MANCHESTER REGIONAL HIGH SCHOOL

70 Church Street Haledon, NJ07508 Tel: (973) 389-2844 Facsimile: (973) 956-0781

November 24, 2015

Honorable President and Members of the Board of Education Passaic County Manchester Regional High School District Haledon, NJ 07508

Dear Board Members:

The comprehensive annual financial report of the Manchester Regional High School District, (District) for the fiscal year ended June 30, 2015 is hereby submitted. Responsibility for the accuracy of the data, and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the basic financial statements and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the management discussion and analysis, the basic financial statements and schedules, as well as the auditor's report, thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, "Audits of State and Local Governments", and the state Treasury Circular Letter 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments". Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations, findings and recommendations, are included in the single audit section of this report.

1) **REPORTING ENTITY AND ITS SERVICES**: The Manchester Regional High School District is an independent reporting entity within the criteria adopted by the GASB as established by GASB #14 Statement No. 3. All funds and account groups of the District are included in this report. The Manchester Regional High School Board of Education and its school constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels 9 through 12, including regular, technological as well as special education services. The district completed the 2014-2015 fiscal year with an average daily enrollment of 920

students which is 12 students less than the previous year's enrollment. The following details the changes in the student enrollment of the District over the last ten years.

Average Daily Enrol	lment	
Fiscal Year	Student Enrollment	Percent Change
2014-15	920	-1.29%
2013-14	932	0.22%
2012-13	930	3.79%
2011-12	896	9.27%
2010-11	820	7.4%
2009-10	763	(0.3%)
2008-09	787	(6.3%)
2007-08	840	5.9%
2006-07	793	3.8%
2005-06	763	.8%
2004-05	754	(4.3%)

2) **ECONOMIC OUTLOOK:** The Haledon, North Haledon and Prospect Park Boroughs, which comprise the Manchester Regional High School District, are experiencing limited economic development and growth. These communities reflect the overall business climate of North Jersey which has endured the loss of many manufacturing companies and is not keeping pace with the rest of the country.

It is not expected that there will be any strong economic growth or expansion in the region in the near future.

3) **MAJOR INITIATIVES:** The 2014-15 school year initiatives focused on hiring additional staff, completing the school's roof replacement plan, continuing to replace hallway lockers, ceiling tiles and lights; continuing to renovate the front entrance to the school, continuing to add Promethean boards throughout the district, and purchasing new computers and textbooks. The District will also be replacing windows throughout the facility. The District will also be adding an In-School Suspension Program.

For the 2015-16 school year the district will complete its hallway locker replacement project, complete its ceiling tile and light replacement project in the hallways, replace stairwell doors due to safety concerns, complete the renovation to the sidewalk at the front entrance of the building, complete the installation of the Promethean Boards in the classrooms and begin a 1:1 Initiative Project (supplying a Chromebook for each student in the building). Bathrooms at the front of the school were redone and Science Rooms were also renovated. Staff will be added for classes, security and to assist with the maintenance of the grounds. The District is also exploring a Power Purchase Agreement to help offset increasing electric costs.

4) **INTERNAL ACCOUNTING CONTROLS:** Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost

of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for establishing an adequate internal control structure to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the district management.

As part of the district's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5) **BUDGETARY CONTROLS:** In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the capital outlay fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital project fund, when such projects are undertaken. The final budget amount, as amended for the fiscal year, is reflected in the financial section.

An encumbrance accounting system is utilized to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriation of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2015.

- 6) **CASH MANAGEMENT:** The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements", Note 2. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.
- 7) **RISK MANAGEMENT:** The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.
- 8) OTHER INFORMATION: Independent Audit State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Ferraioli, Wielkotz, Cerullo and Cuva, P.A. conducted this annual audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act Amendments of 1996 and the related OMB Circular A-133 and state Treasury Circular Letter 04-04 OMB. The auditor" report on the neral purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

9) **ACKNOWLEDGEMENTS:** We would like to express our appreciation to the members of the Board of Education, for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our educational operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

Michael A. Wanko, Ed.D.

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Manchester Regional High School District County of Passaic, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Manchester Regional High School District, in the County of Passaic, State of New Jersey, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement

Honorable President and Members of the Board of Education Page 2.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Manchester Regional High School Board of Education, in the County of Passaic, State of New Jersey, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Budgetary Comparison Information identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Honorable President and Members of the Board of Education Page 3.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Manchester Regional High School Board of Education's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and the schedule of expenditures of state financial assistance as required by NJ OMB 04-04 and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* and the schedule of expenditures of state financial assistance as required by NJ OMB 04-04 are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, and schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* and the schedule of expenditures of state financial assistance as required by NJ OMB 04-04 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical data section has not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 24, 2015 on our consideration of the Manchester Regional High School Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of

Honorable President and Members of the Board of Education Page 4.

that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Manchester Regional High School Board of Education's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION - PART I

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 UNAUDITED

The discussion and analysis of the Manchester Regional High School Board of Education's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the District's financial performance as a whole and should not be interpreted as a replacement for the audit which consists of the financial statements and other supplemental information that presents all the District's revenues and expenditures by program for the General Fund, Special Revenue Fund, Capital Projects Fund and Enterprise Fund.

FINANCIAL HIGHLIGHTS

- In total, net position increased \$488,370.92. Net position of governmental activities increased \$500,923.73 while net position of business-type activity decreased by \$12,552.81.
- General revenues accounted for \$19,970,683.15 in revenue or 90.34 percent of all District revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$2,136,328.05 or 9.66 percent of total revenues of \$22,107,011.20.
- The School District had \$20,742,739.70 in expenses related to governmental activities; only \$1,272,980.28 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily grants, entitlements and property taxes) of \$19,970,683.15 were adequate to provide for these programs.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a whole (government-wide statements), and then proceed to provide an increasingly detailed look at specified financial activities.

District-Wide Financial Statements

The statement of net position and statement of activities reports information about the District as a whole and about its activities in a manner that helps answer the question, "Is the District better or worse off as a result of the year's activities?" These statements include all assets and liabilities of the District using the accrual basis of accounting, similar to the accounting used by private sector corporations. All of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid.

Both of the district-wide financial statements distinguish functions of the Manchester Regional High School Board of Education that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*).

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 UNAUDITED, (CONTINUED)

USING THIS ANNUAL REPORT, (continued)

In the Statement of Net Position and the Statement of Activities, the District is divided into two distinct kinds of activities:

- Governmental Activities All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- Business-type Activities These services are provided on a charge for goods and services basis to recover all the expenses of the goods or services provided. The food service program, community service program and technology program are reported as a business-type activities.

The two statements report the District's net position and changes in them. The change in net position can be utilized by a reader to assist in determining whether the District's financial health is improving or deteriorating. However, the reader should also consider non-financial factors such as property tax base, current New Jersey laws restricting revenue growth, student enrollment growth, facility conditions, required educational programs and other factors in determining the District's overall financial health.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Manchester Regional High School Board of Education, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the District's funds can be divided into three categories: Governmental Funds, Proprietary Funds and Fiduciary Funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can be readily converted to cash.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities* (reported in the Statement of Net Position and the Statement of Activities).

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 UNAUDITED, (CONTINUED)

USING THIS ANNUAL REPORT, (continued)

The Manchester Regional High School Board of Education maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures and changes in fund balances for the general, special revenue and capital project funds, which are considered to be major funds.

The Manchester Regional High School Board of Education adopts annual appropriated budgets for its governmental funds. A budgetary comparison statement has been provided for the general fund and special revenue fund to demonstrate compliance with their budgets.

Proprietary Funds

Proprietary funds use the accrual basis of accounting, the same as on the district-wide statements, therefore the statements will essentially match the business-type activities portion of the district-wide statements. The Manchester Regional High School Board of Education uses proprietary funds to account for its food service program, community service program and technology program.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning budgetary information for the District's major funds.

