) is 6.44 years.

## Teachers Pensions and Annuity Fund (TPAF)

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The State's proportionate share of the TPAF net pension liability associated with the District as of June 30, 2014 was \$18,635,646. The District's proportionate share was \$0.

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2013, which was rolled forward to June 30, 2014. The State's proportionate share of the net pension liability associated with the District was based on a projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2014, the State's proportionate share of the TPAF net pension liability associated with the District was 0.0348676917 percent, which was a increase of 0.019721143 from its proportion measured as of June 30, 2013.

For the year ended June 30, 2015, the District recognized on-behalf pension expense and revenue in the government wide financial statements of \$1,002,773 for contributions incurred by the State.

#### Actuarial assumptions

The actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.50%
Salary increases	
2012-2021	Varies based on experience
Thereafter	Varies based on experience
Investment rate of return	7.90%

Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

## Discount Rate

The discount rate used to measure the total pension liability was 4.68% as of June 30, 2014. This single blended discount rate was based on the long-term rate of return on pension plan investments of 7.90%, and a municipal bond rate of 4.29% as of June 30, 2014 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments through 2027.

# 8. PENSION PLANS (continued)

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined at July 1, 2013 (the beginning of the measurement period ended June 30, 2014) is 8.5 years.

# 9. POST-RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990, c.6 required PERS and TPAF, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the PERS and TPAF. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2014, there were 103,432 retirees receiving post-retirement medical benefits and the State contributed \$1.04 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c.126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$165.8 million toward Chapter 126 benefits for 18,122 eligible retired members in fiscal year 2014.

# **10. HEALTH BENEFITS**

P.L. 2011 Ch. 78 Section 39 established guidelines for implementing employee contributions to the cost of their health insurance coverage.

The benefit cost of coverage is the premium. For State Health Benefit Plan ("SHBP") employers, the cost of coverage is the cost of medical and prescription coverage. For non-SHBP employers, the law requires that the cost of coverage includes all health care benefits; medical, prescription, dental, vision, etc.

The base salary of the employees determines the percent of premium cost that is contributed.

The contribution is phased in at 25% per year:

- a) Immediately, for employees hired on June 28, 2011 and not subject to Collective Negotiations Agreement ("CNA") that is in effect.
- b) When a CNA that is in effect on June 28, 2011 expires or is in almost any way modified

Full contribution (Year 4) takes effect immediately for employees hired after June 28, 2011 who are not covered by a CNA or would be covered by a CNA that has expired.

When contributions begin, if the 1.5% of base salary calculation under Ch. 2 is greater than the standard contribution, that amount is paid until the new contribution percentage is greater.

#### **11. RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. Health benefits are provided to employees through the State of New Jersey Health Benefits Plan.

## Property and Liability Insurance

The District is a member of the New Jersey School Boards Association Insurance Group (the "Group"). This public entity risk management pool provides general liability, property and automobile coverage and workers' compensation for its members. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

The Group is a risk-sharing public entity risk pool that is an insured and self-administered group of school boards established for the purpose of providing low-cost insurance for its respective members in order to keep local property taxes to a minimum. Each member appoints an official to represent their respective entity for the purpose of creating a governing body from which officers for the Group are elected.

As a member of the Group, the District could be subject to supplemental assessments in the event of deficiencies. If the assets of the Group were to be exhausted, members would become responsible for their respective shares of the Group's liabilities. The Group can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided among the members in the same ratio as their individual assessment related to the total assessment of the New Jersey Unemployment Compensation Insurance.

Financial statements for the Group are available at the Group's Executive Director's Office:

New Jersey School Boards Association Insurance Group 450 Veterans Drive Burlington, NJ 08016 (609) 386-6060 www.njsbaig.org

# New Jersey Unemployment Compensation Insurance

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Contributory Method". Under this plan, the District is required to remit employee withholdings to the State on a quarterly basis. All of the District's claims are paid by the State.

## 12. ECONOMIC DEPENDENCY

The District receives a substantial amount of its support from the state government. A significant reduction in the level of support, if this were to occur, may have an effect on the District's programs and activities.

