"BUILDING A BETTER WORLD ONE STUDENT AT A TIME"

November 27, 2015

Honorable President and Members of the Board of Education Stafford Township School District Ocean County, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Stafford Township School District for the fiscal year ended June 30, 2015, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the district. All disclosures necessary to enable the reader to gain an understanding of the district's financial activities have been included.

The comprehensive annual financial report is presented in four sections: Introductory, Financial, Statistical and Single Audit. The introductory section includes this transmittal letter, the district's organizational chart and a list of principal officials. The financial section includes the management's discussion and analysis, basic financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The district is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations", and the State Treasury Circular Letter 04-04 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments".

Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws, regulations, findings and recommendations, are included in the single audit section of this report.

1.) REPORTING ENTITY AND ITS SERVICES:

The Stafford Township School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA statement No. 3. All funds and account groups of the district are included in this report. The Stafford Township Board of Education and all its schools constitute the district's report entity.

The operating district provides a full range of educational services appropriate to grade levels preschool through sixth. Stafford Township is a member of Southern Regional School District for grade levels 7 through 12. Educational services are provided for regular and special education programs for handicapped youngsters.

Page 2 of 5 Annual Audit Transmittal Letter 2015

2.) ECONOMIC CONDITIONS AND OUTLOOK:

The Stafford Township School District has five schools and a performing arts theater, for its population of students from pre-school through sixth grade. The area continues to recover from the effects of Hurricane Sandy, which occurred on October 29, 2012. The community's economic condition appears to have stabilized from the prior year. New growth and development are occurring.

3.) MAJOR INITIATIVES:

The Stafford Township School District worked toward the goals set by the board of education for the 2014-2015 school year. The budget was cooperatively developed by the staff, administration and board of education.

The district continues to work toward effective differentiation of instruction to provide for the needs of every child. Professional development opportunities for all staff continued and focused to provide for the needs of all students.

Despite the continued lack of state funding, the Stafford Township School District is proud of the achievements it has accomplished in the areas of educational efficiency and effectiveness during the 2014-2015 school year. The hope continues that the state will meet its obligations under the established funding formula.

The AchieveNJ initiative was continued to improve student achievement, the district established a Behavioral Disabilities program in K-2 and enhanced all special education programs. We have made significant progress toward 21st Century Classrooms by providing Google Chrome books for each student in each classroom with full implementation in 2016-2017.

a) Oxycocus Elementary School

For the 2015-16 school year, 189 students attended the Oxycocus School; 79 of these students were preschool disabled students, 72 tuition students and 38 students attending as part of our free fouryear old program. (We are given \$224,000 in preschool aid for those students.) It was a decrease of about 11 students from the year prior year tuition wise. We did see an increase in PSD students from over the past few years. We had to open a PSD class in March of 2015 to help with the increase of students.

b) Ronald L Meinders Primary Learning Center

The Ronald L. Meinders Primary Learning Center houses the youngest students in the Stafford Township School District. Our school motto is "Imagine, Explore & Discover." The overall goal of the school is to provide a student-centered environment that empowers children to realize and develop their own style of learning. We have twelve kindergarten classes, and two self-contained special education classes; with a total of 260 students. Special Area integrated instruction includes: Language Experience, Music Experience, Physical Education Experience, Art Experience, and Social Skills Experience. Additional services offered include: speech therapy, early intervention support, enrichment supports, guidance counseling, and resource center assistance.

Technology is available in each classroom with four student computers and one interactive whiteboard for instruction, as well as a computer lab. Additionally, teacher, school and district web pages serve as effective tools for communicating calendars of events, special projects, and valuable educational information for all.

c) Ocean Acres

The Ocean Acres Elementary School houses our first and second graders with a total enrollment of 585 students. During the 2014-2015 school year, there were 11 first grade classes, 12 second grade classes and 3 special education classes. Special Areas included art, music, library, computer instruction and physical education. Additional services that are offered include guidance lessons

Page 3 of 5 Annual Audit Transmittal Letter 2015

(whole class, small group and individual), resource center, speech services, occupational therapy and physical therapy.

Classroom experiences are authentic, and promote a developmental continuum of literacy, mathematics, science, social studies, creative arts, socialization, and fine/gross/sensory motor skills. Small group instruction and intervention is available to students as needed during the school day. The building also utilizes a building-based behavior management model providing students with clear and consistent expectations for behaviors throughout the entire school day.

d) McKinley Avenue School

The McKinley Avenue staff continued to provide detailed instruction to our third and fourth grade students. Both staff and students had a very successful year.

e) Stafford Intermediate School

The Stafford Intermediate School provides a unique and challenging learning experience for all of our fifth and sixth graders. Our highly qualified teachers differentiate their instruction so each student can maximize their learning potential through a variety of methods and materials. Lessons are creative, student-centered, and extended by our 1:1 technology. Our school community is highly motivated to provide enriching opportunities utilizing current research and practices. Each child truly has an individualized learning experience at the Intermediate School. Our committed staff provides students the opportunity to further their skills and knowledge through our afterschool enrichment program in both the arts and academic areas.

The Stafford Intermediate School focuses on educating the whole child. In order to achieve this goal we provide a multitude of programs for our students. The students of the Intermediate School are granted the opportunity to participate in vocal and instrumental music, computers, art, drama and media. This is accomplished in addition to the students continuing in our health and physical education classes.

Our school family at Intermediate includes parents/guardians and community members. There are ample opportunities for parents and community members to visit and/or volunteer in our school. Some of these programs include: Back to School Night, Parent Advisory Committee, American Education Week, Career Day, DARE Day, Project Aware and Parent Teacher Conferences. Our Home/School Liaison works together with parents, teachers, and administrators to offer informative workshops throughout the school year that will benefit our students. Additionally, our PTO sponsors many activities throughout the school year that helps us to provide opportunities to our students to complement their educational program.

The Intermediate School constantly seeks to provide the best educational program for all students. We are committed to lifelong learning for staff and students alike!

f) Stafford Township Art Center (STAC)

The Stafford Township Arts Center continues to be used by Stafford students and outside rentals of the facility. The goal is to operate this facility without a loss. That goal was obtained this year, a profit was made. The Community School Manager continues to work diligently to maximize the use and increase the potential income possibilities of the facility. Maintenance of the facility is continuous, this year all of the stage curtains were cleaned and treated with flame retardant. Through a donation from Southern Regional School District, a Steinway piano is now a fixture in STAC. Upgrades made to the facility this year through donations from Producers include all new aisle lighting throughout the theater, new audio console with digital snake and new wireless microphones.

g) Special Services

For the 2014-15 school year, the district had 445 classified students (PreK to 6th). (Increase of 25 students from previous year.) In addition, 70 students were eligible for services under Speech and Language only. (A decrease of 18 students from the previous year). The behavioral disabilities class

continued at the Ocean Acres School, which helped us keep our students in district. We only had three students start the year out of district. We did have one student move during the school year, so we ended with only having to pay for two students out of district. We continued to have a student in our Preschool Disabilities class that required a full-time nurse. While IDEA was able to pay a majority of the costs, there was still a cost in the local budget that raised our contracted services line item. We have a large number of the 445 classified students needing speech, OT and PT as well. In addition, many 504 and I&RS students receive OT and PT. We were able to use some IDEA money to help with related services to help offset the high cost in this area.

h) Curriculum & Instruction

The Achieve 3000 program was implemented during the 2015-2016 school year for all students in Grades 3-6. Achieve 3000 is an online program which provides differentiated online literacy instruction for each student at his or her Lexile/reading level. The program delivers differentiated reading and writing assignments — using high-quality, non-fiction content based on each student's reading/interest level - and automatically adapts content via ongoing, real-time Lexile assessment.