Our auditor has provided assurance in his independent auditor's report, located immediately preceding this Management's Discussion and Analysis, that the Basic Financial Statements are fairly stated. Varying degrees of assurance are being provided by the auditor regarding the Required Supplemental Information and the Supplemental Information identified above. A user of this report should read the independent auditor's report carefully to ascertain the level of assurance being provided for each of the other parts in the Financial Section.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 UNAUDITED, (CONTINUED)

DISTRICT-WIDE FINANCIAL ANALYSIS

The Statement of Net Position provides the perspective of the District as a whole. Net position may, over time, serve as a useful indicator of a government's financial position.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

The School District's net positions were 4,776,473.81 at June 30, 2015 and \$8,414,323.89 at June 30, 2014. Restricted net positions are reported separately to show legal constraints that limit the School District's ability to use those items for day-to-day operations. Our analysis below focuses on the net position for 2015 compared to 2014 (Table 1) and change in net position (Table 2) of the School District.

Table 1 Net Position June 30.

	Governmenta	al Activities	Business-Type	e Activities	To	<u>tal</u>
	2015	2014	<u>2015</u>	<u>2014</u>	<u>2015</u>	2014

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 UNAUDITED, (CONTINUED)

DISTRICT-WIDE FINANCIAL ANALYSIS, (continued)

Governmental and Business- Activities

As reported in the Statement of Activities, the cost of all of our governmental and business-type activities this year was \$21,618,640.28. However the amount that our taxpayers ultimately financed for these activities through School District taxes was only \$10,345,405.00 because some of the cost was paid by those who benefitted from the programs \$598,851.82, by other governments and organizations who subsidized certain programs with grants and contributions \$1,537,476.23 and by miscellaneous sources \$9,625,278.15.

Revenues for the District's business-type activities (food service program) were comprised of charges for services and federal and state subsidy reimbursements. Significant financial results include the following:

- ✓ Food service revenues exceeded expenditures by \$27,069.24.
- ✓ Charges for services provided totaled \$51,560.34. This represents amounts paid by consumers for daily food services.
- ✓ Federal and state reimbursement for meals served, including payments for free and reduced priced lunches, and donated commodities was \$517,467.43.
- ✓ Technology program expenditures exceeded revenues by \$39,622.05.

MAJOR GOVERNMENTAL FUNDS BUDGETING AND OPERATING HIGHLIGHTS

The School District's budgets are prepared according to New Jersey law, and are based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted funds are the general fund and the special revenue fund.

During the fiscal year ended June 30, 2015, the School District amended the budgets of these major governmental funds several times. Revisions in the budget were made to recognize revenues that were not anticipated and to prevent over-expenditures in specific line item accounts. Several of these revisions bear notation:

- TPAF, which is the state's contribution to the pension fund, is neither a revenue item nor an expenditures item to the district but is required to be reflected in the financial statements.
- The special revenue fund was increased by \$255,636.54 for increase in federal and state grant awards.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 UNAUDITED, (CONTINUED)

General Fund

The general fund actual revenue was \$18,494,153.57. That amount is \$1,333,772.51 above the final amended budget of \$17,160,381.06. The variance between the actual revenues and final budget was the result of non-budgeted on-behalf payments of \$1,224,615.89 for TPAF social security reimbursements and on-behalf pension payments and a \$109,156.62 excess in miscellaneous anticipated revenues and other state and federal aids.

The actual expenditures of the general fund were \$18,487,584.20 including transfers which is \$656,834.18 above the final amended budget of \$17,830,750.02. The variance between the actual expenditures and final budget was due to non-budget on-behalf TPAF social security and pension payments of \$1,224,615.89 and \$567,781.71 of unexpended budgeted funds.

Special Revenue Fund

The special revenue fund actual revenue was \$1,020,008.80. That amount is above the original budget estimate of \$926,817.00 and below the final amended budget of \$1,182,453.54. The \$255,636.54 variance between the original and final budget was due to additional federal and state grant monies awarded to the District after the original budget was approved. The \$162,444.74 variance between the final amended budget and the June 30, 2015 actual results was due to the deferral of Federal and State grants received in the current fiscal year to be spent in the next fiscal year.

The actual expenditures of the special revenue fund were \$1,020,008.80 which is above the original budget of \$926,817.00 and below the final amended budget of \$1,182,453.54. The \$255,636.54 variance between the original and final budget was due to additional expenditures related to the additional grants awarded to the District after the original budget was approved. The \$162,444.74 variance between the final amended budget and the June 30, 2015 actual results was due to the anticipation of fully expending federal and state grant programs. Expenditures will be incurred in the next fiscal year.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 UNAUDITED, (CONTINUED)

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2015, the School District had \$11,746,823.70 invested in sites, buildings and equipment, and construction in progress. Of this amount, \$5,585,292.90 in depreciation has been taken over the years. We currently have a net book value of \$6,161,530.80. Total additions for the year were \$968,653.99, the majority of which was for construction in progress, facility improvements, food service equipment, technology and maintenance equipment. Table 3 shows fiscal year 2015 balances compared to 2014.

Table 3
Capital assets at June 30,

Debt Administration

At June 30, 2015, the District had \$3,767,456.00 of long-term debt. Of this amount, \$31,905.00 is for compensated absences, and \$3,735,551.00 is for net pension liability.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 UNAUDITED, (CONTINUED)

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

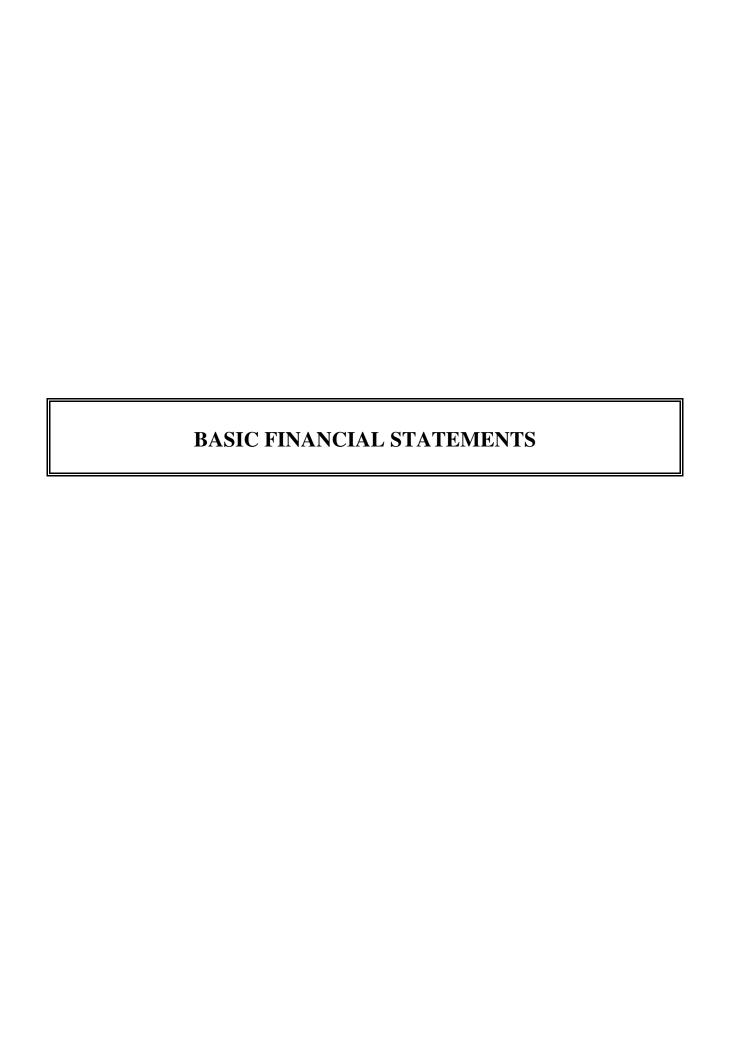

The Regional funding formula has undergone yet another change. A two year phase in was instituted that based the funding equation equally in property value and pupil enrollment. The change affected all three towns very differently, with one receiving a very large tax decrease while another incurred a large tax increase due to the changing of formula. All three towns continue to appeal the funding formula.

