Dear Commissioner Hodges and Members of the Board:

The Comprehensive Annual Financial Report (CAFR) of the Paterson Public School District (the "District") for the fiscal year ended June 30, 2015, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities are included.

Government Accounting Standards Board (GASB) requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This section includes independent auditors’ reports on compliance and internal control, schedules of the expenditures for federal and state grants, notes to the schedules of expenditures on federal and state grants, schedule of findings and questioned costs, and a summary schedule of prior audit findings.

SECTION 2 - PROFILE OF THE GOVERNMENT**Paterson Public School District**

The Paterson Public School District is an independent reporting entity within the criterion adopted by the Governmental Accounting Standards Board as established by GASB 14. All funds and account groups of the District are included in this report. The Paterson Public School District and all of its schools constitute the District's reporting entity. The District is one of three state-operated districts in the state of New Jersey.

The Paterson Public School District is also one of 31 statewide districts that are now referred to as "SDA Districts" based on the requirement for the state to cover all costs for school building and renovation projects under the supervision of the New Jersey Schools Development Authority. The school system has nearly 30,000 students who speak 25 different languages. The school system currently has 54 schools with almost 5,000 full and part-time employees and a 2014-15 budgeted per pupil expenditure of \$16,323.

The District also administers direct special education services for handicapped pupils ranging from pre-school handicapped classes to numerous categories of special services for young adults. The regular educational program includes academic, vocational, remedial, and bilingual services. The District also conducts alternative education programs including an approved adult high school, various programs of evening adult courses, supplemental educational services under the auspices of No Child Left Behind and several summer school offerings.

On August 7, 1991 the Paterson Public Schools became a State Operated School District in accordance with NJSA 18A:7A-34, with full State intervention. The Paterson Public Schools was the second New Jersey school district to be removed from local autonomy. The District remained under state operation during the 2014-15 school year, its twenty four (24th) year of state control.

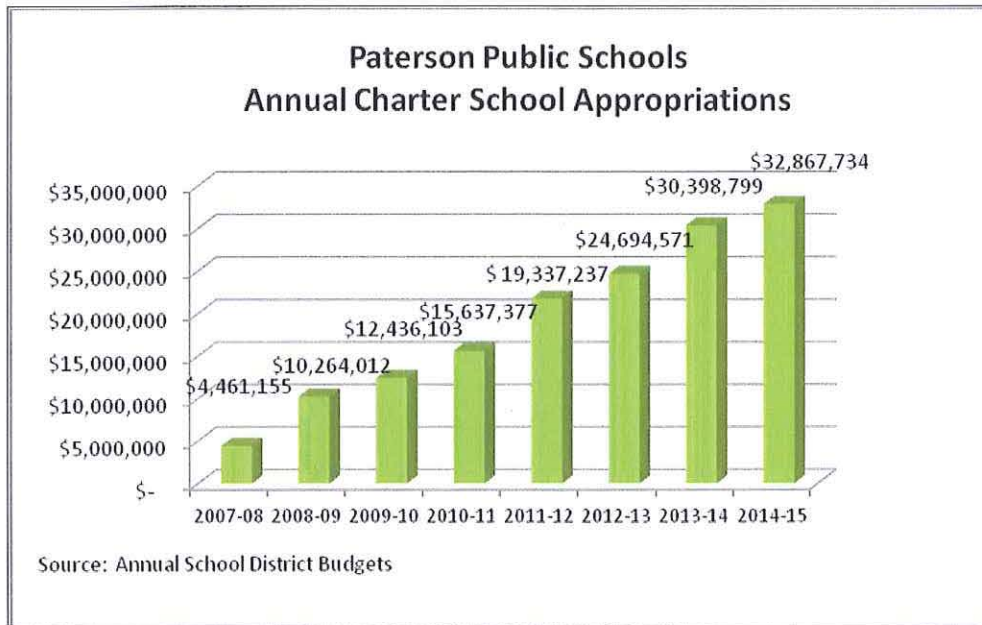

This "State Operated" status permits full supervision of the District by a State District Superintendent of Schools appointed by the State Board of Education, upon the recommendation of the Commissioner of Education. The State District Superintendent has broad authority for the operation of the Paterson Public Schools, including fixing and determining the amount of money necessary to be appropriated for the ensuing school year and shall certify the amount to be raised by special district tax for school purposes. The Board of Education has only those rights, powers and privileges of an advisory board (NJSA 18A:7A-47).

Resident Enrollment

Resident enrollment is defined as, “the number of pupils, other than preschool pupils, post-graduate pupils, and post-secondary vocational pupils who, on the last school day prior to October 16 of the current school year, are residents of the District and are enrolled in:

1. The public schools of the District, excluding evening schools,
2. Another school district, other than a county vocational school district in the same county on a full-time basis, or a State college demonstration school or private school to which the district of residence pays tuition, or
3. A State facility in which they are placed by the District.
4. Disabled children between three and five years of age and receiving programs and services pursuant to N.J.S.A.18A:46-6 shall be included in the resident enrollment of the District.
5. Non-resident children who are permitted to enroll in the educational program without payment of tuition as part of a voluntary program of inter-district public school choice approved by the commissioner.
6. Enrolled children of teaching staff members of the school district or county vocational school district who are permitted enrollment without tuition.

The Paterson Public School District sends students to state approved charter schools, the Passaic County Technical Institute and special education, public & private placements. Sending students represents a cost item in the annual budget but is reflective of the lack of capacity to house these students in the school buildings owned and/or operated by the Paterson Public Schools. Charter School appropriations for 2014-15 are \$32,867,734 for 2,369 pupils enrolled.

City of Paterson

Paterson is a city in and the county seat of Passaic County, New Jersey. As of the 2010 United States Census, the city’s population was 146,199, rendering it New Jersey's third most populous city. The 2010 census reflected a population decline of 3,023 (-2.0%) from the 149,222 counted in the 2000 Census. Paterson is known as "Silk City" for its dominant role in silk production during the latter half of the 19th century. The 2010 US Census demographic data notes that Paterson is 8.7 square miles.

2010 Census Data Racial Demographic	Census Count	% of Population
White	50,706	34.68%
African American	46,314	31.68%
Native American	1,547	1.06%
Asian	4,878	3.34%
Pacific Islanders	60	0.04%
Other	34,999	23.94%
Two Plus Races	7,695	5.26%
TOTAL	146,199	100.00%

Hispanic or Latino of any race were 57.63% (84,254) of the population.

SECTION 3—INFORMATION USEFUL IN ASSESSING THE GOVERNMENT’S ECONOMIC CONDITION

The City of Paterson has managed to make use of its former industrial buildings, which are enjoying new life as historical sites. This includes the district’s own Hinchliffe Stadium, home to “Negro League Baseball Teams in the 20th Century”, that was designated as a national historic landmark on March 11, 2013 and celebrated with the unveiling of a plaque marking the national historic landmark designation on April 16, 2014.

The S.U.M. historic district has become a national historic landmark, with many of the buildings converted to a variety of other uses; the Rogers Locomotive Erecting Shop has become the Paterson Museum, which highlights the city's industrial history and is known for its Native American relics and collection of New Jersey minerals. The City of Paterson’s 2010-2014 Consolidated Plan states: “while appreciating its past, Paterson is in the process of transitioning to being a service provider to the East Coast municipalities within its reach; finance, sales, and healthcare are all areas of new economic growth for the former textile powerhouse.”

One of the elements of the School Funding Reform Act formula is the amount of taxes a municipality contributes toward funding its public school system. The City of Paterson’s fair share of school taxes has been identified as \$83.6 million; however, due to the City’s ongoing economic distress, its actual local levy contribution in 2014-15 was 46.5% of the identified local fair share. Under the School Funding Reform Act of 2008, the District increased the City’s contribution by the 4% allowed, raising the City levy to \$38,955,956.

The school district tax levy has NOT been increased since, and when you combine this with the state's continued flat or lower state aid revenues, the administration is being forced to make complex choices on the programs and offerings made to the students and residents in the City. Many of these programs are long time commitments that may not continue as these choices are prioritized and measured against the Thorough and Efficient education the district is obligated to provide.

District Factor Groupings (DFGs)

District Factor Grouping (DFG) is a system of ranking schools by socio-economic status. The group designations are based on information from census data and include the following community data: income, poverty, unemployment, percent of population with no high school diploma, percent of population with some college, occupations, and population density.

There are eight District Factor Groupings (DFGs): "A" designates the lowest socio-economic level, followed by B, CD, DE, FG, GH, I, and J, the highest socio-economic level. The DFGs are valuable for comparison of districts with similar profiles for purposes of state aid and assessment information.

The low tax base and the high local tax rate in the City of Paterson classify the school district as an "A" district in the New Jersey Department of Education's DFG.

MAJOR INITIATIVES

Bright Futures: The Strategic Plan for Paterson Public Schools 2009-2014

During the summer and fall of 2009 State District Superintendent, Dr. Donnie W. Evans, engaged his staff and the broader Paterson community in a process that led to the development of the District's strategic plan – *Bright Futures*. This process sought to ensure that all internal and external stakeholders had an opportunity to provide significant input and feedback. The steps taken in this process were:

- 1) *Information gathering and strategic analysis;*
- 2) *Priority, goal, and strategies development;*
- 3) *Validation;*
- 4) *Implementation; and;*
- 5) *Evaluation.*

Components of *Bright Futures* include a vision, mission, as well as four priorities with goals and strategies for their attainment. The Vision and Mission Statements, and four priorities are listed below:

Vision Statement: To be the leader in educating New Jersey's urban youth.