The Go Math program was implemented during the 2015-2016 school year for all students in Grades K-6. Go Math presents Common-Core aligned materials and resources to help teachers meet the District Curriculum. The program features both hard copy materials as well as online resources for teachers and students.

4.) INTERNAL ACCOUNTING CONTROLS:

Management of the district is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the district are protected from loss, theft or misuse and to ensure that adequate accounting data are complied to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the district also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to evaluation by the district management.

As part of the district's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the district has complied with applicable laws and regulations.

5.) BUDGETARY CONTROL:

Written control procedures have been instituted for the business operations of the district, and are monitored to conform to changing GAAP procedures. The finance committee meets monthly to review financial updates, reports and bills for payment. The district administrative team, which includes the Superintendent of Schools, School Business Administrator, School Principals and District Supervisors meet monthly, to review financial records for each department. The Superintendent of Schools and Business Administrator scrutinize each purchase order prior to processing and meet monthly to review the overall financial state of the district to ensure that a need exists to purchase specific goods and services, and that funds are available to pay for these items.

An encumbrance accounting system continues to be used to record outstanding purchase order commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts re-appropriated are reported as reservations of fund balance as June 30, 2015.

Page 5 of 5 Annual Audit Transmittal Letter 2015

6.) ACCOUNTING SYSTEM AND REPORTS:

The district's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the district is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements".

7.) DEBT ADMINISTRATION:

On June 30, 2015, the district's outstanding debt issues are \$11,144,000 which will be fully retired during school year 2020-2021.

8.) <u>CASH MANAGEMENT:</u>

Public funds used in the operation of the school district deposited in public depositories are protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect governmental units from loss of funds on deposit with failed banking institutions in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey where the funds are secured in accordance with the act.

9.) <u>RISK MANAGEMENT:</u>

The board carries various forms of insurance, including, but not limited to general liability, automobile liability and comprehensive/collision, hazard, student, and theft insurance on property and contents, and fidelity bonds.

10.) OTHER INFORMATION:

Independent Audit - State statues require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Ford, Scott and Associates, L.C.C., CPAs was selected by the Board of Education to perform the 2014-2015 audit.

In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1984 and the related OMB Circular A-133 and state Treasury Circular Letter 04-04 OMB. The auditor's report on the basic financial statements is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

11.) ACKNOWLEDGMENTS:

We would like to express our appreciation to the members of the Stafford Township School Board of Education for their concern, cooperation and support.

Also, this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

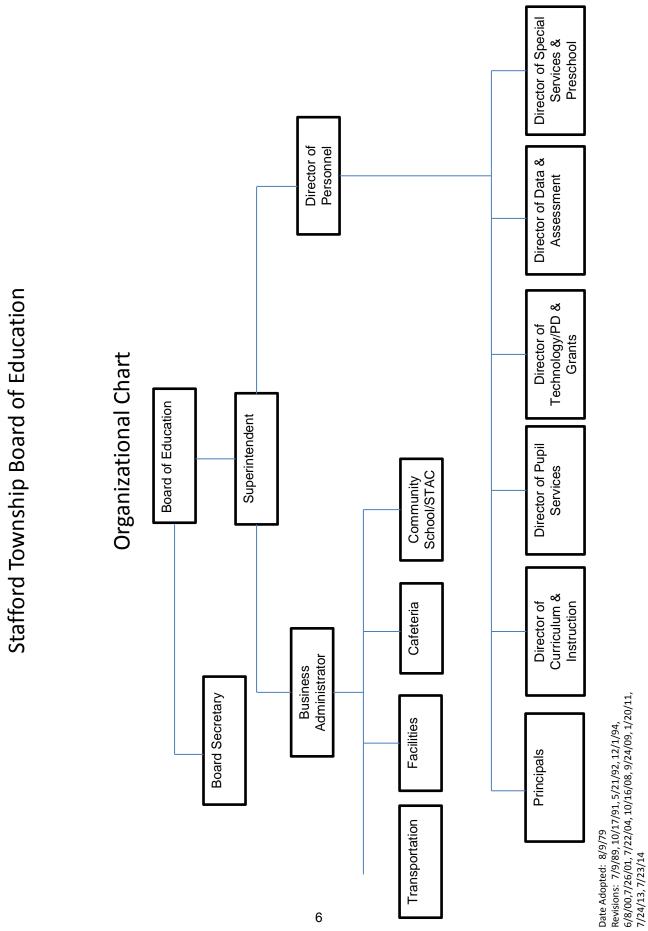

Respectfully submitted,

hid

George Chichac Superintendent of Schools

Independent Auditor's Report

Honorable President and Members of the Board of Education Stafford Township School District County of Ocean, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Stafford Township School District, in the County of Ocean, New Jersey, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Stafford Township School District, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Required Supplementary Information identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Stafford Township School District's basic financial statements. The introductory section, combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* the schedule of state financial assistance as required by NJ OMB 04-04, and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* the schedule of state financial assistance as required by NJ OMB 04-04, and statistical information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* the schedule of state financial assistance as required by NJ OMB 04-04 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 27, 2015 on our consideration of the Stafford Township School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Stafford Township School District's internal control over financial reporting and compliance.

Required Supplementary Information – Part I

The discussion and analysis of Stafford Township School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 - Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments issued in June 1999.

Financial Highlights

Key financial highlights for 2015 are as follows:

- ▶ In total, net position increased \$3,878,084.96, which represents a 72 percent increase from 2014.
- General revenues accounted for \$37,597,699.68 in revenue or 81 percent of all revenues. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$7,706,377.09 or 17 percent of total revenues of \$46,446,620.77.
- ➢ Total assets of governmental activities increased by \$2,353,077.53, as cash and cash equivalents decreased by \$61,519.64 and net capital assets increased by \$2,016,712.55.
- The School District had \$42,680,869.43 in expenses; only \$7,706,377.09 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes and state aid) of \$37,597,699.68 were adequate to provide for these programs.
- Among governmental funds, the General Fund had \$37,967,486.80 in revenues, and \$36,542,266.28 expenditures. The General Fund's fund balance increased \$1,425,220.52 over 2014.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Stafford Township School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School district, presenting both an aggregate view of the School district's finances and a longerterm view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School district's most significant funds with all other non-major funds presented in total in one column. In the case of Stafford Township School District, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District, as a whole looks at all financial transactions and ask the question, "How did we do financially during 2015?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in those assets. This change in net position is important because it tells the reader that, for the school district as a whole, the financial position of the School district have improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- Governmental Activities All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- Business-Type Activity This service is provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The Food Service enterprise fund is reported as a business activity.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District's funds. The School District uses many funds to account for a multitude of financial transaction. The School District's governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School district's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise Fund

Assets

Liabilities

Total Assets

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Net position may serve over time as a useful indicator of a government's financial position.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Governmental Activities

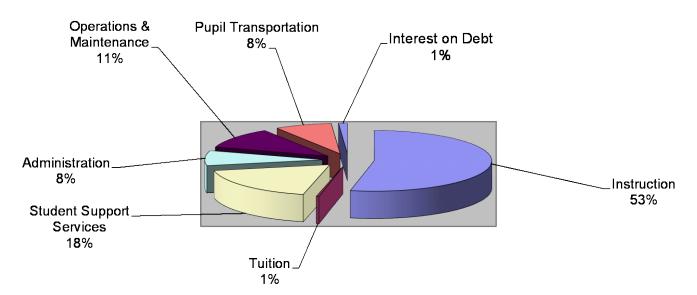

The unique nature of property taxes in New Jersey creates the legal requirements to annually seek voter approval for the School District operations. Property taxes made up 40 percent of revenues for governmental activities for the Stafford Township School District for fiscal year 2015. The District's total revenues were \$46,446,620.77 for the year ended June 30, 2015. Federal, state, and local grants accounted for another 58 percent of revenue.