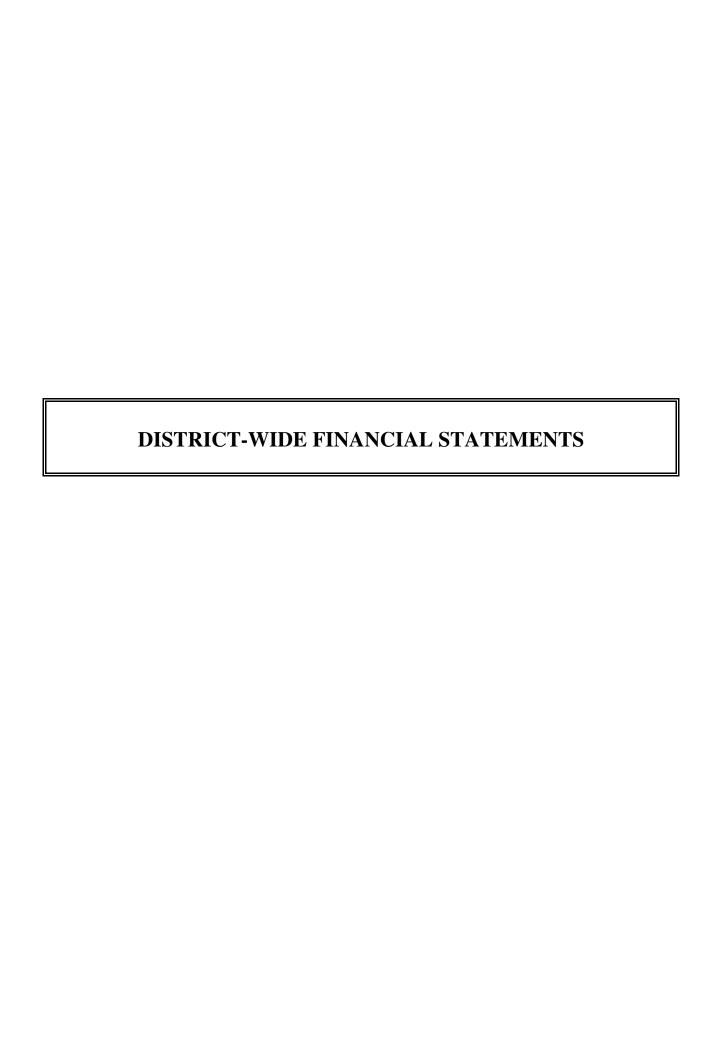

The upcoming school budget (2016-17) will be a challenging task for the Board and Administration. Increased out of district costs, especially in regards to Passaic County Technical Institute students, has stripped the PC Manchester Budget of \$1 million dollars over the past several years. The District will be hard pressed to maintain current programs (let alone add any) due to this increase. Adding to this issue is expected increases in health benefit costs. With the full implementation of Chapter 78 contributions, the district will be incurring larger costs in this area.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Manchester Regional High School Board of Education's finances for all those with an interest in the government's finances. MANCHESTER REGIONAL HIGH SCHOOL DISTRICT Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2015

Total net change in fund balances - governmental funds (from B-2)	(205,749.98)
Amounts reported for governmental activities in the statement of activities (A-2) are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period. Depreciation Expense Depreciable Capital Outlays 946,658.72	
In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+). Increase/(Decrease) in Compensated Absences Payable	6,770.00
District pension contributions are reported as expenditures in the governmental funds when made. However, per GASB No. 68 they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the District's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities. District Pension Contributions Less: Pension Expense (Increase)/Decrease in Pension Expense	
Per GASB No. 68 Non-employer contributing entities are required to record an increases in revenue and expense for On-behalf TPAF pension payments paid by the State of New Jersy on the Statement of Activities that are in excess of those amounts reported in the fund financial statements Increase in On-behalf State Aid TPAF Pension Increase in On-behalf TPAF Pension Expense	1,247,866.00 (1,247,866.00)

The accompanying Notes to Basic Financial Statements are an integral part of this statement.

NOTE 1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Board of Education ("Board") of the Manchester Regional High School District ("District") is an instrumentality of the State of New Jersey, established to function as an educational institution. The Manchester Regional High School District is a Type II district located in the County of Passaic, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The board is comprised of nine members elected to three-year terms. The purpose of the District is to educate students in grades 9-12. The School District serves the high school needs of the Boroughs of Haledon, North Haledon and Prospect Park. A superintendent is appointed by the Board and is responsible for the administrative control of the District. Under existing statutes, the Board's duties and powers include, but are not limited to, the development and adoption of a school program; the establishment, organization and operation of schools; and the acquisition, maintenance and disposition of school property.

The Board also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the Board holds the corporate powers of the organization
- the Board appoints a voting majority of the organization's board
- the Board is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the Board
- there is a fiscal dependency by the organization on the Board

Based on the aforementioned criteria, the Board has no component units. Furthermore, the Board is not includable in any other reporting entity on the basis of such criteria.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education of the Manchester Regional High School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the board's accounting policies are described below.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

A. Basis of Presentation:

The Board's basic financial statements consist of District-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

District-wide Financial Statements:

The statement of net position and the statement of activities display information about the Board as a whole. These statements include the financial activities of the overall District, except for the fiduciary funds. The statements distinguish between those activities of the Board that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the Board at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the governmental activities and for the business-type activities of the Board. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Board, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the Board.

Fund Financial Statements:

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category - *government*, *proprietary*, and *fiduciary* - are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models. The various funds of the Board are grouped into the categories governmental, proprietary and fiduciary.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions of the Board are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Board's governmental funds:

General Fund - The General Fund is the general operating fund of the Board. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the Capital Outlay subfund.

As required by the New Jersey State Department of Education, the Board includes budgeted Capital Outlay in this fund. Accounting principles generally accepted in the United States of America as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, District taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from sale of bonds, lease purchases and other revenues.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

GOVERNMENTAL FUNDS, (continued)

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

PROPRIETARY FUNDS

The focus of Proprietary Fund measurement is upon determination of net income, changes in net position, financial position and cash flows. The accounting principles generally accepted in the United States of America applicable are those similar to businesses in the private sector. Proprietary funds are classified as enterprise or internal service; the Board has no internal service funds. The following is a description of the Proprietary Funds of the Board:

Enterprise Funds - The Enterprise Funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises -- where the intent of the Board is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the Board has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The Board's Enterprise Fund is comprised of the Food Service Fund, Interlocal Technology Program and the Community School Programs.

FIDUCIARY FUNDS

Fiduciary Fund - Fiduciary Fund reporting focuses on net position and changes in net position. The Fiduciary Funds are used to account for assets held by the Board on behalf of individuals, private organizations, other governments and/or other funds. Fiduciary Funds include Unemployment Compensation Insurance, the Memorial/Scholarship Funds, Student Activities Fund and Payroll Agency Fund.

B. Measurement Focus:

District-wide Financial Statements

The District-wide statements (i.e., the statement of net position and the statement of activities) are prepared using the economic resources measurements focus and the accrual basis of accounting. All assets and liabilities associated with the operation of the Board are included on the statement of net position, except for fiduciary funds.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the District-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the District-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the Board finances and meets the cash flow needs of its proprietary activities.