Mission Statement: To prepare each student to be successful in the college/university of their choosing and in their chosen career.

Strategic Plan—District Priorities:

Priority I: Effective Academic Programs

Priority II: Creating and Maintaining Healthy School Cultures

Priority III: Family and Community Engagement

Priority IV: Efficient and Responsive Operations

District Initiatives and Transformation Strategies for 2014-15

In the 2014-15 school year, the Paterson Public School District continued to make progress in its implementation of school improvement initiatives designed to transform the Paterson Public School System from a lower performing District to one that is a "leader in educating New Jersey's urban youth."

The District has taken major steps to accelerate improvements in academic and non-academic outcomes. These steps were designed to:

- Build healthy school cultures & climate.
- Redesign critical processes & procedures.
- Revise teacher & administrator evaluation systems.
- Implement national & New Jersey common core standards.
- Strengthen the District's assessment system.
- Build capacity among staff.

SCHOLASTIC IMPROVEMENT

The initiatives of the District resulted in positive student gains on New Jersey’s standardized tests: NJASK Science which is administered to students in grades 3 through 8. The results are from the 2015 State assessment are reflected below in comparison with results from the 2015 State assessments.

INTERNAL ACCOUNTING CONTROLS

Management of the District is responsible for establishing and maintaining a system of internal control designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The system of internal control is designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefit likely to be derived and that the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal awards and state financial assistance, the District is responsible for ensuring that an adequate system of internal control is in place to ensure compliance with applicable laws and regulations related to those programs. This system of internal control is also subject to periodic evaluation by District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the system of internal control, including that portion related to federal awards and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

Internal Audit Units were established with the creation of State-Operated School Districts. These *Internal Audit Units* are tasked with promoting independence and enable auditors to maintain objectivity. The Internal Audit Unit in the Paterson Public Schools serves as an on-site representative of the Commissioner of Education. The internal auditors earned salary and employee benefits are paid by the Paterson Public School District. The district is reimbursed these employee expenses by the State of New Jersey.

The *Internal Audit Units* provide independent and objective assessment of the financial operations in the State-Operated Districts. They are responsible for providing the Commissioner of Education and the State District Superintendents with information about the adequacy and effectiveness of the District's internal controls and financial activities by performing financial, operational, and compliance audits. These audits include recommendations to improve systems, procedures, and other internal controls designed to safeguard District resources, promote efficient use of resources and ensure compliance with government laws and regulations. Auditors allocate resources to the areas of greatest risk to ensure adequate audit coverage. Auditors are to be objective in reporting and maintain independence from the District's daily operation.

Internal Auditors assist in monitoring the District's business functions by providing informal consultative services to the Business Administrator and other management personnel. Consultative services are designed to inform management of actual or potential weakness in their financial operations and provide recommendations for corrective actions.

Audit reports are approved by their Director prior to issuance. These reports are intended to provide the Commissioner and State District Superintendent with adequate information to make an objective assessment of the District's financial and compliance status.

BUDGETARY CONTROLS

Paterson Public Schools' 2014-15 budget was prepared consistent with District Fiscal Policy # 6220 addressing budget preparation, with primary consideration given to educational priorities identified through the District's *Bright Futures: The Strategic Plan for Paterson Public Schools 2014-19*. The 2014-1 budget development was also consistent with the New Jersey Department of Education *Budget Guidelines 2014-15 Budget Statement*.

The District continues to strive for improved budgetary controls in addition to standard internal accounting controls. Financial management software alerts the Purchasing Department of anticipated expenditures in accounts, to better monitor school and departmental budgets. In addition, the District conducts periodic reviews of expenditures and revenues in order to better predict financial position at the end of each year. All budget managers can access financial reports on those accounts for which they are responsible from their individual locations. The District also maintains a Position Control Roster System, which provides budgetary control on all contractual personnel positions within the District.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reserved fund balance at June 30, 2015.

During the 2014-15 fiscal year, Paterson continued its efforts to improve its audit status and operational processes and procedures, correcting deficiencies identified in previous audits and reviews. The independent auditors, the public accounting firm of Lerch, Vinci & Higgins, has been engaged as the district's Auditor of Record. Throughout 2014-15 the District has been working diligently to continue the audit progress, concentrating specifically on reducing and eliminating the occurrence of repeat audit findings and on maintaining general compliance with sound fiscal practices.

ACCOUNTING SYSTEM AND REPORTS

Effective July 1, 1993 the Division of Finance, Department of Education of the State of New Jersey, required all school Districts to change its accounting method from a comprehensive basis of accounting other than generally accepted accounting principles to an accounting and reporting system in accordance with accounting principles generally accepted in the United States of America (GAAP). The District's accounting records reflect New Jersey State Statute (N.J.S.A.18:4-14) that requires a uniform system of double-entry bookkeeping consistent with the GAAP established by GASB for use in all school districts.

The accounting system is organized on the basis of funds in accordance with the Uniform Minimum Chart of Accounts (Handbook 2R2) for New Jersey Public Schools. These funds are explained in Note 1 of the notes to the financial statements.

DEBT ADMINISTRATION

As a state-operated school district, the District is classified as a Type I District. This requires debt to be issued and administered by the City of Paterson, which is independent and autonomous of the District. The District has minimal Type II Debt from its history with an elected Board of Education; therefore, debt attributable to the District is registered with the City of Paterson, New Jersey. The only exception is a "Commissioner's Approved Lease Purchase" issue which is treated as a type of debt service in accordance with Comprehensive Education Improvement and Funding Act of 1996 (CEIFA) which governs state aid and funding.

CASH MANAGEMENT

The investment policy of the District is guided in large part by State Statute as detailed in the notes to the financial statements. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds, which are secured in accordance with the Act. The District participates in the New Jersey Cash Management Fund.

RISK MANAGEMENT

The District carries various forms of insurance, including but not limited to, general liability and comprehensive collision, hazard and theft insurance on property and contents and fidelity bonds.

INDEPENDENT AUDIT

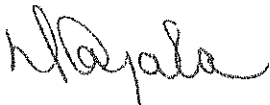

State Statutes require an annual audit by Independent Certified Public Accountants or registered Municipal Accountants. The accounting firm of Lerch Vinci & Higgins, LLP, was reappointed by the State District Superintendent to complete the 2014-15 fiscal audit. In addition to meeting the requirements set forth in State Statutes, the audit was also designed to meet the requirements of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133 "Audit of State and Local Governments and Non-Profit Organizations" and New Jersey OMB Circular 15-08 "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." The auditor's report on the basic financial statements is included in the financial section of this report. The auditor's report related specifically to the single audit is included in the single audit section of this report.

SECTION 4: ACKNOWLEDGEMENTS

A note of appreciation is extended to State District Superintendent Dr. Donnie W. Evans, Deputy Superintendent Eileen Shafer, the administrative Cabinet, District and School administrators for their cooperation as the District strives to improve audits through enhanced processes and procedures, to the Fiscal Committee of the District's Advisory Board of Education, for their ongoing support and commitment to fiscal integrity, and to the Paterson Board of Education, for its selfless dedication to improving student achievement in Paterson Public Schools.