Sources of Revenue for Fiscal Year 2015

The total cost of all program and services was \$42,680,869.43. Instruction comprises 53 percent of District

Business-Type Activities

Revenues for the District's business-type activities were comprised of charges for services and federal and state reimbursements.

- Business-type revenues exceeded expenses by \$154,668.10.
- Charges for business-type activities represent \$1,582,708.52 of revenue. This represents amounts paid by patrons for services.
- Federal and state reimbursement for meals, including payments for free and reduced lunches and breakfast, and donated commodities was \$378,188.48.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

Capital Outlay		-		(766,680.00)		59,204.00		59,204.00
Total Expenses	\$	42,680,869.43	\$	33,831,948.34	\$	37,848,088.12	\$	36,158,450.23

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Tuition is predominately made up of charges for private schools for disabled students.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration, and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities involve keeping the school grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by State law.

Interest on debt involves the transactions associated with the payment of interest and other related charges to debt of the School District.

"Other" includes special schools.

The School District's Funds

All governmental funds (i.e., general fund, special revenue fund capital projects fund and debt service fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$43,166,255.77 and expenditures were \$43,010,323.57. The net increase in fund balance for the year was \$155,932.20.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the governmental funds for the fiscal year ended June 30, 2014 and the amount and percentage of increases and decreases in relation to prior year revenues.

Revenue		Amount	Percent of Total	Increase (Decrease) from 2014	Percent of Increase (Decrease)
Local Sources	\$	27,800,759.08	64.40%	\$ (173,627.97)	-0.69%
State Sources		14,392,119.90	33.34%	1,292,485.17	10.27%
Federal Sources	_	973,376.79	2.25%	 18,356.75	1.93%
Total	\$	43,166,255.77	100.00%	\$ 1,137,213.95	3.69%

State sources increased by \$1,292,485.17. The increase in local revenue was predominately due to the District receiving an SDA Grant for capital projects.

The following schedule represents a summary of the governmental funds expenditures for the fiscal year ended June 30, 2015, and the percentage of increases and decreases in relation to prior year amounts.

Expenditures	Amount	Percent of Total	Increase (Decrease) from 2014	Percent of Increase (Decrease)
Current expense:				
Instruction	\$ 13,478,212.90	31.34% \$	(460,031.20)	-3.30%
Undistributed expenditures	22,812,765.10	53.04%	490,284.37	2.20%
Capital Outlay	3,882,165.55	9.03%	2,117,857.09	120.04%
Debt Service	2,837,180.02	6.60%	687.50	0.02%
Total	\$ 43,010,323.57	100.00% \$	2,148,797.76	5.26%

The School District's Funds (Continued)

Changes in expenditures were the results of varying factors. Capital Outlay Expenditures usually fluctuate from one year to the next; however, a significant portion of the increase was due to the roof and window replacements at Ocean Acres and HVAC upgrades at the Primary learning Center projects that were started in 2015.

General Fund Budgeting Highlights

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times. Revisions in the budget were made to recognize revenues that were not anticipated and to prevent over-expenditures in specific line item accounts. Several of these revisions bear notation:

Some Salaries were reallocated to or from the lines they were originally budgeted in.

Capital Assets

At the end of the fiscal year 2015, the School District had \$36,763,834.48 invested in land, building, furniture and equipment and vehicles. Table 4 shows fiscal year 2015 balances compared to 2014.

	 2015	 2014
Land	\$ 500,000.00	\$ 500,000.00
Construction in Progress	9,831,011.45	6,583,572.90
Building and Building Improvements	23,988,416.49	25,733,160.49
Machinery and Equipment	2,444,406.54	1,972,894.02
Total	\$ 36,763,834.48	\$ 34,789,627.41

Table 4 Capital Assets (Net of Depreciation) at June 30,

Overall capital assets increased \$1,974,207.07 from fiscal year 2014 to fiscal year 2015. The increase in capital assets is due to new capital purchases and the completion of construction in process in FY14 being greater than depreciation charges. For more detailed information, please refer to the Notes to the Financial Statements.

Debt Administration

At June 30, 2015, the School District had \$17,785,836.26 of outstanding debt. Of this amount, \$3,704,307.11 is for compensated absences, \$11,144,000.00 for serial bonds for school construction and capital leases in the amount of \$2,937,529.15.

Table 5Bonded Outstanding Debt at June 30,

2015	-	2014
2,675,000.00	\$	3,290,000.00
6,010,000.00		6,015,000.00
-		1,390,000.00
2,459,000.00		2,789,000.00
11,144,000.00	\$	13,484,000.00
	2,675,000.00 6,010,000.00 - 2,459,000.00	2,675,000.00 \$ 6,010,000.00 - 2,459,000.00

At December 31, 2015, the School District was within its legal debt margin. For more detailed information, please refer to the Notes to the Financial Statements.

For the Future

The Stafford Township School District is in good financial condition presently. The School District is proud of its community support of the public schools.

In conclusion, the Stafford Township School District has committed itself to financial excellence for many years. In addition, the School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenges of the future.

Contacting the School District's Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional information, contact Dean Allison Interim Business Administrator/Board Secretary at Stafford Township School District, 775 East Bay Avenue, Manahawkin, New Jersey 08050-2895.Please visit our website at www.staffordschools.org.

Basic Financial Statements

DISTRICT – WIDE FINANCIAL STATEMENTS

The statement of net position and the statement of activities display information about the District. These statements include the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business – type activities of the District.

STAFFORD TOWNSHIP SCHOOL DISTRICT Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2015

Total Net Change in Fund Balance - Governmental Funds (from B-2)		\$ 155,932.20
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital outlays are reported in governmental funds as expenditures. However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current fiscal year.		
Depreciation expense Capital Outlay, Net of Deletions	\$ (1,858,204.00) 3,874,916.55	2,016,712.55
Governmental funds report district pension contributions as expenditures. However in the Statement of Activities, the cost of pension benefits earned net of of employee contributions is reported as pension expense.		
District pension contributions - PERS	651,169.00	
Cost of benefits earned net of employee contributions	(741,262.00)	(90,093.00)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long - term liabilities in the statement of net assets and is not reported in the statement of activities.		(,,
Bonds Paid		2,340,000.00
Capital Lease Payments		564,098.41
Proceeds from debt issues are a financing source in the governmental funds. They are not a revenue in the statement of activities; issuing debt increases long - term liabilities in the statement of Net Position.		
Capital lease proceeds		(1,270,980.00)
In the statement of activities, certain operating expenses, e.g., compensated absences (vacations and sick pay) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the		
reconciliation; when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation.		60,098.48
In the statement of activities, interest on long - term debt is accrued, regardless of when due. In the governmental funds, interest is reported when due. The accrued interest is a deduction in the reconciliation.		(17,266.30)
Change in Net Position of Governmental Activities		\$ 3,758,502.34

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (Board) of Stafford Township School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

The financial statements of the Stafford Township School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. <u>Reporting Entity</u>

The District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District. The purpose of the district is to educate students in grades K-6. The District operates three elementary schools and one intermediate school located in Manahawkin. Stafford Township is a member of the Southern Regional School District for Grades 7-12. Southern Regional School District is a separate legal entity from the Stafford Township School District. The Stafford Township School District had an enrollment at June 30, 2015 of 2,203 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB <u>Codification of Governmental Accounting and Financial Reporting Standards</u>, is whether:

- the organization is legally separate (can sue or be sued in their own name);
- the District holds the corporate powers of the organization;
- the District appoints a voting majority of the organization's board;
- the District is able to impose its will on the organization;
- the organization has the potential to impose a financial benefit/burden on the District;
- there is a fiscal dependency by the organization on the District;

B. Basis of Presentation, Measurement Focus and Basis of Accounting

Basis of Presentation

The School District's basic financial statements consist of District-wide statements (i.e. statement of net position and a statement of activities) and fund financial statements, which provide a more detailed level of financial information.