Fiduciary Fund - Payroll Agency			 889,749.08	
	\$	1,318,789.64	\$ 1,318,789.64	

The Capital Projects Fund is owed money for expenses incorrectly charged to the fund. The Pre-K proprietary fund owes the General Fund for expenses paid by general net of revenue received by the General Fund due to Pre-K. Food Service proprietary fund owes the general fund for expenses paid by the General Fund. The payroll account owes the General Fund for incorrect transfers to payroll and for health deductions.

#### 14. DEFERRED COMPENSATION

The District offers its employees a choice of the following deferred compensation plans (the "Plans") created in accordance with Internal Revenue Code Section 403(b). The Plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the Plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Equitable First Investors Lincoln Investment Planning Retirement Annuity Consultants Vanguard

## 15. TAX CALENDAR

Property taxes are levied as of January 1 on property values assessed as of the previous calendar year. The tax levy is divided into two billings. The first billing is an estimate of the current year's levy based on the prior year's taxes. The second billing reflects adjustments to the current year's actual levy. The final tax bill is usually mailed on or before June 14th, along with the first half estimated tax bills for the subsequent year

Notes to Financial Statements

Year Ended June 30, 2015

The first half estimated taxes are divided into two due dates, February 1 and May 1. The final tax bills are also divided into two due dates, August 1 and November 1. A ten-day grace period is usually granted before the taxes are considered delinquent and there is an imposition of interest charges. A penalty may be assessed for any unpaid taxes in excess of \$10,000 at December 31 of the current year. Unpaid taxes of the current and prior year may be placed in lien at a tax sale held after December 10.

Taxes are collected by the constituent municipality and are remitted to the District on a predetermined, agreed-upon schedule.

### **16. FUND BALANCE**

**General Fund:** Of the \$2,128,050.06 General Fund balance at June 30, 2015, \$1,252,174.91 is restricted in the capital reserve account; \$100,000.00 is restricted in the maintenance reserve; \$4,946.00 is restricted for excess surplus in accordance with N.J.S.A. 18A:7F-7, as amended; \$444,256. is prior year excess surplus and is included as anticipated revenue for the year ending June 30, 2016; and \$326,673.15 is unassigned which is \$60,281.80 less than the calculated maximum unreserved fund balance (budgetary basis) due to the June state aid payments, which are not recognized on the GAAP basis until the fiscal year ending June 30, 2016.

**Capital Projects Fund:** The \$52,565.85 Capital Projects Fund balance at June 30, 2015, is assigned and designated for subsequent year's expenditures.

Debt Service Fund: There is no fund balance in the Debt Service Fund at June 30, 2015.

Calculation of Excess Surplus: In accordance with N.J.S.A. 18A:7F-7, as amended, the designation for Reserved Fund Balance-Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year's budget. The District had excess surplus as noted above.

N.J.A.C. 6A:23A-8.5(j); provides that in the event a state school aid payment is not made until the following school budget year, districts must record the delayed one or more State aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June State aid payments in the subsequent fiscal year, the school district cannot recognize the June state aid payments on the GAAP financial statements until the year the State records the payable. The excess surplus calculation is calculated using the fund balance reported on the Budgetary Comparison Schedule, including the June State aid payments.

### 17. COMMITMENTS AND CONTINGENCIES

#### Litigation

The District is periodically involved in claims or lawsuits arising in the normal course of business, including claims regarding employment matters. The Board does not believe that the ultimate outcome of these cases will have a material adverse effect on the District's financial position.

#### Grant Programs

The District participates in federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management of the District is not aware of any material items of noncompliance which would result in the disallowance of grant program expenditures.