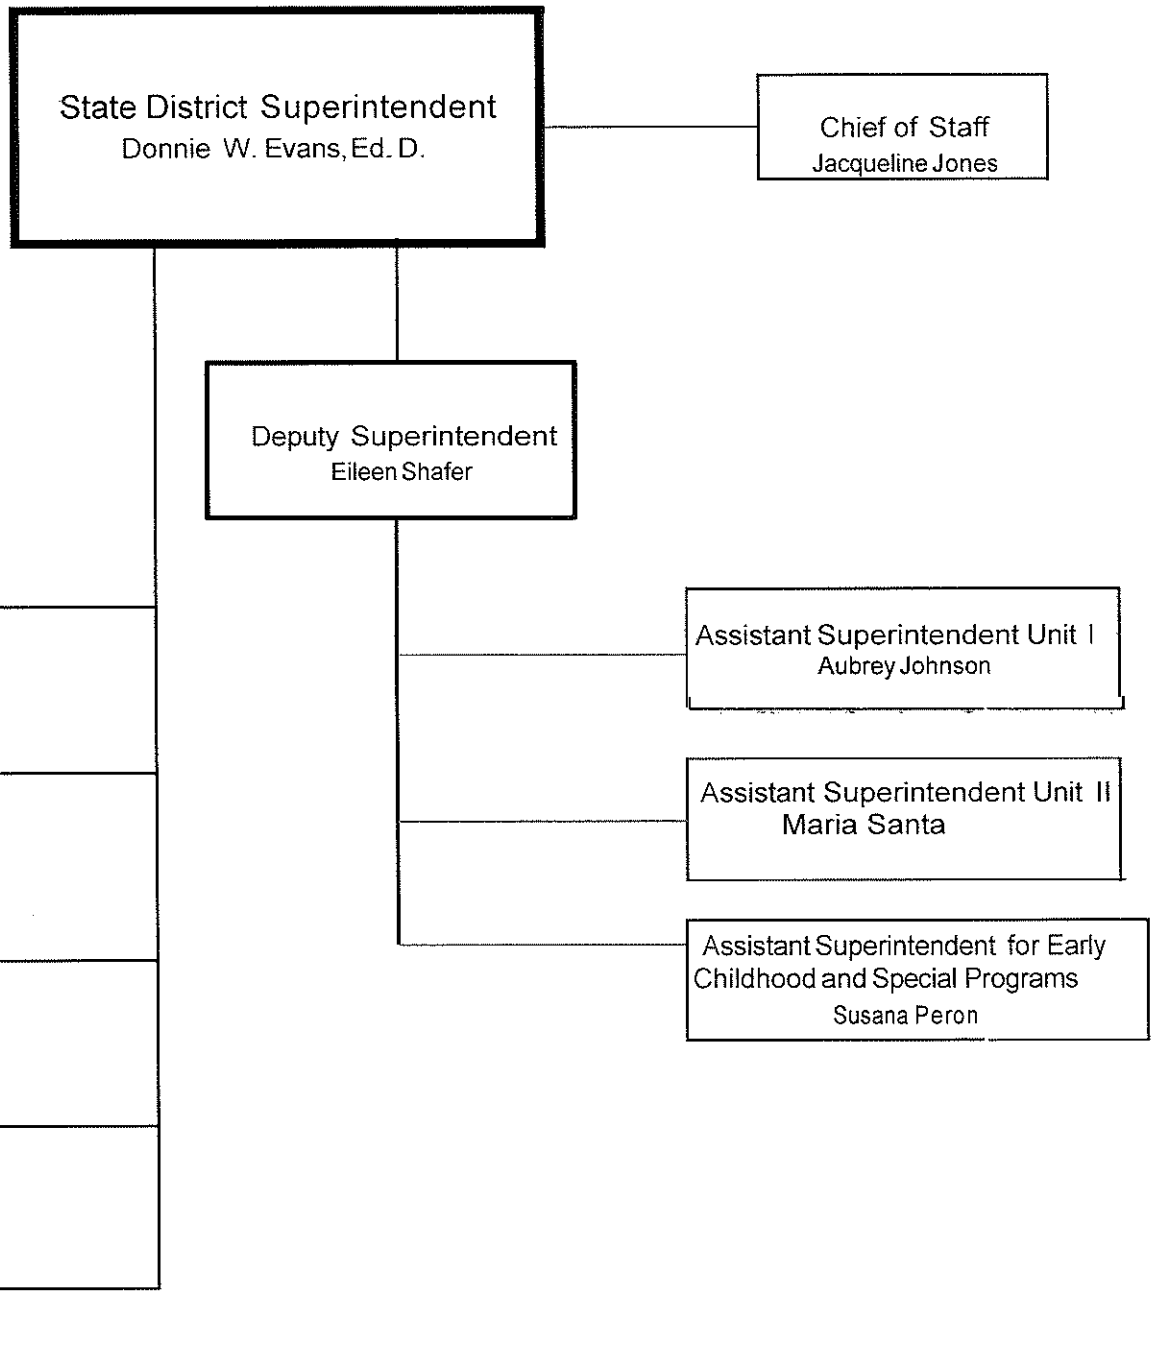

A special note of appreciation is extended to the Office of Business Services and to all of the business operations staff members for their untiring efforts to improve processes, procedures and audit outcomes. Their contributions in support of the students and staff of the Paterson School District are truly noteworthy and cherished by both the School Business Administrator and the Assistant Business Administrator.

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Education
Paterson Public Schools
Paterson, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Paterson Public Schools as of and for the fiscal year ended June 30, 2015 and the related notes to the financial statements, which collectively comprise the Paterson Public Schools' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in the Government Auditing Standards, issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Paterson Public Schools as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Adoption of New Accounting Pronouncement

As discussed in Note 1 to the financial statements, in the fiscal year ended June 30, 2015, the Paterson Public Schools adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Paterson Public Schools' basic financial statements. The introductory section, combining fund financial statements, financial schedules, statistical section, schedule of expenditures of federal awards as required by U.S. Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Paterson Public Schools.

The combining fund financial statements, schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements, schedules of expenditures of federal awards and state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

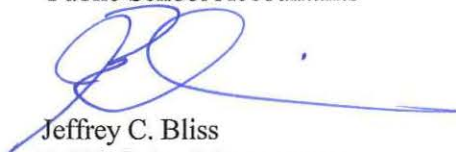

The introductory section, financial schedules and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with Government Auditing Standards, we have also issued our report dated December 11, 2015 on our consideration of the Paterson Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Paterson Public Schools' internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

PATERSON PUBLIC SCHOOLS
MANAGEMENT'S DISCUSSION AND ANALYSIS
FISCAL YEAR ENDED JUNE 30, 2015

This section of Paterson Public Schools ("School District or "District") comprehensive annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2015. We encourage readers to consider the information presented here in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follows this section.

Financial Highlights

Key financial highlights for the 2014-2015 fiscal year are as follows:

- The assets and deferred outflows of resources of the Paterson Public Schools exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$193,616,453 (net position).
- Net position increased \$25,412,986, or 15% from 2014.
- Overall general revenues of \$420,248,618 accounted for 60 percent of all revenues and overall program revenues of \$275,460,304 accounted for 40 percent of total revenues of \$695,708,922.
- The School District had \$670,295,936 in overall expenses of which \$275,460,304 were offset by program specific charges for services, grants or contributions. General revenues of \$420,248,618 helped offset these expenses.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the comprehensive annual financial report consists of four parts – independent auditor’s report, required supplementary information which includes the management’s discussion and analysis (this section), the basic financial statements, and supplemental information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are district-wide financial statements that provide both short-term and long-term information about the District’s overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District’s operations in more detail than the district-wide statements.
 - The *governmental funds* statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
 - *Proprietary funds* statements offer short – and long-term financial information about the activities the district operates like businesses.
 - *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

Organization of Paterson Public Schools’ Annual Financial Report

The basic financial statements also include notes that explain some of the information in the statements and provide more detailed data. The above chart shows how the various parts of this annual report are arranged and related to one another.

The following exhibit summarizes the major features of the District’s financial statements, including the portion of the District’s activities they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis highlights the structure and contents of each of the statements.

District-Wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred outflows and resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how they have changed. Net position – the difference between the District's assets and deferred outflows of resources and its liabilities and deferred inflows of resources – is one way to measure the District's financial health or position.

FISCAL YEAR ENDED JUNE 30, 2015

District-Wide Statements (Continued)

Over time, increases or decreases in the District's net position are an indicator of whether its financial condition is improving or deteriorating, respectively.

To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's status as an "Abbott" Special Needs District, which impacts State funding and the condition of school buildings and other facilities.

In the district-wide financial statements the District's activities are presented in two categories:

Governmental Activities – Most of the District's basic services are included here, such as regular and special education, transportation, administration and operations and maintenance of plant. State and federal aid and property taxes finance most of these activities.

Business-Type Activities – The District charges fees to customers to help it cover the costs of certain services it provides. The District's food service (cafeteria) operations is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds – focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. The District considers the general fund, special revenue fund, capital projects fund, debt service fund and food service – enterprise fund to be major funds.

- Some funds are required by State law and by bond covenants.
- The district uses other funds established in accordance with the State of New Jersey Uniform Minimum Chart of Accounts, to control and manage money for particular purposes or to show that it is properly using certain revenues (e.g., federal funds).

The District has three kinds of funds:

Governmental funds – Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial resources that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information at the bottom of the governmental funds statements that explains the relationship (or differences) between them.

Proprietary funds – Services for which the District charges a fee are generally reported in proprietary funds. The activities of the District's food service program are accounted for as an enterprise fund. Proprietary funds are reported in the same way as in the district-wide statements.

Fiduciary funds – The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the district-wide financial statements because the District cannot use these resources to finance its operations.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements can be found following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's budget process. The District adopts an annual expenditure budget for the general, special revenue and debt service funds. A budgetary comparison statement has been provided for the general and special revenue funds as required supplementary information. Information regarding the District's employee retirement systems and pension plans has also been provided as required supplementary information. The required supplementary information can be found following the notes to the basic financial statements.

Combining statements and schedules are presented immediately following the major budgetary comparisons.

FINANCIAL ANALYSIS OF THE DISTRICT

The district's financial position is the product of several financial transactions including the net results of activities, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Net position. The District's combined net position for governmental activities and business-type activities were \$193,616,453 on June 30, 2015 and \$168,203,467 on June 30, 2014.

FINANCIAL ANALYSIS OF THE DISTRICT (Continued)

By far the largest portion of the District's net pension reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following table presents the changes in net position for the fiscal years ended June 30, 2015 and 2014, an increase of \$25,412,986 and \$1,924,515, respectively.

The cost of Business-Type activities for the fiscal year ended June 30, 2015 and 2014 was \$16,326,907 and \$14,847,400, respectively. These expenses relate to the operation of the District's school breakfast, lunch, snack and summer food programs. FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a *combined* fund balance of \$1,332,944 for the year ended June 30, 2015 compared to a fund balance of \$32,297,669 for the year ended June 30, 2014, a decrease of \$30,964,725 for the current year. This decrease is predominately the result of the District financing current year operating expenditures with available fund balances of the General Fund.

Revenues for the District's governmental funds were \$635,603,273 and \$574,566,047, while total expenditures were \$666,567,998 and \$567,380,871 for the fiscal years ended June 30, 2015 and 2014, respectively.

GENERAL FUND

The General Fund is the chief operating fund of the District and includes the primary operations in providing educational services to students from pre-kindergarten through grade 12 including pupil transportation activities and capital outlay projects.

The following schedule presents a comparison of General Fund Revenues.

	Fiscal Year Ended June 30,		Amount of Increase (Decrease)	Percent Change

GENERAL FUND (Continued)

Total General Fund revenues decreased by \$167,701 or less than 1% from the previous year. Local property taxes remained unchanged from the previous year. Overall state and federal aid increased \$3,643,209 or less than 1%, primarily due to an increase in on behalf state contributions into the TPAF pension system. For the District's teaching professionals.