District-Wide Financial Statements: The statement of net position and the statement of activities display information about the district as a whole. These statements report the financial activities of the overall District, except for fiduciary activities. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by property taxes, intergovernmental revenues, and other non-exchange transactions from business-type activities, generally financed in whole or in part with fees charged to external parties.

The statement of net position presents the financial condition of the governmental and business-type activity of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges and fees paid by the recipients of goods or services offered by the programs; and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing, or draws from the general revenues of the School District.

Fund Financial Statements: During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category – governmental, proprietary, and *fiduciary* - are presented. The New Jersey Department of Education ("Department") has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The Department believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

Governmental Funds

The District reports the following governmental funds:

<u>General Fund</u> - The General Fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment, which are classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes budgeted capital outlay in this fund. Generally accepted accounting principles, as they pertain to governmental entities, state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

<u>Special Revenue Fund</u> - The Special Revenue Fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

<u>Capital Projects Fund</u> - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

<u>Debt Service Fund</u> - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Fund Balances – Governmental Funds

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education.

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator.

Unassigned – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned:

The details of the fund balances are included in the Governmental Funds Balance Sheet. When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the District:

<u>Enterprise Funds</u> - Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business operations – where the intent of the District is that the costs of providing goods or services be financed or recovered primarily through user charges.

The District's Enterprise Funds are comprised of the Food Service Fund, which accounts for all revenues and expenses pertaining to the District's cafeteria operations.

{This space intentionally left blank}

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support District programs. The reporting focus is on net position and changes in net position, and is reported using accounting principles similar to proprietary funds.

<u>Trust and Agency Funds</u> - The Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

<u>Expendable Trust Fund</u> - An Expendable Trust Fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent. Expendable Trust Funds include the Unemployment Compensation Insurance Trust.

<u>Nonexpendable Trust Fund</u> - A Nonexpendable Trust Fund is used to account for assets held under the terms of a formal trust agreement, whereby the District is under obligation to maintain the trust principal. Currently, the District does not maintain this type of fund.

<u>Agency Funds</u> - Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations. Agency funds include payroll and student activities funds.

Measurement Focus and Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund and the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year in which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Net position (total assets less total liabilities) is used as a practical measure of economic resources and the operating statement includes all transactions and events that increased or decreased Net position. Depreciation is charged as expense against current operations and accumulated depreciation is reported on the statement of net position.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available is they are collected within 60 days of the end of the fiscal year. Revenue from federal, state and other grants designated for payment of specific school district expenditures is recognized when the related expenditures are incurred; accordingly, when such funds are received, they are recorded as Unearned Revenues until earned. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

The District applies only those applicable pronouncements of the Financial Accounting Standards Board issued on or before November 30, 1989 in accounting and reporting for its proprietary operations.

B. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting, except for special revenue funds. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2.2(g). All budget amendments/transfers must be approved by School Board resolution. All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year.

Appropriations, except remaining project appropriations, encumbrances and unexpended grant appropriations, lapse at the end of each fiscal year. The capital projects fund presents the remaining project appropriations compared to current year expenditures.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports

Significant transfers approved by the Board of Education during the fiscal year were as follows:

Regular Programs - Instruction	\$ 345,991.22
Resource Room/Resource Center	78,719.00
Basic Skills/Remedial Instruction	(162,629.85)
Undistributed Expenditures - Support Serivces - School Admin	70,980.00
Undistributed Expenditures - Required Maint. for School Facilities	227,776.07
Unallocated Benefits	(590,136.39)

Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

D. Encumbrance Accounting

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as Unearned Revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

E. Assets, Liabilities and Equity

Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, bank deposits and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

Investments

Investments, including deferred compensation and pension funds, are stated at fair value, (quoted market price or the best available estimate). Interest earned on investments in the Capital Projects Fund is recognized as a reserve to pay future debt service or transferred to the general fund.

Interfund Transactions

Transfers between governmental and business-type activities on the District-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the Enterprise Fund. Repayments from funds responsible for particular expenditure/expenses to the funds that initially paid for them are not presented on the financial statements.

Inventories

Inventories, other than those recorded in the enterprise fund, are recorded as expenditures during the year of purchase. Inventories in the Enterprise Fund are recorded at cost, computed on a first-in, first out method. In the fund based financial statements, commodities received from the U.S. Department of Agriculture are recorded as unearned revenue until consumed.

Capital Assets

The District has established a formal system of accounting for its capital assets. Purchased or constructed capital assets are reported at cost. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. The capitalization threshold used by school districts in the State of New Jersey is \$2,000.

All reported capital assets except for land and construction in progress are depreciated. Depreciation is computed using the straight-line method over their estimated useful lives. Useful lives vary from 20 to 50 years for land improvements and buildings, and 5 to 20 years for equipment.

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

Compensated Absences

The District accounts for compensated absences (e.g., unused sick, vacation leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policies. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for compensated absences was accrued using the termination payment method, whereby the liability is calculated based on the amount of sick leave that is expected to become eligible for payment upon termination. The District estimates its accrued compensated absences liability based on the accumulated sick and vacation days at the balance sheet date by those employees who are currently eligible to receive termination payments.

For the district-wide Statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, for the governmental funds, in the Fund Financial Statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and District-wide presentations.

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received in the Special Revenue Fund before they have been earned are recorded as unearned revenue.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the District-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets.

Net position is reported as restricted when there are limitations imposed on their use, either through the enabling legislation adopted by the School District, or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

{This space intentionally left blank}

Fund Balance

The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

- Nonspendable The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.
- Restricted The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.
- Committed The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision-making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.
- Assigned The assigned fund balance classification includes amounts that are constrained by the School District's intent to be used for specific purposes, but are neither restricted nor committed.
- Unassigned The unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, it is the policy of the School District to spend restricted fund balances first. Moreover, when an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order: committed, assigned, then unassigned.

Revenues – Exchange and Nonexchange Transactions

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year, or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the period in which the income is earned. Revenue from grants, entitlement, and donations is recognized in the period in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes as an advance, interest and tuition.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the School District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the direct expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

Tuition Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined. The final cost is based on an agreement with the sending districts with a negotiated amount up to the final cost as determined by State of New Jersey.

Tuition Payable

Tuition charges for the fiscal years 2014/15 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

F. <u>Recent Accounting Pronouncements Not Yet Effective</u>

In February 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 72, "Fair Value Measurement and Application". This statement is effective for fiscal periods beginning after June 15, 2015, will not have any effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 73, "Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68". This statement is effective for fiscal periods beginning after June 30, 2016, will not have any effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 74, "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans". This statement is effective for fiscal periods beginning after June 30, 2016, establishes new accounting and financial reporting requirements for OPEB plans. It is anticipated that this statement will not have any effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". This statement is effective for fiscal periods beginning after June 30, 2017. Although not determinable, the impact of this statement on the net position of the entity is anticipated to be significant.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments". This statement is effective for fiscal periods beginning after June 30, 2015, will not have any effect on the District's financial reporting.