C. Basis of Accounting:

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The District-wide financial statements and the financial statements of the proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

C. Basis of Accounting: (continued)

Revenues - Exchange and Non-exchange Transactions, (continued)

Nonexchange transactions, in which the Board receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Board must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Board on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized. Under GAAP, in accordance with GASB No. 33, Accounting and Financial Reporting for Nonexchange Transactions, the last state aid payment is not considered revenue to the school district if the state has not recorded the corresponding expenditure, even though state law dictates recording the revenue.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: ad valorem property taxes, tuition, unrestricted grants and interest.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue.

The measurement of focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

D. Budgets/Budgetary Control:

Annual appropriated budgets are adopted in the spring of the preceding year for the general, and special revenue funds. The budgets are submitted to the county superintendents office for approval. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

D. Budgets/Budgetary Control: (continued)

later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2(g)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year. The Board of Education did not make any material supplemental budgetary appropriations during the fiscal year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

E. Encumbrances:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund, for which the Board has received advances, are reflected in the balance sheet as unearned revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

F. Cash, Cash Equivalents and Investments:

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the Board has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

G. Tuition Payable:

Tuition charges were established by the receiving district. The charges are subject to adjustment when the final costs have been determined.

H. Inventories:

On District-wide financial statements, inventories are presented at cost, which approximates market on a first-in, first-out basis and are expensed when used.

On fund financial statements inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Inventories of proprietary funds consist of food and goods held for resale, as well as supplies, and are expensed when used.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

I. Prepaid Items:

Payments made to vendors for services that will benefit periods beyond June 30, 2015, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year in which services are consumed.

J. Short-Term Interfund Receivables/Payables:

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

K. Capital Assets:

General capital assets are those assets not specifically related to activities reported in the enterprise fund. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the district-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the enterprise fund are reported both in the business-type activity column of the District-wide statement of net position and in the fund.

All capital assets acquired or constructed during the year are recorded at actual cost. Donated fixed assets are valued at their estimated fair market value on the date received. The capital assets acquired or constructed prior to June 30, 1993 are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. Donated capital assets are valued at their estimated fair market value on the date received. The Board maintains a capitalization threshold of \$2,000.00. The Board does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Governmental	Business-Type
Activities	Activity
Estimated Lives	Estimated Lives
20 years	N/A
7-50 years	N/A
5-20 years	5-20 years
	Estimated Lives 20 years 7-50 years

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

L. Compensated Absences:

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the Board and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the Board and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

For the District-wide Statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, for the governmental funds, in the Fund Financial Statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and District-wide presentations.

M. Unearned Revenue:

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Unearned revenue in the special revenue fund represents cash that has been received but not yet earned. See Note 2(E) regarding the special revenue fund.

N. Accrued Liabilities and Long-term Obligations:

All payables, accrued liabilities and long-term obligations are reported in the District-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgements, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current year. Bonds, long-term obligations, and capital leases that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

O. Accounting and Financial Reporting for Pensions:

In fiscal year 2015, the District implemented GASB 68. This Statement amends GASB Statement No. 27. It improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement replaces the requirement of Statement No. 27, *Accounting for Pension by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement. This statement is effective for periods beginning after June 15, 2014.

The District has also implemented GASB Statement 71, Pension Transition for Contributions made Subsequent to the Measurement Date-an amendment to GASB No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

Statement 68 requires a state or local government employer (or nonemployer contributing entity in a special funding situation) to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a state or local government employer or nonemployer contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement 68 requires that the government recognize its contribution as a deferred outflow of resources.

In addition, Statement 68 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of a state or local government employer or nonemployer contributing entity that arise from other types of events. At transition to Statement 68, if it is not practical for an employer or nonemployer contributing entity to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, paragraph 137 of Statement 68 required that beginning balances for deferred outflows of resources and deferred inflows of resources not be reported. Consequently, if it is not practical to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, contributions made after the measurement date of the beginning net pension liability could not have been reported as deferred outflows of resources at transition. This could have resulted in a significant understatement of an employer or nonemployer contributing entity's beginning net position and expense in the initial period of implementation.

O. Accounting and Financial Reporting for Pensions: (continued)

This Statement amends paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. Statement 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts.

P. Fund Balances:

Fund balance is divided into five classifications based primarily on the extent to which the Board is bound to observe constraints imposed upon the resources in the governmental funds. The classifications are as follows:

- **Nonspendable** fund balance includes amounts that are not in a spendable form (inventory, for example) or are required to be maintained intact (the principal of an endowment fund, for example).
- **Restricted** fund balance includes amounts that can be spent only for the specific purposes stipulated by external resource providers (for example, grant providers), constitutionally, or through enabling legislation (that is, legislation that creates a new revenue source and restricts its use). Effectively, restrictions may be changed or lifted only with the consent of resource providers.
- Committed fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the Board's highest level of decision-making authority. Commitments may be changed or lifted only by the government taking the same formal action that imposed the constraint originally.
- Assigned fund balance comprises amounts *intended* to be used by the Board for specific purposes. Intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.
- Unassigned fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications. Unassigned amounts are technically available for any purpose. If another governmental fund has a fund balance deficit, then it will be reported as a negative amount in the unassigned classification in that fund. Positive unassigned amounts will be reported only in the general fund.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Q. Net Position:

Net position represent the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Board or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The Board applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

R. Operating Revenues and Expenses:

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the Board, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund.

S. Extraordinary and Special Items:

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during the fiscal year.

T. Allocation of Indirect Expenses:

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. TPAF on-behalf contributions and changes in compensated absences have not been allocated and have been reported as unallocated benefits on the Statement of Activities. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities as unallocated depreciation. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

U. Use of Estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that effect certain reports, amounts and disclosures. Accordingly, actual results could differ from those estimates.

V. Recent Accounting Pronouncements:

The Governmental Accounting Standards Board (GASB) issued Statement No. 68, "Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27". This statement, which is effective for fiscal periods beginning after June 15, 2014 and was implemented by the District for the year ended June 30, 2015.

The Governmental Accounting Standards Board (GASB) issued Statement No. 71 "Pension Transition for Contributions Made Subsequent to the Measurement Date-an-amendment of GASB Statement No. 68". The provisions of this statement are required to be applied simultaneously with the provisions of Statement 68 which is effective for periods beginning after June 15, 2014 and was implemented by the District for the year ended June 30, 2015.

The Government Accounting Standards Board issued GASB Statement No. 72, Fair Value Measurement and Application. This Statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement also provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. The District is currently reviewing what effect, if any, this Statement might have on future financial statements.

The Government Accounting Standards Board issued GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68 and Amendments to Certain Provisions of GASB Statements 67 and 68. This Statement is effective for fiscal years beginning after June 15, 2015 – except those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement 68, which are effective for financial statements for fiscal years beginning after June 15,2016. The District is currently reviewing what effect, if any, this Statement might have on future financial statements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

V. Recent Accounting Pronouncements: (continued)

The Government Accounting Standards Board issued <u>GASB Statement No. 74</u>, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. This Statement applies to OPEB plans and basically parallels GASB Statement 67 and replaces GASB Statement 43 and is effective for fiscal years beginning after June 15, 2016. The District is currently reviewing what effect, if any, this Statement might have on future financial statements.

The Government Accounting Standards Board issued <u>GASB Statement No. 75</u>, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This Statement applies to government employers who provided OPEB plans to their employees and basically parallels GASB Statement 68 and replaces GASB Statement 45. The Statement is effective for fiscal years beginning after June 15, 2017. The District is currently reviewing what effect, if any, this Statement might have on future financial statements.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's policy is based on New Jersey Statutes requiring cash be deposited only in New Jersey based banking institutions that participate in New Jersey Governmental Depository Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 18A:20-37 that are treated as cash equivalents. As of June 30, 2015, \$-0- of the District's bank balance of \$2,925,487.96 was exposed to custodial credit risk.