The following schedule presents a comparison of General Fund expenditures:

	Fiscal Year Ended June 30,		Amount of Increase (Decrease)	Percent Change
	<u>2015</u>	<u>2014</u>		
Instruction	\$ 322,892,356	\$ 301,483,451	\$ 21,408,905	7%

Total General Fund Expenditures	<u>\$ 522,740,455</u>	<u>\$ 484,114,345</u>	<u>\$ 38,626,110</u>	8%

The general fund expenditures increased by \$38,626,110 or 8% from 2014.

In fiscal year 2015, General Fund expenditures exceeded revenues by \$34,881,222. In addition, certain Federal Grants funded the individual school based budgets. This transfer of approximately \$6.8 million assisted in offsetting certain expenditures. The total general fund balance decreased by \$30,964,724 to a balance of \$1,332,943. After deducting restricted and assigned fund balances, the unassigned fund deficit at June 30, 2015 was \$35,270,379 an increase in the deficit of \$2,481,663 when compared with the ending unassigned fund deficit of \$32,788,716 at June 30, 2014. Restricted fund balances (capital reserve, maintenance reserve and reserved excess surplus) decreased \$12,203,960 from the previous year to a balance of \$11,168,294 at June 30, 2015. Assigned fund balances (encumbrances and amount designated for subsequent year's budget) decreased \$16,279,101 from the previous year to a balance of \$25,435,028 at June 30, 2015.

General Fund Budgetary Highlights

The District's budget is prepared according to New Jersey Department of Education guidelines, and is based on accounting for certain transactions on the budgetary basis of accounting for revenues, expenditures and encumbrances. The most significant difference between the budgetary basis of accounting and generally accepted accounting principles is the legally mandated revenue recognition of certain delayed or deferred state aid payments for budgetary purposes only. The most significant budgetary fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times through appropriation transfers between budget line items and appropriation of additional aid and restricted miscellaneous revenue. Budget amendments were made to adjust budgets for specially funded appropriations and changes in State aid.

General Fund budgetary expenditures and other financing uses exceeded budgetary revenues and other financing sources decreasing budgetary fund balance \$30,514,579 over the previous year. After deducting reserved and assigned fund balances, the unassigned budgetary fund balance decreased \$2,031,518 from \$8,998,325 at June 30, 2014 to \$6,966,807 at June 30, 2015. This unassigned budgetary fund balance is below the maximum level permitted by the State Department of Education at year end.

CAPITAL PROJECTS FUND

The Capital Projects Fund includes all revenue sources for major capital projects of the District.

The New Jersey School Development Authority (SDA) issued bonds to fund a major portion of the District's capital projects. A significant portion of the revenue and offsetting expenditures reported in the fund financial statements were the result of on-behalf transaction representing the capital dollars the SDA spent for school facility improvements on the District's behalf. For the fiscal year ended June 30, 2015, the amount recorded as on-behalf was \$65,292,158 and represented an increase of \$59,038,165 over the previous year.

Construction – Next Five Years

Over the next five years major construction and renovation projects will be completed throughout the District. The Long Range Facilities Plan identifies the needs of school construction in Paterson. The Schools Development Authority (SDA), formerly known as the School Construction Corporation (SCC), was established to provide and fund all major construction and improvement projects for the District. Since the SDA is in place, local school bonds will not be required to be issued to fund the District's capital needs. The debt will be issued through the SDA and funded from the State of New Jersey budget. Complete information relating to this topic is available by reviewing the School District's long range facilities plan on file in the School Business Administrator's office, 90 Delaware Avenue, Paterson, NJ 07505, as approved by the New Jersey State Department of Education.

FACTORS BEARING ON THE DISTRICT'S FUTURE

While many factors influence the District's future student enrollment, the availability of state aid, availability of fund balances, special education needs, capital improvements and the economy will have the most impact on educational and fiscal decisions in the future.

Many of these factors were considered by the District's administration during the process of developing the fiscal year 2015-16 budget. The primary factors were the District's projected student population, anticipated state and federal aid as well as increasing salary and related benefit costs and contributions to charter schools.

These indicators were considered when adopting the budget for fiscal year 2015-2016. Budgeted expenditures in the General Fund decreased 6% to \$477,481,718 for fiscal year 2015-2016. Budgeted expenditures in the Special Revenue Fund increased 1% to \$89,457,689 for fiscal year 2015-2016.

ILLUSTRATIVE RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
WITH THE DISTRICT-WIDE STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

Total net change in fund balances - governmental funds (Exhibit B-2) **\$ (30,964,725)**

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement and allocated over their estimated useful lives as annual depreciation expense. This is the amount by which capital outlay exceeds depreciation in the current period.

Capital Outlays	\$ 69,803,496	
Depreciation Expense	<u>(14,894,572)</u>	
		54,908,924

The issuance of long term debt provides current financial resources to governmental funds, while the repayment of the principal of long term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and other similar items when debt is first issue, whereas these amounts are deferred and amortized in the statement of activities.

Principal Repayment on Lease Purchase (COPS)		1,045,000
Amortization of Original Issue Discount	(3,356)	
Amortization of Deferred Amount on Refunding	<u>(50,492)</u>	
		(53,848)

In the statement of activities certain expenses are measured by the amounts earned or accrued during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (paid):

Decrease in Accrued Interest	12,829	
Increase in Pension Expenses	(1,262,325)	
Decrease in Compensated Absences	<u>1,425,408</u>	
		<u>175,912</u>

NOTES TO THE FINANCIAL STATEMENTS

**PATERSON PUBLIC SCHOOLS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Paterson Public Schools (the "Board" or the "District") is an instrumentality of the State of New Jersey, established to function as an education institution. The Board consists of nine elected officials. On August 7, 1991, pursuant to the order of the Department of Education, State of New Jersey, the Paterson Board of Education was dissolved and a state-operated school district was created (N.J.S.A. 18A:7A-34). A State Superintendent of Schools was appointed to assume all powers and duties of the former Board of Education members. The state-appointed Superintendent is responsible for the fiscal and administrative control of the District. Under existing statutes, the State District Superintendent's duties and powers include, but are not limited to, the development and adoption of a school program; the establishment, organization and operation of schools; and the acquisition, maintenance and disposition of school property. Effective July 13, 1995, an elected Board of Trustees was restored with the ability to vote on certain school matters. On September 26, 2005, the New Jersey Quality Single Accountability Continuum (NJQSAC) was enacted which repealed the section of the statute that gave voting authority to the Board. As a result, the Board of Education currently operates in an advisory capacity only.

On June 4, 2014 the New Jersey State Board of Education approved a transition plan to return the function of operations to local control. The New Jersey Department of Education, under the direction of the Commissioner of Education, is working with the District to develop a plan to transition control of operations back to the Board of Education.

The State District Superintendent also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls.

The School Board operates as a State Operated School District in accordance with NJSA 18A:7A-34. Under this statute, school bonds, loans, etc. are authorized by the Capital Projects Control Board as proposed by the State District Superintendent. The School Board is also responsible for the certification to the State District Superintendent and Commissioner of Education of the necessity for the Capital Project. The debt issued under the above statutes is funded by the New Jersey Schools Development Authority and is included in the State of New Jersey Annual Budget. Prior to the State takeover, the District operated as a Type I district (NJSA 18A:24-11) whereby the governing body of the City of Paterson ("City") authorized and issued school bonds.

The reporting entity is composed of the primary government, component units, and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the Paterson Public Schools this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based on the foregoing criteria, the District has no component units. Furthermore, the District is not includable in any other reporting entity as a component unit.

B. New Accounting Standards

During fiscal year 2015, the District adopted the following GASB statements:

PATERSON PUBLIC SCHOOLS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. New Accounting Standards (Continued)

- GASB 68, *Accounting and Financial Reporting for Pensions*. The objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria.
- GASB 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*, should be applied simultaneously with the provisions of Statement No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

Other accounting standards that the District is currently reviewing for applicability and potential impact on the financial statements include:

- GASB 72, *Fair Value Measurement and Application*, will be effective beginning with the fiscal year ending June 30, 2016. This Statement addresses accounting and financial reporting issues related to fair value measurements. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.
- GASB 73, *Accounting and Financial Reporting for Pensions and Related Assets that Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*, will be effective beginning with the fiscal year ending June 30, 2017. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability.
- GASB 74, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans*, will be effective beginning with the fiscal year ending June 30, 2017. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability.
- GASB 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, will be effective beginning with the fiscal year ending June 30, 2018. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities.
- GASB 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, will be effective beginning with the fiscal year ending June 30, 2016. The objective of this Statement is to identify – in the context of the current governmental financial reporting environment – the hierarchy of generally accepted accounting principles (GAAP). The “GAAP hierarchy” consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation - Financial Statements

The financial statements include both district-wide financial statements (based on the District as a whole) and fund financial statements (based on specific District activities or objectives). Both the district-wide and fund financial statements categorize activities as either governmental activities or business-type activities. While separate district-wide and fund financial statements are presented, they are interrelated. In the district-wide financial statements, the governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the District's enterprise funds. Fiduciary funds are excluded from the district-wide financial statements.

District-Wide Financial Statements

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Board of Education. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. In the statement of net position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) reflect on a full accrual economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or other governmental entities, including other school districts, who purchase, use, or directly benefit from goods or services provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes, unrestricted state aid, federal and state grants for school-based budgeting and other items not properly included among program revenues are reported instead as general revenues.