NOTE 2 – CONTINGENT LIABILITIES

Federal and State Grants

The District participates in a number of federal and state grant programs. The grant programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance would result in the disallowance of program expenditures.

{This space intentionally left blank}

NOTE 3 – CASH AND CASH EQUIVALENTS AND INVESTMENTS

GASB Statement No. 3 amended by Statement No. 40 requires disclosure of the level of custodial credit risk assumed by the District in its cash, cash equivalents and investments.

The cash deposits not covered by depository insurance held at financial institutions are categorized as follows:

- a. Deposits are uncollateralized.
- b. Deposits are collateralized with securities held by the pledging financial institution.
- c. Deposits collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name.

At June 30, 2015, the carrying amount of the District's deposits (cash and cash equivalents) was \$4,123,745.30 and the bank balance was \$4,621,654.91.

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The State of New Jersey has certain collateral requirements for governmental units. These requirements are disclosed in detail as part of Note 1E.

As of June 30, 2015, the District's bank balance was exposed to custodial credit risk as follows:

	Cash and Cash Equivalents
Insured	\$ 250,000.00
Uninsured and collateral held by pledging bank's trust department not in the District's name	4,032,241.56
Uninsured	339,413.35
	\$ 4,621,654.91

Bank balances of cash amounted to \$4,621,654.91 as of June 30, 2015 of which \$250,000.00 was FDIC insured. Bank balances in excess of the insured amounts that are collateralized in accordance with the Governmental Deposit Protection Act (GUDPA) adopted by the State of New Jersey were \$4,032,241.56, as of June 30, 2015, \$339,413.35 was uninsured and uncollateralized.

Investments

The District did not have any investments at June 30, 2015.

NOTE 4 – RECEIVABLES

Receivables at June 30, 2015, consisted of accounts (tuition), interfund and intergovernmental. All receivables are considered collectible in full. A summary of the principal items of intergovernmental receivables follows:

	-	Governmental Fund Financial Statements	 Government Wide Financial Statements
State and Federal Aid Tuition and Transportation Other	\$	788,382.69 18,676.26 880.00	\$ 824,765.00 18,676.26 2,882.00
Gross Receivables Less: Allowance for Uncollectibles	-	807,938.95	 846,323.26
Total Receivables, Net	\$	807,938.95	\$ 846,323.26

NOTE 5 – INTERFUND TRANSFERS AND BALANCES

Transfers between funds are used to (1) move investment income earned in the Capital Projects Fund that is required to be expended in the Debt Service Fund or General Fund; (2) repay expenses paid by another fund; (3) make a Board contribution to the Unemployment Compensation Trust Fund; and (4) transfer federal and state food subsidies received in the General Fund to the Food Service Fund.

The following interfund balances remained on the fund financial statements at June 30, 2015:

Fund	 Interfund Receivable	-	Interfund Payable
General Fund Special Revenue Fund	\$ 991,207.09 -	\$	- 83,379.91
Capital Projects Fund	-		846,194.51
Debt Service Fund	36,735.61		-
Proprietary Fund	 -	_	98,368.28
Total	\$ 1,027,942.70	\$	1,027,942.70

NOTE 6 – INVENTORY

Inventory in the Food Service Enterprise Fund at June 30, 2015, consisted of the following:

\$ 11,035.46
7,495.99
\$ 18,531.45

NOTE 7 – DEFERRED LOSS ON REFUNDING ISSUES

In governmental funds, debt issuance costs are recognized in the current period. For the District-wide financial statements, governmental activity debt issuance costs are amortized straight-line over the life of the specific bonds (14 years) for the 2007 Refunding Bonds and (14 years) for the 2006 Refunding Bonds. Amortization expense for the year ended June 30, 2015 was \$21,149.11. The balance of deferred losses at June 30, 2015 for all issues is \$235,080.84.

NOTE 8 – CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2015, was as follows:

		Beginning Balance		Additions	_	Deletions	_	Ending Balance
Governmental activities:								
Capital assets, not being depreciated:								
Land	\$	500,000.00	\$	-	\$	-	\$	500,000.00
Construction in Progress		6,583,572.90		3,247,438.55			_	9,831,011.45
Total capital assets not being depreciated		7,083,572.90	• -	3,247,438.55	_	-	_	10,331,011.45
Capital assets being depreciated:

Central Services		37,520.93
	\$_	1,858,204.00

NOTE 9 – LONG-TERM OBLIGATIONS

-	Balance July 1, 2014	Issues or Additions	Payments or Expenditures	Balance June 30, 2015	Amounts Due Within One Year
Compensated Absen \$	3,764,405.59	-	60,098.48	3,704,307.11	-
Capital Leases	2,230,647.56	1,270,980.00	564,098.41	2,937,529.15	387,791.84
Net Pension Liability	14,788,789.00	-	-	14,788,789.00	-
Bonds Payable	13,484,000.00		2,340,000.00	11,144,000.00	2,475,000.00
\$	34,267,842.15	1,270,980.00	2,964,196.89	32,574,625.26	2,862,791.84

Changes in long-term obligations for the year ended June 30, 2015 are as follows:

Compensated absences and capital leases will be liquidated in the General Fund. Bonds Payable will be liquidated in the Debt Service Fund.

Bonds Payable

Bonds are authorized, in accordance with State law, by the voters of the municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the District are general obligation bonds.

Description of Bonds Payable

At June 30, 2014, bonds payable consisted of the following issues:

\$6,580,000 Refunding School Bonds dated July 28, 2005, due in annual installments through September 1, 2018, bearing interest at rates of 3.50% through 5.00% per annum. The balance remaining as of June 30, 2015 is \$2,675,000.00.

\$6,110,000 Refunding School Bonds dated December 13, 2006, due in annual installments through March 15, 2020, bearing interest at rates of 3.50% through 5.00% per annum. The balance remaining as of June 30, 2014 is \$6,010,000.00.

\$3,654,000 School Bonds dated September 1, 2010, due in annual installments through March 1, 2021, bearing interest at rates of 2.00% through 2.625% per annum. The balance remaining as of June 30, 2014 is \$2,459,000.00

{This space intentionally left blank}

Refunding Bonds Issued

On July 28, 2005, the Board of Education issued Refunding Bonds in the amount of \$6,580,000.00 to refund the callable Series 1998 Bonds. The Debt retired in the amount of \$6,355,000.00 was replaced with the Refunding Issue. The required cash flow for the 1998 Bonds for Principal and Interest prior to the refunding was \$9,092,870.00 and the cash flow requirements after the refunding is \$8,791,424.48 resulting in net savings in the amount of \$301,445.52.

On January 26, 2012, the Board of Education issued Refunding Bonds in the amount of \$4,095,000.00 to refund the callable Series 2003 Bonds. The Debt retired in the amount of \$4,130,000.00 was replaced with the Refunding Issue. The required cash flow for the 2003 Bonds for Principal and Interest prior to the refunding was \$4,476,140.00 and the cash flow requirements after the refunding is \$4,293,782.78 resulting in net savings in the amount of \$182,357.22.