Investments

Investment Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, New Jersey Statutes 18A:20-37 limits the length of time for most investments to 397 days.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS, (continued)

Credit Risk

New Jersey Statutes 18A:20-37 limits school district investments to those specified in the Statutes. The type of allowance investments are Bonds of the United States of America, bonds or other obligations of the school districts or bonds or other obligations of the local unit or units within which the school district is located: obligations of federal agencies not exceeding 397 days; government money market mutual funds; the State of New Jersey Cash Management Plan; local government investment pools; or repurchase of fully collateralized securities.

Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer.

NOTE 4. RECEIVABLES

Receivables at June 30, 2015, consisted of accounts receivable, interfund and intergovernmental. All receivables are considered collectible in full. A summary of the principal items of intergovernmental receivables follows:

	Governmental Fund Financial Statements	Enterprise <u>Fund</u>	District Wide Financial Statements
Tax Levy	\$608,469.91	\$	\$608,469.91
State Aid	800,970.70	762.57	801,733.27
Federal Aid	124,759.78	43,116.28	167,876.06
Interfunds	536,741.46		296.92
Other	20,518.48	<u> </u>	20,518.48
Gross Receivables	2,091,460.33	43,878.85	1,598,894.64
Less: Allowance for Uncollectibles			
Total Receivables, Net	\$2,091,460.33	<u>\$43,878.85</u>	\$1,598,894.64

NOTE 5. INTERFUND BALANCES AND ACTIVITY

Balances due to/from other funds at June 30, 2015, consist of the following:

\$435,980.14	Due to the General Fund from the Capital Project Fund for short term loan.
21,580.57	Due to the General Fund from the Special Revenue Fund for short term loan.
296.92	Due to the General Fund from the Payroll Agency Fund for miscellaneous receipts.
78,883.83	Due to the General Fund from the Enterprise Fund to reimburse the General Fund for expenditures for goods or services.
\$536,741.46	

It is anticipated that all interfunds will be liquidated during the fiscal year.

During the year ended June 30, 2015, there was a transfer of \$142,677.98 from the Capital Projects Fund to the General Fund for unexpended funds for the local share of various projects.

NOTE 6. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2015 was as follows:

	Balance			Balance
	6/30/14	Additions	Deductions	6/30/15
Governmental Activities				
Capital Assets that are Not Being Depreciated				
Construction in Progress	<u>\$796,588.57</u>	\$550,739.16	<u>\$(683,119.10)</u>	\$664,208.63
Capital Assets Being Depreciated				
Land Improvements	915,564.00	35,940.00		951,504.00
Buildings and Improvements	7,842,108.63	296,509.90	683,119.10	8,821,737.63
Furniture, Equipment and Vehicles	976,791.21	63,469.66	(122,103.08)	918,157.79
Total Capital Assets, Being Depreciated	9,734,463.84	395,919.56	561,016.02	10,691,399.42
Less Accumulated Depreciation:				
Land Improvements	(249,888.80)	(36,396.70)		(286,285.50)
Buildings and Improvements	(4,460,373.93)	(150,311.86)		(4,610,685.79)
Furniture, Equipment and Vehicles	(543,273.39)	(81,160.45)	122,103.08	(502,330.76)
Total Accumulated Depreciation	(5,253,536.12)	(267,869.01)	122,103.08	(5,399,302.05)
Total Capital Assets, Being Depreciated, Net	4,480,927.72	128,050.55	683,119.10	5,292,097.37
Governmental Activities Capital Assets, Net	\$5,277,516.29	<u>\$678,789.71</u>	<u>\$0.00</u>	\$5,956,306.00

NOTE 6. CAPITAL ASSETS, (continued)

	Balance 6/30/14	Additions	Deductions	Balance 6/30/15
Business-Type Activity				
Equipment	\$369,220.38	\$21,995.27	\$	\$391,215.65
Less Accumulated Depreciation				
Equipment	(166,672.48)	(19,318.37)		(185,990.85)
Business-Type Activity Capital Assets, Net	<u>\$202,547.90</u>	<u>\$2,676.90</u>		<u>\$205,224.80</u>
Depreciation expense was charged to government	ental functions as fo	llows:		
Instructional - Regular				\$12,601.14
School Administrative Services				43,982.33
Plant Operations and Maintenance				9,584.90
Transportation				12,851.87
Unallocated Depreciation				188,848.77
				\$267,869.01

NOTE 7. OPERATING LEASES

The District had no operating leases outstanding as of June 30, 2015.

NOTE 8. LONG-TERM OBLIGATION ACTIVITY

Changes in long-term obligations for the year ended June 30, 2015, were as follows:

					Amounts Due
	Balance <u>June 30, 2014</u>	Issued	Retired	Balance June 30, 2015	Within One Year
Net Pension Liability Compensated Absences	\$4,126,221.00	\$	(\$390,670.00)	\$3,735,551.00	\$ -0-
Payable	38,675.00	8,022.50	(14,792.50)	31,905.00	-0-
Total Governmental Activities	\$4,164,896.00	\$8,022.50	(\$405,462.50)	\$3,767,456.00	<u>\$ -0-</u>

A. Bonds Payable:

Bonds are authorized in accordance with State law by the voters of the municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Board are general obligation bonds. At June 30, 2015 the board had no bonds payable.

NOTE 8. LONG-TERM OBLIGATION ACTIVITY, (continued)

B. Bonds Authorized But Not Issued:

As of June 30, 2015 the Board has no authorized but not issued bonds.

C. Capital Leases Payable:

The District had no capital leases outstanding at June 30, 2015.

NOTE 9. PENSION PLANS

<u>Description of Plans</u> - All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625 or reports can be accessed on the internet at: http://www.state.nj.us/treasury/pensions/annrpts archive.htm.

<u>Teachers' Pension and Annuity Fund (TPAF)</u> - The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

<u>Public Employees' Retirement System (PERS)</u> - The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

NOTE 9. PENSION PLANS, (continued)

<u>Defined Contribution Retirement Program (DCRP)</u> - The Defined Contribution Retirement Program (DCRP) was established as of July 1, 2008 under the provisions of Chapter 92, P.L. 2008 and Chapter 103, P.L. 2008 (NJSA 43:15C-1 et seq). The DCRP is a cost-sharing multiple-employer defined contribution pension fund. The DCRP provides eligible members, and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by NJSA 43:15C-1 et seq.

Contribution Requirements Fund Based Statements - The contribution policy is set by laws of the State of New Jersey and, in most retirement systems, contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. The pension funds provide for employee contributions based on 5.5% for PERS and 5.5% for TPAF of the employee's annual compensation. Pursuant to the provisions of Chapter 78, P.L. 2011, this amount will increase to 6.5% plus an additional 1% phased in over 7 years beginning in the first year. For fiscal year 2012, the member rate will increase in October 2011. The phase in will take place on July 1 of each subsequent fiscal year. Employers are required to contribute at an actuarially determined rate in all Funds except the SACT. The actuarially determined employer contribution includes funding for cost-of-living adjustments and noncontributory death benefits in the PERS and TPAF. In the PERS and TPAF, the employer contribution includes funding for post-retirement medical premiums.

During the year ended June 30, 2015 for TPAF, which is a cost sharing plan with special funding situations, annual pension cost equals annual required contribution. For PERS, which is a cost sharing multi-employer defined benefit pension plan, the annual pension cost differs from the annual required contribution due to the enactment of Chapter 114, P.L. 1997. TPAF employer contributions are made annually by the State of New Jersey to the pension system on behalf of the Board. PERS employer contributions are made annually by the Board to the pension system in accordance with Chapter 114, P.L. 1997.