As a general rule the effect of interfund activity has been eliminated from the district-wide financial statements. Exceptions to this general rule are charges between the Board's proprietary and fiduciary funds since elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements

Separate fund financial statements are provided for governmental, proprietary, and fiduciary activities, even though the latter are excluded from the district-wide financial statements. The emphasis of fund financial statements is on major individual governmental and enterprise funds, each reported as separate columns in the fund financial statements. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. The District considers all of its governmental and enterprise funds to be major funds.

C. Basis of Presentation - Financial Statements (Continued)

Fund Financial Statements (Continued)

The District reports the following major governmental funds:

The *general fund* is the School District's primary operating fund. It accounts for all financial resources of the District, except those to be accounted for in another fund.

The *special revenue fund* accounts for the proceeds of specific revenue sources legally restricted to expenditures for specified purposes. This fund accounts for federal, state and local financial programs, with the exception of grants for major capital projects and the child nutrition programs.

The *capital projects fund* accounts for the proceeds from the sale of bonds, lease purchases and other revenues used for the acquisition or construction of capital facilities and other capital assets, other than those financed by the proprietary funds.

The *debt service fund* accounts for the accumulation of resources that are restricted, committed or assigned for the payment of principal and interest on long-term general obligation debt of governmental funds.

The District reports the following major proprietary fund which is organized to be self-supporting through user charges:

The *food service fund* accounts for the activities of the school cafeteria, which provides food service to students as well as a la carte and catering services for teachers and special events.

Additionally, the government reports the following fund type:

The *fiduciary trust fund* is used to account for resources legally held in trust for the state unemployment insurance claims, for private donations for scholarship awards, payroll related activities and student related activities which are supported and controlled by student organizations and clubs. All resources of the fund, including any earnings on invested resources, may be used to support the intended purpose. There is no requirement that any portion of these resources be preserved as capital.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the district-wide financial statements as "internal balances".

Reclassifications

Certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year's presentation.

D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements with the exception of the agency fund which does not have a measurement focus. All assets, all liabilities and all deferred outflows/inflows of resources associated with these operations (with the exception of the fiduciary funds) are included on the Statement of Net Position. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual (i.e. when they are both measurable and available). Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within 60 days after year-end. Expenditures are recorded when a liability is incurred, as under accrual basis of accounting, with the exception of debt service expenditures as well as expenditures related to compensated absences and claims and judgments which are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, tuition, unrestricted state aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements (formula-type grants and aid) are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Expenditure-driven grants and similar awards (reimbursement-type grants and awards) are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements imposed by the grantor or provider have been met, and the amount is received during the period or within the availability period for this revenue source. All other revenue items are considered to be measurable and available only when cash is received by the District.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash, Cash Equivalents and Investments

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are reported at fair value and are limited by N.J.S.A. 18A:20-37.

2. Receivables

All receivables are reported at their gross value, and where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

3. *Inventories*

The cost of inventories of the governmental fund types are recorded as expenditures at the time individual inventory items are purchased.

Food Service Fund inventories, exclusive of the federal commodities, are valued at cost, using the first-in first-out (FIFO) method and consist of food and expendable supplies. The cost of such inventories is recorded as expenses when consumed rather than when purchased. The United States Department of Agriculture (USDA) commodity portion of the Food Service Fund inventory consists of food donated by the USDA. It is valued at estimated market prices by the USDA. The amount of unused commodities at year-end is reported as deferred inflows of resources.

4. *Capital Assets*

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the district-wide financial statements. Capital assets are defined by the Board as assets with an initial, individual cost of \$2,000 and an estimated useful life in excess of two years. The District was able to estimate the historical cost for the initial reporting of these capital assets through back trending. As the District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Land and construction in progress are not depreciated. The other property, plant, and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building and Facility Improvements	15
Vehicles	10
Office Equipment and Furniture	5-10
Computer Equipment	5

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

5. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has two items which arise only under the accrual basis of accounting that qualify for reporting in this category. One item is the deferred amounts on refunding of debt which results from the loss on a debt refunding reported in the district-wide statement of net position. Deferred amounts on debt refunding result from the loss on the transaction when the debt's reacquisition price is greater than the carrying value of the refunded debt. These amounts are deferred and amortized over the shorter of the life of the refunded or refunding debt. The other item that qualifies for reporting in this category is the deferred amounts on net pension liability. Deferred amounts on net pension liability are reported in the district-wide statement of net position and result from: (1) differences between expected and actual experience; (2) changes in assumptions; (3) net difference between projected and actual investment earnings on pension plan investments; (4) changes in proportion and differences between employer contributions and proportionate share of contributions; and (5) contributions made subsequent to the measurement date. These amounts are deferred and amortized over future years.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The government has two types of items, which arise only under the accrual basis of accounting that qualify for reporting in this category. One item that qualifies for reporting in this category is the deferred amounts on net pension liability. Deferred amounts on net pension liability are reported in the district-wide statement of net position and result from: (1) differences between expected and actual experience; (2) changes in assumptions; (3) net difference between projected and actual investment earnings on pension plan investments; and (4) changes in proportion and differences between employer contributions and proportionate share of contributions. These amounts are deferred and amortized over future years. The other item that qualifies for reporting in this category is the deferred commodities revenue, reported in both the district-wide and the proprietary funds statements of net position. The deferred commodities revenue represents the estimated market value of the donated and unused Federal commodities at year end. This amount is deferred and recognized as an inflow of resources in the period the commodities are consumed.

6. Compensated Absences

It is the District's policy to permit employees to accumulate (with certain restrictions) earned but unused vacation and sick leave benefits. A long-term liability of accumulated vacation and sick leave and salary related payments has been recorded in the governmental activities in the district-wide financial statements, representing the Board's commitment to fund such costs from future operations. Proprietary Funds accrue accumulated vacation and sick leave and salary related payments in the period that they are earned. A liability is reported in the governmental funds only to the amount actually due at year end as a result of employee resignations and retirements.

7. Pensions

In the district-wide financial statements, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the retirement systems sponsored and administered by the State of New Jersey and additions to/deductions from these retirement systems' fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

7. Pensions (Continued)

In the governmental fund financial statements, net pension liabilities represent amounts normally expected to be liquidated with expendable available financial resources for required pension contributions that are due and payable at year end. Pension expenditures are recognized based on contractual pension contributions that are required to be made to the pension plan during the fiscal year.

8. Long-Term Obligations

In the district-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Losses resulting from debt refundings are classified as deferred outflows of resources. Debt discounts are deferred and amortized over the life of the debt using the effective interest method. Losses resulting from debt refundings are also deferred and amortized over the life of the refunded debt or new debt whichever is less using the effective interest method. Long-term debt payable is reported net of the applicable debt discount. Debt issuance costs (other than for prepaid insurance) are treated as an expense.

In the fund financial statements, governmental fund types recognize debt discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Net Position/Fund Balance

District-Wide Statements

In the district-wide statements, there are three classes of net position:

- **Net Investment in Capital Assets** – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources attributable to the acquisition, construction or improvement of those assets or related debt also should be included.
- **Restricted Net Position** – reports net position when constraints placed on the residual amount of noncapital assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted Net Position** – any portion of net position not already classified as either net investment in capital assets or net position – restricted is classified as net position – unrestricted.

Governmental Fund Statements

Fund balance categories are designed to make the nature and extent of the constraints placed on the District's fund balance more transparent. These categories are comprised of a hierarchy based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

9. *Net Position/Fund Balance* (Continued)

Governmental Fund Statements (Continued)

Restricted Fund Balance – Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Capital Reserve – This restriction was created by the District in accordance with NJAC 6A:23A-14.1 to fund future capital expenditures (See Note 2d.)

Capital Reserve - Designated for Subsequent Year's Budget – This designation was created to dedicate the portion of capital reserve fund balance appropriated in the adopted 2015/2016 District budget certified for taxes.

Emergency Reserve – This restriction was created in accordance with NJAC 6A:23A-14.4(A)1 to accumulate funds in accordance with State statute to finance unanticipated general fund expenditures required for a thorough and efficient education.

Excess Surplus – Designated for Subsequent Year's Expenditures - This restriction was created in accordance with NJSA 18A:7F-7 to represent the June 30, 2014 audited excess surplus that was appropriated in the 2015/2016 original budget certified for taxes.

Debt Service – Represents fund balance restricted specifically for the repayment of long-term debt principal and interest in the Debt Service Fund.

Assigned Fund Balance – Amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Year-End Encumbrances – Represent outstanding purchase orders for goods or services approved by management for specific purposes from available resources of the current year for which the goods and materials have not yet been received or the services have not yet been rendered at June 30.

Designated for Subsequent Year's Expenditures – This designation was created to dedicate the portion of fund balance appropriated in the adopted 2015/2016 District budget certified for taxes.

Unassigned Fund Balance – Represents fund balance that has not been restricted, committed or assigned to specific purposes within the governmental funds.

F. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues in the district-wide statement of activities include 1) charges to customers or applicants for goods or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, unrestricted state aid, federal and state grants for school-based budgeting investment earnings and miscellaneous revenues.

2. Property Taxes

Property taxes are levied pursuant to law and are collected by the municipality and are transferred to the District as requested. Property tax revenues are recognized in the year they are levied and become available. Property taxes collected in advance of the year-end for which they are levied and transferred to the District are reported as deferred inflows of resources. The tax bills are mailed annually in June by the municipal tax collector and are levied and due in four quarterly installments on August 1, November 1, February 1 and May 1 of the fiscal year. When unpaid, taxes or any other municipal lien, or part thereof, on real property, remains in arrears on April 1st in the year following the calendar year levy when the same became in arrears, the tax collector of the municipality shall, subject to the provisions of New Jersey Statute, enforce the lien by placing the property on a tax sale. The municipality may institute annual "in rem" tax foreclosure proceedings to enforce the tax collection or acquisition of title to the property.