Fiscal Year Ending June 30,	Principal	Interest	Total
2016	2,475,000.00	421,936.25	2,896,936.25
2017	2,500,000.00	312,742.50	2,812,742.50
2018	2,455,000.00	203,705.00	2,658,705.00
2019	2,220,000.00	113,430.00	2,333,430.00
2020	1,030,000.00	46,392.50	1,076,392.50
2021	464,000.00	12,180.00	476,180.00
S	5 11,144,000.00	1,110,386.25	12,254,386.25

Debt service requirements on serial bonds payable at June 30, 2015 are as follows:

Capital Leases

The District is leasing Copiers totaling \$499,916 under capital leases, solar equipment totaling \$1,903,087.50, energy conservation equipment totaling \$340,000.00, and two separate leases for three 54-Passenger Buses and six 54-Passenger Buses totaling \$311,820.00 and \$619,160.00 respectively. The following is a schedule of the future minimum lease payments under these capital leases and the net minimum lease payments at June 30, 2015:

Fiscal Year Ending June 30,	Payments
	T ayments
2016	458,781.30
2017	461,061.42
2018	361,317.38
2019	292,062.01
2020	168,616.17
2021-2025	900,383.63
2026-2029	794,033.17
Total minimum lease payments	3,436,255.08
Less amount representing interest	498,725.93
Present value of lease payments	\$ 2,937,529.15

NOTE 10 – PENSION PLANS

<u>Description of Plans</u> - All required employees of the District are covered by either the Public Employees' Retirement System, the Teachers' Pension and Annuity Fund or the Defined Contribution Retirement Program which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of the Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625 or the reports can be accessed on the internet at http://www.state.nj.us/treasury/pensions/annrpts.achive.htm.

Teachers' Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Defined Contribution Retirement Program (DCRP)

The Defined Contribution Retirement Program (DCRP) was established as of July 1, 2007 under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et seq.). The DCRP is a cost-sharing multiple-employer defined contribution pension fund. The DCRP provides eligible members, and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et. seq.

The contribution requirements of plan members are determined by state statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. The State Treasurer has the right under current law to make temporary reductions in member rates based on the existence of surplus plan assets in the retirement system; however statute also requires the return to the normal rate when such surplus pension assets no longer exist. In addition to the employee contributions, the School District's contribution amounts for each pay period are required to be transmitted to Prudential Financial not later than the fifth business day after the date on which the employee is paid for that pay period. The School District had 34 employees enrolled in the Defined Contribution Retirement Program (DCRP) during fiscal year ended June 30, 2015.

Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Funding Policy

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 5.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The current TPAF rate is 5.74% and the PERS rate is 13.06% of covered payroll. The School District's contributions to TPAF for the years ending June 30, 2015, 2014 and 2013 are listed below, and paid by the State of New Jersey on behalf of the board, equal to the required contributions for each year. The School District's contributions to the required contributions to PERS for the years ending June 30, 2015, 2014 and 2013 are also listed below, equal to the required contributions for each year.

 Three Year Trend Information for PERS								
		Annual	Percentage		Net			
Year	Pension	of APC		Pension				
 Funding		Cost (APC)	Contributed		Obligation			
6/30/2015	\$	651,169.00	100%	\$	-			
6/30/2014		582,478.00	100%	\$	-			
6/30/2013		607,320.00	100%		-			

{This space intentionally left blank}

During the fiscal year ended June 30, 2015, the State of New Jersey contributed \$1,270,947.00 to the TPAF for post-retirement benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66, the State of New Jersey reimbursed the District \$1,033,586.85 during the year ended June 30, 2015 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the financial statements, and the combining and individual fund statements and schedules as a revenue and expenditure in accordance with GASB Statement No. 24.

 Three Year Trend Information for TPAF (Paid on behalf of the District)								
		Annual	Percentage	Net				
Year	Pension		of APC	Pension				
Funding		Cost (APC)	Contributed	Obligation				
6/30/2015	\$	800,595.00	100%	-				
6/30/2014		600,295.00	100%	-				
6/30/2013		900,925.00	100%	-				

Significant Legislation

Chapter 78, P.L. 2011, effective June 28, 2011 made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Teacher's Pension and Annuity Fund (TPAF) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

- New members of the PERS and TPAF hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of 1/4 of 1% for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the systems is increased from age 63 to 65 for Tier 5 members.
- The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011 (Tier 3 members), will be 60% instead of 65% of the member's final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years.
- Increases in active member contribution rates. PERS active member rates increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years. For fiscal year 2013, the member contribution rates increased in October 2012. The phase-in of the additional incremental member contribution rates for PERS members will take place in July of each subsequent fiscal year.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.
- New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary.
- In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Chapter 1, P.L. 2010, effective May 21, 2010, made a number of changes to the State-administered retirement systems concerning eligibility, the retirement allowance formula, the definition of compensation, the positions eligible for service credit, the non-forfeitable right to a pension, the prosecutor's part of the PERS, and employer contributions to the retirement systems.

Also, Chapter 1, P.L. 2010 changed the membership eligibility criteria for new members of PERS from the amount of annual compensation to the number of hours worked weekly. Also, it returned the benefit multiplier for new members of PERS to 1/60th from 1/55th, and it provided that new members of PERS have the retirement allowance calculated using the average annual compensation for the last five years of service instead of the last three years of service. New members of PERS will no longer receive pension service credit from more than one employer. Pension service credit will be earned for the highest paid position only. For new members of the PFRS, the law capped the maximum compensation that can be used to calculate a pension from these plans at the annual wage contribution base for social security, and requires the pension to be calculated using a three year average annual compensation instead of the last year's salary. This law also closed the Prosecutors Part of the PERS to new members and repealed the law for new members that provided a non-forfeitable right to receive a pension based on the laws of the retirement system in place at the time 5 years of pension service credit is attained. The law also requires the State to make its full pension contribution, defined a 1/7th of the required amount, beginning in fiscal years 2012.

Chapter 3, P.L. 2010, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of the PERS and TPAF with disability insurance coverage similar to that provided by the State to individuals enrolled in the State's Defined Contribution Retirement Program.

Chapter 92, P.L. 2007 implemented certain recommendations contained in the December 1, 2006 report of the Joint Legislative Committee on Public Employee Benefits Reform; established a DCRP for elected and certain appointed officials, effective July 1, 2007; the new pension loan interest rate became 4.69% per year, and an \$8.00 processing fee per loan was charged, effective January 1, 2008. The legislation also removed language from existing law that permits the State Treasurer to reduce employer pension contributions needed to fund the Funds and Systems when excess assets are available.

{This space intentionally left blank}

NOTE 11 – Public Employees Retirement System

At June 30, 2015, the District reported a liability of \$14,788,789.00 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2014, the District's proportion was 0.0789884028%, which was an increase of 2.18% from its proportion measured as of June 30, 2013.

For the year ended June 30, 2015, the District recognized pension expense of \$741,262.00. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expended and actual experience				
Changes of assumptions	\$	465,039.00		
Net difference between projected and actual earnings				
on pension plan investments			881,331.00	
Changes in proportion and differences between District				
contributions and proportionate share of contributions		271,760.00		
District contributions subsequent to the measurement date		651,169.00		
Total	\$	1,387,968.00	881,331.00	

\$651,169.00 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (June 30, 2014) will be recognized as a reduction of the net pension liability in the year ended June 30, 2015. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30,	
2016	\$ (145,062.58)
2017	(145,062.58)
2018	(145,062.58)
2019	(145,062.58)
2020	113,859.95
Thereafter	 50,098.38
Total	\$ (416,292.00)

Actuarial Assumptions

The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation of July 1, 2013, which was rolled forward to June 30, 2014. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013 This actuarial valuation used the following assumptions, applied to all period in the measurement:

Inflation rate	3.01%
Salary increases:	
2012-2021	2.15% - 4.40% (based on age)
Thereafter	3.15% - 5.40% (based on age)
Investment rate of return:	7.90%

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 based on Projections Scale AA.