The Board's contribution to PERS AND DCRP, equal to the required contributions for each year as reported in the fund based statements, were as follows:

Year		
Ending	<u>PERS</u>	<u>DCRP</u>
6/30/15	\$164,481.00	\$9,035.82
6/30/14	162,674.00	7,905.72
6/3013	173,553.00	3,617.57

NOTE 9. PENSION PLANS, (continued)

The State of New Jersey contribution to TPAF (paid on-behalf of the District) for normal and post retirement benefits have been included in the fund-based statements as revenues and expenditures in accordance with GASB 24, paragraphs 7 through 13, as follows:

	Post-Retirement			
Year	Pension	Medical	NCGI	
Ending	Contributions	Contributions	<u>Premium</u>	
6/30/15	\$493,405.00	\$289,947.00	\$20,860.00	
6/30/14	375,926.00	210,679.00	18,596.00	
6/30/13	404,831.00	340,125.00	17,895.00	

In addition, the post-retirement medical benefits are included in the district-wide financial statements.

Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$420,403.89 during the year ended June 30, 2015 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount has been included in the fund-based statements as revenues and expenditures in accordance with GASB 24, paragraphs 7 through 13.

Legislation enacted during 1993 provides early retirement incentives for certain members of the TPAF and PERS who met certain age and service requirements and who applied for retirement between certain dates in the 1993 fiscal year. The early retirement incentives included: (a) an additional five years of service credit for employees at least age 50 with a minimum of 25 years of service; (b) free health benefits for employees at least 60 years old with at least 20 years of service; and (c) an additional \$500 per month for two years for employees at least age 60 with 10 but less than 20 years of service. The Board offered the early retirement incentive program (ERIP) to its employees for both PERS and TPAF.

ACCOUNTING AND FINANCIAL REPORTING FOR PENSION IN THE DISTRICT-WIDE STATEMENTS PER - GASB NO. 68

Public Employees Retirement System (PERS)

At June 30, 2015, the District reported a liability of \$3,735,551.00 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2014, the District's proportion was 0.0199519502 percent, which was an increase of 0.0016377525 percent from its proportion measured as of June 30, 2013.

NOTE 9. PENSION PLANS, (continued)

For the year ended June 30, 2015, the District recognized pension expense of \$143,367.00. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of <u>Resources</u>	Deferred Inflows of Resources
Changes of assumptions	\$117,466.00	\$
Net difference between projected and actual earnings on pension plan investments		222,619.00
Changes in proportion and differences between District contributions and proportionate share of contributions		264,403.00
District contributions subsequent to the measurement		,
date	153,635.00	
Total	<u>\$271,101.00</u>	\$487,022.00

The \$153,635.00 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2015, the plan measurement date is June 30, 2014) will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2016	\$(34,062.00)
2017	(34,062.00)
2018	(34,062.00)
2019	21,593.00
Thereafter	9,501.00

NOTE 9. PENSION PLANS, (continued)

Additional Information

Local Group Collective balances at December 31, 2013 and 2014 are as follows:

	Dec. 31, 2014	Dec. 31, 2013
Collective deferred outflows of resources	\$952,194,675	Not Available
Collective deferred inflows of resources	1,479,224,662	Not Available
Collective net pension liability	18,722,735,003	\$19,111,986,911
District's Proportion	0.0199519502%	0.0215897027%

Actuarial Assumptions

The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2013, which rolled forward to June 30, 2014. The total pension liability for the July 1, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. This actuarial valuation used the following assumptions, applied to all periods in the measurement.

Inflation	3.01 Percent
Salary Increases:	
2012-2021	2.15-4.40 Percent (based on age)
Thereafter	3.15-5.40 Percent (based on age)
Investment Rate of Return	7.90 Percent

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011.

Mortality Rates

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback one year for females) with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA.

NOTE 9. PENSION PLANS, (continued)

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2014 are summarized in the following table:

	Target	Long-Term Expected Real
Asset Class	Allocation	Rate of Return
Cash	6.00%	0.80%
Core Bond	1.00%	2.49%
Intermediate Term Bonds	11.20%	2.26%
Mortgages	2.50%	2.17%
High Yield Bonds	5.50%	4.82%
Inflation Indexed Bonds	2.50%	3.51%
Broad U.S. Equities	25.90%	8.22%
Developed Foreign Markets	12.70%	8.12%
Emerging Market Equities	6.50%	9.91%
Private Equity	8.25%	13.02%
Hedge Funds/Absolute Returns	12.25%	4.92%
Real Estate (Property)	3.20%	5.80%
Commodities	2.50%	5.35%
	100.00%	

Discount Rate

The discount rate used to measure the total pension liability was 5.39% and 5.55% as of June 30, 2014 and 2013, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 4.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

NOTE 9. PENSION PLANS, (continued)

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability of the participating employers as of June 30, 2014 respectively, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1 -percentage point lower or 1- percentage-point higher than the current rate:

		June 30, 2014		
	1%	At Current	1%	
	Decrease	Discount Rate	Increase	
	4.39%	5.39%	6.39%	
District's proportionate share of				
the pension liability	\$4,699,450.00	\$3,735,551.00	\$2,926,121.00	

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Financial Report for the State of New Jersey Public Employees Retirement System (PERS).

Teachers Pensions and Annuity Fund (TPAF)

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The portion of the TPAF Net Pension Liability that was associated with the District recognized at June 30, 2015 was as follows:

Net Pension Liability:	
District's proportionate share	\$ -0-
State's proportionate share	
associated with the District	28,966,569.00
	<u>\$28,966,569.00</u>

NOTE 9. PENSION PLANS, (continued)

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013. The net pension liability associated with the District was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2014, the proportion of the TPAF net pension liability associated with the District was 0.0541970684%.

For the year ended June 30, 2015, the District recognized on-behalf pension expense and revenue of \$1,558,673.00 for contributions provided by the State in the District-Wide Financial Statements.

Actuarial Assumptions

The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2013, which was rolled forward to June 30, 2014. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate 2.50%

Salary Increases:

2012-2021 Varies based on experience Varies based on experience

Investment Rate of Return 7.90%

Mortality Rates

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement. The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

NOTE 9. PENSION PLANS, (continued)

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2014 are summarized in the following table:

Asset Class	Target <u>Allocation</u>	Long-Term Expected Real Rate of Return
Cash	6.00%	0.50%
Core Fixed Income	0.00%	2.19%
Core Bonds	1.00%	1.38%
Short-Term Bonds	0.00%	1.00%
Intermediate-Term Bonds	11.20%	2.60%
Long-Term Bonds	0.00%	3.23%
Mortgages	2.50%	2.84%
High Yield Bonds	5.50%	4.15%
Non-US Fixed Income	0.00%	1.41%
Inflation-Indexed Bonds	2.50%	1.30%
Broad US Equities	25.90%	5.88%
Large Cap US Equities	0.00%	5.62%
Mid Cap US Equities	0.00%	6.39%
Small Cap US Equities	0.00%	7.39%
Developed Foreign Equities	12.70%	6.05%
Emerging Market Equities	6.50%	8.90%
Private Equity	8.25%	9.15%
Hedge Funds Absolute Return	12.25%	3.85%
Real Estate (Property)	3.20%	4.43%
Real Estate (REITS)	0.00%	5.58%
Commodities	2.50%	3.60%
Long Credit Bonds	0.00%	3.74%
	<u>100.00%</u>	

NOTE 9. PENSION PLANS, (continued)

Discount Rate

The discount rate used to measure the total pension liability was 4.68% and 4.95% as of June 30, 2014 and 2013, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 4.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability,

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Because the District's proportionate share of the net pension liability is zero, consideration of potential changes in the discount rate is not applicable to the District.

NOTE 10. POST-RETIREMENT BENEFITS

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required Teachers' Pension and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2014, there were 103,432 retirees receiving post-retirement medical benefits, and the State contributed \$1.04 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994 Chapter 62. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992 Chapter 126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$165.8 million toward Chapter 126 benefits for 18,122 eligible retired members in Fiscal Year 2014.