### 18. Change in Accounting Principle

Effective in the fiscal year ended June 30, 2015, the District implemented Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions and Governmental Accounting Standards Board Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment to GASB Statement No. 68. The implementation of the Statements required a restatement of prior year net position in the government-wide financial statements.

		vernmental Activities
Beginning Net Position - June 30, 2014	\$	7,790,582
Adjustments:		
Recognition of Net Pension Liability		(2,297,128)
Deferred outflow for PERS FY2015 Pension Payment		119,870
Accounts Payable for PERS FY2015 Pension Payment		(119,870)
Adjustment		(2,297,128)
Beginning Net Position - June 30, 2014 (as restated)	\$	5,493,454

### **19. SUBSEQUENT EVENTS**

The District has evaluated subsequent events occurring after June 30, 2015 through the date December 18, 2015, which is the date the financial statements were available to be issued. Based on this evaluation, the District has determined that no subsequent events have occurred which require disclosure in the financial statements.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - PART II

Required Supplementary Information Budget-To-GAAP Reconciliation Note to Required Supplementary Information For The Year Ended June 30, 2015

Note A - Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and Expenditures

	General _Fund_	Special Revenue Fund
Sources/Inflows of Resources: Actual amounts (budgetary basis) "revenue" from the budgetary comparison schedule	\$ 18,624,581.07	\$ 255,012.66
Difference - Budget to GAAP: Grant accounting budgetary basis differs from GAAP in that encumbrances are recognized as expenditures and revenue, whereas the GAAP Basis does not.		
State Aid Payment Recognized for: GAAP statements, not recognized for budgetary purposes (prior year) budgetary purposes, not recognized for GAAP statements (current year)	69,056.00 (60,281.80)	
Total revenues as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds.	\$ 18,633,355.27	\$ 255,012.66
Uses/Outflows of Resources: Actual amounts (budgetary basis) "total outflows" from the budgetary comparison schedule	\$ 19,220,020.69	\$ 255,012.66
Difference - Budget to GAAP: Encumbrances for supplies and equipment ordered but not received are reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.		
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds.	\$ 19,220,020.69	\$ 255,012.66

#### Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue and Debt Service Funds. The budgets are submitted to the County office. Budgets are prepared using the modified accrual basis of accounting, The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest most specific level, of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year, All budgetary amounts presented in the accompanying supplementary information reflect the original budget and the amended budget, which have been adjusted for legally authorized revisions of the annual budgets during the year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For Governmental Funds, there are no substantial differences between the budgetary basis of accounting and GAAP, with the exception of the Special Revenue Fund, as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The General and Special Revenue Fund budgetary revenue differs from GAAP revenue due to a difference in recognition of the June State aid payments for the current year. Since the State is recording the June State aid payments in the subsequent fiscal year, the District cannot recognize these payments on the GAAP financial statements.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that are borne by residents and businesses of the Borough of Edgewater. This process recognizes that, when considering the District's ability to issue and repay long-term, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping unit.

<sup>a</sup> - For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable equalized property values. Applicable percentages were estimated by determining the portion of another governmental unit's equalized property value that is within the District's boundaries and dividing it by each unit's total equalized property value.

Sources: Assessed value data used to estimate applicable percentages provided by the Bergen County Board of Taxation; debt outstanding data provided by each governmental unit.

# SINGLE AUDIT SECTION

McENERNEY, BRADY & COMPANY Certified Public Accountants A division of O'Connor Davies, LLP

# Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

The Honorable President and Members of the Board of Education Borough of Edgewater School District County of Bergen Edgewater, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Borough of Edgewater School District, County of Bergen, New Jersey (the "District") as of and for the year ended June 30 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December18, 2015.

### Internal Control Over Financial Reporting

In planning and performing our audit of the regulatory basis financial statements, we considered the School District internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses (2015-2).

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompany schedule of findings and questioned costs to be significant deficiencies (2015-1).

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's regulatory basis financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Report on Compliance For Each Major Program; Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal and State Awards Required by OMB Circular A-133 and New Jersey OMB Circular 15-08

The Honorable President and Members of the Board of Education Borough of Edgewater School District County of Bergen Edgewater, New Jersey

#### Report on Compliance for Each Major Program

We have audited the Borough of Edgewater School District compliance with the types of compliance requirements described in the OMB Circular A-133 and New Jersey OMB Circular 15-08 Compliance Supplements that could have a direct and material effect on each of the Borough of Edgewater School District's major programs for the year ended June 30, 2015. The Borough of Edgewater School District's major programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Borough of Edgewater School District's major programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and *New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Programs* (collectively, "OMB Circular A-133"). Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major program occurred. An audit includes examining, on a test basis, evidence about the Borough of Edgewater School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major program. However, our audit does not provide a legal determination of the Borough of Edgewater School District's compliance.