The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011.

In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2014 are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Cash	6.00%	0.80%
Core Bonds	1.00%	2.49%
Intermediate-Term Bonds	11.20%	2.26%
Mortgages	2.50%	2.17%
High Yield Bonds	5.50%	4.82%
Inflation-Indexed Bonds	2.50%	3.51%
Broad US Equities	25.90%	8.22%
Developed Foreign Equities	12.70%	8.12%
Emerging Market Equities	6.50%	9.91%
Private Equity	8.25%	13.02%
Hedge Funds/Absolute Return	12.25%	4.92%
Real Estate (Property)	3.20%	5.80%
Commodities	2.50%	5.35%

Discount Rate

The discount rate used to measure the total pension liability was 5.39% and 5.55% as of June 30, 2014 and 2013, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 4.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate.

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 5.39%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (4.39%) or 1-percentage point higher (6.39%) than the current rate:

	1%	Current Discount	1%
	Decrease	Rate	Increase
	(4.39%)	(5.39%)	(6.39%)
District's proportionate share of			
the net pension liability	\$ 18,604,800.56	14,788,789.00	11,584,311.08

Pension plan fiduciary net position.

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

NOTE 12 – Teachers Pensions and Annuity Fund (TPAF)

At June 30, 2015, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proprotionate share of the net pension liability	\$ -
State's proprotionate share of the net position liability associated with the District	 75,841,044.00
Total	\$ 75,841,044.00

The net pension liability was measured as of June 30, 2014 and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2014, the District's proportion was 0.00%, which was a decrease of 0.00% from its proportion measured as of June 30, 2013.

For the year ended June 30, 2015, the District recognized pension expense of \$4,080,960.00 and revenue of \$4,080,960.00 for support provided by the State. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to TPAF from the following sources:

		ferred Outflows of Resources	Deferred Inflows of Resources
		DIRESOUICES	OI RESOURCES
Differences between expended and actual experience			30,962.00
Changes of assumptions		3,250,823.00	
Net difference betweenn projected and actual earnings			
on pension plan investments			2,453,999.00
Changes in proportion and differences between District			
contributions and proportionate share of contributions			(3,838,992.00)
District contributions subsequent to the measurement date		800,595.00	
Total	¢	4 051 419 00	(1.254.021.00)
Total	\$	4,051,418.00	(1,354,031.00)

\$800,595.00 reported as deferred outflows of resources related to pensions resulting from district contributions subsequent to the measurement date (June 30, 2014) will be recognized as a reduction of the net pension liability in the year ended June 30, 2015. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30,	
2016	\$ (1,107,436.92)
2017	(1,107,436.92)
2018	(1,107,436.92)
2019	(1,107,436.92)
2020	2,581,314.77
Thereafter	 6,453,286.91
Total	\$ 4,604,854.00

Actuarial assumptions. The total pension liability in the June 30, 2014 actuarial valuation was determined using the following assumptions, applied to all period included in the measurement:

	2.00 /0
Salary increases	
2012-2021	Varies based on experience
Thereafter	Varies based on experience

2 50%

Investment rate of return 7.90%

Inflation Rate

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate with adjustments for mortality improvements based on Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

{This space intentionally left blank}

In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2014 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return.
Cash	6.00%	0.50%
Core fixed Income	0.00%	2.19%
Core bonds	1.00%	1.38%
	0.00%	
Short-term bonds		1.00%
Intermediate-term bonds	11.20%	2.60%
Long-term bonds	0.00%	3.23%
Mortgages	2.50%	2.84%
High yield bonds	5.50%	4.15%
Non-US fixed income	0.00%	1.41%
Inflation-indexed bonds	2.50%	1.30%
Broad US equities	25.90%	5.88%
Large cap US equities	0.00%	5.62%
Mid cap US equities	0.00%	6.39%
Small cap US equities	0.00%	7.39%
Developed foreign equities	12.70%	6.05%
Emerging market equities	6.50%	8.90%
Private equity	8.25%	9.15%
Hedge funds/absolute return	12.25%	3.85%
Real estate (property)	3.20%	4.43%
Real estate (REITS)	0.00%	5.58%
Commodities	2.50%	3.60%
Long credit bonds	0.00%	3.74%

Discount rate. The discount rate used to measure the total pension liability was 4.68% and 4.95% as of June 30, 2014 and 2013, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 4.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments through 2027.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate.

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 4.68% as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (3.68%) or 1-percentage point higher (5.68%) than the current rate:

	1%	Current Discount	1%
	Decrease	Rate	Increase
	(3.68%)	(4.68%)	(5.68%)
District's proportionate share of			
the net pension liability	\$ -	-	-

Pension plan fiduciary net position.

Detailed information about the pension plan's fiduciary net position is available in the separately issued TPAF financial report.

NOTE 13 – POST-RETIREMENT BENEFITS

The School District contributes to the New Jersey State Health Benefits Program ("the SHBP"), a cost sharing multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP provides medical, prescription drug, mental health/substance abuse and Medicare Part B reimbursement to retirees and their covered dependents. The State Health Benefits Program is found in the New Jersey Statutes Annotated, Title 52, Article 17.25 et seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. The Division of Pension and Benefits issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

P.L. 1987, Chapter 384 and P.L. 1990 Chapter 6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007 c. 103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for funding and payment of post-retirement medical benefits for retired State employees and educational employees. As of June 30, 2014, there were 103,432 retirees receiving post-retirement medical benefits, and the State contributed \$1.04 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$165.8 million toward Chapter 126 benefits for 18,122 eligible retired members in Fiscal Year 2014. The State also makes on-behalf payment for Teachers Pension and Annuity program retirees for health benefits. The on-behalf amount paid by the State of New Jersey in fiscal year 2015 was \$1,270,947.00.

NOTE 14 – COMPENSATED ABSENCES

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation, personal, and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years as long as it does not violate Title 18A. Upon retirement employees shall be paid by the District for unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for vested compensated absences for the governmental fund types is recorded in current and long-term liabilities. The current portion of the compensated absences balance of the governmental funds is not considered material to the applicable funds total liabilities, and therefore is not shown separately from the long-term liability of compensated absences.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2015, no liability existed for compensated absences in the Food Service Enterprise Fund.

NOTE 15 – DEFERRED COMPENSATION

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by outside entities, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators for the District are as follows :

Equitable Lincoln Valic MetLife

NOTE 16 – CAPITAL RESERVE ACCOUNT

A capital reserve account was established by Stafford Township Board of Education by the inclusion of \$3,000.00 in September 2000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget. There is a total balance of \$2,407,100.00 at June 30, 2015.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP) and updated annually in the Quality Assurance Annual Report (QAAR). Upon submission of the LRFP to the department, a district may deposit funds into the capital reserve account at any time upon board resolution through the transfer of undesignated, unreserved general fund balance or of excess undesignated, unreserved general fund balance that is anticipated in the budget certified for taxes. Pursuant to N.J.A.C. 6:23A-5.1(d) 7, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its LRFP.

During the fiscal year ended June 30, 2015, the District had no actual interest earnings and deposited and funded \$1,800,000.00 in the capital reserve.