3. Tuition Revenues and Expenditures

Tuition Revenues - Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs are determined and certified by the State Department of Education.

Tuition Expenditures - Tuition charges for the fiscal years 2013-2014 and 2014-2015 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been certified by the State Department of Education.

4. Proprietary Funds, Operating and Non-Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Federal and State subsidies for the food service operation are considered nonoperating revenues.

 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

In accordance with the requirements of the New Jersey Department of Education (“the Department”), the District annually prepares its operating budget for the forthcoming year. The budget, except for the general fund and special revenue fund, which is more fully explained below and in the notes to the required supplementary information, is prepared in accordance with accounting principles generally accepted in the United States of America and serves as a formal plan for expenditures and the proposed means for financing them. Capital lease transactions are accounted for on the GAAP basis.

The annual budget is reviewed by the Board and approved by the State District Superintendent in the spring of the preceding year for the general, special revenue and debt service funds. The District is not required to adopt an annual budget for the capital projects fund. The budget is submitted to the State Commissioner of Education and County Superintendent for their review and approval. Budget adoptions and amendments are recorded in the District's board minutes. The budget is amended by the State District Superintendent as needed throughout the year. The budget for revenues, other resources, other uses, and fund balances is prepared by fund source and amount. The budget for expenditures is prepared by fund, program, function, object and amount. The legal level of budgetary control is established at the line item account within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. The District approved several budget transfers during 2014/2015. Also, during 2014/2015 the District increased the original budget by \$8,768,113. The increase was funded by additional restricted miscellaneous revenue, grant awards and the reappropriation of prior year general fund encumbrances.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described in the Notes to Required Supplementary Information (RSI). Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

Encumbrance accounting is employed in the governmental funds. Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as committed and/or assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services which are reappropriated and honored during the subsequent fiscal year.

B. Excess Expenditures Over Appropriations

The following is a summary of expenditures in excess of available appropriations. The overexpended appropriations resulted in unfavorable variances.

	<u>Final Budget</u>	<u>Actual</u>	<u>Unfavorable Variance</u>
General Fund			
Undistributed Expenditures			
Student Transportation Services			
Contracted Services-Regular-ESC's	\$3,729,069	\$5,297,179	\$1,568,110
Contracted Services-Special Ed.-ESC's	1,795,099	3,216,165	1,421,066

The above variances were offset with other available resources.

 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

C. Deficit Fund Equity

The District has an unassigned fund deficit of \$35,270,379 in the General Fund as of June 30, 2015 as reported in the fund financial statements (modified accrual basis). NJSA 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record these delayed state aid payments as revenue, for budget purposes only, in the current school budget year. The statute provides legal authority for school districts to recognize this revenue in the current budget year. GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions", requires that intergovernmental transactions (revenue, expenditure, asset, liability) should be recognized in symmetry (i.e., if one government recognizes an asset, the other government recognizes a liability). Since the State of New Jersey is recording certain 2014/2015 budgeted state aid payments in the subsequent fiscal year, the school district cannot recognize such payments on the GAAP (fund) financial statements until the year the State records the payable. Due to the timing difference of recording these delayed state aid payments, the General Fund deficit does not alone indicate that the District is facing financial difficulties; however, unless the State of New Jersey budgets the delayed payments in future years, the District may also report fund deficits in the future.

Pursuant to NJSA 18A:22-44.2, any negative unreserved, undesignated (i.e., unassigned) general fund balance that is reported as a direct result of a delay in the payment of state aid until the following fiscal year, is not considered as a violation of New Jersey Statute or regulation and is not considered an item in need of corrective action. The District deficit in the GAAP (fund) financial statements of \$35,270,379 in the General Fund is less than the delayed state aid payments.

D. Capital Reserve

A capital reserve account was established by the District. The accumulation of funds will be used for capital outlay expenditures in subsequent fiscal years. The capital reserve is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-14.1(g), the balance in the reserve cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the fiscal year ended June 30, 2015 is as follows:

Balance, July 1, 2014	<u>\$ 8,000,000</u>
Balance, June 30, 2015	<u><u>\$ 8,000,000</u></u>

At June 30, 2015, \$4,818,000 of the capital reserve balance was designated and appropriated in the 2015/2016 original budget certified for taxes.

**PATERSON PUBLIC SCHOOLS
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

E. Emergency Reserve

An emergency reserve account was established by the District. The accumulation of funds will be used to finance unanticipated General Fund current expenditures required for a thorough and efficient education in subsequent fiscal years.

Funds placed in the emergency reserve are restricted to finance reasonably unforeseeable costs and shall not include additional costs due to poor planning. A District may appropriate funds into the emergency reserve in the annual General Fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts or both. Withdrawals from the reserve require the approval of the Commissioner unless the withdrawal is necessary to meet an increase in total health care costs in excess of four percent. Pursuant to NJAC 6A:23A-14.4(A), the balance in the reserve cannot at any time exceed the greater of \$250,000 or one percent of the school district's General Fund budget as certified for taxes up to a maximum of \$1,000,000.

The activity of the emergency reserve for the fiscal year ended June 30, 2015 is as follows:

Balance, July 1, 2014	<u>\$ 1,000,000</u>
Balance, June 30, 2015	<u>\$ 1,000,000</u>

F. Maintenance Reserve

A maintenance reserve account was established by the District. The accumulation of funds will be used for required maintenance of school facilities expenditures in subsequent fiscal years. The maintenance reserve is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the maintenance reserve are restricted to required maintenance activities for a school facility as reported in the comprehensive maintenance plan. A District may appropriate funds into the maintenance reserve in the annual General Fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts or both. Pursuant to N.J.A.C. 6A:23A-14.2(g), the balance in the reserve cannot at any time exceed four percent of the replacement cost of the school district's school facilities for the current year.

The activity of the maintenance reserve for the fiscal year ended June 30, 2015 is as follows:

Balance, July 1, 2014	\$ 6,490,858
Withdrawals	
Approved in District Budget	<u>(6,490,858)</u>
Balance, June 30, 2015	<u>\$ -</u>

G. Calculation of Excess Surplus

In accordance with N.J.S.A. 18A:7F-7, as amended, the restricted fund balance for Reserved Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance in excess of 2% of budget expenditures at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year's budget. The excess fund balance at June 30, 2015 is \$2,168,294. This amount was designated and appropriated in the 2015/2016 original budget certified for taxes.

NOTE 3 DETAILED NOTES ON ALL FUNDS

A. Cash Deposits and Investments

Cash Deposits

The Board's deposits are insured through either the Federal Deposit Insurance Corporation (FDIC), Securities Investor Protection Corporation (SIPC) or New Jersey's Governmental Unit Deposit Protection Act (GUDPA). The Board is required to deposit their funds in a depository which is protecting such funds pursuant to GUDPA. The New Jersey Governmental Unit Deposit Protection Act requires all banks doing business in the State of New Jersey to pledge collateral equal to at least 5% of the average amount of its public deposits and 100% of the average amount of its public funds in excess of the lesser of 75% of its capital funds or \$200 million for all deposits not covered by the FDIC.

Bank balances are insured up to \$250,000 in the aggregate by the FDIC for each bank. SIPC replaces cash claims up to a maximum of \$250,000 for each failed brokerage firm. At June 30, 2015, the book value of the Board's deposits were \$43,873,828 and bank and brokerage firm balances of the Board's deposits amounted to \$62,586,430. The Board's deposits which are displayed on the various fund balance sheets as "cash and cash equivalents" are categorized as:

NOTE 4 OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to property, general liability, automobile coverage, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; student accident; termination of employees and natural disasters. The District has obtained commercial insurance coverage to guard against these events to minimize the exposure to the District should they occur. A complete schedule of insurance coverage can be found in the statistical section of this Comprehensive Annual Financial Report.

The District has established a worker's compensation plan for its employees. Transactions related to the plan are accounted for in the General Fund. The District funds the entire cost of the plan. Claims are paid directly by the plan up to a maximum of \$350,000 for any one accident or occurrence, with any excess benefit being reimbursed through a Re-Insurance Agreement with Employees Reinsurance Corporation. A contingent liability exists with respect to reinsurance, which would become an actual liability in the event the reinsuring company may not be able to meet their obligations to the District under existing reinsurance agreements.

Estimates of claims payable and of claims incurred, but not reported (IBNR) at June 30, 2015, are reported as claims and judgments payable and accrued liability for insurance claims, respectively. These estimates were determined based on claim information supplied by the claims administrator and actuary. The unpaid claims liability of \$3,345,855 reported at June 30, 2015 is based on the requirements of the Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

NOTE 4 OTHER INFORMATION (Continued)

A. Risk Management (Continued)

Changes in the balances of claims liabilities for the workmen’s compensation plan for the fiscal years ended June 30, 2015 and 2014 are as follows:

Governmental Activities:	<u>Fiscal Year Ended</u>	
	<u>June 30, 2015</u>	<u>June 30, 2014</u>
Unpaid Claims, Beginning of Year	\$ 3,433,545	\$ 4,208,650
Incurred Claims (Including IBNR)	1,840,890	1,451,065
Claim Payments	<u>(1,928,580)</u>	<u>(2,226,170)</u>
Unpaid Claims, End of Year	<u>\$ 3,345,855</u>	<u>\$ 3,433,545</u>

There has been no significant reduction in insurance coverage from the previous year nor have there been any settlements in excess of insurance coverage’s in any of the prior three years.