NOTE 11. DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by CPI Qualified Plan Consultants, Inc., permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan participants are as follows:

Equitable Lincoln Investment Planning Oppenheimer VALIC

NOTE 12. RISK MANAGEMENT

The District is exposed to various risks of loss related to general liability, automobile coverage; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Board has obtained insurance coverage to guard against these events to minimize the exposure to the District should they occur.

<u>Property and Liability Insurance</u> - The District is currently a member of the Suburban Essex Joint Insurance Fund (the "Fund"). The Fund provides it's members with General Liability, Auto Liability, Property, Employee Benefits Liability, Worker's Compensation and Employer Liability Insurance. The Fund is a risk-sharing public entity risk pool that is both an insured and self-administered group of School District's established for the purpose of providing low-cost insurance coverage for their respective members in order to keep insurance costs at a minimum. Each member appoints an official to represent their respective entity for the purpose of creating a governing body from which officers for the Funds are elected.

As a member of the Fund, the District could be subject to supplemental assessments in the event of deficiencies. If the assets of the Funds were to be exhausted, members would become responsible for their respective shares of the Fund's liabilities. However, this Fund has fully reinsured the exposures above all limits subscribed to by its members. The Funds can declare and distribute dividends to members upon arrival of the State of New Jersey Department of Insurance. These distributions are divided among the members in the same ratio as their individual assessment related to the total assessment of the membership body.

NOTE 12. RISK MANAGEMENT, (continued)

Financial statements for the Funds are available at the office of the Fund's administrator, 9 Campus Drive, Suite 16, Parsippany, NJ 07054.

There has been no significant reduction in insurance coverage from the previous year nor have there been any settlements in excess of insurance coverages.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and previous two years:

	Interest Earnings/			
	District	Employee	Amount	Ending
Fiscal Year	Contributions	Contributions	Reimbursed	Balance
2014-2015	\$	\$16,966.11	\$31,961.11	\$376,056.87
2013-2014		16,810.09	58,009.64	391,051.87
2012-2013		16,540.33	33,336.38	432,251.42

NOTE 13. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Manchester Regional High School District by inclusion of \$1.00 on September 21, 2000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized to *N.J.S.A.* 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

NOTE 13. CAPITAL RESERVE ACCOUNT, (continued)

The activity of the capital reserve for the July 1, 2014 to June 30, 2015 fiscal year is as follows:

Beginning balance, July 1, 2014		\$1,134,963.35
Interest Earnings	\$500.00	
Unexpended Capital Projects	142,677.98	
Deposits:		
Approved June 18, 2015	80,000.00	
		223,177.98
		1,358,141.33
Budgeted Withdrawal		239,650.01
Ending balance, June 30, 2015		\$1,118,491.32

The balance in the capital reserve account at June 30, 2015 does not exceed the balance of local support costs of uncomplete capital projects in its LFRP.

NOTE 14. EMERGENCY RESERVE ACCOUNT

The emergency reserve is used to accumulate funds in accordance with N.J.S.A. 18A:7F-41c(1) to finance unanticipated general fund expenditures required for a thorough and efficient education. Unanticipated means reasonably unforeseeable and shall not include additional costs caused by poor planning. The maximum balance permitted at any time in this reserve is the greater of \$250,000.00 or 1% of the general fund budget not to exceed one million dollars. Deposits may be made to the emergency reserve account by board resolution at year end of any unanticipated revenue or unexpended line item appropriation or both. Withdrawals from the reserve require the approval of the commissioner unless the withdrawal is necessary to meet an increase in total health care costs in excess of four percent.

The activity of the emergency reserve for the July 1, 2015 to June 30, 2015 fiscal year is as follows:

Beginning balance, July 1, 2014	\$201,346.73
Interest Earnings Budgeted Withdrawal	135.84
Ending balance, June 30, 2015	\$188,441.57

NOTE 15. MAINTENANCE RESERVE ACCOUNT

A maintenance reserve account was established by Board of Education resolution adopted June 29, 2010. The account is maintained in the general fund. The maintenance reserve account is used to accumulated funds for the required maintenance of a facility in accordance with the EFCRA (N.J.S.A. 18A:7G-9). EFCFA requires that upon district completion of a school facilities project, the district must submit a plan for the maintenance of that facility. All such plans must include a provision for a maintenance reserve fund. The activity of the maintenance reserve for the July 1, 2014 to June 30, 2015 fiscal year is as follows:

Beginning balance, July 1, 2014	\$166,702.90
Deposits: Approved June 18, 2015	75,000.00
Budgeted Withdrawal	_100,000.00
Ending balance, June 30, 2015	\$141,702.90

NOTE 16. TUITION RESERVE ACCOUNT

The tuition reserve account represents a year end fund balance classification to reserve unrestricted fund balance for a foreseeable future tuition adjustment pursuant to N.J.A.C. 6A:23A-17.1(f). The tuition reserve enables the District to reserve fund balance for an anticipated large tuition adjustment. The activity of the tuition reserve for the July 1, 2014 to June 30, 2015 fiscal year is as follows:

Beginning balance, July 1, 2014	\$405,000.00
Deposits:	
Approved June 18, 2015	385,000.00
Ending balance, June 30, 2015	\$790,000.00

NOTE 17. FUND BALANCE APPROPRIATED

General Fund [Exhibit B-1] - Of the \$2,233,048.06 General Fund fund balance at June 30, 2015, \$78,121.04 is reserved for encumbrances; \$68,563.86 is reserved as excess surplus in accordance with N.J.S.A. 18A:7F-7; \$1,118,491.32 has been reserved in the Capital Reserve Account; \$188,441.57 has been reserved in the Emergency Reserve Account; \$141,702.90 has been reserved in the Maintenance Reserve Account; \$790,000.00 has been reserved in the Tuition Reserve Account; \$0.00 has been appropriated and included as anticipated revenue for the year ending June 30, 2016; and \$(152,272.63) is unreserved and undesignated.

NOTE 18. CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A. 18A:7F-7 as amended, the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess surplus at June 30, 2015 is \$68,563.86 which was the result of current year operations.

NOTE 19. INVENTORY

Inventory in the Food Service Fund at June 30, 2015 consisted of the following:

Food	\$817.59		
Supplies	197.25		
	\$1,014.84		

The United States Department of Agriculture (USDA) commodity portion of the Food Service Fund inventory consists of food donated by USDA. It is valued at estimated market prices by USDA. The amount of unused commodities at year end is reported on Schedule A as deferred revenue.

NOTE 20. RESTATEMENT

Net position for June 30, 2014 was restated in the amount of \$4,126,221.00 to reflect the net pension liability at June 30, 2013 for the Public Employee Retirement System (PERS) as per Governmental Accounting Standards Board ("GASB") number 68. This resulted in restatement of net position as of June 30, 2014 as follows:

	Governmental <u>Activities</u>
Net Position at June 30, 2014 Prior Period Adjustment for Net Pension Liability	\$7,680,822.76
	(4,126,221.00)
Net Position at June 30, 2014 - Restated	<u>\$3,554,601.76</u>