NOTE 17 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

<u>Property and Liability Insurance</u> - The District maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

<u>New Jersey Unemployment Compensation Insurance</u> - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and prior year:

Fiscal Year	 Interest on Investments	Employee Contributions	Board Contribution	Amount Reimbursed	Ending Balance
2014-2015	\$ 215.71	39,662.87	104,000.00	(129,344.42)	169,790.01
2013-2014	246.84	40,690.85	-	(56,682.11)	155,255.85
2012-2013	166.14	40,966.81	75,000.00	(17,515.51)	171,000.27

NOTE 18 – CONTINGENT LIABILITIES

Federal and State Grants

The District participates in a number of federal and state grant programs. The grant programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance would result in the disallowance of program expenditures.

NOTE 19 – ECONOMIC DEPENDENCY

The District receives support from federal government and from the state governments through local school districts. A significant reduction in the level of support, if this were to occur, would have an effect on the District's programs and activities.

NOTE 20 – LITIGATION

The Board of Education is not involved in any pending litigation or threatened litigation, claims, or assessments at this time.

NOTE 21 – DEFICIT UNRESTRICTED NET POSITION

The School District had a deficit in unrestricted net position of \$17,511,544.06 as of June 30, 2015. This deficit was attributable to the allocation of the unpaid liability for compensated absences, the June State Aid Payment and the net Pension Liability.

NOTE 22 - FUND BALANCE APPROPRIATED

General Fund – Of the \$3,403,175.03 General Fund Fund balance at June 30, 2015, \$797,192.93 is reserved for encumbrances, \$208,863.00 is reserved as excess surplus in accordance with N.J.S.A. 18A:7F-7 (\$208,863.00) of the total reserve for excess surplus has been appropriated and also included as anticipated revenue for the year ending June 30, 2016); \$2,407,100.00 has been reserved in the Capital Reserve Account and \$0 is classified as Unassigned.

NOTE 23 - CALCULATION OF EXCESS SURPLUS

In accordance with NJSA 18A:7F-7, as amended by P.L. 2004, C.73 (S1701), the designation for Reserved Fund Balance – Excess Surplus is a required calculation. New Jersey school districts are required to reserve General Fund Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2015 is \$208,863.00, of which \$208,863.00 has been appropriated and included as anticipated revenue for the year ended June 30, 2016.

NOTE 24 - DEFICIT FUND BALANCES

The District has a deficit fund balance of \$(22,440.00) in the Special Revenue Fund as of June 30, 2015 as reported in the fund statements (modified accrual basis). N.J.S.A.18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last state aid payment as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognize the last state aid payment in the subsequent fiscal year, the school district cannot recognize the last state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the last state aid payment, the Special Revenue Fund balance deficit does not alone indicate that the district is facing financial difficulties. The District has a deficit in Food Service Fund of \$(10,284.19).

NOTE 25 – RESTATEMENT OF PRIOR YEAR BALANCES

Net position has been restated as required by the implementation of GASB 68, as discussed in notes 11 and 12 above.

Beginning net position as previously reported at June 30, 2014	\$ 19,287,802.54
Prior period adjustment - Implementation GASB 68 Net pension liability (measurement date) Deferred outflows - District's contributions made during	(14,774,537.00)
fiscal year 2014	582,478.00
Total prior period adjustment	(14,192,059.00)
Net position as restated, July 1, 2014	\$ 5,095,743.54

NOTE 26 – SUBSEQUENT EVENTS

Management has reviewed and evaluated all events and transactions that occurred between June 30, 2015 through November 27, 2015 the date that the financial statements were issued for possible disclosure and recognition in the financial statements, and no items have come to attention of the District that would require disclosure.

PROPRIETARY FUND DETAIL STATEMENTS

Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the district's board is that the costs of providing goods or services be financed through user charges.

Food Service Fund - This fund provides for the operation of food services in all schools within the school district.

THIS SECTION HAS ALREADY BEEN INCLUDED IN STATEMENTS B-4, B-5 AND B-6.

FIDUCIARY FUNDS DETAIL STATEMENTS

Fiduciary Funds are used to account for funds received by the school district for a specific purpose.

Unemployment Compensation Fund - This Trust Fund is an expendable trust fund and limits expenses set aside for this purpose in current and prior budgets and contributions from employee withholding in prior years.

Agency funds are used to account for assets held by the school district as an agent for individuals, private organizations, other governments and/or other funds.

Student Activity Fund - This agency fund is used to account for student funds held at the schools.

Payroll Fund - This agency fund is used to account for the payroll transactions of the school district.

Independent Auditor's Report

The Honorable President and Members of the Board of Education Stafford Township School District County of Ocean, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Stafford Township School District, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Stafford Township School District's basic financial statements, and have issued our report thereon dated November 27, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Stafford Township School District's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Stafford Township School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Stafford Township School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

Honorable President and Members of the Board of Education Stafford Township School District County of Ocean, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Stafford Township School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* and the New Jersey *State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the Stafford Township School District's major federal and state programs for the year ended June 30, 2015. The Stafford Township School District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Stafford Township School District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, and New Jersey 04-04 *State Aid/Grant Compliance Supplement*. Those standards and Circulars require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Stafford Township School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Stafford Township School District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Stafford Township School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs as identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned costs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the Stafford Township School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Stafford Township School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with OMB Circular A-133 and NJ OMB 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Stafford Township School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133 and NJ OMB 04-04. Accordingly, this report is not suitable for any other purpose.

STAFFORD TOWNSHIP SCHOOL DISTRICT NOTES TO THE SCHEDULES OF EXPENDITURES OF AWARDS AND FINANCIAL ASSISTANCE JUNE 30, 2015

NOTE 1 GENERAL

The accompanying schedules of financial assistance present the activity of all federal and state financial assistance programs of the Board of Education, Township of Stafford School District. The Board of Education is defined in Note 1 (A) to the Board's basic financial statements. All federal assistance received directly from federal agencies, as well as federal financial assistance passed through other government agencies is included on the schedule of federal financial assistance.

NOTE 2 BASIS OF ACCOUNTING

The accompanying schedules of financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the enterprise fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes 1 (C) and 1 (D) to the Board's basic financial statements.

NOTE 3 RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance – related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of revenue recognition of the last two state aid payments in the current budget year, which is mandated pursuant to P.L. 2003,c.97.(A3521). For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is (\$4,939.00), for the general fund and (\$16,151.60) for the special revenue fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the GAAP basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as follows:

	Federal	 State	 TPAF Pension	-	Total
General Fund	\$ 115,950.95	\$ 12,852,583.85	\$ (2,071,542.00)	\$	10,896,992.80
Special Revenue Fund	857,425.84	396,992.05			1,254,417.89
Capital Projects Fund		766,680.00			766,680.00
Debt Service Fund		375,864.00			375,864.00
Food Service Fund	377,997.06	 7,295.09		-	385,292.15
	\$ 1,351,373.85	\$ 14,399,414.99	\$ (2,071,542.00)	\$	13,679,246.84

The On-Behalf Pension Contributions made for the district by the State of New Jersey are recognized as revenue in the basic financial statements, but are not considered in the major program determination.

STAFFORD TOWNSHIP SCHOOL DISTRICT NOTES TO THE SCHEDULES OF EXPENDITURES OF AWARDS AND FINANCIAL ASSISTANCE JUNE 30, 2015 (CONTINUED)

NOTE 4 RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 5 OTHER

Revenues and expenditures reported under the U.S.D.A. Commodities Program represent current year value received and current year distributions respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the district for the year ended June 30, 2015. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2015.