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the “Benefit Reimbursement Method”. Under this plan the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District’s fiduciary trust fund for the current and previous two years:

<u>Fiscal Year Ended</u> <u>June 30,</u>	<u>District</u> <u>Contributions</u>	<u>Employee</u> <u>Contributions</u>	<u>Amount</u> <u>Reimbursed</u>	<u>Ending</u> <u>Balance</u>
2015	None	\$ 763,998	\$ 1,138,784	\$ 5,248,873
2014	\$ 1,000,000	729,006	796,108	5,623,659
2013	1,500,000	674,215	598,821	4,690,761

B. Contingent Liabilities

The District is a party defendant in some lawsuits, none of a kind unusual for a school district of its size and scope of operation. In the opinion of the School District's Attorney the potential claims against the District not covered by insurance policies would not materially affect the financial condition of the District.

Federal and State Awards – The Board participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Board may be required to reimburse the grantor government. As of June 30, 2015, significant amounts of grant expenditures have not been audited by the various grantor agencies but the Board believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the District.

NOTE 4 OTHER INFORMATION (Continued)

C. Federal Arbitrage Regulations

The District is subject to Section 148 of the Internal Revenue Code as it pertains to the arbitrage rebate on all tax-exempt obligations, both long and short-term debt. Under the 1986 Tax Reform Act, the Internal Revenue Service (IRS) required that all excess earnings from investment proceeds be rebated to the IRS. Arbitrage, for purposes of these regulations, is defined as the difference between the yield on the investment and the yield on the obligations issued. If there are excess earnings, this amount may be required to be rebated to the IRS. At June 30, 2015, the District had no estimated arbitrage earnings due to the IRS.

D. Employee Retirement Systems and Pension Plans

The State of New Jersey sponsors and administers the following contributory defined benefit public employee retirement systems (retirement systems) covering substantially all eligible Board employees:

Public Employees' Retirement System (PERS) – Established in January 1955, under the provisions of N.J.S.A. 43:15A to provide coverage, including post-retirement health care, to substantially all full time employees of the State or any county, municipality, school district, or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for post-retirement health care coverage. PERS is a cost sharing multi-employer defined benefit pension plan.

Teachers' Pension and Annuity Fund (TPAF) – Established in January 1955, under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time certified teachers or professional staff of the public school systems in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for post-retirement health care coverage. TPAF is a cost sharing plan with special funding situations.

The State of New Jersey sponsors and administers the following defined contribution public employee retirement program covering certain state and local government employees which include those Board employees who are eligible for pension coverage.

Defined Contribution Retirement Program (DCRP) – established under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2008 to provide coverage to elected, certain appointed officials, and certain Board employees not eligible for enrollment in PERS or TPAF. Effective July 1, 2007 membership is mandatory for such individuals with vesting occurring after one (1) year of membership. DCRP is a defined contribution pension plan.

Other Pension Funds

The State established and administers a Supplemental Annuity Collective Trust Fund (SACT) which is available to active members of the State-administered retirement systems to purchase annuities to supplement the guaranteed benefits provided by their retirement system. The state or local government employers do not appropriate funds to SACT.

The cost of living increase for PERS and TPAF, are funded directly by each of the respective systems but are currently suspended as a result of reform legislation.

According to state law, all obligations of each retirement system will be assumed by the State of New Jersey should any retirement system be terminated.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems. The financial reports may be accessed via the New Jersey, Division of Pensions and Benefits, website at www.state.nj.us/treasury/pensions.

NOTE 4 OTHER INFORMATION (Continued)

D. Employee Retirement Systems and Pension Plans (Continued)

Basis of Accounting

The financial statements of the retirement systems are prepared on the accrual basis of accounting. Employer contributions are recognized when payable to the retirement systems. Benefits or refunds are recognized when due and payable in accordance with the terms of the retirement systems.

Investment Valuation

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair values.

The State of New Jersey, Department of the Treasury, Division of Investment, issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund. The financial reports may be obtained in writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290 or at www.state.nj/treasury/doinvest.

Funding Status and Funding Progress

As of July 1, 2013, the most recent actuarial valuation date, the aggregate funded ratio for all the State administered retirement systems including TPAF and PERS, is 62.8 percent with an unfunded actuarial accrued liability of \$51.0 billion. The aggregate funded ratio and unfunded accrued liability for the State-funded systems is 54.2 percent and \$37.3 billion, and the aggregate funded ratio and unfunded accrued liability for local PERS and Police and Firemen's Retirement System ("PFRS") is 75.4 percent and \$13.7 billion, respectively.

The funded status and funding progress of the retirement systems is based on actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the retirement systems in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at that point in time. The projection of benefits for financing reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and members in the future.

Actuarial Methods and Assumptions

In the July 1, 2013 actuarial valuation, the projected unit credit was used as the actuarial cost method, and the five year average of market value was used as the asset valuation method for the retirement systems. The actuarial assumptions included (a) an investment rate of return for the retirement systems of 7.90 percent and (b) projected salary increases of 4.24 percent for the PERS and 3.33 percent for TPAF.

D. Employee Retirement Systems and Pension Plans (Continued)

Employer and Employee Pension Contributions

The contribution policy is set by laws of the State of New Jersey and contributions are required by active members and participating employers. Plan member and employer contributions may be amended by State of New Jersey legislation with the amount of contributions by the State of New Jersey contingent upon the Annual Appropriations Act. As defined, the retirement systems require employee contributions based on 6.9% for PERS, 6.9% for TPAF and 5.50% for DCRP of the employee's annual compensation.

Annual Pension Costs (APC)

Per the requirements of GASB Statement No. 27 *Accounting for Pensions by State and Local Government Employees*, for the fiscal year ended June 30, 2015 for TPAF, which is a cost sharing plan with special funding situations, the annual pension cost differs from the annual required contribution. For PERS, which is a cost sharing multi-employer defined benefit pension plan, the annual pension cost equals contributions made. TPAF employer contributions are made annually by the State of New Jersey to the pension system on behalf of the Board. PERS employer contributions are made annually by the Board to the pension system in accordance with Chapter 114, P.L. 1997. In the DCRP, which is a defined contribution plan, member contributions are matched by a 3% employer contribution.

During the fiscal years ended June 30, 2015, 2014 and 2013 the Board was required to contribute for PERS and DCRP and the State of New Jersey was required to contribute for TPAF for normal cost pension and accrued liability contributions (including non-contributory group life insurance (NCGI)) the following amounts:

Fiscal Year Ended <u>June 30,</u>	<u>PERS</u>	On-behalf <u>TPAF</u>	<u>DCRP</u>
2015	\$ 5,701,280	\$ 10,010,684	\$ 3,456
2014	5,130,575	7,867,867	-
2013	5,851,140	12,286,321	4,154

For fiscal years 2014/2015 and 2012/2013, the state contributed \$10,010,684 and \$12,286,321, respectively for normal cost pension, accrued liability and the NCGI premium. For fiscal year 2013/2014 the State did not contribute to the TPAF for accrued liability but did contribute \$7,867,867 for normal cost pension and NCGI premium.

The PERS contributions are recognized in the governmental fund financial statements (modified accrual basis) as an expenditure. The on-behalf TPAF contributions are recognized in the governmental fund financial statements (modified accrual basis) as both a revenue and expenditure in accordance with GASB No. 24. The DCRP contributions are recognized in the governmental fund financial statements (modified accrual basis) as an expenditure, as well as, the district-wide financial statements (accrual basis) as an expense.

Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$14,579,550 during the fiscal year ended June 30, 2015 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount has been recognized in the district-wide financial statements (accrual basis) and the governmental fund financial statements (modified accrual basis) as a revenue and expense/expenditure in accordance with GASB No. 24.

D. Employee Retirement Systems and Pension Plans (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Public Employees Retirement System (PERS)

At June 30, 2015, the District reported in the statement of net position (accrual basis) a liability of \$129,796,791 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2014 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating governmental entities, actuarially determined. At June 30, 2014, the District's proportionate share was .69326 percent, which was an increase of .01035 percent from its proportionate share measured as of June 30, 2013.

For the fiscal year ended June 30, 2015, the District recognized in the district-wide statement of activities (accrual basis) pension expense of \$6,963,605 for PERS. Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2014 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	6.00%	0.80%

Teachers Pension and Annuity Fund (TPAF)

In accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, the District is not required to recognize a net pension liability for TPAF. The State of New Jersey is the only entity that has a legal obligation to make employer contributions to TPAF on behalf of the District. Accordingly, the District's proportionate share percentage determined under Statement No. 68 is zero percent and the State's proportionate share is 100% for TPAF. Therefore, in addition, the District does not recognize any portion of the TPAF collective deferred outflows of resources and deferred inflows of resources.

For the fiscal year ended June 30, 2015, the District recognized in the district-wide statement of activities (accrual basis) pension expense of \$53,487,703 for TPAF. This amount has been included in the district-wide statement of activities (accrual basis) as a revenue and expense in accordance with GASB No. 24.

At June 30, 2015 the State's proportionate share of the net pension liability attributable to the District is \$994,021,760. The nonemployer allocation percentages are based on the ratio of the State's contributions made as an employer and nonemployer towards the actuarially determined contribution amount adjusted by locations who participated in the State early retirement incentives to total contributions to TPAF during the year ended June 30, 2014.

E. Post-Retirement Medical Benefits

The State of New Jersey sponsors and administers the post-retirement health benefit program plans for school districts. The Plans are classified as either single employer plans or cost sharing multiple employer defined benefit plans depending on the plan the eligible employee is covered under.