NOTE 21. CONTINGENT LIABILITIES

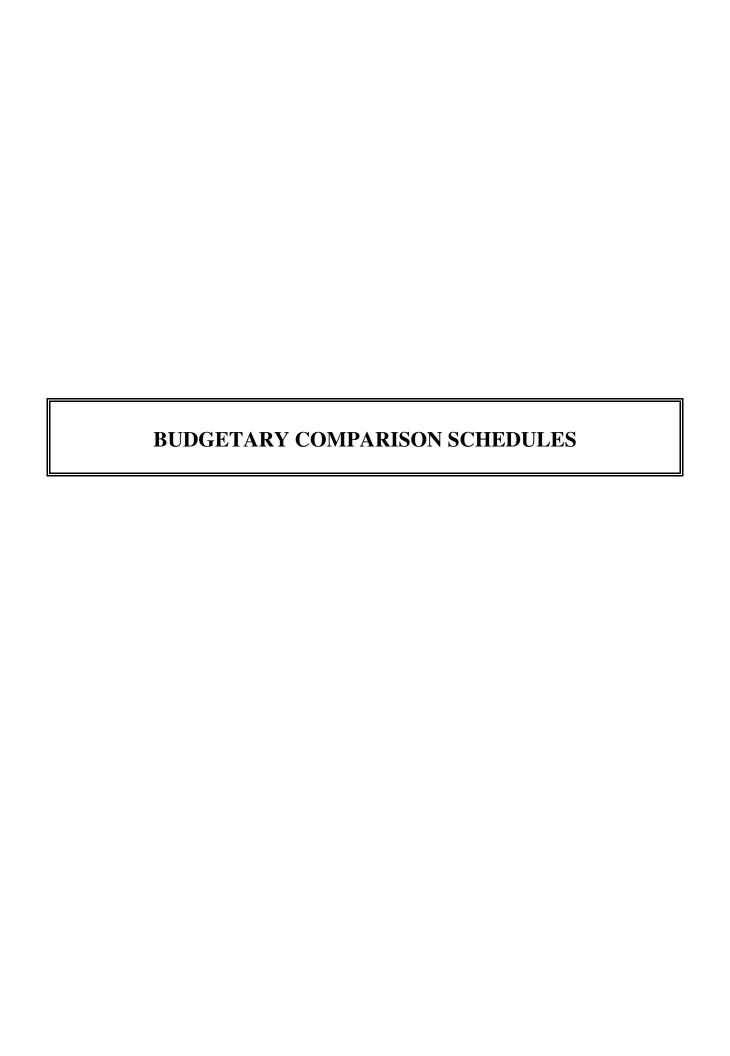

<u>Grant Programs</u> - The school district participates in federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The school district is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

<u>Litigation</u> - The District is a party defendant in some lawsuits, none of a kind unusual for a school district of its size and scope of operation. In the opinion of the Board's Attorney the potential claims against the District not covered by insurance policies would not materially affect the financial condition of the District.

NOTE 22. SUBSEQUENT EVENTS

The District has evaluated subsequent events through November 24, 2015, the date which the financial statements were available to be issued and no other items were noted for disclosure.

MANCHESTER REGIONAL HIGH SCHOOL DISTRICT Note to Required Schedules of Supplementary Information - Part III For the Year Ended June 30, 2015

PUBLIC EMPLOYEES RETIREMENT SYSTEM (PERS)

Change in benefit terms

None

Change in assumptions

The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. There was a change in the municipal bond index rate from the prior measurement date (4.63%) to the current measurement date (4.29%), resulting in a change in the discount rate from 5.55% to 5.39%. This change in the discount rate is considered to be a change in actuarial assumptions under GASBS No. 68.

TEACHERS PENSION AND ANNUITY FUND (TPAF)

Change in benefit terms

Change in assumptions

The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. There was a change in the municipal bond index rate from the prior measurement date (4.63%) to the current measurement date (4.29%), resulting in a change in the discount rate from 4.95% to 4.68%. This change in the discount rate is considered to be a change in actuarial assumptions under GASBS No. 68.

J SERIES

<u>Contents</u>	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the district's financial performance and well-being have changes over time.	J-1 to J-5
Revenue Capacity These schedules contain information to help the reader assess the district's most significant local revenue sources, the property tax.	J-6 to J-9
Debt Capacity These schedules present information to help the reader assess the affordability of the district's current levels of outstanding debt and the district's ability to issue additional debt in the future.	J-10 to J-13
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the district's financial activities take place.	J-14 to J-15
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the district's financial report relates to the services the district provides and the activities it performs.	J-16 to J-20
Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports (CAFR) for the relevant year. The district implemented GASB Statement 34 in the fiscal year ending June 30, 2004; schedules presenting district-wide information include information beginning in that year.

Subtotal, overlapping debt			45,339,960
Manchester Regional High School District Direct Debt		·	
Total direct and overlapping debt		·	\$ 45,339,960

Assessed value data used to estimate applicable percentages provided by the Passaic County Board of Taxation. Debt outstanding data provided by each governmental unit. Sources:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. Note:

businesses of Anytown. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment. a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable President and Members of the Board of Education Manchester Regional High School School District County of Passaic, New Jersey

We have audited, in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund and the aggregate remaining fund information of the Board of Education of the Manchester Regional High School School District, in the County of Passaic, New Jersey, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 24, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit on the financial statements, we considered the Manchester Regional High School Board of Education's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Manchester Regional High School Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Manchester Regional High School Board of Education's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and

corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Manchester Regional High School Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards or the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

We noted certain matters that were required to be reported to the Board of Education of the Manchester Regional High School School District in the separate Auditors' Management Report on Administrative Findings - Financial, Compliance and Performance dated November 24, 2015.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND N.J. OMB CIRCULAR 04-04

Honorable President and Members of the Board of Education Manchester Regional High School School District County of Passaic, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Board of Education of the Manchester Regional High School School District in the County of Passaic, New Jersey, compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplements* and the New Jersey State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the Manchester Regional High School Board of Education's major federal and state programs for the year ended June 30, 2015. The Manchester Regional High School Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Manchester Regional High School Board of Education's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards, OMB Circular A-133 and N.J. OMB Circular 04-04 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of

compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the Manchester Regional High School Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Manchester Regional High School Board of Education's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Manchester Regional High School Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the Manchester Regional High School Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Manchester Regional High School Board of Education's internal control over compliance with the type of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with OMB Circular A-133 and N.J. OMB Circular 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Manchester Regional High School Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

-123-

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133 and N.J. OMB Circular 04-04. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal and State Awards Required by OMB Circular A-133

We have audited the financial statements of the Manchester Regional High School Board of Education as of and for the year ended June 30, 2015, and have issued our report there dated November 24, 2015 which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by OMB Circular A-133 and N.J. OMB Circular 04-04 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal and state awards is fairly stated in all material respects in relation to the financial statements as a whole.

See accompanying notes to schedules of expenditures of federal awards and state financial assistance.

K-5 Page 1 of 2

NOTE 1. GENERAL

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance include the activity of all federal and state award programs of the Board of Education, Manchester Regional High School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal and state awards passed through other government agencies is included on the Schedules of Expenditures of Federal Awards and State Financial Assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes 2(C) and 2(D) to the Board's basic financial statements. The information in these schedules is presented in accordance with the requirements of OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations." Therefore, some amounts presented in this schedule may differ in amounts presented in or used in the preparation of the basic financial statements.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and the special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS, (continued)

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$3,979.00 for the general fund and \$0.00 for the special revenue fund. See Notes to Required Supplemental Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's financial statements on a GAAP basis as follows:

	<u>Federal</u>	State	<u>Total</u>
General Fund	\$14,270.12	\$7,846,720.89	\$7,860,991.01
Special Revenue Fund	484,851.48	535,157.32	1,020,008.80
Capital Projects Fund		471,382.41	471,382.41
Food Service Fund	510,728.81	6,738.62	517,467.43
Total Awards and Financial	\$1,009,850.41	\$8,859,999.24	\$9,869,849.65

NOTE 4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 5. OTHER

Revenues and expenditures reported under the food distribution program represent current year value received and current year distribution respectively.

The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the District for the year ended June 30, 2015. The amount reported as TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2015.

NOTE 6. ON-BEHALF PROGRAMS NOT SUBJECT TO STATE SINGLE AUDIT

On-behalf State Programs for TPAF Pension and Post-Retirement Medical Benefits Contributions are not subject to a State single audit and, therefore, are excluded from major program determination. The Schedule of State Financial Assistance provides a reconciliation of State financial assistance reported in the District's financial statements and the amount subject to State single audit and major program determination.