McENERNEY, BRADY & COMPANY 293 Eisenhower Parkway, Suite 270, Livingston, NJ 07039 665 Fifth Avenue, New York, NY 10022 Tel: 973.535.2880 I Fax: 973.535.5893 I www.odpkf.com

O'Connor Davies, LLP is a member firm of the PKF International Limited network of legally independent firms and does not accept any responsibility or liability for the actions or inactions on the part of any other individual member firm or firms.

## **Opinion on Each Major Program**

In our opinion, the Borough of Edgewater School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major programs for the year ended June 30, 2015.

## **Report on Internal Control Over Compliance**

Management of the Borough of Edgewater School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Borough of Edgewater School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major program and to test and report on internal control over compliance in accordance with OMB Circular A-133 and NJ OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Borough of Edgewater School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance to ver compliance is a deficiency or a combination of deficiencies, in internal control over compliance to ver compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133 and NJ OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

# Notes to The Schedules of Expenditures of Federal and State Awards and Financial Assistance

# June 30, 2015

#### 1. GENERAL

The accompanying schedules of expenditures of federal and state awards and financial assistance include federal and state award activities of the Board of Education, Borough of Edgewater School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies passed through other government agencies are included on the schedules of expenditures of federal awards and state awards.

# 2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal and state awards are presented using the budgetary basis of accounting with the exception of programs recorded in the Food Service Fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in these schedules is presented in accordance with the requirements of Federal OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* and New Jersey's OMB Circular NJOMB 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grant, and State Aid.* Therefore, some amounts presented in these schedules may differ from amounts presented in, or used in the preparation of basic financial statements.

### 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the General, Special Revenue and Capital Projects Fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the General and Special Revenue Fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General and Special Revenue Funds are presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payments in the current budget year, which is mandated pursuant to P.L. 2003, C.97. For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. Additionally, on the grant accounting budgetary basis, the Special Revenue Fund recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$8,774.20 for the general fund and -0-for the special revenue fund. See Exhibit C-3 for a reconciliation of the budgetary basis to the modified accrual basis of accounting for general and special revenue funds. Additionally, the schedule of expenditures of state awards does not include the on-behalf TPAF Post Retirement Medical Benefits and Non-Contributory Insurance Contributions and Pension Contributions revenue of \$530,013.00.. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented on the following page:

# 4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

# 5. FEDERAL AND STATE LOANS OUTSTANDING

The Borough of Edgewater School District had no loans outstanding as of June 30, 2015.

# 6. OTHER

TPAF Social Security contributions represents the amount reimbursed by the State for the employers' share of social security contributions for TPAF members for the year ended June 30, 2015. Revenue and expenditures reported under the Federal Food Distribution Program represent current year value received and current year distributions, respectively.

# 7. SCHOOL WIDE PROGRAM FUNDS

Schoolwide programs are not separate federal programs as defined in OMB Circular A-133; amounts used in schoolwide programs are included in the total expenditures of the program contributing the funds in the Schedule of Expenditures of Federal and State awards. The following funds by program are included in schoolwide programs in the District:

# **Section II - Financial Statement Findings**

### Finding 2015-1

## Criteria:

The School District's budget must be in agreement with all adopted resolutions and approved grant budgets and be approved by the County Superintendent when required.

#### Condition and Effect:

Both the general fund budget and the special revenue fund budget do not represent the true approved budgets of the District. The District did not receive approval from the County to appropriate fund balance as required.

#### Cause:

The staff did not follow state regulations when increasing the budget.

# Recommendation:

That all approved grant budget and board resolution be posted to the District's school records and be approved by the County Office when required.

#### Finding 2015-2

#### Criteria:

In accordance with the New Jersey Department of Education rules and regulations all activity of the District must be recorded on the books of the District and be posted to the correct budget accounts. Receipts need to be properly identified and posted.

#### Condition and Effect:

During the course of our audit, it was noted that not all cash receipts and cash disbursements were recorded on the books of the District.

#### Cause:

The business staff had numerous turnovers at beginning of year resulting in incorrect postings.

#### Recommendation:

That greater care be exercised when posting activity to the books of the school district.