As a result of implementing Governmental Accounting Standards Board (GASB) Statement No. 43, *Financial Reporting for Post-employment Benefit Plans Other than Pension Plans* (OPEB), effective for Fiscal Year 2007, the State Health Benefits Program (SHBP), and the Prescription Drug Program (PDP), and Post-Retirement Medical (PRM) of the PERS and TPAF are combined and reported as Pension and Other employee Benefit Trust Funds in the State's Comprehensive Annual Financial Report (CAFR). Specifically, SHBP-State, and the PRM of the PERS are combined and reported as a Health Benefits Program Fund – State classified as a single employer plan. The SHBP-Local, PDP-Local, and the PRM of the TPAF-Local are combined and reported as Health Benefits Program Fund –Local Government classified as a cost-sharing multiple-employer plan in the State's CAFR. The post-retirement benefit programs had a total of 590 state and local participating employers and contributing entities for Fiscal Year 2014.

The State of New Jersey sponsors and administers the following health benefit programs covering certain state and local government employees, including those Board employees and retirees eligible for coverage.

Health Benefits Program Fund (HBPF) – Local Education (including Prescription Drug Program Fund) – The State of New Jersey provides paid coverage to members of the Teachers' Pension and Annuity Fund who retire from a board of education or county college with 25 years of service or on a disability retirement. Under the provisions of P.L. 1992, c.126, the State also provides paid coverage to members of the Public Employees' Retirement System and Alternate Benefits Program who retire from a board of education or county college with 25 years of service or on a disability retirement if the member's employer does not provide this coverage. Certain local participating employers also provide post-retirement medical coverage to their employees. Retirees who are not eligible for state paid health coverage at retirement can continue in the program if their employer participates in this program or if they are participating in the health benefits plan of their former employer and are enrolled in Medicare parts A and B by paying the cost of the insurance for themselves and their covered dependents. Also, education employees are eligible for the PDP coverage after 60 days of employment.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the above Fund. The financial reports may be accessed via the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, website at www.state.nj.us/treasury/pensions.

Basis of Accounting

The financial statements of the health benefit programs are prepared on the accrual basis of accounting. Employer contributions are recognized when payable to the health benefit programs. Benefits or refunds are recognized when due and payable in accordance with the terms of the health benefit programs.

Significant Legislation

P.L. 2011, c.78, effective October 2011, sets new employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to this new legislation's effective date with a minimum contribution required to be at least 1.5% of salary.

Investment Valuation

Investments are reported at fair value. Investments that do not have an established market are reported at estimated fair values.

Funded Status and Funding Progress

As of July 1, 2013, the most recent actuarial valuation date, the State had a \$53.0 billion unfunded actuarial accrued liability for other post-employment benefits (OPEB) which is made up to \$19.7 billion for state active and retired members and \$33.3 billion for education employees and retirees that become the obligation of the State of New Jersey upon retirement.

The funded status and funding progress of the OPEB includes actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the OPEB in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at the point in time. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and members in the future.

Actuarial Methods and Assumptions

In the July 1, 2013, OPEB actuarial valuation, the projected unit credit was used as the actuarial cost method. The actuarial assumptions included an assumed investment rate of return of 4.50 percent.

E. Post-Retirement Medical Benefits (Continued)

Post-Retirement Medical Benefits Contributions

P.L. 1987, c. 384 and P.L. 1990, c.6 required the Teachers' Pension and Annuity Fund (TPAF) and Public Employees' Retirement System (PERS), respectively to fund post-retirement medical benefits for those State employees and education employees who retire after accumulating 25 years of credited service or on a disability retirement. As of June 30, 2014, there were 103,432, retirees receiving post-retirement medical benefits and the State contributed \$1.04 billion on their behalf. The cost of these benefits is funded through contributions by the State and in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$165.8 million toward Chapter 126 benefits for 18,122 eligible retired members in Fiscal Year 2014.

The State sets the contribution rate based on a pay as you go basis and not on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to the State Health Benefits Program Fund for TPAF retirees' post-retirement benefits on behalf of the School District for the fiscal years ended June 30, 2015, 2014 and 2013 were \$15,891,967, \$12,900,343 and \$13,892,726, respectively, which equaled the required contributions for each year. The State's contributions to the State Health Benefits Program Fund for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey.

NOTE 5 RESTATEMENT

On July 1, 2014, the Paterson Public Schools implemented GASB Statement No. 68, "Accounting and Financial Reporting for Pensions. The Paterson Public Schools has determined that the effect of implementing this accounting change on the financial statements previously reported as of and for the fiscal year ended June 30, 2014 was to recognize the District's proportionate share of the Public Employees' Retirement System's (PERS) net pension liability, deferred outflows of resources and deferred inflows of resources with a corresponding reduction in the unrestricted component of net position in the amount of \$130,517,153. The result of this restatement is to reduce total net position of Governmental Activities at June 30, 2014 from \$296,075,415 as originally reported to \$165,558,262 as adjusted for the effects of the change in accounting principle.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION - PART II

**PATERSON PUBLIC SCHOOLS
REQUIRED SUPPLEMENTARY INFORMATION
BUDGETARY COMPARISON SCHEDULE
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration of the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The following presents a reconciliation of the General and Special Revenue Funds from the budgetary basis of accounting as presented in the Budgetary Comparison Schedule - General Fund and Special Revenue Fund to the GAAP basis of accounting as presented in the Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds.

Note:

Beginning with Fiscal Year 2011, the District implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions". The Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. This Statement established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Reclassification of prior year fund balance amounts to comply with Statement No. 54 is not required.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Education
Paterson Public Schools
Paterson, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States and audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Paterson Public Schools as of and for the fiscal year ended June 30, 2015 and the related notes to the financial statements, which collectively comprise the Paterson Public Schools' basic financial statements and have issued our report thereon dated December 11, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Paterson Public Schools' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Paterson Public Schools' internal control. Accordingly, we do not express an opinion on the effectiveness of the Paterson Public Schools' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2015-001 and 2015-002 that we consider to be significant deficiencies in internal control over financial reporting.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Paterson Public Schools' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey and which are described in the accompanying schedule of findings and questioned costs as items 2015-001 and 2015-002.

We also noted certain matters that are not required to be reported under Government Auditing Standards that we reported to management of the Paterson Public Schools in a separate report entitled, "Auditor's Management Report on Administrative Findings – Financial, Compliance and Performance" dated December 11, 2015.

Paterson Public Schools' Responses to Findings

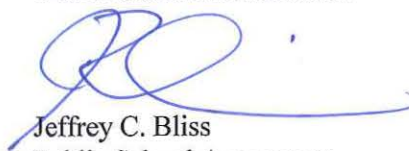

The Paterson Public Schools' responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The Paterson Public Schools' responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Paterson Public Schools' internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Paterson Public Schools' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR’S REPORT

Honorable President and Members
of the Board of Education
Paterson Public Schools
Paterson, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Paterson Public Schools’ compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement and the New Jersey OMB Circular 15-08 State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the Paterson Public Schools’ major federal and state programs for the fiscal year ended June 30, 2015. The Paterson Public Schools’ major federal and state programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor’s Responsibility

Our responsibility is to express an opinion on compliance for each of the Paterson Public Schools’ major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; U.S. OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards and Circulars require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Paterson Public Schools’ compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Paterson Public Schools' compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Paterson Public Schools complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2015.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with U.S. OMB Circular A-133 and New Jersey OMB Circular 15-08 and which is described in the accompanying schedule of findings and questioned costs as item 2015-003. Our opinion on each major federal and state program is not modified with respect to these matters.

The Paterson Public Schools' response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The Paterson Public Schools' response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the Paterson Public Schools is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Paterson Public Schools' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with U.S. OMB Circular A-133 and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Paterson Public Schools' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of U.S. OMB Circular A-133 and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by U.S. OMB Circular A-133 and Schedule of Expenditures of State Financial Assistance Required by New Jersey OMB Circular 15-08

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Paterson Public Schools as of and for the fiscal year ended June 30, 2015 and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements. We issued our report thereon dated December 11, 2015, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards as required by U.S. OMB Circular A-133 and schedule of expenditures of state financial assistance as required by New Jersey OMB Circular 15-08 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and schedule of expenditures of state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

**PATERSON PUBLIC SCHOOLS
NOTES TO THE SCHEDULES OF EXPENDITURES OF
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 1 GENERAL

The accompanying schedules present the activity of all federal and state financial assistance programs of the Paterson Public Schools. The District is defined in Note 1(A) to the District's financial statements. All federal financial assistance received directly from federal agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2 BASIS OF ACCOUNTING

The accompanying schedules are prepared and presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These basis of accounting are described in Notes 1(C) to the Board's financial statements. The information in these schedules is presented in accordance with requirements of U.S. OMB Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations" and New Jersey OMB Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid". Therefore, some amounts presented in these schedules may differ from the amounts presented in, or used in the preparation of, the financial statements.

NOTE 3 RELATIONSHIP TO FINANCIAL STATEMENTS

The financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on a modified accrual basis with the exception of the revenue recognition of the delayed state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2.. For GAAP purposes, those payments are not recognized until the subsequent year due to the state deferral and recording of certain state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, which may include the delayed state aid payments, whereas the GAAP basis does not. The special revenue fund also recognizes the delayed state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is a decrease of \$450,145 for the general fund and a decrease of \$270,613 for the special revenue fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's financial statements on a GAAP basis as presented as follows:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
